Selling 167 Bulls and 60 Heifers

Welcome to Peak Dot Ranch... Established in 1950...

The Moneo Family

Carson, Lana, Koen and Riley

Clay, Shannon, Matt, Madison, Merit, and Mavryk

Scott, Mia and Luke Turner

Welcome to the 2012 Spring Sale.

It is our pleasure to welcome and thank all of our customers past, present and future for your support and confidence in our program. It is gratifying for our family to have customers return year after year to purchase bulls or heifers from us. We strive to make our sale an event you won't want to miss.

Here at Peak Dot we are staying the course with the type of cattle we believe in- moderate framed, easy fleshing, high volume with emphasis on maternal traits. Calving-ease, correct leg structure, clean sheaths, style and character are a must in our herd bulls. Uniformity also plays a key role here. We have developed one of the largest embryo programs in Canada which is built on identifying outstanding cow families within our herd. We have a very large AI program which encompasses our entire cow herd. You can buy bulls, females or embryos with confidence knowing that your purchase is backed by one of the strongest genetic female bases in Canada.

We are entering a phase in agriculture like we have never seen, not only is it a time to be optimistic but it is also a time of opportunity. Angus cattle are leading the way not only in the registered business but on the commercial base as well. Our congratulations go to Mother Nature for showing us non-functional cattle. She has shown us the importance of fertility, durability, performance and the ability to adapt to our environment. Angus cattle have stood the test of time.

Producing high performing thick made bulls with calving ease has always been our goal and you will find them in volume at Peak Dot. More live calves with less labour always brings bigger profits. The females on offer have been derived from a cowherd that has been in place and sorted and culled for decades.

We hope to see you all at the sale and if any one cannot make it or has any questions please feel free to contact Carson or Clay. We offer a sight unseen program that has become very popular. The growing success of this program is driven by the disciplined manner in which it is handled.

You can count on the cattle you purchase from this third generation family owned ranching operation. After 60 years of doing business with ranchers and commercial cattlemen and women, we have earned a reputation we are very proud of. We look forward to being your source for good quality Angus and appreciate the confidence you have shown in our program. Come early and view the cattle and be our guests and enjoy a beef barbecue with refreshments.

Sincerely,
Clay and Carson Moneo

SAV MADAME PRIDE 3249
The dam of Iron Mountain

SAV Iron Mountain 8066 without a doubt is the most consistent calving ease sire to have ever landed at Peak Dot Ranch. We purchased Iron Mountain for \$75,000 out of the 2009 SAV Sale. Later we welcomed Kiamichi Link Ranch aboard as interest and popularity in Iron Mountain grew. He went on to be the most widely used bull of his calf crop in the United States. Iron Mountain is a very correct made individual abounding with true thickness and exceptional phenotype. Iron Mountain stamps his calves (every one of them) with a defining stamp of eye catching style and thickness. Iron Mountain bulls come highly recommended for use on heifer projects or as total herd improvers. Iron Mountain sired the top-selling sire group of bulls in the 2011 spring Peak Dot Ranch sale, and he did it again last December at the 2011 Fall sale. Iron Mountain bulls made up the largest sire group at the 2012 SAV Sale with 94 sons averaging over \$16,000 and the first 11 sons through the ring averaging \$45,000. His first daughters have now gone into production at Peak Dot, they are good mothers with impeccable udder quality and abundant milk.

Predominant sons are calving ease bulls appreciated for their added thickness, volume, dimension, feed efficiency and they display unusual masculinity and maturity at an early age. And now we know his daughters are equally as impressive as they are beautiful, broody females with extra depth, capacity and excellent udders. This sale will feature his influence and progeny from his greatest daughters.

ANNIE K OF PEAK DOT 1064X - LOT 17

An outstanding show and brood cow prospect from the Annie K family that would fit in anywhere. She is attractive fronted with lots of shape, substance and style that give Iron Mountain females a look of their own. Her dam has produced bulls which have sold in past Peak Dot Ranch sales to Roxanne & Jeremy Knapp and Neil Bray.

JESSICA OF PEAK DOT 1028X - LOT 18

A very complete well balanced heifer, incredibly fancy. Ranks in the top 10% for weaning weight EPD and the top 7% for yearling weight EPD. We are currently calving our first Iron Mountain daughters bred to SAV Eliminator 9105 and SAV Bullet 0473. They calve easy, make great mothers, and have exceptional udders.

THE VALUE OF A HEIFER WITH ADDED AGE...
For the last few years we have been taking all our fall replacement heifers and breeding them in May at 18 months of age. We have found not only they maintain themselves better after calving than a conventional heifer, they consistently wean off more pounds. Conception rates whether in an AI timed program or natural service were also better not only the first year but the next year after they weaned off their first calf. Take a look through the Yearling Bull Section of this book and look at the tremendous job the heifers did the previous year on their first calves weaning weights.

BARDOLIA OF PEAK DOT 1151X - LOT 29

A big fleshy, healthy looking Mohnen Dynamite 1356 heifer with a 205 day weight of 827lbs and a weaning index of 112. We have four sisters to her dam active at Peak Dot and her grandam is an embryo donor.

BARDOLIA OF PEAK DOT 585K

The grandam of lot 29

BARDOLIA OF PEAK DOT 963H

The great grandam of lot 29

ANNIE K OF PEAK DOT 1063X - LOT 30

Lot 30 is an elegant daughter of Mohnen Dynamite 1356 from a super uddered Capacity cow. A Mohnen Dynamite 1356 daughter was the high selling female in the April 2011 Peak Dot Ranch Sale, and I would say this heifer is every bit as good.

If it is your game plan to start in the purebred business and you have already bought some good heifers in earlier Peak Dot sales, get in on this group and build your herd. We've learned long ago that to build a cow herd you need a solid base of the same genetics, so here is an opportunity to tap into decades of selection. These yearling heifers represent the freshest genetics at Peak Dot Ranch with many brood cow candidates and several show and donor prospects included. All females are raised on grass without creep and mothers milk alone, functionally developed to maximize longevity, milk production, and long range earning potential.

Peak Dot Ranch Heifers...

HEROINE OF PEAK DOT 1049X - LOT 43

A moderate framed heifer that carries the look of a young brood cow. I would expect this heifer to mature into a model Angus cow. Her dam and grandam both have.

HEROINE OF PEAK DOT 509K
The grandam of lot 43

MIA OF PEAK DOT 1130X - LOT 44

Lot 44. Lots of good cows in this heifer's pedigree. Her dam and grandam come from the Mia cow family which has produced some of the very top selling females in the past and they are also known for their longevity. Peak Dot Easy Keeper's dam is one of the main anchors in the Peak Dot program along with several of her daughters.

Heifers enter the ring in pairs with the buyer having the option of taking the second heifer at the matching price.

LADY OF PEAK DOT 1055X - LOT 45

Lot 45 and Lot 46 have dams sired by SAR Fame 2098 a bull that was purchased a few years back from Joe Schaff. SAR Fame 2098 left us some thick quartered, fertile, fleshy, easy keeping females that get back in calf year after year.

PEAK DOT PIONEER 1066X - LOT 61

Lot 61. Peak Dot Pioneer 1066X, is the front cover bull and will be the lead off bull to sell headling the most powerful set of bull we have offered to date. Good feet and legs, powerful stifle and loaded with thickness from front to back. He earned a weaning weight of 828 lbs and a weaning ratio of 110. His dam comes from the Barbara cow family and we have many sisters to her in our herd. The grandam and great grandam both serve in our embryo program and are the dams of many featured lots in past sales.

Lot 62 is one of the most eye appealing bulls in the sale with an abundance of top and muscle. He is also a calving ease bull. His dam is an outstanding female we purchased from Johnson livestock to add to our arsenal of high quality productive Predominant daughters that we have built up and are very proud off.

Lot 63 is an Iron Mountain son with great dimension and extra volume. Very good hip, wide pin bones, and moves like a cat. If you need a bull with a little added age to cover more cows and get them all bred lot 63 is equipped for the task.

Lot 64. As soon as the first ads were sent out featuring photos of the 2012 sale bulls we received many phone calls inquiring about lot 64. He is every bit as impressive as his picture, stunning from all angles with a soft look, loaded with shape and style. Very good cows in this bull's pedigree.

Peak Dot Ranch Fall Bulls...

PEAK DOT PREDOMINANT 1057X - LOT 65

Lot 65. If your goal is to find a bull that will leave you a lot of good replacement heifers, I would recommend you consider this guy. Predominant has already proven himself to be a producer of quality females and adding a little Saughahatchee into the mix can only add value to the formula. His dam has produced progeny many top selling progeny, which have sold in past Peak Dot Ranch Sales to Six Mile Ranch, Cactus Ranch, Hillcrest Enterprises, Paul Tops and Allanville Angus.

PEAK DOT POWER UP 484T

This maternal brother to lot 65 was the featured lot 1 bull from the 2009 spring sale. Purchased by Cactus Ranch.

PEAK DOT IRON MOUNTAIN 1045X - LOT 72

Lot 72 is an Iron Mountain son that will add some meat and muscle to your feeder calves. He comes from one of our more moderate framed Dynamite daughters. His grandam is a past embryo donor that really produced a lot of good bulls which sold to Victor Elias, Roy Kirby, 72 Bar Ranch, Ken Wood, Jeff Jamieson, Kool Springs Ranch and Craig Sunderman. We have many daughters active at Peak Dot.

PEAK DOT IRON MOUNTAIN 655Y - LOT 141

One of the most successful flushes in Peak Dot history. These 6 brothers are as even as they come. Identifiable only by their ear tag numbers. Phenotypically they are outstanding, stylish, thick and correct in a very attractive pattern. Their moderate wide based dam comes equipped with a well attached udder and is one of four full sisters working at Peak Dot. Another full sister to their dam was a past high selling female to 7L farms Wiggins MS. Their elite grandam now has 40 progeny with a weaning ratio of 114. She was the top selling female in the 2008 sale to Bob Lane of the UK.

The past few years we have been identifying our top producing cow families and selecting the very best females to enter the donor program. We put in over 300 embryos a year. Almost all of the embryo transplant females are being put back into the herd. We are now starting to see large groups of 15 to 20 full sisters enter production. We are not only seeing an increase in performance but also in consistency.

PEAK DOT DYNAMITE 208Y - LOT 170

Mohnen Dynamite 1356 sons have topped many past Peak Dot Sales and have been the top selling sire group at Mohnen Angus in South Dakota for the past three years. Dynamite has become known for leaving big long powerful bulls that will add pounds. Lot 170 is a perfect example of that. His dam is a donor cow that goes back to the Lady Cow family. The largest and oldest running cow family at Peak Dot. We currently have 18 full sisters to the dam of lot 170 and another 15 maternal sisters. This cow family is most noted for their excellent foot structure, well attached udders and perfect teat placement.

Peak Dot Ranch Yearling Bulls...

PEAK DOT IRON MOUNTAIN 92Y - LOT 215

A calving ease bull recommended for use on heifers. Sired by SAV Iron Mountain 8066 who sold over \$1,000,000 dollars of semen making him one of the most heavily used bulls this past year.

PEAK DOT DOMINATOR 486Y - LOT 216

The Dominator bulls in this sale warrant the attention of some good cattlemen. They are good square hipped bulls with substance, bone, and power. We worked out a deal with Packet Brothers, the owners of Dominator, and we will have a larger offering of his progeny in next year's sale.

PEAK DOT DOMINATOR 42U

Peak Dot Ranch Yearling Bulls...

PEAK DOT GRASSLANADS 419Y - LOT 217

Lot 217. Here is one of the younger bulls in the sale with a refreshing pedigree, that should not be over looked due to his age. He comes highly recommended. His dam is a model Angus cow with a nice udder that ranks in the top 5% of the breed for milk EPD. She has produced a \$10,000 daughter which sold to Werner Angus and EBY Ranch. She also produced two of the top selling Iron Mountain bulls in past sales purchased by Lorne Dunitis, Hillcrest Enterprises and Murray Nielson.

1200 HILLCREST ENTERPRISES HEIFERS

Hillcrest Enterprises along with their own home grown heifers and heifers they have purchased last fall are offering all 1100 open replacements for sale. The Hillcrest commercial herd has been built with acquiring the very top bulls from Peak Dot along with demands placed on fertility, fleshing-ease and udder quality with the ability to wean heavy calves. For more information call Owen Cairns at 306-267-7775.

50 GUNTER RANCH HEIFERS

Once again the Gunter Ranch of Val Marie, SK is offering a fancy set of black commercial heifers. They have kept their herd in tune with Peak Dots by purchasing good quality bulls from the Peak Dot Ranch Bull Sales. This has resulted in a set of fancy commercial heifers that are moderately framed, easy fleshing, and fertile. The buyers of the heifers have been extremely happy with their purchases in the past. These heifers usually sell quickly so be sure to get a hold of Jack or Steven if you are serious.

For more information call Steven Gunter 306-298-2256 or Jack Gunter 306-298-4434.

25 HEIFERS FROM DAVE LANE

The Lane heifers have multiple generations of Peak Dot sires and cows behind them. In years past Dave Lane brought bred heifers to the Fall Peak Dot Ranch Sales and earned a reputation for having cattle with fleshing ease, fertility and productivity. I would expect them to develop into outstanding cows. For more information call Dave Lane at 204-842-3692

Peak Dot Advantage Program...

Peak Dot will assist you in getting top dollar for your calves. For every calf that enters the program Peak Dot will offer a \$5.00/head credit towards a bull in one of their upcoming bull sales. Phenotypic target is calves that are 100% Black Angus or black hided crossbred Angus. i.e. 75% Angus; 25% Simmental. Calves must be sired by 80% Peak Dot genetics. Accepted weight ranges will be 450 lbs. – 800 lbs. Heifers must not be implanted to qualify for the program. It is preferred that bulls be castrated at birth. If bulls are left intact, they must be castrated at least 60 days before sale and delivery. Dehorn calves minimum of 60 days prior to sale and delivery. Local calves in the 450lb. to 650lb. weight range will be sent to Hillcrest Enterprises Feedlot. A JGL representative will be available by phone at (306)692-4911 to discuss, market condition, trends and the current cash prices for your qualifying calves. Please identify yourselves and mention you are inquiring about the Peak Dot Advantage Program.

Producer selling options:

Option 1:

JGL will offer fair market value of the day on top cut Angus calves. At the discretion of JGL, calves with obvious blemishes such as frozen ears will be provided with a discounted calf price plus premiums. All calves will be evaluated at delivery. Price is FOB Moose Jaw or designated feedlot. JGL will provide a \$3.00 per 100 lb. Premium for calves that have been double vaccinated 2-3 weeks prior to weaning and are accompanied at delivery with an affidavit signed by your veterinarian. For this premium to be paid, there must be a minimum tri-axel load of 58,000 – 60,000 lbs. same sex calves with a 100 difference in weight to receive premium. Load can exist of multiple owned calves. Price will be offered on a slide which is variable on markets and futures. Please refer to the following example of what a slide looks like. i.e. The price to the producer are as follows: 500lb #1 steers @ \$1.30/lb. – 10 cent slide under 500 and 8 cent slide over 500. Here are 4 weights to understand how this applies:

477 actual weight, we pay; $500-477 \times .10$ (or $.001$) = 2.3 adjustment more, producer gets $\$1.323 \times 477 = \631.07 per head

532 actual weight, we pay; $500-532 = 32 \times .08$ (.0008) = 2.56 adjustment less, producer gets $\$1.2744 \times 532 = \677.98

461 actual weight = \$1.339 or 133.90/cwt

502 actual weight = \$1.2984 or 129.84/cwt

Fall Shrink is determined by the following scale:

0-24 miles 3.50%

25-35 miles 3.25%

36-45 miles 3.00%

46-60 miles 2.75%

61-75 miles 2.50%

Option 2:

Producers can take calves directly to JGL Moose Jaw and receive the CanFax average price from over a 3 week period. This option also allows you to enrol your cows for a small fee in the Feedlot Health Management program. You would be able to obtain individual calf data on gains, efficiency, and carcass data. This option also allows the producer to retain partial ownership or full ownership of their calves. JGL can assist you with your financing needs if you wish to retain ownership. Contact the JGL office for more information. (306) 692-4911

Option 3:

If you believe in the competition of an auction, producers can take calves directly to an auction market and sell as one iron calves. JGL will be very aggressive in trying to obtain these calves but there is no guarantee they will be purchased for the program with this option.
