66 RANCH WELCOMES YOU TO OUR 5TH ANNUAL SPRING BULL SALE

It is our pleasure to welcome you to our 5th Annual Spring Bull Sale! We are pleased and honoured once again to have Badlands Angus contribute their top end of Red Angus yearling and 2 year old bulls to the sale.

We would like to thank all our past customers from our most recent fall bull and female sale as well as last spring's bull sale. We are truly honoured to have you take the time to evaluate our cattle at the sale and all the past sales. Thank You!

For any of you that are evaluating our cattle for the first time or not all that familiar with our program we are raising functional cattle with the commercial cow man/cow woman in mind.

Our purebred herd is run exactly like our commercial cowherd. In range conditions. The cow must go to work for us. We calve our purebred cows mid-April to mid-June, on range conditions. Our first calving heifers are also run in the exact same manner and are bred to easy calving sires so they can calve just like a cow does, by herself, unassisted. We have found that our heifers calving in large fields with pasture where they can go be by themselves for a few days if they desire, sure makes a lot less stress on the new mothers and the staff at 66 Ranch.

We breed our cows also to calve with ease and choose sires that have explosive growth after the calf is born, right thru to the finished product hanging at the plant. We have a very strict culling program on all our females. If they have a flaw at all in disposition, feet, conformation or udder they are culled out of the herd. A lot of the culling of females at 66 Ranch is done at calving. That is when we are the closest to each and every female while their new baby is being weighed and tagged. At that time comments are made on each and every cow about her confirmation, disposition, feet and udder. As well, a photo is taken of every female at birth, every year. Photos are mainly focussed on her full udder seeing as the calf has maybe only had their first suck at that time. By the way, if you are interested in seeing photos of a dam of a bull you have purchased or are considering purchasing, please just ask one of us and we will be more than happy to show all the photos we have on any particular dam.

Our bulls on offer will sire moderate framed cattle with natural fleshing ability that will go out and work for you. We grow our yearling bulls on a back grounding ration consisting of 15% alfalfa, 10% oats and 10% malt sprout pellets and the balance of the ration being silage of choice for the year. Our 2 year olds run out on native pasture until mid to end of December. Then brought into a large pen close to our feed yard and fed a similar ration as the yearlings. 15% alfalfa, 5% green feed, 7% oats, 7% malt sprouts pellets and the balance silage. We carefully grow our yearling and 2 year old bulls into working ranch bulls conditioned, sound individuals that will give you years of service.

However, like we all know sometimes breeding season can throw a curve ball at you from time to time. For that reason we carry a deep spare pen of bulls as a service to our much appreciated customers. By all means, if anything goes wrong prior to or during your breeding season please, give us a call. We will do whatever we can to make sure your cows get bred. We believe the sale day is just the first day of service we will give you. "It is the service after the sale that counts"

Once again we really look forward to sale day to see you all once again! Or possibly at the ranch before the sale where the bulls can be viewed anytime.

If you are unable to attend our sale due to time, weather or distance you can follow our sale online at www.dvauction.com or live bidding via the phone by contacting one of us at 66 Ranch or one of the capable S.A.L.E staff on sale day. Remember to check out the videos of all the bulls in the sale at our website www.66ranchltd.com prior to the sale.

Buy with confidence, we absolutely stand behind our cattle! For all of you who are able to attend the sale please stay after the sale for an amazing Angus steak and a little country hospitality!

Thank you,
Kelsey, Malissa, Brett and Carter

BADLANDS ANGUS

Badlands Angus is once again excited and honoured to be a guest consigner of the 66 Ranch Bull Sale with our offering of Red Angus bulls.

For our valued customers, nothing has changed. We continue to stand behind our bulls 100%. We invite you to join us at the sale, where customers become lifelong friends.

BADLANDS ANGUS

5th Annual

BULL SALE

SATURDAY, APRIL 2, 2016 at 1 PM

Southern Alberta Livestock Exchange - Fort Macleod, Alberta

OFFERING: • 45 Black Two Year Old Angus Bulls & 4 Red Two Year Old Angus Bulls
• 112 Black Yearling Angus Bulls & 18 Red Yearling Angus Bulls

ACCOMMODATIONS:

Red Coat Inn, Fort Macleod - 403-553-4434

Days Inn, 100 3rd Ave. South, Lethbridge - 403-327-6000

VIEWING: Bulls can be viewed anytime before the sale at the ranch. Bulls will be available for viewing at Southern Alberta Livestock Exchange on Thursday, March 31.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day with Canadian Farm Insurance, Colton Kasur 1-780-387-8376.

DISCOUNT: \$100.00 discount per yearling bull if taken home sale day.
\$60.00 discount for all yearling bulls taken home sale day, to cover semen evaluation.

Yearling bulls can be sent back to our Ranch (bulls going back to feed yard must be insured or at owner's risk). Semen Evaluation on the yearling bulls will be completed and ready for pick up by May 15th, 2016. Bulls that are left beyond May 31, 2016 will be subject to a fee of \$3.00/hd/day.

TWO YEAR OLD BULLS TO GO RIGHT AFTER THE SALE!!!

We ask if any Two Year Old bulls that are hitching a ride back to our Ranch on our cattle wagon be picked up within 5 days after the sale PLEASE!! We understand very well how busy the first couple weeks of April can be. But 66 Ranch will not be held responsible for any injuries to the cattle after the said 5 day period. If for some reason these cattle cannot be picked up within 5 days we would much appreciate a call, and plan "B" can be made. Thanks for understanding.

BREEDER'S GUARANTEE: All 2 year old bulls will be semen tested and physically examined by our local vet and sold with a breeders guarantee.

EVERY BULL at the sale will be sold with a 100% satisfaction guarantee.

SIGHT UNSEEN: In the event you are unable to attend the sale or use the online option, bids can be given to sale staff or owners with satisfaction guaranteed.

AUCTIONEER: Frank Jenkins - 403-627-6700

SALE STAFF: Southern Alberta Livestock Exchange

Allen Lively, Pincher Creek - 403-627-7776

Justin Keeley, Pincher Creek - 403-627-6534

Darren Shaw, Fort Macleod - 403-601-5165

Colin McNiven, Cessford - 403-793-1699

CAN'T MAKE IT ON SALE DAY?

Our sale will be broadcast online @

DVAuction
www.dvauction.com

We are pleased that we will have the services of DV Auction. This will allow you to bid on the bulls and heifers via the internet. Of course, we would rather you attend the sale and our hospitality afterwards, but we well know today's world just keeps getting busier and busier! But, if for some reason you cannot attend, this gives you the opportunity to bid on the bulls and heifers at the live auction. Please remember to pre-register at www.dvauction.com 24 hours prior to the sale.

We also have available with this service a live video of every animal in the sale. To view these videos just go to our website at www.66ranchltd.com and click on 'view catalog'. Videos are also available at www.dvauction.com. We encourage you if possible to view the cattle at the ranch prior to the sale.

Please contact Kelsey @ 403-362-0672 or Malissa @ 403-501-9358 with any questions or issues with registering for the sale.

PLEASE NOTE:

- No bulls have been sold prior to the sale
- At buyer's request bulls can be vaccinated with FUSOGARD, the footrot vaccine.
- Bulls are sold in catalogue order
- Updated weights & scrotal measurements will be available Sale day
- 66 Ranch/Sewall Brothers reserve the right to draw 250 straws of semen at our expense and at your convenience on any bull selling in the sale. For in-herd use only.

RECOMMENDED HEIFER BULLS:

There are probably more than the 40 recommended "Heifer Bulls" at our sale. But we feel confident that the bulls with the **bold print BW** in the catalogue will make for trouble free calving off your 1st calf heifers.

PERFORMANCE DATA

AOD: Age of Dam

BW: Actual Birth Weight

205D: Weaning weight in lbs.
adjusted to 205 days

EPD EXPLANATION

BW: Birth weight, a prediction of a sire's ability to transmit birth weight to his progeny

WW: Weaning weight, predictor of a sire's ability to transmit weaning growth to his progeny

YW: Yearling weight, predictor of a sire's ability to transmit yearling growth to his progeny

MILK: A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters

The 2015 Angus Average EPDs are as follows and are the numbers to compare the bulls in the catalogue to:

Average Black Angus EPDs for all calves born in 2015

EPDs	BW	WW	YW	MILK	TM	CE	MCE
	+2.2	+45	+80	+19	+41	+2.3	+6.3

Average Red Angus EPDs for all calves born in 2015

RED EPDs	BW	WW	YW	MILK	TM	CE	MCE
	-0.1	+52	+78	+17	+43	+3.6	+3.6

PLEASE NOTE: Red Angus EPDs CANNOT be compared to Black Angus EPDs. The numbers are calculated in separate and unrelated genetic evaluations.

Thank You!!

NEWELL VETERINARY CLINIC

The yearling bulls offered for sale by 66 Ranch have passed a physical exam and have scrotal circumference measurements above the minimum requirement recommended by Society of Theriogenology and the Western Canadian Association of Bovine Practitioners.

I further recommend that all the yearling bulls purchased at this sale be given a Breeding Soundness Evaluation by a licensed veterinarian at a future point in time. It is preferable to conduct this exam no earlier than 13 months of age to avoid immaturity issues that often affect younger bulls.

Sincerely,
Tim J. Keogan DVM

An A.I. heifer bull we used from Cole Creek bloodlines. Extreme docility with a very moderate birth weight and has excellent performance. We ourselves are very pleased with the growth of these cattle after they were weaned. Competing very well with all the other performance sires. Once again, going back to Cedar Ridge these cattle are displaying that natural ease of flesh. The real "cow mans" kind of cattle!

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. His heifer calves are extremely feminine and by far the top end of the pen. Very moderate birth weights of 88 lbs. avg. on the bull calves and 77 lb.s avg. on the heifer calves. We find it much easier to have confidence in A.I.'ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from our program. Expect to see more 17Z calves in the future!

A Final Answer son that brings it all. Females are really looking the part. The bull calves sired by 107W have length, top and incredible docility. 107W is just a complete package.

Good help in all seasons

Super performance. Absolutely super females. 187 cows are the real deal. With 15+ cows in our herd, most of them compete each and every year to raise the calf with the largest weaning weight. This year we have some very rare KMK 187 bred flush brothers to offer. Be sure to check these two out in the catalog.

A walking bull we purchased from Stuart Cattle Station, spring of 2014. 82A is as deep as you will find but yet the calving ease that all ranchers are looking for. 82A may be one of the most docile bulls we have found. The female side of things is even more exciting. We went to Stuart Ranch before purchasing 82A and saw both the dam and grandam. The grandam was 12 at that time and after seeing both of them we were determined to own the bull!

An A.I. heifer bull we used from Cole Creek bloodlines. Extreme docility with a very moderate birth weight and has excellent performance. We ourselves are very pleased with the growth of these cattle after they were weaned. Competing very well with all the other performance sires. Once again, going back to Cedar Ridge these cattle are displaying that natural ease of flesh. The real "cow mans" kind of cattle!

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. His heifer calves are extremely feminine and by far the top end of the pen. Very moderate birth weights of 88 lbs. avg. on the bull calves and 77 lbs. avg. on the heifer calves. We find it much easier to have confidence in A.I.'ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from our program. Expect to see more 17Z calves in the future!

A walking bull we acquired originating from Cole Creek Angus near Billings, Montana. 181Y has brought a powerful set of calving ease bulls to town. Once again the female side of 181Y is extremely exciting. Could not find a bad foot or udder in their cow herd. Cole Creek Angus bloodlines are extremely attractive if you want your cows to be in your herd for a long time.

As proof in the progeny by Bobcat and likewise his EPD numbers from a -0.4 BW to an amazing +102 YW. He definitely is a true "Rancher Bull". A calving ease bull that works super on 1st calf heifers and has the performance to use his sons on your cows as well. With Bobcat females in our herd in full production now, keep all the heifer calves sired by Bobcat sons. Super uddered females, extremely feminine and very moderate. "Money Makin Mommas".

26L has been designated an "ELITE SIRE" by the Canadian Angus Association. 26L passed away summer 2012 at age 11. His feet were still perfect, never touched over the 11 years. A cornerstone of the "Sewall" herd, still having 35+ producing females in our herd. All the bull calves in our sale this year are full flush brothers from a very proven cow in our herd. Here's a chance to put the uniformity in your calf crop by owning multiple full brothers.

A "Rito" son we used by A.I. The unique thing about "Registry" is his low birth weight for a Rito bred calf. The female side, once again, is extremely attractive to us. The dam to Registry was 15 years of age at his birth. A highly proven female in the S A V herd. "He sires cattle that are extremely complete."

An A.I sire we are still really excited about. We had 1st calf heifers calving last spring off Thunder and are really impressed with the thick, deep females he has sired. Real Angus looking cattle. Udders are near perfect. The bull calves sired by Thunder definitely have that "extra rib." Super long, deep sided cattle. He sure puts the hip on his calves and yet maintains that calving ease we are all looking for. Appears to be that all around perfect bull!

We've seen Resource at Genex Stud in Billings. A very moderate bull, extra rib x2, and super heel under this bull. We saw them collecting "Resource" and the collection team at Genex said you do not have to worry about Libido; Resource is very easy to collect. We are really looking forward to more progeny off of Resource at the ranch, females are as long as freight trains!
