BOWERMAN BROS. • WISH BONE

WISH BONE CATTLE CO.

Welcome to the 12th Annual All Black Bull Sale. I hope everyone has wintered well as the fall of 2016 will be one to remember. What looked like to be an extremely long winter turned into a beautiful fall, lasting well into December allowing all fall work to get caught up.

We are very pleased with the bulls on offer this year. With the unpredictable weather conditions we experience in Canada, we strive to produce cattle that are low maintenance, easy fleshing, with great mothering abilities. All bulls in the sale are off of cows that meet these requirements and have proven it for generations. This will be our first calf crop off of our XXP son we purchased from Sinclair Cattle Co. of Wyoming. We felt he would cross well with the time tested genetics we've been using that have worked so well in our program and many of our customers.

With many repeat buyers I would like to thank them for supporting this sale, along with all of last year's bidders and buyers. Please feel free to call anytime or stop by to view the bulls or cowherd.

We look forward to seeing everyone sale day.

Blair and Rachel Brooks

Blair & Rachel

Blair & Brody Brooks with Grandpa Don Henderson

BOWERMAN BROS.

Hello Folks,

Hope this finds everyone well. As the days stretch out we're looking forward to another spring while I manage and run my own cowherd. Blair manages my bull calves with his weaning to sale time.

Blair is an outstanding stockman, with experience and knowledge beyond his years. I am very fortunate.

Our sale offering is the very top of our production. Please feel free to stop by or call anytime.

Sincerely,
Harvey Bowerman

Nugget has been an outstanding sire of superior females and herd bulls. His sons are making their mark in great herds such as GBT Angus, Rinas Stock Farms, Crowfoot Cattle Co., Phil Campbell Ranch, Hill Fire Angus as well as some of the most progressive commercial herds in Western Canada.

Nugget bred natural service for 10 years. He is now deceased.

With daughters in production now we couldn't be more impressed with Admiration. These daughters are easy fleshing and making terrific young cows. The sons carry the same traits as Admiration good footed, long, thick, and deep, most of all the same great disposition.

This bull left his stamp on all his offspring. Long, thick, deep calves with a beautiful phenotype. 9867 was purchased by Stan Lapp in the 2011 sale. When Stan reduced his herd, Harvey had the opportunity to purchase 9867 back along with two other bulls bought out of previous sales. Whether producing market cattle or females to build a cow herd these 9867 sons shouldn't disappoint.

We purchased this XXP from Sinclair Cattle Co. The dam of 3XX94 traces back to the Jorgensen cow Ideal 4465 of 6807 4286 twice, who is the breeds feed efficiency matriarch with more than \$2.5 million in progeny sales. With strong EXT breeding showing docility and the 4465 cow, we felt 3XX94 would leave good uddered easy fleshing daughters. The first year 3XX94 was run with a small herd of young cows so there is only a few of his progeny in the sale.

IDEAL 4465 OF 6807 4286

appears twice in the pedigree of Sinclair X-Plus 3XX94

SINCLAIR EMULATION XXP

Sire of Sinclair X-Plus 3XX94

NESSET LAKE • ISLAND HILL

NESSET LAKE ANGUS

Ivan & Julie Demmans & Family

We are pleased to be hosting our 12th Annual Black Angus Bull Sale at the Meadow Lake Stockyards. We are more excited than ever to bring you our top bull selections and six heifers from the heart of our replacements. This past year has seen some ups and downs in the cattle market but they have since strengthened and back to sustainable prices.

This fall we weaned October 1st. The bulls have been fed a Co-op Feeds Elite Breeder ration and free choice hay. The bulls have been vaccinated spring and pre-weaning with Bovi-Shield Gold One Shot vaccine and Inforce 3 to aid in the prevention of respiratory issues. We experienced a drought this spring and didn't have rain until mid June. The haying season was challenging but managed to get most of the hay up in decent shape. We had good grazing until October 5th when the snow hit and we ended up with close to 2 feet of snow. The bulls did surprisingly well considering they were in muddy conditions for 3 weeks after weaning. The weather warmed up and all the snow left and it was a mild November. We have experienced some unusual weather trends this past year but as always we get through it somehow!

We participated in the Frontline Sale in Moose Jaw on December 5, 2016, and were very pleased with our results. The Frontline group are a great bunch of producers to work with. The week after the sale we did our yearly trip to Montana bull studs and Midland Bull Test in search of new herd sires. All of the AI sires we select have a balance of calving ease, fleshing ability and strong maternal traits. We also stress docility in our cow herd.

Ivan is still enjoying "retired life" but seems to be busier than ever between calving, breeding and haying. We were very excited to welcome a new little granddaughter into the family, as Jenna and Chris had their third baby girl at the end of October - Kaycee Marie! Her older sisters, Madison and Jordynn, are great helpers and little mother hens. They reside in Smiley and Chris is again working in the oilfield industry. They enjoy coming to Meadow Lake to help with branding, hauling cows, weighing, and other ranch activities. Lacey helped full time for our busy haying season this past summer. In September she went on a 5 week trip to Mongolia and Croatia and started working at Meadow Lake Livestock Sales when she returned. This part time position allows Ivan to keep Lacey busy all the other days of the week. She was accepted into the Saskatchewan Angus Youth Mentorship Program in August 2016 and is excited about all the new people she has met and will continue to meet in the industry.

Thank you to all of our past buyers and we look forward to seeing you again this year. Anyone interested in viewing the bulls or heifer pens can stop by anytime for a visit - the coffee is always on. The bull videos will again be available through the YouTube link shown throughout the catalogue.

ISLAND HILL ANGUS

Sheldon & Lori Shkopich

Island Hill Angus has to offer our last pen of Final Answer calves. This sire has built us a great group of daughters over the past few years. They present with good dispositions and awesome udders.

We have decided on purchasing a new herd sire, he is the son of the outstanding Genex bull Double Vision. We are excited to watch these young calves grow and develop. They will be featured in the sale next year.

Our family remains busy, Sheldon is still working at Meadow Lake Mechanical Pulp and Lori is a Clinical Resource Nurse at Meadow Lake Hospital. Our oldest Jade will be finishing her LPN program at Portage College, Kira is in her second year at Lakeland College enrolled in the University Transfer program for Elementary Education and Cassidy will be graduating from high school, and will be attending the University of Saskatchewan in the fall. Emery is in grade two and loves her gymnastics and violin. Beckson is now three years old and loves to feed cows and be with his dad in the tractor!

Don't hesitate to call and ask questions or feel free to stop by to see the cows. We look forward to seeing everyone at the sale.

Sheldon, Lori, Jade, Kira, Cassidy, Emery & Beckson

This is our first set of calves out of Tour of Duty. We saw him on the Billings tour and were very impressed with his length of body and straight top line. It is very seldom that you will find a bull with this much length and natural thickness. We are recommending this set of bull calves for cows to add length of body and thickness that will translate to dollars in your pockets.

We saw this bull on our first tour down to Billings in 2012 and were very impressed with his natural thickness and muscling. Powder River calves born at our place are always the ones that catch your eye. They have been the heaviest calves at weaning since we have started using him.

Without a doubt the best calving ease sire I've used since Final Answer 035. We had to put down Sequal in the fall of 2015, but we are fortunate to have over 400 straws of semen left. We've had nothing but positive remarks about the Sequal progeny.

We saw this bull at Genex Stud - I was very impressed with his masculinity, feet and legs, and muscle pattern. This is our first set of calves and we are very happy with what we have seen so far. His dam is a Connealy Thunder daughter which was a calving ease bull with strong maternal traits and noted for good feet and legs. After trying a few straws the first year, we AI'd 40 heifers to him this past spring.

A Final Answer grandson that we kept back for back up and used him for clean up on a set of heifers when the other bull was injured. We retained him as he was out of a line bred Rito 8K4 dam who was perfect footed and had a super udder.

ANNUAL BULL SALE

We invite you to join us for lunch before the sale

Notes

Terms & Conditions

CONDITIONS AND GUARANTEE: All entries sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute whatever, regular

TERMS AND CONDITIONS recognized with Sales Management shall apply, and in accordance with the Canadian Aberdeen Angus Association Code of Ethics.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

EVERY ANIMAL: Sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received.

ALL PERSONS: Who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

Please bring this catalog with you to the sale

REMEMBER:

- Free Delivery on bulls up to 300 miles, the rest at the cost of fuel.
- All bulls will be kept until May 1, 2017 at no cost to the buyer.
- Bulls must be insured for death loss.
- \$150 Credit per bull picked up on Sale Day.
- Sale weights and scrotal measurements available Sale Day.
- Practical, Predictable and Profitable - Conception to Consumer.

EPDs:

- Expected Progeny Differences are values that predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed.
- Are expressed in the units measured of that particular trait. For example, weaning weight is measured in pounds thus the weaning weight EPD is also expressed in pounds.
- Allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management.
- Are the best tool available to compare animals between herds, countries and year of birth.
