Brian & Judy

Welcome from Atlasta!

It is my pleasure to welcome you to the 5th Annual Atlasta Bull Sale & Seriously Black Select Female Sale! Every year brings new challenges with the weather and cattle markets and this one is no different. I've learned one thing over the years – we can't do a darn thing about the weather, so make the best of it and carry on with a smile. However, the cattle prices have certainly shown some optimism in the past few months and hopefully the market will continue to climb the same path in the future.

With the numbers of cows down in the past couple of years, the need for quality, practical breeding livestock is more than ever. Our goal is to provide you with bulls that can produce extra performance and sound carcass numbers which will add up to some extra dollars in our customer's jeans. These bulls must breed and thrive in different environments and we back our product with good honest service. This years offering includes 70 yearling bulls, born between January 1st and mid February and nine coming two year old bulls. We have also selected from the very top end of our bred heifer pen, one outstanding feature heifer and fourteen pairs in which you choose one, the other stays in our herd.

The Harts at Brookmore Farms, the Cooke family at Cooke Livestock and the Ken Friesen crew from KFC Farms have each contributed a select group of bred heifers to our sale offering.

To both the commercial and purebred breeder, I'm sure this selection of cattle can fulfill your needs. You're welcome to stop by the farm anytime or call at your convenience. If possible stop by for viewing and hospitality Friday December 10th or we look forward to seeing you Sale Day.

Brian and Judy

WE WILL WINTER YEARLING BULLS TO FEBRUARY 15

50% Down Sale Day - 50% February 15, 2011

**\$100 OFF YEARLING BULLS
TAKEN RIGHT AFTER THE SALE**

Buyer must insure all bulls left at Atlasta
\$2.50 per day after February 15

COMING TWO YEAR OLD BULLS & FEMALES TO GO RIGHT AFTER THE SALE

SATISFACTION GUARANTEED

with our Sight Unseen Purchase Plan - Call Brian or Doug for Details

DjH

Welcome to the 5th Annual Atlasta Bull Sale and Seriously Black Select Female Sale!

Atlasta has always been a source of high quality Angus breeding stock and this is one of the very best offerings of this sale series.

There is no question that Brian Sutter is one of the most enthusiastic, dedicated and motivated Angus breeders I have ever met. The Atlasta breeding program works... and this consignment is real proof of the consistency, performance and high quality found at Atlasta. As in the past, there are performance bulls, calving ease bulls and lots of outcross and old-time genetics with strong EPDs, out of one of the real outstanding cowherds in the nation. In fact, all Angus breeders, whether commercial or purebred, owe it to themselves to view the Atlasta cowherd.

This fine group of young bulls are from top A.I. sires as well as Atlasta's own herd sire battery which, by the way, is one of the great sets of herd sires ever assembled. Check out the great weaning weights and note that this herd has lots of milk, performance and fertility. These are attractive, productive cattle that work.

Remember, Brian will winter the yearling bulls until February 15, 2011. 50% down sale day, 50% February 15, 2011. The two year old bulls are to be picked up after the sale along with the females and need to be paid for sale day.

The Seriously Black Female Sale offers an outstanding group of bred heifers from Atlasta and Guest Consignors, Brookmore Angus, KFC Angus and Cooke Livestock. This is a powerful group of foundation females from a great group of Angus breeders from across Western Canada.

Come early, look over the bulls and females Friday afternoon, enjoy the great hospitality Friday evening and take in the sale Saturday where you can enjoy more fun and fellowship.

If Brian, Judy, the Seriously Black consignors, Jack and Barb Hart, Ken and Judy Friesen, Scott Brady, Grant and Sharon Cooke, Krista and Grant Ball, any of the sale staff or Linda and myself can be of assistance in anyway please give us a call.

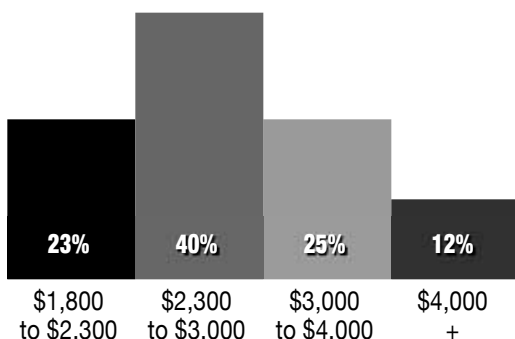

Hope to see you at this fun filled Angus event,

Yours truly,
Doug Henderson

Douglas J. Henderson & Associates Ltd.

P.O. Box 5900, Lacombe, Alberta T4L 1X4 Doug & Linda Henderson Phone: (403) 782-3888 Fax: (403) 782-3849 Cel: (403) 350-8541

How the bulls have sold the last 4 years

I have followed the carcass data on Brian & Judy Sutter's herd for a number of years and their cattle continue to show incredible data. Marbling quality levels are showing highly sought after marbling traits in the AAA to Prime levels. These characteristics are passed on in their herd and are available in this sale; these heritable traits are proven to exist in Atlasta Angus bloodlines.

Today's packer buys on the grid for high cutability, yields and marbling levels – all in the right sized primal cut.

Atlasta is providing you with the genetics you need.

Fred Taylor

EPDs:

- Expected Progeny Differences are values that predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed.
- Are expressed in the units measured for each trait.
- Allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management.
- Are the best tool available to compare animals between herds, countries and year of birth.

BW: Birth Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. WW is an indicator of growth from birth to weaning (205 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: Yearling Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk EPD - is an indicator of milking ability in daughters. It represents the differences in weaning weight of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

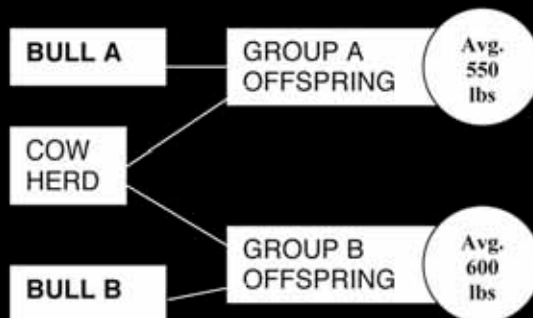

TM: Total Maternal EPD - is a combination of the weaning weight and milk EPDs. It is calculated as: $1/2 \text{ WW EPD} + \text{Milk EPD} = \text{TM}$. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

EPDs evaluate group averages and offspring's performance. They can not predict individual performance or weights.

For example, if Bull A (weaning weight EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs lighter than that of Bull B's (60-10=50).

Calf	A	B
1	500	400
2	510	450
3	520	500
4	530	550
5	540	600
6	560	600
7	570	650
8	580	700
9	590	750
10	600	800
Avg.	550	600

Note that not all calves from Bull B have a higher weaning weight, but the average is 50 lbs higher.

AVERAGE EPDS				
BW	WW	YW	MILK	TM
+3.0	+40	+71	+17	+37

Jack & Barb

We welcome you to the Seriously Black Female Sale. Once again it's a pleasure to be working with our hosts, Brian and Judy Sutter.

This year we are offering for sale five bred heifers from our program. Each one of them is safe in calf to their A.I. service. This year we bred our heifers to Final Answer or Bismarck. Their health work is up to date.

We are looking forward to meeting and visiting with you on sale day. If you have any questions about our offering please feel free to contact us anytime.

Jack & Barb

It's sale time once again! Welcome to the Annual Seriously Black Select Female Sale.

It's amazing what a difference a year can make! The feed supply is ample and the markets are turning around. It is great to see the commercial cattleman being rewarded financially for good calves. This is great news for the purebred Angus industry.

We are pleased to offer some fancy bred heifers for your consideration. They are deep, thick and are bred to produce solid calves with eye appeal. Our breeding goal is to produce attractive, efficient cattle that have good feet, thick hair and high performance.

All of the heifers are bred to Crowfoot 9025W - a stylish calving ease bull with an impressive pedigree.

Thanks to Brian & Judy Sutter for hosting the Seriously Black Select Female Sale.

We look forward to seeing you sale day.

Grant & Sharon

Rachis 21R has all the attributes of a great breeding bull, performance, low birth weight, phenotype, strength of pedigree, temperament, structural soundness and stoutness of bone. His track record at the shows includes being named the 2006 Canada National Reserve Champion Bull and the 2007 Edmonton Farmfair Supreme Champion Bull over all breeds.

His progeny are very moderate at birth and he was successfully used on first calf heifers at Cookes and Remitall. His calves are very consistent in their pattern and lots of thickness and style. Both his heifer and bull calves have topped Cooke Livestock and Remitall Cattle sales.

Our Remington Total 306S heifers are now limited editions. After a tragic accident we lost Total 306S so we are holding on to as many of his females as we can. Total 306S was an exceptional bull that was easy calving, easy keeping and who still produced calves with great weaning and yearling weights. CCL Missie 49W is a great example of what Total 306S produced for us. Smooth, deep and feminine heifers that would be excellent additions to any herd.

Email: scott@kfcfarms.com Website: www.kfcfarms.com

We would like to welcome you to the third annual Seriously Black Female sale. Once again we would like to thank the Sutter Family for including KFC Farms in this great event.

This years offering is the strongest we have put together, these heifers come straight from the top end of our replacement heifer pen and are members of some of the strongest cow families at the ranch. Including the Andee, Pride Lady, Blacklass and Erroline families. There are two daughters on offer by the #1 milk epd and highly maternal sire BAR EXT Traveler 205, also there will be two daughters by the \$10,000 KFC herd sire RCC Predestined 7S as well as a daughter by the breed trait leader for IMF, GAR Predestined and one daughter by the now deceased Connealy Freightliner. These females sell carrying service to the highly proven sires; Quacker Hill Objective 3J15, CRA Bextor and Connealy Freightliner.

These females on offer have the potential to lead your breeding program into the future. If you are interested in talking about our program or just cattle in general give us a call, We look forward to seeing you at the sale on Dec. 11th

A stylish pair of deep bodied heifers sired by SVF Siebrings Forever Russ. He consistently leaves attractive females with some added length and volume with good udders and great dispositions. Two flush brothers of JBS 15W were top selling bull calves last year to Bill Bateman and Dan Foley. Twelve different Forever Russ daughters weaned off the top 1 or 2 weights from different sire groups this fall. Tons of performance combined with good carcass numbers here.

Both exposed April 1 to August 15, 2010 to Remington Final Answer 209T.
JBS 15W due mid January & JBS 70W is due late January, 2011.

Two powerful flush sisters from maybe one of the best cows ever at Atlasta, Erica 34H. Five flush brothers averaged \$4400 in last year's sale, selling to Bryan Latimer, Mike Gilson, Jeff Lay and the Bernie Regnier family. Sired by the popular Net Worth 4200, these very good, top end females have a bright future!

Both exposed April 1 to August 15, 2010 to Remington Final Answer 209T.
JBS 49W due mid January & JBS 51W due late January, 2011.

Checkout these two fancy females sired by SAV Predominant. Both cow families trace back five generations at Atlasta. Predominant consistently leaves clean fronted, moderately framed progeny with some added volume, hindquarter and eye appeal. Two attractive females with proven genetic backgrounds that will become top producers in any herd!

Both exposed April 1 to August 15, 2010 to Remington Final Answer 209T.

JBS 77W due mid January and JBS 80W due late January, 2011.

Two feminine, fancy young ladies sired by Royal Traveler DRCC 6068S. JBS 170W is a top producing Stockman 365 daughter and JBS 201W an own daughter of Oscar 711. Both moderately framed dams are good uddered and come from solid producing cow families tracing back five generations. Dunford Royal Cattle Co and Remington Cattle Co would be proud of the job these two young heifer's sire has done here.

JBS 170W exposed April 1 to August 15, 2010 to Atlasta Cash 44U. Due early February, 2011

JBS 201W exposed April 1 to June 2, 2010 to LFE 809U. Due mid January, 2011.

These four clean fronted, feminine heifers with a little extra length and volume are typical of progeny sired by BB Atlasta Focus 46S. All four dams are deep and moderately framed with good udders and feet, descending from generations of top producing, quality cow families. Study the pedigrees on these four! Each one traces back to some of the great sires in our breed, combining both performance and carcass numbers.

90W – 111W – 131W exposed April 1 to August 15, 2010 to Remington Final Answer 209T.

Lot 101A (90W) & Lot 102B (131W) are due early February, 2011.

Lot 101B (111W) is due mid January, 2011.

Lot 102A (21W) exposed April 1 to June 2, 2010 to LFE Lewis 809U. Due mid January 2011.

Remington Right Time 124R progeny are the total package. Low birth weights, top end weaning weights and eye appeal! Last years first calvers sired by 124R are quiet mama's with good udders. These four are clean fronted with plenty of depth and hindquarters. All four dams and grandams are consistent, top producing cows. Remington Cattle Co. purchased the top selling, paternal sister from last year's sale.

Atlasta Forever Russ 37S consistently produces daughters that are clean fronted with some extra length, capacity and hindquarters. They are easy fleshing (88 – 95 lb. BW's) and are quiet mama's like their grandam, Atlasta Erica 34H. Erica 34H is also the dam of both the choice lot Net Worth heifers and JBS 70W, in our pairs lead off. Being from a cow family of unbelievable producers, I fully expect the same from these four ladies!

Remitall Pilot 103P sires females that are moderately framed, deep with lots of hindquarter and with tight udders. The dams of these bred heifers are consistent top end cows. All four have produced top selling bull and heifer calves and bred heifers in the last four years. Pilot 103P's sire and dam have been top producers at Remitall. Take your pick these four well put together females have the potential to become darn good cows.

107A (136W) exposed April 1 to August 15, 2010 to Remington Final Answer 209T. Due mid January, 2011.

107B (192W) exposed April 1 to June 2, 2010 to LFE Lewis 809U. Due late January 2011.

108A (129W) & 108B (134W) both exposed April 1 to August 15, 2010 to Remington Final Answer 209T. Due mid January, 2011.

BB Alliance 40S was used on heifers and first calvers to add the bloodlines of his great breeding dad, Sitz Alliance 6595 to our herd. His daughters had BW's of 85 to 90 lbs., are very clean fronted and feminine with good dispositions. These four-bred mamas are all from different pedigrees with very good maternal traits. Each brought in top weaning weight calves this year again. Proven producing females with genetic backgrounds should raise you some darn good offspring.

Sale Day Notes

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of the Health of Animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and sold with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint export shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed or to Douglas J. Henderson & Associates Ltd.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on sale day, also from the sale management at any time.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
