A LLENCROFT
ANGUS

Border Butte
ANGUS

Dear Friends & Breeders

Again we take great pleasure in welcoming you all to the 14th annual Allencroft/BorderButte black angus bull sale. It is hard to believe it is 14 years since I initiated the first sale. We have made so many wonderful friends and acquaintances over the years. It is extremely gratifying to see so many customers come back year after year. The folks at the Feeding Co. are always great to work with and we greatly appreciate their support. As for the bulls, another great set of bulls, some from new sires others from tried and proven genetics, we are always looking for that bull that is just that, much better and keeps the gene pool fresh. There are lots of bulls that will work great with heifers.

As always the bulls haven't been pushed to their maximum potential on performance, so as to preserve their longevity. The bulls we put before you have lots of frame, length, and muscle, they are the type of cattle in demand in the commercial cattle industry, we have never let the show ring dictate the type of cattle we raise.

You are most welcome to come and see the bulls anytime at the Allencroft or Border Butte locations or March 19th at the Medicine Hat Feeding Company location.

Ultrasound and semen tests and current weight results will be available sale day.

Any questions please don't hesitate to call.

Lunch is on us sale day starting at 11:30 am. Sale time 1:pm as usual.

Respectfully yours,

Doug Allen

"53U" is leaving us a great group of calves every year that are easy to pick out with great style. He was retained for his great temperament, and strong maternal attributes stemming from his mother who possessed great feet and udder qualities second to none. With this package came his impressive performance that is showing up in all of his calves. His daughters are calving with ease, are docile, and picture perfect udders.

When we were looking for a new walking sire we were drawn to this bull as he was an embryo calf from a cow I fell in love with as she showed and was named Champion Cow at Agribition in 2007. Several Yellowstone 80M calves showed that day and were all what we look for in cattle. So the decision to invest in this guy was easy. Again his calves floated to the top of the pen with ease. Offering performance, eye appeal, nuts, docility, and hair.. His first daughters now calving are looking stylish and functional with tremendous udder qualities.

Irish is one of the most exciting young sires in the breed for spread EPDs powered by Pfizer HD 50K. His individual ratios against herd mates and a bullet proof pedigree for calving ease combined with docility and strong carcass make him an appealing young sire. His productive young dam records 2 at 111 NR and 2 at 114 YR. Irish's pedigree is backed by three generations of calving ease sires and can be used on the most popular pedigrees in today's herds.

Allencroft Touchdown 06 246Y a young sire with phenomenal length and depth . Very correct on his feet and legs , strong across his top and up through his shoulders. A little more frame which is missing in so many of today's sires . He is siring calves with exceptional consistency as you will see in his first crop of bulls we are offering this year .

ALLENCROFT BLACKCAP 09 54H

Another Impression 89 son out of a first calf heifer. A heifer bull with lots of performance potential.

Another sale season is upon us and as I look into the bull pen I feel we again are bringing to town a solid group of bulls that are offering performance, eye appeal, hair and docility; some of the things that are high on our list of must haves.

Cattle that function is at the top of our list , we feel that a bull is the most important way to instill this into a herd. We pride ourselves on having developed and continue to develop a herd that offers sound footed, hard working, functional cattle that work well in tough environments. These cattle are raised where they must be able to travel distances as our pastures are up to 320 acres in size, so we know the importance of an animals ability to travel, along with the importance of early gain in these cattle as many of our customers sell their calves in the fall. We look for those bulls that will enable you to have a lighter less stress birth and still wean off a calf the same size as an animal that weighted more at birth and was slower to be up and nursing. We utilize all the technology, science available to breed the “right kind” of cattle, which does differ for each producer. The bulls are available out there and we do everything we can to source these genetics. Whether it be through AI or walking bulls we are very confident in our decision when breeding each spring and are proud to bring to town the product. This years bulls which are the combination of our 13 years of decision making,culling and incorporation of new females and than mixed with the leading sires available today.

With that said, this year we also made a change to the development of these bulls through their housing. We have put the bulls into a larger area paddock that allows for more activity and muscle development, we feel this will improve their agility down the road.

We look forward to seeing all of you on sale day as we are always proud of our years hard work on display March 20th.
Cindy & Dale

It's of great honor to work with an enthusiastic crew like Border Butte. Dale and Cindy do a thorough job of whatever task is at hand and breeding cattle is a passion for this family, breeding the right kind is number one! This comes as a great advantage to their customers as the quality assurance is there as well you know every step has been taken to make sure their customers receive a quality product. Some call it fussy or picky but simply caring to do what's right would explain it best and that places a deal of confidence for you the customer. With the saying that the cattle are just like their owners would fit perfectly, what you see is what you get with Border Butte. Straight forward and hard working and commercially minded explains the success of this program.

Make plans to attend the bull sale on March 20th at the Medicine Hat Feeding Company, bulls will be available for viewing the day before and morning of the sale. Should you have any questions regarding the program or the “sight unseen” purchase program which is of no cost to you the buyer, feel free to contact Dale, Cindy or myself for a relaxing visit shedding light on this powerful Angus program.

See you Sale Day

A bull that is truly what we strive to produce, having everything from the stylish appearance, hair, docility and a solid family behind him. This calf easily floats to the top of the Pen. He is an uncanny resemblance to his grandfather "Son of A Gun 2'02" at that age and he went on to breed for us for many years leaving us some great cattle.

A little over a year ago we purchase some cows to add some fresh genetics and add some different pedigree selection here. So the dam of this calf along with 11 others were brought in from Windy Willows Angus a herd who values feet and udder qualities as much as we do. This calf is a nice example of what is to come from these cows along with the next lot 220A.

ALLEN CROFT & Border Butte

ANGUS ANGUS

Terms & Conditions

All Bulls sell under the standard terms & Conditions set forth by the Canadian Angus Association.

Guarantee:

Bulls are semen tested & evaluated. Bulls that fail to be satisfactory breeders will be replaced or credit given on purchases or replacement from the seller. They should be returned to the consignor in good condition and properly cared for so they can be re-evaluated. Consignors are responsible only to the purchase price of the bull in question. Each animal becomes the responsibility of the purchaser at the fall of the hammer.

Insurance:

We recommend you insure your purchase as purchaser assumes responsibility at the fall of the hammer. An insurance agent will be available on Sale Day.

Western Financial Group (MHD).- Aaron Fleming- will be representing. Phone: (403) 526-2885 Fax: (403) 527-9291
Email: aaron.fleming@westernfg.ca

Health:

Animals are from TB and Bangs free area. They are examined by a qualified veterinarian at semen testing time.

Terms:

Terms of sale are cash or cheque payable at par in Canadian Funds to Sale Clerk on sale day. No animal will be released without satisfactory settlement.

Announcements:

Errors discovered in the catalogue will be corrected by announcement from the Stand at sale time and such correction shall take precedence over the printed matter in this catalogue.

Semen Interest:

We reserve the right to draw semen on any catalogued bull at our expense, and buyers convenience.

Allencroft & Border Butte have all undergone C.U.P analysis and are both enrolled in the Canadian Angus Association Performance Program (CAPP). Results will be available on Sale Day.

March 20th 2014
