Greg Pugh - AAA President

TERMS & CONDITIONS

Terms of Sale - Cash or cheque payable in Canadian funds. The right to property shall not pass until after settlement has been made. All settlements must be made with the clerks of the sale before cattle will be released unless prior arrangements have been made with the seller.

Bulls are sold with a "Responsible Breeder Guarantee of Satisfaction". In the unlikely events of a dispute, the regular terms and conditions standard with the applicable breed association shall apply. In any case, the seller is not responsible for more than what the bull sold for at the auction mart.

Purchasers Risk - Each Animal becomes the risk of the purchaser as soon as sold. Insurance will be available Sale Day.

Liability - Purchasers must look to the seller of the animal for fulfillment of all guarantees and representations made hereunder. Provost Livestock Exchange are acting as agents and assume no responsibility or representations made by the seller.

INSURANCE

Larry Toner - Stockmens Insurance:

Phone: (306)932-4866 | Cell: (306)834-7652

Kolton Kasur - Canadian Farm Insurance:

Phone: (780)447-3276 | Cell: (780)387-8376

DELIVERY

We will take the bulls home, feed, and deliver them free within 150 miles. We will start delivery around April 15th and work with you to get them to your yard or pastures. If you are unable to receive your bull at that time there will be a \$2/day feed charge from that point on. Any bulls coming back to the ranch MUST be insured.

SIGHT UNSEEN PURCHASE PLAN

We look forward to seeing you on Sale Day but if you cannot make it and wish to participate, please call any of the sale staff or sale contributors with your selection criteria and price range and we will try to fill your order.

All bids will be kept in strictest of confidence.
Your "Satisfaction is Guaranteed"!

FROM **PEDERSEN
LIVESTOCK**

OUR PROGRAM

Our cattle run in the Battle River Valley so structure is key as they have to walk up and down hills grazing and for water. We don't pamper our cows; they run like our commercial herd, on grass as long as possible then bale grazing until calving. Our cows don't get second chances, they raise a quality calf and come in bred on time or they go down the road. Our aim is to have cattle that are functional and sound for a very long time, easy doing cattle that convert feed into pounds while catching a grade. We use the best sires we can, through both AI and natural service and use embryo transfer to increase our rate of genetic advancement. We work with the Lloydminster Animal Hospital to provide a complete herd health program.

PED 28C sired by 'Prince' 2016 -
Grand Champion Female, PV 4-H Club owned by Holly Wright

Showing with our MJT friends
at the 2016 Stockade Roundup!

Dear Friends

Well it's that time of year again! Bulls are clipped, new babies are hitting the ground and we are hoping for a break in the weather to get pictures done. We came off the strongest cattle market we have ever seen last year and this past fall seemed to be a disappointment from the fall of 2015 but was still very strong. We saw the third or fourth highest prices ever and demand seems to be strengthening. The market seems to be stabilizing and I feel we are about to look forward to a strong future. You may find that I have a lot to say about the mothers of these bulls while reading through the footnotes. We are very proud of the herd of cows we have put together and are very selective for maternal traits and longevity. Through the use of embryo transplant and strict culling and sire selection we are very pleased with the direction of our program. Rest assured that these bulls come from mother cows that are sound and productive with tremendous udder quality, efficient in their production and carry themselves in good condition while producing a top end calf. We feel that behind every good bull is a good cow. When we select our herd bulls we always want to do our homework and see their mother. We are sure you probably feel the same way. Come for a tour and check things out or if you are busy and can't get away please pick up the phone and don't be afraid to ask us any questions. We know our cows and can give you more information to help with your selection. We are very proud of the offering we are bringing forward to you this year. We feel this is by far the most consistent set of bulls we have ever brought to town. They are very similar in not only quality but in type, frame and performance. You will notice that there are many $\frac{1}{2}$ and $\frac{3}{4}$ brothers in the sale this year and feel this provides you with an opportunity to put together a group of herd bulls that will create a very uniform calf crop. The bulls are being developed along nicely this year on a whole oat and barley silage total mixed ration. As always these bulls are fully guaranteed and if for some reason there is an issue we want to be the first to know. We always carry spare bulls and will have one to get your cows bred should an issue arise. We would like to thank all our past bidders and buyers that have shown support of our program. We are always striving to move our program forward through selection of breeding genetics as I am sure you are also. Hoping that your past purchases have worked out for you

and if you are for some reason not completely satisfied for some reason please let us know so we can make it right. Satisfied customers make for repeat customers and we want to see you back. There are many people that help us throughout the year at the shows and at the farm and we couldn't do it without you. We really appreciate the help; Dylan, Randy, Christina, Tyson, Riley, Cheyenne, Brant, Allen, Jeff, Lyle and Doreen. Thank you for all that you do! Please join us on March 7th, 2017 at Provost Livestock for a visit and see some great cattle. If you are unable to attend we will have videos on our website to help with your selection and please don't be afraid to contact us with any questions, the sale will be live on DLMS once again as well. You are always welcome to stop by the farm to take a look at the bulls as well & you may find some cinnamon buns waiting. We would love to help you find the bull that fits your needs.

A bull we have used extensively in our AI and Embryo program. Resource is known for siring cattle with tremendous growth and muscle shape in a moderate from. He is known for being a foot improver and having daughters with terrific udder quality. His sons show signs of early maturity and big scrotalled. He is a real curve bender with added maternal merit built in. He is also the sire to our great JL Source herd bull. He now has over 1000 head registered in the Angus herd book and is very consistent in his production.

In 2015 I travelled many miles to look for our next great herd bull. We wanted a bull that would be a foot improver with big time performance and muscle shape, one that had a ton of fore rib, big middle and most importantly backed by a terrific mother with a history of good production and efficiency. I found what I was looking for at Johnson Livestock and the search was over. He has an EPD profile that will blow your mind. He was one if on the highest YW bulls in Canada that year. We were lucky enough to partner with Clifford Land and Cattle and got him bought as the high seller that day at \$19,000. We had to stretch to get him but we weren't going home without him. We are very pleased with this being his first calf crop up for grabs. His first and only daughter to go on offer was Pedersen Undiscovered 301D and was a high seller in the Fall Fusion Sale to our new partners at Avelyn Angus and Goad Family Angus. We can't wait for his daughters to enter into production here.

The 2015 National and Farmfair Reserve Champion Senior Bull. We found this great bull down at the great herd of Bar E-L. He is an own son of the two time Agribition champion, Southland Thriller, who is known for producing terrific females. He is a real power house with a terrific front end and awesome feet and legs. He received many compliments from those that saw him, amazed at how a bull with his mass and muscle could move out so freely. He sired Pedersen Confidence 39C our high selling bull last year at \$16,000 to Grant Lodge and Diamond B. The only female we have ever offered up from him went to Wiwa Creek out of the Angus Collection sale as our high seller as well.

Bulldoze was our 2014 high selling bull to Clifford Land and Cattle and we were fortunate enough to buy an interest in him back to use ourselves. He has not disappointed. We have used him on our heifers each year and he has calved out nicely. His calves have extra hair and are a very consistent group. They are moderate in frame but have wide tops, big hips and nice headed. His mother 184S is a donor cow now for us and has produced a tremendous set of females from her first flush. Unfortunately, we lost him this fall due to a stifle injury but we will continue to use him in our AI program. We think his daughters may be his true legacy

A bull from Express Ranches that we used in our AI program as well. His calves come moderate at birth and are very extended in there front one third. He has some terrific carcass numbers behind him and produce cattle that we feel will really yield up well. Be sure to look up his lot 335D son in the sale, he is a real looker. His sons have lots of muscle shape and style to them and are very long sided individuals. He is sired by Sitz Upward who took the Angus industry by storm a few years back. We only used him a little bit so the offering is limited but the quality sure isn't.

Our only 2yr old bull in the sale this year. He is most defiantly not a leftover. We showed Copenhagen as a calf and he would have been a sale feature last year. He was part of our string of bulls that went to Camrose Bull Congress and when we returned home he got pushing with other bulls and ended up with a mild injury. We were tight on bull power so we decided to pull him from the sale and use him ourselves. He recovered perfectly and bred fine for us in a cleanup role. His mother was a beautiful female that we also were proud to exhibit in the past and had high hopes for but unfortunately lost her as a young cow. Here is a real Herd Bull!

We are very impressed with the results from SAV Resource in our program as well as in many others in the industry. He breeds true to his type; easy fleshing, early maturing, with lots of shape and moderate frame. This calf is a real powerhouse from a real nice made Alaskan Daughter. He is the type to bring in the heavy calves. Check out his EPD profile, being in the top 10% for WW, YW, total maternal, and Carcass weight. This combination of Resource and Alaskan will give you powerful calves that you will want to keep every female from.

We used Upshot a bit in our AI program and really appreciate the way he calves. His calves are long sided and quite extended through their front third. They exhibit ample muscle shape and spring of rib as well. From a Bando daughter that we just cannot say enough about with their sound feet and udders and being very efficient.

Our anchor bull calf in our show string this fall. He was a finalist in the Angus Division of King of the Ring at Stockade as well as a division finalist at Farmfair International. We really admire the amount of red meat he is full of. Lots of natural shape set on a tremendous hoof with lots of heel that Unanimous is known for. His dam is a moderate female that has a tremendous udder and is an ideal angus cow. The type that will raise the good ones for many years.

This is Trigg's Bull 'Stone' and he is awfully proud of him. An embryo calf from a flush of our great 239P donor who is the dam of our high seller last year, Pedersen Confidence 39C, that went to Grant Lodge and Diamond B at \$16,500. As well as a high selling heifer to Julie Sharp at the Northern Select Sale. Sired by the performance leader RB Tour Of Duty bull whose EPD profile is taking the industry by storm. These flush mate bulls are performance driven individuals that will add pay weight to your calf crop.

A Source son that can run with the heifers or the cows. He came into the world at a modest birth and has the shape to calve like a dream. This poor fella had the misfortune to lose his mother to a hernia in June and has been on his own ever since. He did well and doesn't appear to have fallen behind. Just imagine what he would have looked like with a full summer of mommas love and attention. We feel he has a lot to offer.

This happens to be the only son of our Prince 1Y bull this year. We are over the moon with the set of females that Prince has left. They are real foundation females; sound, efficient, moderate and beautiful udders. This calf is out of a terrific heifer we bought from HR Hahn after touring there in the summer and admiring the entire Lady Ruth cow family. This is a bull to use in either pasture. He has the low birth and smooth front end to use in the heifer pen and the performance and mass to keep production moving on the cows. Check out his numbers! Trait leader right across the board. I challenge you to find one with a better set of EPD's.

Tour of Duty - Sire

Another of the Tour of Duty Embryos from old 239P. We simply cannot say enough about this good old cow. Her feet are still absolutely deady at 12yrs old. We have flushed her numerous times now with terrific results. This calf is sure to push the scale down with his performance and are sure his calves will do the same. He looks like he will add a little more growth potential to his calves.

Another calf we exhibited this fall and found some friends. He is moderate in his frame but huge in terms of dimension, rib and muscle expression. We all want to raise those big round muscled steers that make the order buyers jump to attention. This bull will do that. Even better, look who his granddam is..Old 239P strikes again. Check him out sale day!

The lead off Upshot calf in our opinion. This guy may be a little short on one ear but he sure isn't in short on quality. He is smooth shouldered and extended in his front third. The Upshot cattle have lots of hair and he is no exception. His two year old dam did a terrific job on her first attempt and we look forward to her future production. This guy is packed full of weaning weight performance and will pass it on to his calves.

PED 2W - Dam

I could write a page full on this guy's dam. She has raised us five top end bull calves in a row. Last year's high selling two year old to Brad Schmidt, a high selling yearling to Ross Wilson as well as a lead bull in 2014 to Roxanne LaChance. His mother 2W is a model angus female with a picture perfect udder, moderate in frame, easy fleshing and very efficient in her production. His sire Vision Unanimous is building quite the reputation for siring sound footed cattle with added depth of heel. Expect no less from this calf.

This could very well be the feature Resource son in the sale. From an outstanding young Happyvale Total 22N daughter that just keeps giving us top quality calves. Her first calf was the champion Black Angus and high selling heifer calf in the Headliner sale to HR Hahn Cattle and last year her heifer calf sold through the Angus Collection sale to Johnson livestock. This bull could very well be her best coupon yet. He is simply right from every angle and has been a pen favorite by many who have toured.

After seeing some other AAR Ten X sons at other operations we decided he was a bull we should introduce into our AI program. He, like this calf, calves easy and will produce top end females. They have more than ample hair which is a trait when we have conditions like we do now. From a nice made young cow we brought out from Ontario that is turning into a wonderful moderate cow. A bit of an outcross option here!

This guy had the misfortune of loosing his mother this summer. He didn't seem to get held back too much and has developed along nicely all on his own. His mother PED 270B may very well have been the most exciting female we ever had the pleasure to exhibit. She was an absolute pleasure to work with; Gentle in her nature but extremely powerful in her makeup. We took her to many shows and she only missed one division final in her entire show career. This guy will be a heck of a producer.

A very powerful cow bull here. He has the herd bull look with early maturity. One of those calves that just knows he is a bull at an early age. He has a brother working for Andrew McCrae at Vermilion. The Muchmore sons have added performance and will leave you with tremendous females. We are calving out his first daughters and are over the moon with their level, tidy udders.

This guy is sure to push the scale down and will raise exactly that; scale pounding calves. Muchmore offspring all have that added length of spine and added growth potential and this calf exhibits exactly that. From a broody cow that came from Wildmere when we bought their great herd. She combines both Bando 64T and Total 22N in her pedigree both of which I can't say enough good things about.

This is our old 58S donor cow's calf. His mother has done as much for our program as any cow we have had the pleasure to own. Every single year we have shown either her calf or a descendent of her in the fall. She now has 16 registered calves in the angus herd book and counting. He has maternal sisters at HR Hahn and Battle T angus as well as a high selling brother at Amarillo Ridge. This calf knew he was a bull from an early age. I haven't seen many calves with the early maturity that he exhibits. He began to crest early and am sure he will have lots of libido and know what to do with it.

This was 184S' natural calf. He is a little younger as we flushed her first cycle and then she rebred right back to produce this fella. He is not only a maternal sibling to our Pedersen Bulldoze 296B but also to the Resource daughters we showed this fall. He has a maternal sibling that went to the Weenekamp family that has a very promising future, as she already has a history of success in the show ring. This bull is backed by maybe the most phenotypically pleasing female in our herd and a favorite by many that tour. Take a look at him he has a strong future with the pedigree to back it up.

Out of a first calf heifer we bought from our good friends at K-Cow Ranch. She did an admirable job on her first attempt and has an udder that will last a lifetime. Can't say enough about the type of females these Bulldoze sons will produce. They will be moderate and efficient with lots of hair that we all want to see on a calf crop. This guy is smooth shoulders and long fronted with a nice scull to calve like a dream. Turn him out with your heifers and have a nice set of trouble free calves.

The youngest calf in the sale this year. Just a March calf. He is moderate in his frame but huge rib and wide topped. He has a lot to offer in terms of his fleshing ability that he will pass on. He will produce you a set of calves that will covert pounds of gain on very little.

Welcome

FROM

**WJ SIMMENTALS
& BIG JOHNSON
CHAROLAIS**

OUR PROGRAM

We farm on the original Johnson homestead that was settled in 1906. Our son Wyatt is the 5th generation on this farm. Our land base is around 2500 acres of grain, pasture, and hay, plus we use the the community pasture in CFB Wainright. Around 2007 Wyatt decided to take his 4-H money and purchase some Simmental cows and heifers. Bernice and I decided to jump on board and purchase some as well, thus the creation of WJ Simmentals. The foundation of our herd came from XXX Farms, Campbell Simmentals, Siam Farms, and Grinalta Farms. Our Charolais herd also started with bred heifers from XXX Farms. Over the years we've had a small backgrounder program of around 300 head in the winter. In the spring we would buy heifers and sell them as breds in the fall, thus giving us lots of experience with many different aspects of the cattle industry.

Dear Friends

Welcome to the 4th annual Built Right Bull Sale. This past year has been one most of us will be a long time forgetting. In the end it turned out to be good with lots of feed and excellent yields and we are very fortunate and thankful for that. I would like to take this opportunity to thank my wife Bernice for everything she does. None of this would be possible without her working beside me day in and day out. We would also like to thank Justin for feeding and all the welding jobs he does improving our handling facilities. Another thank you goes out to Dylan, Randy, Dwyane, Ken and Christina for clipping our animals and making them look their best. We focus our program around raising functional cows with good feet and udders that are efficient and can handle the large ranch environments that many of our customers have. Our bulls have all had Bova Shield Gold with one shot plus 7way and Ivomec both in the spring and again at weaning. We feed a TMR of oat silage and starch free pellet from Country Junction Co-op. We stand behind what we sell and for some reason you are not happy then we aren't happy and want to be the first to know. We keep spare bulls in case of emergencies and will supply you with a bull if so needed to get your cows bred. Here's hoping 2017 will be your best year ever and the grass will be a plenty and your bins overflowing.

Our senior Polled Fleckvieh herd sire. He consistently gives us bulls in the top end of our bull pen as well his females have turned into very good footed cows with tidy udders and small teats with ample milk and good temperaments. We bought him as a High seller from Fleck Equation a few years back now. Granite is now 7 years old and still has excellent feet and is very sound.

Garth is a bull we purchased from South Holden Simmentals. We wanted to buy back a son of our bull WJS Label Me Teddy that Garth and Jim purchased from us. Label Me Teddy has worked very well for the Fleming's. When we saw 50Z in South Holden's pen at bull congress we knew we had to own him. He calves very well for us and we used him on our heifers pen. His calves seem to have plenty of thickness and style to them.

Where do I start with this guy! We can't say enough about him. His females, WOW are they good. Absolutely perfect udders and tiny little teats, they are easy keepers and excellent moms and extremely fancy. His bulls possess his same style with ample muscle and lots of hair with excellent temperaments. We are super excited with the future of our black herd with females of this quality entering our program.

JDF Bartender 25B. We selected Bartender out of Jaydawn Farms bulls sale on the recommendation from Mark Shologan. We don't typically buy bulls sight unseen but time could not get us up there and having known Mark for years we trusted his opinion. We were hoping for a bull to complement Encore and use on our Encore females. When Jason showed up at our farm and he walked off the trailer, we more than excited about what we had done. Bartender breeds true to himself also adding some power and a touch of frame to his calves, but not comprising calving ease. The combination of WinMans Lanza and Jaydawns flush cow JDF Fairytale is a dynamite combination and I must congratulate Jason on his wisdom for putting that combination together.

SOS TopGun 20B, When touring the bull pen at Springside Farms, TopGun really caught our eye. We were so impressed how his small head and smooth shoulders could tie into is impressive deep and round rib cage so naturally. The long wavy hair and huge testicals and not to overlook his huge feet and excellent leg structure really had us interested. Mike then took us for a look at his mother and seeing her and what an exceptional cow she is sealed the deal on him for us. He passes all the things we truly love about him onto his progeny and he will be a part of our program for years to come.

We were fortunate enough to find Encore in 2014 at Farm Fair (thanks to Kurt) Soon as we seen him we knew that he was the bull we need! Encore has won almost every show he has entered. He was champion at Fort Worth, Denver, Olds, Agribition, Farm Fair, and a supreme finalist at Agribition and Farm Fair where he missed winning the truck by a couple points! Encore is backed by maybe the strongest cow family in the Charoilais breed right now. His combination of calving ease and performance makes us able to breed him to our heifers successfully, but yet his calves have plenty of performance!

	90	854	1185		3.6	80.9	105.1	25.7	-0.2

WW 901 Aug 25th - When this thick bull has his first calf he will have an outstanding udder. Confused?? It's always a topic of discussion around the coffee table if footnotes are actually read. If you have read this and see the mistake call me. Everyone that does will get entered into a draw and one lucky person will get a \$250 credit towards one of our bulls.

SIGHT UNSEEN PURCHASE PLAN

We look forward to seeing you on Sale Day but if you cannot make it and wish to participate, please call any of the sale staff or sale contributors with your selection criteria and price range and we will try to fill your order.

All bids will be kept in strictest of confidence.

Your Satisfaction is Guaranteed!

WW 901 Aug 25th - DURAMAX is one exceptional bull. Probably the best Fullblood bull we have raised. He has thickness, big square hip, dark red color, rib shape and excellent leg structure on a very nice big hoof. Check out his 365 day weight at 1521lbs. Everyone that has seen him here has been truly impressed. His mother Camp 40u has been a great cow for us. Her bulls have always been the top bulls in the pen. Just about every year that we have been to Bull Congress in Camrose she has had a son in our string, the kind of cow you can breed to anything and have a great result. This cross with TOTAL VALUE has turned out to be her best and we are very excited for the future of this HERD BULL prospect. We are retaining 100 straws of in herd use semen to be done at our expense and the buyer's convenience.

WW 863 Aug 25th - This blaze faced Bolt son is a pen standout. He has had the herd bull look to him from an early age. We have had numerous people ask about who he was from merely driving by him on pasture this summer. Very smooth in his makeup and long as a 747 this guy puts it all together. Nice topline and a good hip round out this bulls highlights. His Sun Star Guardian dam is real good with her flawless udder and sound foot. We feel he has HERD BULL potential and are considering the option of using him in our program. Details will be announced sale day. We are retaining 100 straws of in herd use semen to be done at our expense and the buyer's convenience.

WW 808 AUG 25th - This guy is this year's MELLOW YELLOW. His dam is a double polled cow and with Granite also smooth polled it was a surprise to us when during spring vaccinations we found some little buds. As with one earlier we pasted this guy and marked him down as horned. He could have very well just been scurred so don't be surprised to see polled calves out of him. He would work very well on a herd of char cross cows to give you the tan calves the buyers love, with the benefit of hi bred vigor over using a red factor Charolais.

WW 921 Aug 25th - Double Down is a bull we are quite proud of. Part of our pen of three at the Alberta Select in December, he also has been shown at the Vermillion Fair this past August and the Highway 13 Cattleman's Showcase in Czar. He is a very complete bull and backed by one of our very best cows. A definite herd bull prospect.
