Dear Friends,

Welcome to our 14th Annual Bull Sale. Again we are very pleased to be working with the staff at Meadow Lake Stockyards Ltd. It is starting to look like we have seen the bottom of this cattle cycle and are turning the corner to a more profitable future. Through these ups and downs, Black Angus sired calves and feeders bring strong interest and good premiums. Our goals have never wavered, we have always selected very efficient, moderate framed, structurally correct cattle, keeping all traits in balance. For the optimum and efficient production of high quality beef.

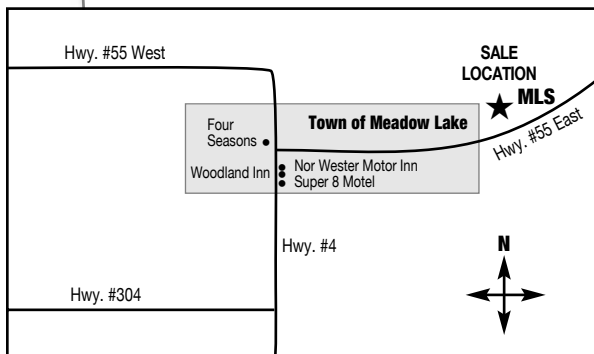

This year our good friends and partners, Vee Tee Angus will be holding their own bull sale closer to home, April 9th at Heartland Livestock in Lloydminster. We will continue to work very closely with them and wish them good luck.

Remember if you have any questions, or can't attend the sale please give us a call or Brent Brooks or Doug Henderson and we will be happy to assist in any way.

We wish everyone a great calving season.

Sincerely,
 The Bowerman Family

*P.S. Roast Beef lunch will be on at 12:00

EPDs:

- Expected Progeny Differences are values that predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed.
- Are expressed in the units measured of that particular trait. For example, weaning weight is measured in pounds thus the weaning weight EPD is also expressed in pounds.
- Allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management.
- Are the best tool available to compare animals between herds, countries and year of birth.

BLACK ANGUS BULL SALE

NESSET LAKE ANGUS

Ivan, Julie, Jenna & Lacey Demmans
 Box 225, Meadow Lake, SK S9X 1Y2
 PH: 306-236-6058 Cell: 306-236-8086

Our 5th Annual Bull Sale is once again being held at the Meadow Lake Stockyards. We are excited to bring you our top bull selections and a select group of heifers from the heart of our replacement pen.

The bulls have been fed a ration of 14% range pellets and free choice hay. We feel that these top end bulls in the sale have excelled at a high rate of gain on this ration. The bulls have been vaccinated spring and pre-weaning with express vaccine. The AI sires we have selected have a balance of calving ease, fleshing ability and strong maternal traits.

Our cows swath graze until mid-January so we select for low maintenance cattle. We run a family operation so temperament is also an important trait in our herd.

We would like to take this opportunity to thank all of our past buyers and look forward to seeing you again this year. We invite anyone interested in viewing the bull or heifer pens to stop by for a visit, the coffee is always on. See you on sale day.
