Brian Good, Director of Field Services for the Canadian Angus Association, will have Angus tags available at the sale.

Semen Testing

All bulls will be semen tested prior to sale day by a licensed veterinarian.

Delivery

Free delivery up to 150 kms or bring your trailer sale day and receive a \$50 credit.

Board

Free board for bulls until June 1st, but all bulls left at the farm must be insured.

Insurance

Insurance will be available sale day. All bulls returning to the farm must be insured.

Credit Card Purchases

Mastercard and Visa may be used for payment of your purchases. A 3% surcharge will apply.

Breed Average EPD

	CE	BW	WW	YW	M	TM
Charolais	56	1.9	41	78.3	20.6	41
Red Angus	2.6	-.2	48	71	17	41

OPEN HOUSE at WRAZ

Friday, April 5, starting at 1:30 p.m.

Presale viewing of the bulls, their sires, dams & siblings with calves at foot. WRAZ ultrasound data will be available.

From Wawota: 5 miles E on #48, 1 mile N on #601, 1/4 mile W.

WIN A HEIFER!

WRAZ Red Angus is donating a heifer to be raffled as a fundraiser for the **Relay for Life**. Tickets will be auctioned at the start of the sale.

Join us for lunch on sale day

The Percentage Calving Chart

1. An average cow of any breed should be able to calve 7% of her body weight.
2. Most Charolais cows will weigh between 1400-1800 lb., expected calf weight range 98 to 126 lb.
3. Most Red Angus cows will weigh between 1200 to 1600 lb., expected calf weight range 84 to 112 lb.
4. Calving Ease is MORE important than birth weight because a longer sided calf may calve easily, but the birth weight is higher.

7% Calving Chart	
Cow Wt.	Calf Wt.
1200 lb.	84 lb.
1400 lb.	98 lb.
1600 lb.	112 lb.
1800 lb.	126 lb.

Take this as your personal invitation to the last sale of the season in Saskatchewan where you can get top quality Charolais and Red Angus genetics. This sale has become a great finish to the season with excellent herdsire prospects for the most discriminating purebred or commercial producer.

The Red Angus bulls of WRAZ are coming from a great cowherd with some excellent maternal strength that will breed on into your cowherd. There are some definite cowherd building genetics here, as well as some great calving ease bulls along with some performance bulls that will sire the top cut calves next fall.

Brimner Cattle Co. have been producing quality Charolais bulls for over 3 decades and this year's bull pen may be as consistently good as they have had. The calving ease, thickness and style of the first calves by the Bar J Trojan bull with top 1% calving ease and birth weight EPD will interest anyone looking for trouble free crossbreeding.

The Red Angus female and the Charolais bull have been producing the market topping tan calves in the auction markets for years and here you can get the makings for this combination at one sale. Haven't found your next herdbull yet this spring? Well don't worry, you will find one here.

If Candace or I can be of any assistance before the sale or on sale day, please don't hesitate to give us a call. We would be happy to help you find a bull that is right for your program.

Sincerely,

Helge & Candace By • By Livestock • Tel 306.584.7937 • Cell 306.536.4261

WRAZ RED ANGUS

Welcome to the Fifth Annual CORNERSTONE "More Bang for Your Buck" Bull sale!

I would like to take this opportunity to invite you to our Fifth annual sale at the Whitewood Auction Mart right along #1 Highway, Whitewood Sask. The bulls on offer are ready to go out and work for you to realize a good return on your investment! Both Kelly and I have the same goals – to send you a good breeding animal raised without creep feed and then fed a high roughage diet to express their genetic growth potential yet not jeopardize the longevity of the animal. A tremendous amount of time, effort and investment goes into sourcing the genetics to produce these bulls which we are pleased to present to you in the offering. I encourage you to discuss your future genetic needs

with us anytime. We are constantly on the hunt for the next piece of the genetic puzzle so your input helps us to help you. I look at it this way – if you do well, we do well, so we would like to work with you toward a very prosperous future in the cattle industry. With that I would like to also invite you to view our whole program anytime, five miles east of Wawota, then 1 mile North and ¼ mile West (watch for WRAZ signs). **ANNUAL OPEN HOUSE Friday April 5 at WRAZ RED ANGUS.** Please join us any time after 1:30 to have a look at the dam, sire and siblings of your next herd sire! Come and check out the udders and quality of females we have with their 2013 born calf at foot, along with the herd sires we will be using this breeding season. The whole herd will be right at the yard and available for your evaluation. The BBQ will be hot for a little food, the coffee and tea will be on to show our appreciation for the time you have taken to come and see what our program has to offer! Thank you in advance for your attendance.

The 2013 calves are arriving daily and we just had a major snow event which made for a lot more work than we needed right now! (I need to thank Gordon Murray for the daily duties he does around here – without his dedication to this operation I would not be able to get 'er done!). Bull sale catalogues are arriving daily in the mailbox and I am searching for the next great one just as you are so I realize how many catalogues you have to choose from. All I can say is this: if you like what you see on the following pages I would be honoured to introduce you to our program. If you choose to be a customer of this program you can rest assured that we stand behind our bulls and females 100%, as advertised we are and will continue to be "The Program You Can Count On"! I do believe that HONESTY, INTEGRITY and COMMUNICATION are the key to a valuable long term customer relationship and long term is what we are all about here at WRAZ. My family is the fourth generation to make a living off this century farm and I hope one of the children in my life will choose to carry on after me as the fifth!

Kevin Wadham of JM Beef put together our forage based rations again this year with a goal of 3 lb./hd/day. This feeding program along with plenty of exercise will maximize the longevity of your investment. Kevin always put a ration together with whatever source of feed I had gathered the most of each year, no two years were the same but he always made it work. Kevin was a good friend and a great, honest man to work with and he will be dearly missed! With deepest sympathy our thoughts and prayers are with Kevin's family and friends.

I stated last year that this cattle market is good and it looks that way for the foreseeable future and I still strongly believe that! The best genetics you can afford will always pay you in the end, whether you are trying to raise lbs. of calf to sell or keying in on replacement females to have in place for the expansion phase of the cattle cycle. Please call or drop by before the sale and allow us to help you make an informed decision on your next herd sire – remember your next herd sire is 50% of the future genetic base you have to work with! We live with these cattle most of the year and watch them grow into what they are today, so please call myself or Gordon if you have any questions at all or would like to drop by for a tour anytime. If you cannot make the sale but need a bull please call to arrange a presale visit or a plan to purchase sight unseen on your behalf. We will treat you right!

All the best!

~ Phil Birnie • Box 461, Wawota, SK S0G 5A0 • T 306-739-2988 • C 306-577-7440 • info@wraz.ca • www.wraz.ca

As the herd health veterinarian for WRAZ Red Angus, I am involved with creating the vaccination program, the breeding soundness evaluations on the herd for sale bulls, preg checking and any other issues that may arise. The herd is on the ZoetisBovisheild Gold Program (formerly Pfizer Gold) with guarantees that all calves are PI free. The sale bulls have received two Fusoguard vaccinations against foot rot prior to the sale. They are subjected to a rigorous breeding soundness evaluation, which includes setting my purse/murse down before I pull the tape.

In short Phil spares no expense in ensuring that he brings a healthy, sound, fertile bull to the sale for you to take home and use.

~ Henry McCarthy, DVM
McCarthy Veterinary Services
Wawota, SK

YOU COULD WIN A HEIFER BY SUPPORTING RELAY FOR LIFE!

Tickets will be auctioned at the start of the sale.

*Relay for Life gives you an opportunity to Celebrate cancer survivors,
Remember and honour loved ones lost to cancer and Fight back against all cancers.*

Hi, my name is Sierra Murray, I am 10 years old, and today I am going to tell you about the Relay for Life. When I was 2 my mom was diagnosed with A.L.L. Leukemia. When she got better we decided to give back to the Canadian Cancer Society by joining in the Relay for Life. In the 6 years I have done the relay we have raised over \$15,000. This year my mom and dad are planning a Relay for Life in my home town of Wawota on June 15th. As always we have entered a team and with the help of Phil and my Papa Gordon we have decided to offer a donation heifer at the sale. I have 3 cows at WRAZ and have offered my only heifer up for this donation. If you are unable to attend the sale but would like to donate please feel free to contact Phil or Papa Gordon.

My favorite thing about the relay for life is the Survivor walk because at the end I get to walk with my mom and that makes me feel PROUD!

~ Sierra Murray/WRAZ

One of the more powerful bulls in the offering. He is definitely one of the features in the group. His EPD's put him in the top 10% for WW, YW, TM an Carcass Weight while maintaining an above average milk EPD. Lots of grow behind this guy – he has an ADG index of 110 and well above average testicle development. Elite sire CUB 722 is the sire of his mamma and she is the front pasture kind in terms of production. His grand dam produced a herdsire for DJ Farms as well. Stack the maternal greatness of Indeed on the top side of this pedigree and you have high potential for a great herdsire.

Sale feature here folks. This son of Smack 31U is maybe his best son yet. Most everyone that has toured the pen ranks him at the top. 80Z is real dark red and stands correct on a real good black foot. He had above average growth with an ADG of 3.14 giving him an ADG ratio of 110. His dam 38S has produced well with a son at Cockburn Red Angus and a daughter at Nu-Horizon. We also have a daughter working here. Granddam 70H had 13 progeny and her dam was an ET donor for the Tonor's.

Extremely strong cow family behind this Toast grandson. His Elite dam 329K certainly should have been in a flush program. Unfortunately we lost 329K on pasture in mid May but 92Z stayed out there with the rest of the herd to look after himself. He came in looking a little tough and rough haired but still managed a 737 lb adjusted 205 day weight. His birth to 205 day ADG index was 108 with an actual ADG of 3.09 even though he was orphaned in mid May. There are both male and female maternal siblings in several purebred herds around the country. WRAZ would like to reserve the right to draw semen for in herd use at a later date at the convenience of the buyer.

RED GOLDEN DAWN MISTRESS 34M

Another Smack son with calving ease. He is out of one of the top cows here at WRAZ. Dam and granddam both calve lighter than herd average but their progeny end up above average at weaning. 45Z had an ADG index of 102 and daughter 91W's son topped the gain index at 124. Excellent set of numbers as well. His daughters will be keepers for sure.

BCC 102U

Sire of lots 20-24

BW -4.9
WW 37
YW 48
M 21
TM 39
CE 9

CRIMSON JEWELS is a real calving ease sire but he still puts enough muscle and growth in his progeny. His females are valued highly in North America but especially in the U.S. Use CRIMSON JEWELS sons for consistent low birth weights and calving ease. The progeny will have added eye appeal and be clean, beautiful fronted. Excellent choice for heifers.

This fella had quite a journey to get to this point. Treasure is sired by Crimson Jewels and out of the strong Serebl cow family. Crimson Jewels is a real easy doing heifer bull with muscle expression and shape. We found this guy's dam 105R beyond repair in late June and had to part with her yet he still made the bull pen. Treasure 124Z stayed out on his own with that group of cows to fend for himself. He got a little rough haired and looked a little hard done by but he still managed a 104 in the ADG index. The females that he will produce will be a treasure in anyone's herd.

BRIMNER CATTLE CO.

Welcome to our 5th Annual Cornerstone Bull Sale

This year we have probably the most even set of bulls we have raised. We are really excited about the Bar J Trojan sons this year. They are thick, moderate famed and have good dispositions. He is truly a calving ease specialist. There are many $\frac{1}{2}$ and $\frac{3}{4}$ brothers in this offering to provide you with an opportunity to produce a more uniform calf crop.

These are not a bunch of pampered bulls. They were raised on mamma's milk and fed for a nice steady growth over winter.

We sure have appreciated your support over the years and look forward to working with you and new customers in the future. Please feel free to stop in at the farm to see the bulls before the sale or call for more information, so we can get you the right bull to fit your program.

Remember, the Charcross calves consistently sell for more dollars. More pounds = more \$.

Looking forward to seeing you at the sale.

~ Kelly

Notes:

Terms & Conditions:

Terms:

The terms of the sale are cash or cheque payable immediately after the sale in Canadian funds. All settlements must be made with the sale clerks before cattle will be released. The right of property will not pass until final payment is made.

Bidding:

Each animal will sell to the highest bidder. Bidders unable to attend the sale may phone their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Disputes:

Bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision is final.

Announcements:

Announcements made from the auction block will take precedence over printed matter in the catalogue. Buyers are cautioned to pay close attention to announcements.

Purchaser's Risk:

Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. All animals left with the seller must be insured.

Certificate of Registration:

Each animal will carry papers issued by the appropriate breed association. A certificate of registry duly transferred will be furnished to the buyer after payment has been made.

Delivery:

Assistance will be given in making delivery after the sale. The purchaser agrees shipping arrangements will be at the convenience of the seller, but will be as soon as practical after the sale, at the buyer's risk.

Breeder Guarantee:

Should any bull fourteen months of age or over, fail to prove a breeder after

being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following the date of purchase or six months after the bull has reached fourteen months of age. The seller has the right and privilege of six months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Exception Guarantee:

In the case where the animal is subjected to any hormonal or surgical reproductive techniques after the sale, this guarantee shall be null and void. The seller is not responsible for damage caused by foreign bodies after the animal has been sold or for sickness not apparent at sale time. In no event shall the seller be responsible for more than the purchase price.

Accidents:

Although every precaution will be taken to protect the safety and comfort of buyers, neither the sale manager, auctioneer, or sellers assume any responsibility and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

Sale Manager:

By Livestock is only acting as a medium between the buyer and seller and is not responsible for failure on the part of either party to live up to their obligations; or for the truth of any warranties or representations, expressed or implied. By Livestock assumes no obligation to enforce or collect monies between parties. By Livestock assumes no responsibility for any credit extended by the seller to the buyer. Any legal action taken in exceptional cases must be between the buyer and the seller. The buyer must look to the seller for fulfilment of all guarantees and representations.

Insurance:

Insurance will be available sale day.

Pictures:

By attending the sale you are granting permission for your picture to be used for promotional and advertising purposes relating to the sale.
