

Featuring 73 Bulls from:
J Bar B Polled Herefords
Newton Herefords
BJ Cattle Co.
Anderson Ranches

SATURDAY
DECEMBER 3, 2016
1:00 PM
BALOG AUCTION,
LETHBRIDGE, AB

Welcome to:

The British Connection Bull Sale

**73 Lots *consisting of*
Black Angus & Polled & Horned Herefords!**

Fellow Cattlemen:

What an exciting new sale, with four outstanding long time reputable breeders!

The British Connection Bull Sale gives all cattlemen, commercial and purebred, the opportunity to buy into a genetic pool that will take your own program to a higher and more profitable level!!

Polled and Horned Hereford genetics, and Black Angus genetics, coming from successful breeders who have spent a lifetime breeding cattle for the Industry.

We have had the pleasure of working with each member of this sale for many, many years!!

Their long standing commitment to the industry is strongly shown by the many repeat buyer's who have seen the continued success of using British Connection Bulls!!

Take advantage of a good common sense group of bulls that are backed by strong, reputable breeders.

Great Opportunity – See You At The Sale!

Respectfully,

R.C. (Bob) Balog

Terms & Conditions

Terms – The terms of the sale are cash or cheque payable at par to Balog Auction Services Ltd. at Lethbridge, AB, on Sale Day. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

Bids – Every animal entering the ring will be sold to the highest bidder.

Disputes – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

Announcements – Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

Certificate Of Registry – A certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.

Health – All animals in the sale have met all necessary health requirements. All will be guaranteed eligible for US Export.

Semen Interest - We as breeders reserve the right to draw in herd semen use on any bulls sold in this sale at our expense and buyers convenience.

Breeder's Guarantee – Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association and Canadian Hereford Association with regard to health,

freedom from defects and from both reproductive and specific genetic unsoundness. All Long Yearling Bulls will have been Semen Tested prior to the sale.

Accidents – Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor any owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

Liability – Balog Auction is acting as agent only and assumes no responsibility for representations made by seller. Purchaser must look to the seller for fulfillment of all guarantees and representations made hereunder.

Wintering, Export, Delivery or Sale Day Pick Up – All bulls can go back to the consignors for wintering with delivery starting March 1st. If the purchaser takes his bulls home from Balog's on sale day there will be a \$200.00 per head discount. Assistance will be given loading these purchases out after the sale is over. If you can take delivery of your bulls within a couple weeks following the sale there will be a \$50.00 per head discount. Delivery is free in Canada up to 300 miles, at cost after that. Bulls exported to the US will be taken back to the contributors for testing and delivered to the Sweetgrass Port of Entry. Any additional expenses including duty, brokerage fees, testing, transport from the Port of Entry, etc. are the responsibility of the buyer. Purchasers are requested to furnish shipping, wintering and delivery instructions when making settlement.

Insurance – We recommend insuring all of the Bulls purchased. All bulls being wintered by a contributor must be insured.

It is with great pleasure that all of us at J Bar B welcome you to our inaugural bull sale. We have a few philosophy's here, but we try and keep one in the front of our minds at work. Keep it simple. We use this theory as we select bulls and cull females from the herd. Simply, if a cow isn't pulling a top calf in, or needs extra attention she is not good enough to be your new bulls mother. We are in the same boat as all of you, lots of things to get done and little time, and help, to do it. We are excited for our loyal customers to join us on sale day. We can assure you, neither, our bulls nor our service will change with a new structure. We are equally excited to be able to display our cattle to a different audience than we might get on the farm. If you have any questions or we can assist you in any way, please feel free to call or visit the bulls prior to the sale.

Welcome to the first annual British Connections Bull Sale. We are proud to be a part of it. Our family has raised registered Herefords since 1944. We have always managed our place much like most commercial places - the performance of these cattle is very attainable in most operations. We have successfully shown and sold bulls in Calgary, Lethbridge and Medicine Hat. We appreciate the business and social relationships we have garnered at these sales. Our entire group of coming two year olds are offered in British Connections. They have summered on grass and been brought along with their future in mind. We look forward to seeing you on December 3!

We would like to welcome everyone to the British Connection Bull Sale! Jody and I along with our two boys Cody and Logan are currently running 75 head of Black Angus and Horned Hereford cows! We enjoy raising cattle that have great performance and lots of muscle, while maintaining a sound functional mother cow that will last for many years! I hope you take the time to come and analyze this outstanding group of performance bulls, along with a great group of heifer bulls! All bulls will come back to our place to be wintered gently, and be delivered to you in breeding shape after they have passed there semen tests! Feel free to call or come to the ranch at any time to view the bulls along with the mother cows and herd bulls! We look forward to visiting with you and seeing you at the sale Dec.3!

Here are 3 full ET brothers that are sure to catch everyone's eyes on sale day! The meat, muscle, length and sheer power is tough to over look! There dam Jilt 7091 has been the most consistent cow we have ever owned! She is also the sire of Bulldozer so you will get to see a big group of progeny all out of this great cow. This cow has raised more high selling herd bulls, more bull sale champion's than any cow we own! Tour of Duty is a bull that people from all breeds fell in love with as he is a bigger, more powerful bull with a foot that the breed needs more of today! The guess work is done I know these guys will do the job! If you need a new herd bull or need 3, you come and be the judge, buy one, 2 or buy them all... they are that close!

NETHERTON BLACKBIRD B172

Selling 50% interest & 50% possession

Danger Zone has been a stand out since day one! Danger Zone is the result of some embryos that we imported from Netherton Angus in Scotland! Between his dam Blackbird M712 and Grandmother B172 have combined to win 4 major interbreed shows and sell for record breaking prices in Scotland! Rommel his grandsire was a major performance, heavy muscled bull that sold for \$70,000 ½ interest! Then you move to his sire Admiral, he is in the top 10% of the breed in 15 Traits in Performance, Carcass, Milk, and Docility figures with over 4000 progeny analyzed, no wonder he has led the Australian registrations for years! Many reports say Admiral Daughters are as valuable as Right Time daughters in Canada! With Danger Zone's huge bone, heavy muscle, and sheer performance he will be a huge part of our program moving forward!

Here is a 3/4 brother to Lot 46! You can see the consistency in the low BW. Again this guy is built to calve and has some muscle and substance to go with it. His grandmother is a daughter of Final Answer who is also a very high recommended heifer bull out there.

We feel this guy has a lot of growth, length, thickness, and overall balance! He is double bred to one of the strongest producing cow lines we have! His sire was a popular bull in the barn at Medicine Hat Bull Sale, with his dark color, nice pigment and outrageous muscle shape! He was purchased by Ovalyn Ranching and was one of our high sellers!

We would sincerely like to thank the Newton, Lutz and Scheirlinck Families for inviting us to be a part of the first British Connection Bull Sale. Not only do we have a high respect for their role in raising honest, top quality cattle, but we consider them friends as well. We also look forward to seeing some of the familiar faces that became regulars at our over 30 years of having our own sale. We also feel privileged to count you among our friends. We also look forward to meeting several more of you. For over 60 years our Ranch philosophy has been the same. Raise sound, practical, low maintenance, profitable cattle that work in a wide variety of environments. We've never chased fads, we cull hard, use common sense, total performance data and ultrasound to build our herd. Approximately 250 Registered Females are being bred annually. Only 20-25 bulls are being kept annually. That means ONLY 20%-25% OF THE BULL CALVES BORN MAKE IT AS BULLS and ALL of them will offered in the British Connection Sales. We invite you to come inspect the cowherd anytime and we look forward to seeing you all December 3!

3C is a moderate frame bull that we used on a group of our own registered cows this past breeding season.

His sire has been used in several top purebred herds. 3C combines top performance, balanced numbers in a smooth made, eye appealing package. His dam is a heavy milking, easy doing SCRIPT daughter that has one of the best bulls in the yearling pen again this year. 3C is a little greener than some of the bulls as a result of being used. **Pigment: RE: 80% LE: 100% Scrotal: 100% We will be keeping an In Herd Semen Interest.**

We've had a few buyers request dehorned bulls so we dehorned a few at birth. 6C is a stout made, heavier boned bull with lots of performance and depth. His sire was used on heifers as a yearling and then sold to the good commercial herd of Craig Smith. The Harland breeding top and bottom in his pedigree should assure that 6C will add milk to any program.

Here is another of the bulls we used on our Registered Heifers so he may be a little green.

126C is built right for calving ease, has lower birth weight with low birth weight genetics, but still has well above average weaning and yearling performance and is solid marked with goggle eyes. We always stress the Maternal side of our heifer bulls and this guy again comes from one of our top cow families. The dam's second calf is one of the top bulls in the yearling pen. **Pigment: RE: Goggle LE: Goggle Scrotal: 100%** We will be keeping an In Herd Semen Interest. Recommended For Heifers

127C is a correct made bull that is hard to fault looking at him from any direction. He excelled in the Carcass Ultrasound with a 108 Index for REA and Marbling and has one of the lower birth weights and birth weight EPD's. There is a lot of size and length in the cow family along with generations of solid markings and pigment.

129C has great individual performance with a 110 Weaning Index and 111 Yearling Index.

His Performance, Maternal, Total Maternal and Marbling EPD's all excel well above breed average. As an Individual, he had one of the highest Marbling Ultrasound scores in our offering. With her third calf in the yearling bull pen, the dam has had three top bulls in a row and is making her mark in our program.

Another bull that could easily be called a Feature Bull. 133C is very complete in his make up from his sharp clean profile to his depth of body, strength of quarter and strong top. He has top individual performance and a great set of EPD's. His dam hasn't missed producing one of our best two year old heifers and a top bull calf in the yearling pen. **Pigment: RE: Goggle LE: Goggle Scrotal: 100% We will be keeping an In Herd Semen Interest.**

If you like those big, long bodied performance cattle that always push down the scale here is a bull to look at. He has great individual performance and his Performance and Feed Lot Merit EPD's are in the top 5% of the breed so he should pass it on. As a bonus he had one of the top Marbling Scores. His dam has a top heifer calf with her second calf. **Pigment: RE: 100% LE: 100% Scrotal: 100%**

Terrific performance and a very balanced set of Breed Leading EPD's in this eye catching young bull. Note that his weaning and yearling weights are both near the top of our offering. His Sire was used on a group of our Registered Heifers before we sold him to Wade Conway. The dam's second calf is an early pick for us to use in our own program as a yearling. This could be a buy in our offering, note his birthdate. **Pigment: RE: 100% LE: Goggle Scrotal: 100%**

Every sale seems to have a sleeper in the group that someone gets a great buy on and this could be ours. 165C is only a May bull, but fits right in the group in every way. He has a moderate Birth Weight with well above average performance and a very nice balanced set of EPD's. He is easy to look at, stout built over the top and down through his hind quarter, solid marked with pigment and clean made. **Pigment: RE: 100% LE: 100% Scrotal: 100%**
