BADLANDS ANGUS
Chad Sewall 403.793.1726
Dan Sewall 403.363.0632

66 RANCH WELCOMES YOU TO OUR 6TH ANNUAL SPRING BULL SALE

It is our pleasure to welcome you to our 6th Annual Spring Bull Sale! We are pleased and honoured, once again to have Badlands Angus contribute their top end of Red Angus yearlings and 2 year old bulls to the sale. Malissa and I are somewhat saddened this will be our last year of selling bulls alongside Badlands. The reason being, as of last fall the Sewall's dispersed the last of their purebred cows, the Red ones. We would like to thank Dan and Chad for all the great advice, help and direction over the years. Hoping and feeling pretty confident we will still see the Sewall clan around our bull sales for the coming years!

We would like to thank all of our past customers from our most recent fall sale and last spring's bull sale. We are absolutely honoured for all of you that have taken the time out of your busy schedules to evaluate our cattle at the sale and all past sales. Thank You!

For any of you evaluating our cattle for the first time or not all that familiar with our program, we are raising functional cattle with the commercial cowman/cowwoman in mind. Our cow herd is run strictly under range conditions. We are extremely focussed on the maternal side. Cows are under a strict culling program at our place if they have any imperfections. We calve our purebred cows and heifers mid April to mid June. Our first calving heifers are run just like the cows, on range conditions. Heifers are bred to easy calving bulls and are expected to calve by themselves, unassisted. We choose bulls with calving ease and growth traits to perform outside of the cow, right to the finished product.

Our yearling bulls are backgrounded at our own feed yard from weaning up to the sale day. And just that, backgrounded to let them grow and mature into working ranch bulls. They are fed a mixed ration of hay, supplement, whole oats and silage. Our two year old bulls are turned out on pasture mid summer as yearlings (or as soon as we can find a field without a bunch of cows next to them) and graze usually until about Christmas time. Brought in then to a large 30-35 acre pen and fed about the same ration as our yearling bulls, just a little less energy in their ration. We carefully grow our yearling and 2 year old bulls into working ranch bulls, conditioned sound individuals that will give you years of service. Our bulls will sire moderate framed cattle with natural fleshing ability that will go out and work for you.

Our 2 year old bulls are calves born after May 10th. We feel this is a good way to have a strong set of 2 year old bulls. That pen of bulls of the May 10th and on born calves will not have any bulls taken out, except the culls. Our yearling bulls in the Spring Sale are our April born calves and so at sale day a lot of them are just 11 months old. Our vets prefer to semen test them at 12-13 months old, so we will take the yearlings back home and semen test them around May 10th and get them delivered to you shortly there after. Any of you wanting to take the yearlings home sale day will be reimbursed for the semen tests cost. Prior to the sale the yearling bulls will be inspected and scrotal measured by our local vets. The 2 year old bulls will be semen tested prior to the sale. It is greatly appreciated if they are taken home after the sale. And once again anybody travelling to the sale from our part of the country please do not drag a trailer down to the sale to haul back your bulls. We will haul the bulls, yearlings and 2 year olds, back to our place after the sale and will get the 2 year olds delivered to you in the coming days after they arrive back at 66 Ranch.

We believe that the sale day is just the first day of service we will give you. If you encounter any kind of difficulties during breeding season, please don't hesitate to call. We carry a deep pen of spare bulls for any kind of mishaps that may arise throughout the season. "It is the service after the sale that counts!"

Once again we really look forward to seeing you all on sale day or possibly at the ranch before the sale, where the bulls or cows can be viewed anytime.

If you are unable to attend our sale due to time, weather or distance you can follow our sale online at www.dvauction.com or live bidding via the phone by contacting one of us at 66 Ranch or any of the capable S.A.L.E staff on sale day. Remember to check out the videos of the bulls in the sale on our website www.66ranchltd.com prior to the sale.

We really appreciate all of you who can attend our sale, and have added a new idea to our sale this year. We are very proud of the female side of our operation and would like to share some of that with you. Every bull's lot number in this year's sale will be thrown into a hat and at the end of the sale a lot number will be pulled from the hat. The purchaser of that bull's lot number will be able to select at our ranch one yearling open heifer from a hand selected pen of 10 heifers to take home to put into your herd. Or if you decide that a 66 Ranch Black Angus heifer does not work for your operation a cheque for \$1000 will be made out to you.

Whether you purchase a bull at the sale or come to evaluate our cattle or just come for the social outing. Please stay after the sale for an Amazing Angus Steak and a little "Country Hospitality".

Thanks

Kelsey, Malissa, Brett and Carter

BADLANDS ANGUS

Welcome to the Annual 66 Ranch Sale. As I sit here putting pen to paper thinking about the changes in the business the last 29 years, there has been a lot of changes, most for the better. Changes are happening here as well. Starting with selling the Black cows to 66 Ranch 6 years ago. Then last fall selling the Red cows to Peake's and Red bred heifers to Rebel Creek (the Rooke's) and heifer calves to the Henry's.

It's time to slow down. We wish these hard working, forward thinking people all the best in the future. A great big Thank You to all past customers and friends. You will still see us at a lot of sales. Come on out April 1 for a little B.S, steaks and a beer.

Chad & Sue - Dan, Page & Brooklyn

&
BADLANDS ANGUS

6th Annual

BULL SALE

SATURDAY, APRIL 1, 2017 at 1 PM

Southern Alberta Livestock Exchange - Fort Macleod, Alberta

OFFERING: • 53 Black Two Year Old Angus Bulls & 5 Red Two Year Old Angus Bulls
• 120 Black Yearling Angus Bulls & 14 Red Yearling Angus Bulls

ACCOMMODATIONS:

Red Coat Inn, Fort Macleod - 403-553-4434

Days Inn, 100 3rd Ave. South, Lethbridge - 403-327-6000

VIEWING: Bulls can be viewed anytime before the sale at the ranch. Bulls will be available for viewing at Southern Alberta Livestock Exchange on Thursday, March 30.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day with Canadian Farm Insurance, Kolton Kasur 1-780-387-8376.

DISCOUNT: \$100.00 discount per yearling bull if taken home sale day.
\$60.00 discount for all yearling bulls taken home sale day, to cover semen evaluation.

Yearling bulls can be sent back to our Ranch (bulls going back to feed yard must be insured or at owner's risk). Semen Evaluation on the yearling bulls will be completed and ready for pick up by May 15th, 2017. Bulls that are left beyond May 31, 2017 will be subject to a fee of \$3.00/hd/day.

TWO YEAR OLD BULLS TO GO RIGHT AFTER THE SALE!!!

We ask if any Two Year Old bulls that are hitching a ride back to our Ranch on our cattle wagon be picked up within 5 days after the sale PLEASE!! We understand very well how busy the first couple weeks of April can be. But 66 Ranch will not be held responsible for any injuries to the cattle after the said 5 day period. If for some reason these cattle cannot be picked up within 5 days we would much appreciate a call, and plan "B" can be made. Thanks for understanding.

BREEDER'S GUARANTEE: All 2 year old bulls will be semen tested and physically examined by our local vet and sold with a breeders guarantee.

EVERY BULL at the sale will be sold with a 100% satisfaction guarantee.

SIGHT UNSEEN: In the event you are unable to attend the sale or use the online option, bids can be given to sale staff or owners with satisfaction guaranteed.

AUCTIONEER: Frank Jenkins - 403-627-6700

SALE STAFF: Southern Alberta Livestock Exchange

Allen Lively, Pincher Creek - 403-627-7776

Justin Keeley, Pincher Creek - 403-627-6534

Darren Shaw, Fort Macleod - 403-601-5165

CAN'T MAKE IT ON SALE DAY?

Our sale will be broadcast online @

DVAuction
www.dvauction.com

We are pleased that we will have the services of DV Auction. This will allow you to bid on the bulls and heifers via the internet. Of course, we would rather you attend the sale and our hospitality afterwards, but we well know today's world just keeps getting busier and busier! But, if for some reason you cannot attend, this gives you the opportunity to bid on the bulls and heifers at the live auction. Please remember to pre-register at www.dvauction.com 24 hours prior to the sale.

We also have available with this service a live video of every animal in the sale. To view these videos just go to our website at 66ranchltd.com and click on 'view catalog'. Videos are also available at dvauction.com. We encourage you if possible to view the cattle at the ranch prior to the sale.

Please contact Kelsey @ 403-362-0672 or Malissa @ 403-501-9358 with any questions or issues with registering for the sale.

PLEASE NOTE:

- No bulls have been sold prior to the sale
- Bulls are sold in catalogue order
- Updated weights & scrotal measurements will be available Sale day
- 66 Ranch/Sewall Brothers reserve the right to draw 250 straws of semen at our expense and at your convenience on any bull selling in the sale. For in-herd use only.

RECOMMENDED HEIFER BULLS:

There are probably more than the 40 recommended "Heifer Bulls" at our sale. But we feel confident that the bulls with the **bold print BW** in the catalogue will make for trouble free calving off your 1st calf heifers.

PERFORMANCE DATA

AOD: Age of Dam

BW: Actual Birth Weight

205D: Weaning weight in lbs.
adjusted to 205 days

EPD EXPLANATION

BW: Birth weight, a prediction of a sire's ability to transmit birth weight to his progeny

WW: Weaning weight, predictor of a sire's ability to transmit weaning growth to his progeny

YW: Yearling weight, predictor of a sire's ability to transmit yearling growth to his progeny

MILK: A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters

The 2016 Angus Average EPDs are as follows and are the numbers to compare the bulls in the catalogue to:

Average Black Angus EPDs for all calves born in 2016

EPDs	BW	WW	YW	MILK	TM	CE	MCE
	+2.1	+45	+80	+21	+43	+3.5	+6.6

Average Red Angus EPDs for all calves born in 2016

RED EPDs	BW	WW	YW	MILK	TM	CE	MCE
	-0.4	+53	+78	+17	+44	+3.4	+4.0

PLEASE NOTE: Red Angus EPDs CANNOT be compared to Black Angus EPDs. The numbers are calculated in separate and unrelated genetic evaluations.

NEWELL VETERINARY CLINIC

The two year old bulls offered for sale by 66 Ranch and Sewall's have all passed a breeding soundness examination and are classified as satisfactory potential breeders.

The yearling bulls offered for sale by 66 Ranch and Sewall's have passed a physical exam and have scrotal circumference measurements above the minimum requirement recommended by Society of Theriogenology and the Western Canadian Association of Bovine Practitioners.

I further recommend that all the yearling bulls purchased at this sale be given a Breeding Soundness Evaluation by a licensed veterinarian at a future point in time. It is preferable to conduct this exam no earlier than 13 months of age to avoid immaturity issues that often affect younger bulls.

Sincerely,
Tim J. Keogan DVM

A walking bull we purchased from Stuart Cattle Station, spring of 2014. 82A is as deep as you will find but yet the calving ease that all ranchers are looking for. 82A may be one of the most docile bulls we have found. The female side of things is even more exciting. We went to Stuart Ranch before purchasing 82A and seen both the dam and grandam. The grandam was 12 at that time and after seeing both of them we were determined to own the bull!

A son of the infamous "26L" raised by the Sewall's. A very well structured bull, with extra flesh all the time. Out of a 4C6 Ambush cow. You know the females will be the ones you want to keep. After seeing what 87Z has grown into we have since flushed his dam back to 26L.

LOOKING FOR LONGEVITY?

A cow at 66 Ranch is under great scrutiny from her first calf and continuing on her entire life at our place. If they show any imperfections with feet, udder or disposition they are culled right there on the spot. Any cow 4 or 5 or 6 has been scrutinized pretty thoroughly. So with that being said, we are pretty proud to have 52 cows that raised bulls in the sale being 9 years old and older, all the way up to 17 years old.

As proof in the progeny by Bobcat and likewise his EPD numbers from a -0.4 BW to an amazing +97 YW. He definitely is a true "Rancher Bull." A calving ease bull that works super on 1st calf heifers and has the performance to use his sons on your cows as well. Every heifer had as close to a perfect udder as you could ask!

A walking bull we acquired originating from Cole Creek Angus near Billings Montana. Once again the female side of 181Y is extremely exciting. Could not find a bad foot or udder in their cow herd. Cole Creek Angus bloodlines are extremely attractive if you want your cows to be in your herd for a long time.

An A.I sire we are still really excited about. Thunder produces deep and thick attractive females. Real Angus looking cattle. Udders are near perfect. The bull calves sired by Thunder definitely have that "extra rib." Super long, deep sided cattle. He sure puts the hip on his calves and yet maintains that calving ease we are all looking for. Appears to be that all around perfect bull!

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. His heifer calves are extremely feminine and by far the top end of the pen. Very moderate birth weights of 86 lbs. avg. on the bull calves and 77 lbs. avg. on the heifer calves. We find it much easier to have confidence in A.I.'ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from our program.

An A.I. heifer bull we used from Cole Creek bloodlines. Extreme docility with a very moderate birth weight and has excellent performance. We ourselves are very pleased with the growth of these cattle after they were weaned. Competing very well with all the other performance sires. Once again, going back to Cedar Ridge these cattle are displaying that natural ease of flesh. The real "cow mans" kind of cattle! Last spring we had numerous Cedar Wind heifers calving, every heifer that calved had a perfect udder. Not often you can say that with purchased semen from a catalogue.

We've seen Resource at Genex Stud in Billings. A very moderate bull, extra rib x2, and super heel under this bull. We saw them collecting "Resource" and the collection team at Genex said you do not have to worry about Libido; Resource is very easy to collect. We are really looking forward to more progeny off of Resource at the ranch, females are as long as freight trains!

A walking bull we purchased from Cole Creek Angus in 2015. Goes back on the sire side to some older genetics, Juanada 7 of PJM. On our tour of Cole creek Angus, Malissa and I were absolutely amazed by the quality of females sired by this Juanada bull. Absolutely impeccable udders on those females. Really excited about 1394B because he sure stamped an incredible set of bull calves for this years sale. Very impressive!

PURCHASE JUST ONE BULL
& RECEIVE AN OPPORTUNITY TO
GO HOME WITH A 66 RANCH OPEN
COMMERCIAL YEARLING HEIFER!

16 sons sell

A walking bull we purchased from Stuart Cattle Station, spring of 2014. 82A is as deep as you will find but yet the calving ease that all ranchers are looking for. 82A may be one of the most docile bulls we have found. The female side of things is even more exciting. We went to Stuart Ranch before purchasing 82A and saw both the dam and grandam. The grandam was 12 at that time and after seeing both of them we were determined to own the bull!

TWO YEAR OLD SONS

A "sleep all night" heifer bull. Extreme docility, very easy keeping cattle. Always packing extra flesh. Females are quite moderate, deep and thick with that real "Angus" look to them. Cole Creek cattle are well known for fending for themselves.

Maternal, Maternal, Maternal! 46P was raised by Cole Creek Angus in Billings, Montana. We toured their cow herd year before last. Possibly one of the best herds we have been in. Not a bad foot or udder to be found. We seen a large number of 46P sired cows that were 11 years old at the time, that being the reason we sourced 46P semen to use in our herd. Along with the super strong maternal side, 46P has sired some dandy bull calves. Real easy fleshing, deep sided cattle.

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. His heifer calves are extremely feminine and by far the top end of the pen. Very moderate birth weights of 86 lbs. avg. on the bull calves and 77 lbs. avg. on the heifer calves. We find it much easier to have confidence in A.I.'ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from our program.

7 sons sell

An A.I sire we are still really excited about. Thunder produces deep and thick attractive female. Real Angus looking cattle. Udders are near perfect. The bull calves sired by Thunder definitely have that "extra rib." Super long, deep sided cattle. He sure puts the hip on his calves and yet maintains that calving ease we are all looking for. Appears to be that all around perfect bull!

An A.I. sire we used with explosive performance. From a very moderate and breed avg. B.W. EPD of +2.9 to a W.W. +74 to a Y.W. +128. His sons in the sale sure look to have the performance he is known for. Another breeder has claimed "The feet on Unanimous are impeccable, the best we have ever seen. A definite foot improver for the Angus breed."

An A.I. heifer bull we used from Cole Creek bloodlines. Extreme docility with a very moderate birth weight and has excellent performance. We ourselves are very pleased with the growth of these cattle after they were weaned. Competing very well with all the other performance sires. Once again, going back to Cedar Ridge these cattle are displaying that natural ease of flesh. The real "cow mans" kind of cattle! Last spring we had numerous Cedar Wind heifers calving, every heifer that calved had a perfect udder. Not often you can say that with purchased semen from a catalogue.

An A.I. sire we used once again because the female side looked so attractive to us. Very moderate, very easy fleshing, great udders, and quiet disposition. Very impressed with the bull calves Missing Link put together. Deep, thick and real black.

A new A.I. sire we are really excited about. The bull was recommended to us from our good friends at Universal Semen Sales in Great Falls. From a couple past references they gave us on bulls, explaining how we would absolutely love the females, we sure have! They had told us that the True Grit female side is absolutely outstanding, so we were sold quickly on giving him a try. A low birth weight sire with tremendous growth. After A.I.ing 30+ heifers to True Grit we have confidence he can be used safely on heifers. Looking like another all around kind of bull.

Deep, thick, wide, square. As some locals would say a real "meat wagon." Going back on 217Y's sire side, is a proven herd sire of ours that produces excellent females.

Calving ease, femininity and depth of body. A real "cow mans" kind of bull. We are very impressed with this A.I. sire. Calved heifers sired by Chinook last spring and they are excellent uddered females.
