Atlasta Angus

12th Annual Bull Sale

Welcome from Atlasta

It is my pleasure to welcome you to our 12th Annual Atlasta Angus Bull Sale & Seriously Black Select Female Sale.

The bull calves were weaned October 4th, BW to WW day per gains were very good. WW's were similar to last year which were the best we've ever had.

This year's sale offering includes, with the exception of three outstanding March calves which Doug chose, 70 yearling bulls born in January and February. The coming 2 year old bull roster has 15 bulls sired by 8 different herd bulls along with one coming 3 year old. We have also selected 10 pairs of our very best bred heifers.

AI Sires Remitall F Rage 9A, S A V Resource, International, Harvester, Angus Valley, Sitz Alliance, Sitz Upward, Exar Upshot and R B Tour of Duty all have progeny in both the bulls and heifers.

Atlasta herd sires HF Consensus 235Y, Bar-E-L Celebrity 60C, Remitall F International 179C, Remitall Uptown, Lazy E Scotty, Lewis 809U, Royal Traveler, Remington Final Answer, KBJ Body Builder and KBJ Smart One, Atlasta RRT 166B, Atlasta Traveler 047T and Bar Heart Spartan all have darn good sire groups in both the bulls and breeds.

We are also very proud to have our friends at Tannas Ranches, Luke & Ceanna Tannas provide 10 outstanding bred heifers to the offering.

A special thank you to Megan Bond and her crew for a great job at preparing our cattle and Grant and Laura Lee Rolston for the pictures.

Please feel free to call or stop by the farm at your convenience to check out the cow herd, herd sires and sale offering. I feel confident that both the commercial and purebred breeder alike will fill your needs in this group of bulls and bred heifers.

Join us Friday December 8th for viewing and hospitality and Judy's special smoked turkey dinner prior to Saturday's sale. Sale time is 1 pm. Look forward to seeing you!

Brian

12th Annual Bull Sale

BRODY GARDNER 403-994-0552

JAY WILDMAN 587-777-9904

DjH

As Doug chatted weeks back discussing the fall sale season, his words of encouragement for the upcoming year were, "Calf prices are fantastic, we're all finally getting some moisture and say, did you see that set of bulls at Sutter's yet? WOW!" This letter has been his dedication to the sale since its inception and it feels suitable to address this with his thoughts in mind, so...

Welcome to the 12th Annual Atlasta Bull Sale & Seriously Black Select Female Sale. Brian & Judy have assembled the strongest, most powerful set of genetics they have ever produced to offer you on December 9, 2017 at the ranch. Progress, functionality and the kind of cattle that work for the cattleman are the traits that are generationally bred into the cowherd at Sutter's.

A summer pasture tour of the cows at Atlasta is certainly a bucket list item that you need to check off. This magnificent cowherd is built on fundamentals like weaning and yearling performance, extreme calving vigour, enhanced power and muscle shape, foot structure, fertility and doability - all the while maintaining a fresh genetic profile and breed-leading performance data. Please ask Brian to "grab a beverage and take me to see that bull's mom"; you'll be happy you did.

Brian will winter the yearling bulls until February 15th, 2018 - 50% payable sale day and 50% due February 15th, 2018. The 2 year old bulls and all the females are to be paid for and picked up immediately following the sale.

This is not only a great sale where you can find the perfect new herd sire, it is also a fun event. Please plan to attend Friday, view the cattle, mark your catalog, then partake in some incredible Sutter hospitality. Come back early Saturday to go over your list, and then have some of Judy's famous smoked turkey and enjoy the fellowship - it's the reason the sale staff is so jolly.

A cattleman, historian, great friend and a true proud family man, Doug Henderson affected every single person he came in contact with. He had a larger than life personality while being as humble and down to earth as you will find, but he was just that, larger than life! He had an insatiable appetite for youth and their development, and he was a coach and father figure to the skilled youngsters that shared his passion for knowledge of all things agriculture. Doug thrived in social settings and was the best story teller - it actually fed his soul to see people enthralled by his magnificent tales. A rare but gifted attribute of Doug's was his appreciation for friendships. This was and certainly still is the case with Doug & Linda's dear friends Brian & Judy Sutter. We all have specific, detailed stories that will be forever remembered about our friend Doug. In honour of our patriarch and mentor please know that his wishes are for a 'strong sale, safe travels, energetic crowd, and great fellowship afterwards - OK, and maybe a butter tart'.

You will not find a person who stands behind his cattle and beside his customers more than Brian Sutter. Buy with confidence as the product speaks volumes and the people are as good as you will find. If the Sutter family or the Seriously Black consignors, Mark & Ingrid and Luke & Ceanna Tannas, any of the professional sales team or either of us can be of assistance in any way possible, please give us a call. We all love to talk cattle any time. We can not wait to see everyone December 9, 2017 at the Sutter ranch.

EPD Definitions

BW: Birth Weight - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. WW is an indicator of growth from birth to weaning (205 days). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: Yearling Weight - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk - is an indicator of milking ability in daughters. It represents the differences in weaning weight of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

TM: Total Maternal - is a combination of the weaning weight and milk EPDs. It is calculated as: $1/2 \text{ WW EPD} + \text{Milk EPD} = \text{TM}$. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

CE: Calving Ease Direct - the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers. The higher the number the more probability that his calves will be born unassisted.

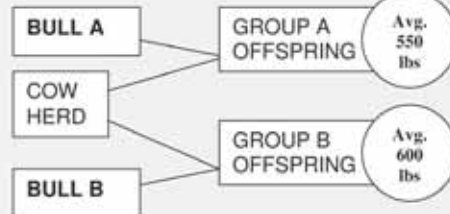

MCE: Maternal Calving Ease - is expressed as a difference in percentage of unassisted births with a higher value indicating greater probability of unassisted births in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

EPDs are an indication of how an animal's calves will perform on average compared to another animal's calves.

For example, if Bull A (weaning weight EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs lighter than that of Bull B's (60-10=50).

Calf	A	B
1	500	400
2	510	450
3	520	500
4	530	550
5	540	600
6	560	600
7	570	650
8	580	700
9	590	750
10	600	800
Avg.	550	600

Note that not all calves from Bull B have a higher weaning weight, but the average is 50 lbs higher.

Average Black EPDs for all calves born in 2015

A Word From Fred . . .

Brian and Judy's sale is here again. Whether you are looking for a bull to produce feedlot steers or replacement heifers to improve the genetics in your herd, you are at the right place. Our good friend Doug Henderson always said "There's power in the blood". There's nothing truer than that when referring to the Atlasta herd. Brian has been successfully combining old foundation Angus genetics with the newest proven blood lines available, resulting in animals that meet the requirements of the commercial and purebred cattleman.

The newest beef processor in Canada is now up and running. They are increasing the demand for high end, well marbled AAA and Prime graded beef. Angus programs top the charts for restaurants and large retailers. There are many Angus programs in addition to CAB and the demand far exceeds the numbers available. As always, the Angus green tag is available to commercial cattlemen to qualify for Angus programs but is unfortunately underused and thus contributing to the shortfall. Cattle that would qualify with the green tag are being missed at the time of harvest. Buyers for the packers are looking for green tagged cattle to fill their programs and are being disappointed in the low numbers of identified eligible calves, feeders and fats. Commercial Angus cows at the time of culling are also eligible for Angus grind programs. Think about selling your cull cows direct to the packing house to see some of these benefits or put them on grain for a few months to whiten up the fat and meet white fed cow programs. These carcasses are identified at the grading stand and primal cuts from these grain fed cows may be used. Don't miss these opportunities to increase profitability!

Come and enjoy Judy's fantastic food and Brian's hospitality while having the opportunity to buy some of the best quality cattle on offer in the country.

Fred W. Taylor Taylor Made Research

Atlasta Angus

12th Annual Bull Sale

Tannas Ranches

*Luke, Ceanna, Ingrid & Mark
Tannas Ranches*

LUKE & CEANNA, MARK & INGRID TANNAS

WATER VALLEY, AB
PHONE: 403-637-2425
LUKE CELL: 403-863-9560
MARK CELL: 403-620-9563
CEANNA CELL: 403-638-7311

We are excited to welcome you to the Atlasta Angus Bull Sale and Seriously Black Female Sale!

After growing our herd over the last few years, we are pleased to offer our first package of outstanding bred heifers. These heifers were selected by the late Douglas J. Henderson and Brody Gardner. We are confident that any of these heifers will compliment your purebred herd and will produce first rate seedstock. We take great pride in the fact that they are raised in the foothills west of Water Valley, AB and yet they are some of the quietest cattle around. We would like to thank Brian and family for this opportunity to offer our genetics in his sale for years to come.

Our herd health program was created in conjunction with Veterinary Agri-Health Services, we are on a Zoetis vaccine program and full vaccine histories are available upon request. Our heifers will be at Brian's a few days before the sale for viewing or if you would like to see them earlier we would be more than happy to set up a tour at the ranch at any time.

Thank you for taking the time to look through the catalog.

Luke, Ceanna, Mark, Ingrid
Tannas Ranches

Seriously **BLACK** *Select Female Sale*

Two Bred Heifers - Your Choice - or Both!

Atlasta Angus & Tannas Ranches have selected A & B heifers to enter the ring at once.

The final bidder has the option to select his choice of the two heifers or he can take both at twice the money.

If the final bidder takes just one heifer then the runner up bidder has the choice of taking the other heifer at the same money.

If the other heifer is not selected, she will go back into her respective herd.

Seriously **BLACK** *Select Females*

These two soggy heifers are true eye catchers. Double Vision spared none of his genetics on these two. They have a very feminine shaped yet the power and growth needed to produce herd sires. These two heifers bred to Diamond T Samcro will be outstanding calves, the growth and depth on the calves are amazing.

32D - Naturally bred Diamond T Samcro 1445. Due mid February
39D - Safe AI to Diamond T Samcro 1445. Due mid January.

These two deep bodied heifers have a great disposition. 41D is from an outstanding cow we purchased from South Shadow Angus, she loves attention, always willing to stop for a quick scratch. Both heifers will be great additions to any herd. Both are bred to Samcro, our highest selling herdsire group at our first bull sale.

41D - Safe AI Diamond T Samcro 1445. Due mid January.
14D - Naturally bred to Diamond T Samcro 1445. Due mid February.

If you look at the longevity of the cow families, these two are stacked with genetics.

12D goes back to the outstanding Brookmore Karama 24M cow which has produced many top producing females for many herds.

15D is a moderate framed heifer with a gorgeous udder, breeding her with crow should produce offspring with calving ease, with growth, depth and a flashy look.

12D - Safe AI to Riverbend None Better Y095. Due mid January.

15D - Naturally bred to Diamond T Samcro 1445. Due mid February.

40D is from a calf we purchased from the Crowfoot Dispersal a few years back. They are very small framed, yet they produce top stock for us, they have outstanding udders and temperaments. We have yet to be disappointed by their production.

5D is a good footed Fortitude daughter and is bred to Tom Boy 130B which we own with Diamond T Cattle Company, The females out of Tomboy are our top picks with many visitors through our ranch and the sons are big nuted and have tons of growth and hair.

These two heifers will be excellent additions to any herd.

40D - Safe AI to South Shadow 6Y Tomboy 130B. Due mid January.

5D - Naturally bred to Diamond T Samcro 1445. Due mid January.

These heifers are both out of cows we purchased from Brookmore Angus. They have excellent feet they inherited from both their dams and sires.

47D is out of Density and his females are always outstanding cows in many herd we have seen. Samcro should add depth and muscling to the calves, and a look about them.

47D - Naturally bred to Diamond T Samcro 1445. Due mid late January.
21D - Naturally bred to Diamond T Samcro 1445. Due mid February.

A pair of our very best females from two outstanding cow families. Both have some added depth and volume and their mommas have great dispositions, great feet and udders. Elite proven genetics on both the top and bottom pedigrees give these two a solid future!

Both exposed to Pedersen Divided 314D April 5 to May 5 and to Lazy E Fortitude 876C May 5 to August 10.

52D due mid January.

87D due mid January.

Two attractive young heifers sired by SAV Harvestor.

9D's dam consistently produces both top end herdsires and females. She is one of the last remaining daughters of breed legend Sitz Traveller 8180.

14D's dam is a direct daughter of the great cow maker Sitz Alliance.

Both exposed to Lazy E Fortitude 876C April 5 to August 10

9D due early February.

14D due mid February.

A pair of my favourites who have been stand outs since birth. Their sire HF Consensus consistently sires top end picture perfect Angus cows with great dispositions and udders. His sire group of bull calves are at the top of our breed in WW's and sale features again. Can't miss young cows with great potential!

24D exposed to Atlasta RRT 166B April 5 to May 13 and to KBJ Body Builder 295B May 13 to August 10.
Due early February.

101D exposed to Lazy E Fortitude 876C April 5 to August 10.
Due early February.

Both of these clean fronted, long bodied heifers are sired by Brookmore Bismarck 19A who Doug and I purchased from Jack and Barb Hart. His daughters are stand out at both the Henderson's and Atlasta. Easy fleshing ability and top end performance are bred into these well put together females.

Both exposed to Lazy E Fortitude 876C April 5 to August 10.
75D due mid January.
109D due late January.

Our Final Answer herd sire 809U has over the years consistently produced top WW's and easy calving, front end bulls. His daughters are everyone's favourites, are easy fleshing, with excellent feet and udders, along with great dispositions! Both dams are picture perfect Angus cows.

Both exposed to Lazy E Fortitude 876C April 5 to August 10.
32D due late January.
86D due mid January.

A pair of attractive Tour of Duty progeny who's mommas are well bred, top end cows. Final Answer is a trait legend in the Angus breed for performance and easy fleshing ability. Both are backed by generations of top producing cow families. This pair of sisters have the genetics for a great head start.

Both exposed to Pedersen Divided 314D April 5 to May 5 and to Lazy E Fortitude 876C May 5 to August 10.
41D due mid January.
92D due mid March.

I can't say enough about this pair's herd sire KBJ Body Builder 295B. His female progeny are attractive, long sided and along with the bulls are easy fleshing. All push the scales at weaning time. Both young dams have excellent udders and feet. Top end performance, easy fleshing ability and darn good maternal genetics give these two a bright future.

26D exposed to Atlasta RRT 166B April 5 to May 13 and exposed to KBJ Body Builder 295B May 13 to August 10.

Due mid January.

44D exposed to Lazy E Fortitude 876C April 5 to August 10.

Due early January.

Herd sire Remittal F Uptown 64Z's females are feminine, smooth fronted, attractive cows with excellent udders. 28D and 47D are no exception. Both young dam's genetics trace back to trait legends Leachman Right Time and Sitz Alliance. Solid young heifers with front pasture potential.

Both exposed to Lazy E Fortitude 876C April 5 to August 10.

28D due late January.

27D due mid January.

Good friend Bernie Regnier and I bought the sire of these heifers from KBJ to add calving ease and performance and he sure hasn't disappointed! These two breds are typical. Good looking, smooth shouldered and long bodied make these two ladies stand out. Both dams are good uddered young cows.

Both exposed to Atlasta RRT 166B April 5 to May 13 and KBJ Body Builder 295B May 13 to August 10.
97D due mid January.
112D due mid January.

Both of these girls are sired by Bar Heart Spartan 327A. Their young dams are sired by our herd sire Final Answer son, Lewis 809U who gives us calving ease and top end performance. Both heifers' grandams, Erica 60X and Tina 102Y, have two of the best heifer and bull calves this year. Generations of strong maternal genetics are bred into these two very special heifers.

Both exposed to Atlasta RRT 166B April 5th to May 13 and to KBJ Body Builder 295B May 13 to August 10.
91D due mid February.
156D due mid February.

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of the Health of Animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and sold with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint export shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed or to Douglas J. Henderson & Associates Ltd.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on sale day, also from the sale management at any time.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
