CATTLEMAN'S CONNECTION

Bull Sale

Friday, March 4, 2016

**Heartland Livestock
Brandon, Manitoba**

Grant Rolston

DjH

The Cattleman's Connection Bull Sale has sold a tremendous number of good bulls in the past twenty years. Brookmore Angus, Jack and Barb Hart have been some of the most dedicated Angus breeders in Canada, their breeding program has produced bulls and females that have gone across Canada and into the U.S.A. The Brookmore name is known internationally. It is little wonder that when HBH started their Angus program they selected so many Brookmore females for their elite herd.

Whether you are looking for calving ease for heifers or performance bulls for your cows, these two programs are producing it all, moderate birth weights, explosive growth, muscle shape, volume and style with strong maternal traits. These are bulls that can improve both commercial and purebred programs, as in the past there are many of these bulls whose birth weights and birth EPDs would indicate they could be used on heifers but still with the performance to do a job on cows.

Study the catalog, come early and study this outstanding group of young sires, I am very confident you will be impressed. If you can't make the sale give us a call to discuss your herd sire needs. "Our Sight Unseen Purchase Plan" is available with satisfaction quarantined.

If Jack and Barb, Ray and Barb, John Lamport, any of the sale crew or myself can be of assistance in anyway please give us a call.

Yours truly,
Doug Henderson

Jack & Barb

BROOKMORE
—ANGUS—

★ Please Note ★
ALL BULLS GOING
BACK TO THE FARM
MUST BE INSURED

From the Vet. . .

Welcome to the 21st Annual Cattleman's Connection Sale. I have had the privilege of working with Brookmore Angus for more than 20 years. One of my jobs within this herd is to maintain the overall health status of the herd. We have long since moved from concentrating on individual sick animals to focusing on the overall general health of the entire herd. The health program followed for the bulls includes vaccination with Bovishield 4 FP and Ultrabac 7-S on the way to pasture & boosting at weaning time. Dectomax pour-on is given both spring & fall. One Shot vaccine is also given in the fall. As these bulls are introduced to their new herds, I would strongly recommend they be boosted with these vaccines or converted to the new herds' vaccination program.

The majority of bulls presented for sale are AI sired. They are the result of an immense amount of effort in an intensive AI & synchronization program, all done to present some of the best bulls you will see in one group anywhere. These bulls have been selected from approximately 160 bull calves and fed a high plane of nutrition and minerals to optimize growth and fertility.

Breeding Soundness Evaluations include scrotal measures, semen evaluation and structural evaluation. There are three possible outcomes to the evaluation.

- 1) Satisfactory:
 - a) scrotal size is at or above breed standards for the age of the bull. **** (we use actual measures not adjusted for age)****
 - b) Semen evaluation has shown 70% or more of sperm are normal with good motility.
 - c) The bull is structurally sound for breeding.
- 2) Deferred Decision:
 - a) Scrotal size is at or above breed standards for the age of the bull.
 - b) Semen evaluation shows less than 70% normal sperm and/or motility is suspect.
 - c) The bull is structurally sound for breeding.
- 3) Unsatisfactory: Don't worry; these bulls don't come to the sale.

Note: Deferred Decision bulls usually improve with age. As we follow these bulls through each spring, all but a few test Satisfactory as they gain maturity. These Decision Deferred bulls are presented for sale with a full breeder guarantee behind them. Buy with confidence.

These bulls have been fed very well to get them looking so impressive. Once they hit pasture expect them to lose some condition as they become active breeders and adapt to a pasture ration. A 60 day breeding season with up to 20 females is a good first year expectation. For a more intense breeding program, I would recommend supplemental feeding to maintain condition. Remember, these bulls are still growing so look after them during and after the breeding season.

Dr. Trevor Shamanski, Brandon Hills Veterinary Clinic

21st Annual

CATTLEMAN'S CONNECTION

BLACK ANGUS BULL SALE

FRIDAY, MARCH 4, 2016 - 1:00 P.M.

HEARTLAND LIVESTOCK YARDS, BRANDON, MANITOBA

AIREY CATTLE CO.

Barb & Ray Airey

BOX 922, RIVERS, MANITOBA R0K 1X0 (204) 566-2134
Barb Cell: (204) 761-1851 Ray Cell: (204) 724-3600
email: rbairey@hotmail.com

It is our pleasure to welcome you to the 21st Annual Cattleman's Connection Bull Sale.

We take great pride in producing top quality bulls that will help the commercial Angus industry to thrive in the future.

Quality has always been our goal and performance tested genetics are always a sound investment. We feel this is the best set of bulls we have offered. We have taken pride in bringing bulls to you that are good tempered, structurally correct, thick, deep and ready to work.

To produce these great bulls we use top quality herd sires such as Rage, Ambush, Cactus Jack and Zebul. We also have an extensive AI program with sires such as Double Vision Fortitude, Angus Valley, and Upward. Included in this year's bull line up is the Agribition Grand Champion Pen of Angus Bulls and Reserve Supreme Pen over all breeds.

If you would like more information on the bulls feel free to call. Bulls are available for viewing on the farm prior to the sale or they can be viewed at Heartland on March 3rd.

If we can be of any assistance in selecting your bulls feel free to give us a call, or call any of our sale staff.

Come and enjoy lunch with us sale day!

Barb & Ray Airey

Ray, Barb, Terinda & Nikoda

The sons are thick made, deep sided, thick easy fleshing bulls with loads of character. They have lots of eye appeal and are very correct in their structure.

BW: 90 lbs. Adj. 205D: 859 lbs. Adj. 365D: 1405 lbs

TJF 20X Ambush 14Z was the all time high selling bull for Triple J Farms. HBH selected 14Z from the 2013 Triple J Farms Sale, where he was most impressive, and he has sired a very impressive group of sons. This young sire had a 205-day weight of 859 lbs. and a 365 day weight of 1405 lbs. and has done a phenomenal job of breeding.

6 SONS SELL

CATTLEMAN'S CONNECTION

- **WE STAND BEHIND WHAT WE SELL** - all bulls will be semen tested & breeding soundness evaluated
- **SIGHT UNSEEN PURCHASE PLAN** - your satisfaction guaranteed
- **WINTERING POLICY** - free board on bulls until April 1, 2016
- **POUNDS** - generations of bred on muscle, without sacrificing maternal traits
- **CALVING EASE** - 40% of the bulls selling are suitable for heifers
- **ALL BULLS** - carcass evaluated through ultrasound

CATTLEMAN'S CONNECTION

Thank You

We appreciate your support
over 21 years of bull sales!

GENERAL INFORMATION

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

HEALTH STATUS: The bulls offered for the sale have been vaccinated for IBR, PI-3, BRSV, 8 WAY BLACK LEG, HEAMOPHILUS, SOMNUS AND PASTEURELLA HAEMOLYTICA. All were treated for internal and external parasites.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of the Health of Animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint export shipping arrangements to attain minimum shipping cost will gladly be made if instructions to that effect are provided to clerk of the sale when settlement is made.

INTEREST: The Cattleman's Connection Consignors reserve the right to retain an interest in any of the animals selling.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day, also from the Sales Management at any time.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. US funds accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

SPECIAL OFFERS TO BUYERS

TRUCKING

Cattleman's Connection consignors will deliver bulls at cost to central stockyard locations in Canada. Cattleman's Connection Consignors will be more than willing to assist you in getting your bull delivered in a timely fashion and as affordable as possible.

SIGHT UNSEEN PURCHASE PLAN

If you are unable to attend sale day, you may call or send bids to the consignors or any member of the sales management team. Those who are interested in this plan are urged to contact anyone of the consignors to discuss your bull requirements and determine a budget. Every effort will be made to buy you the right bull or bulls, at the right price to make you a repeat customer. If for any reason you are not satisfied with any of the cattle you purchased on order, you are under no obligation to accept them.

SIGHT UNSEEN
PURCHASE
PLAN

WINTERING POLICY

Wintering of bulls is free until April 1st, 2015. We ask purchasers to state their intentions for wintering at the time of settlement. *We strongly encourage you to insure your bulls under this policy.*

CATTLEMAN'S CONNECTION BULL WARRANTY

Cattleman's Connection guarantees to sell you a bull that is structurally sound, a bull that has passed a semen test and a breeding soundness evaluation by a licensed veterinarian. Should any Cattleman's Connection bull fail to be a satisfactory breeder - unable to physically service a cow or heifer - he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question, or a credit will be given towards the purchase of another bull.

IN SHORT, WE GUARANTEE TO PROVIDE YOU WITH A SOUND, BREEDING BULL.

We, however, will not provide replacement or adjustment for physical injury or mismanagement. Bearing this in mind, we stress the importance of insurance on your bull. At no time shall the seller's liability exceed the purchase price of the bull. Should you have a problem with your bull, call

us right away. We will work with you to make sure you are satisfied with your Cattleman's Connection bull.

Brookmore & HBH Farms use Canadian Angus Performance Program whole herd reporting.

UNDERSTANDING ULTRASOUND

The first thing producers want to know about ultrasound is: How accurate is it? The answer to the question depends on who does the actual scanning of the animals and who interprets the images. Ultrasound data in this catalogue was collected and analyzed by a technician that is certified by AUP and CUP. This means that this technician has met the standards set by many breed associations. The accuracy, although not perfect, is high enough that bulls selected based on ultrasound, results in positive genetic change in progeny carcass traits. Heritability for carcass traits are moderate to high, which is slightly higher than birth weights, weaning weights, and yearling weights.

MARBLING (MARB) - Marbling is the best indicator that we have to tell us what kind of eating experience we will have when eating beef. Extensive research shows that average AAA and above marbling produces the most satisfied consumers. As marbling increases so does the juiciness, the flavorfulness, and the tenderness. This may not always be true but for the most part AAA marbling produces more satisfied customers than does A or AA marbling carcasses.

4.00 - 4.99	Double AA	Select
above 5.00	Triple AAA	Choice

BACK FAT (BF mm)

Fat depth influences lean meat yield. Fat bulls have less lean meat/muscle in the carcass. The fat measurement also gives an indication of the bulls fleshing ability. Calves from a bull with very little fat may finish too slowly in the feedlot. Body condition score (fat depth) in females is related to their ability to reach puberty at an early age, produce milk, rebreed, and maintain a short calving interval. On the other hand, bulls carrying excessive fat may suffer reduced fertility.

RIBEYE AREA (REA in²)

The REA is the largest muscle in the body at birth, so REA gives an indication of overall carcass muscling (measured in inches)

CUTABILITY (% LMY)

Cutability is the percentage lean meat yield in the carcass. Yield grade is an important factor in both Canada and the U.S.A. Producing calves with a high genetic potential for this trait can be an important objective of a breeding program. Back fat will reduce yield by 7 to 8 times what REA will increase yield.

SUMMARY

Like all traits we should avoid the extremes. Moderation is the key. As producers we need to evaluate our own females and then decide what kind of progeny we want to produce and this should dictate what kind of sire we want to purchase.

Brookmore Bulls Ultrasounded on Jan. 15, 2016

HBH & Airey Bulls Ultrasounded on Jan. 14, 2016

by Rod Wendorff (AUP - CUP Certified)

EXPECTED PROGENY DIFFERENCES - EPDS

EPDs are an estimate of how future progeny of each sire can be expected to perform in each of the traits listed. EPDs are followed by % Accuracy - the higher the Accuracy, the higher the reliability.

BW: Birth Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. Weaning weight is an indicator of growth from birth to weaning (205 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: Yearling Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk EPD - is an indicator of milking ability in daughters. It represents the differences in weaning weights of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

TM: Total Maternal EPD - is a combination of the weaning weight and milk EPDs. It is calculated as: 1/2 Weaning Weight EPD + Milk EPD = Total Maternal. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

AVERAGE EPDS - ALL CANADIAN BLACK ANGUS BORN IN 2015
