

ANDERSON CATTLE CO.

BULL SALE

Saturday, March 29, 2014

1:00 PM

At the farm, Swan River MB

50 TWO YEAR OLD & YEARLING

RED AND BLACK ANGUS BULLS

“RANGE READY”

***PURCHASE YOUR NEXT HERDSIRE
WITH CONFIDENCE***

Welcome to our fifth annual bull sale and our first year on the farm. Our program focuses on selling two year old bulls, but we are pleased to offer a select group of yearlings this year as well. We all work off the farm so things have become pretty streamlined. The main herd starts calving in March and the cows have to do a lot of it on their own. We have selected for calving ease and the majority of the bulls will be recommended for heifers.

This will be the last year we offer "Who's Next 39S" offspring as we had to say goodbye this fall. He has left the greatest impression on our herd of any sire we have every used. As a 8 year old he still walked on a sound foot and possessed a gentle disposition. His son "Next Generation 20U" is a unique sire and has left us exceptional females as well as a strong set of bulls. Both bulls are sound and extremely easy moving. We are also very happy with the addition of "Mohican 40X" and you will find some impressive bulls in the group carrying his pedigree.

All of the cattle are familiar with both horses and dogs. We work with the bulls daily and we value the good dispositions in our breeding lines.

None of our bulls receive creep feed prior to weaning. The two year olds are raised their first winter on a forage based ration. They're pastured over the summer until October. A silage ration was fed with grain supplement for the remainder of the winter. All bulls receive free choice mineral.

Two year olds require plenty of room and this group of bulls are very athletic. They will go straight to work and walk your pastures with ease.

We can't thank our family and neighbors enough for all their extra help. A special thanks to Larry and Lynne for keeping us going, you are part of our program in so many ways.

If we or any of our sales staff can help you select a bull for your program, please call. Hope to see you March 29th!

Sincerely,

Bruce and Lone Anderson

One of the heaviest muscled bulls in the pen. His mother is a tremendous female as is the entire Joanna line. The Mr. Beef calves all show tremendous muscle expression.

ACC is a family operation and the Anderson family has been involved in the Angus breed since 1933.

The new calving barn addition....so very grateful to have the extra space.

From moving cows to making silage, everyone pitches in and has a very valuable part in ACC.

Another great 39S son raised by a very influential cow. His sister 60X just raised MarMac Valentine 49A that sold in the Keystone Klassic sale to Midnight Oil Cattle Co for \$4000. She was a sweet-heart and so is he.

All the bulls have been halter broke and are handled on a daily basis. They are used to horses and dogs and were moved several times as they grazed this summer. Any new females that need an attitude adjustment would spend some time in the pen with 39S, as he was one of the gentlest bulls we have ever owned. Most times they would settle down, if not they don't stay around long.

www.roblinforestproducts.com

Terms: The terms of the sale are cash or cheque, payable in Canadian Funds. The right of property shall not pass until after the settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneers decision will be final. Announcements from the auction block take precedence over the printed matter in the catalogue.

Cattle Inspection: All carry permanent identity tags, corresponding to Sale Lot Numbers as well as Canadian Cattle Identification Tags.

Health: The bulls offered for the sale have been vaccinated for IBR, PI-3, BRSV, 8 WAY BLACK LEG, HEAMOPHILUS, SOMNUS AND PASTERURELLA HAEMOLYTICA. All bulls were treated for external and internal parasites.

Breeding Guarantee: All cattle are sound and right, and sell with a responsible breeder guarantee of satisfaction. In the event of an unlikely dispute, the regular terms and conditions of the Canadian Angus Association shall apply. All bulls will be semen tested and breeding soundness evaluated by a licensed veterinarian.

Phone or Mail Bids: If you are unable to attend sale day, you can entrust your bid in confidence to sales staff or the consignors.

Insurance: The animals become the responsibility of the purchaser after the animal is sold. Insurance will be available on sale day. We strongly recommend you insure your purchase.

Liabilities: All persons attend the sale at their own risk. The seller, facility owner and sale staff assume no liability, legal or otherwise for any accidents that occur.

Delivery: The two year old bulls will be delivered as soon as possible after the sale. Please speak to us about arranging delivery or deduct \$50 from the purchase price if you take your bull home sale day. Any bulls remaining at the farm must be insured and after May 1/14 will be kept at a cost of \$3/day.

All bulls in the sale offering will be vet inspected and have passed a semen test prior to the sale. Scrotal measurements, tests results and current weights will be available at the sale.

Anderson Cattle Company Inc. uses Canadian Angus Performance Program (CAPP) whole herd reporting and performance data is printed in the catalogue.

SIGHT UNSEEN PURCHASE PLAN— Call us to discuss your specific needs. Your satisfaction guaranteed.

Mothering ability—a picture paints a thousand words. With both of us working off the farm and the kids in University, the cows have to do it on their own.

If the animals are not quiet, they don't stay around. ACC is a family operation
