Two Year Old & Yearling Bulls

140+ Commercial Females
• 60 Open Heifers • 40 Bred Heifers • 40 Young Cows
*Young cows will have calves at foot
or will be calving April/May*

NEW THIS YEAR - VIDEO SALE!!
At the Farm - Standard, AB

Welcome to our 32nd year in the Angus seed stock business. Thank you for your interest in our product. The cattle business has been a way of life for us as it is for most of you. It is very encouraging to see increasing demand for beef. On the global scene the earth's population is consuming more meat than ever before. In China alone meat consumption has been rising an average of 2 kg per capita per year over the last decade while over 5 million people per year move from lower to middle class. There are many other countries in the developing world experiencing the same thing. What I am trying to say is that, there is a tremendous demand for a product that has limited expansion of supply. Being a primary producer of beef is just an excellent position to be in for the foreseeable future. We believe that Crowfoot genetics will help cattlemen maximize profit through balanced traits that suit our environment. We enjoy and look forward to serving the needs of our customers and the relationships that we develop and maintain. Please call anytime to discuss the sale offering or just to chew the fat. Or stop by anytime, the coffee is always on.

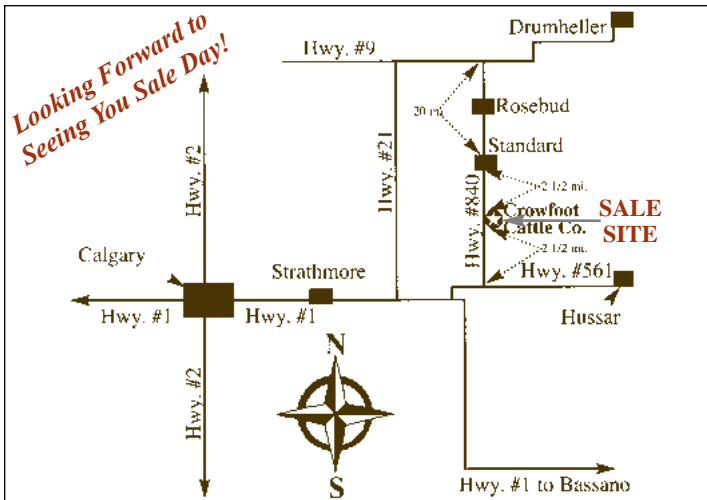

FEEDING PROGRAM AT CROWFOOT

400 cow/calf pairs and over 100 heifers go to grass every year for 7 to 8 months. We like the duration of our winter feeding period to be as short as possible; under 4 months would be ideal but often it is close to 5 months. Our neighbour owns a grass seed farm, so there is a good supply of combined grass straw available of which we make the most! Our cows are only fed a silage grass straw mixed ration after they calve. Prior to calving we roll out bales on the ground. Since feed is the largest expense in any operation, the more efficient an animal is at converting low quality inexpensive feed then the more profit there is. Crowfoot's easy fleshing genetics excel under these conditions and when the culls are sold they still bring top \$\$ because they are not skinny.

The two year old bulls in the sale have never had concentrate in their lives. Mostly they have had just grass and hay but for a short period prior to the sale they are on mixed silage and chopped hay.

The yearling bulls are brought into the feedlot in early November and fed free choice hay until we get around to getting the feed truck running which is usually mid December then they are fed a mixed ration of chopped hay, silage, and 7 lb/head/day of a bull grower concentrate that consists of corn, oats, barley, screening pellets, and mineral. Around the first of Feb we take the free choice hay away and they are fed the mixed ration once a day. This ration results in an average daily gain of approximately 2.5 lbs per day from November to sale day. That rate of gain translates into about 1060 lb yearling wt. If you want to have a 1300 lb yearling wt you need to go somewhere where the bulls are fed to gain 4 lb. per day over a longer period of time. Usually those bulls cost more money and do not last as long. We feel our feeding program suits the bulls' longevity, their general overall well being, and our budget all at the same time.

Check out the bulls on our website or just stop by anytime to view the cattle. Dallas, Chris, Johnny and Matt
This is the day which the Lord has made; Let us rejoice and be glad in it. Psalm 118:24

Meet the Crowfoot Clan

"Mom & Dad" - Elmer & Leona Jensen - 97 years young!!

Dallas & Sandy & family - (l to r) Abe, Stephanie, Jonathon & Amy

Chris & Jennifer & family - (l to r) Lauren, Daniel & Morgan

The Johnsen Family - Wendy, Abby, Johnny, Lisa, Matt & Hank

NEW THIS YEAR!!

THIS IS A VIDEO SALE - No live cattle will be entering the ring, therefore we invite and encourage you to stop by the ranch in the days prior to the sale and come early sale day to ensure you have ample time to view the bulls at your leisure and address any questions and concerns you may have.

Also, the Sale will be broadcast live via 

TEAM - The Electronic Auction Market

is an online, interactive marketplace that brings cattle buyers and sellers together through the power of the Internet. TEAM is a real-time cattle auction with multiple sales weekly.

How do I participate in TEAM Online Auctions?

- **Register online with TEAM - It's Free!** This will allow you access to TEAM online auctions and all portions of the TEAM website.
- **Start participating** in TEAM online auctions to get familiar with the system.
- **Contact TEAM with any questions that you have,** we will be happy to answer them.

Crowfoot Cattle Co. Terms & Conditions of Sale

VIEWING THE BULLS: All bulls carry permanent identity tags corresponding to Sale Lot Numbers and are available at the Crowfoot Ranch for inspection prior to the sale. Call Dallas's cell (403) 934-7597 or Chris's cell: (403) 901-5045 to make arrangements.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

BREEDING GUARANTEE: All cattle are sound and right and sell with a "Responsible Breeders Guarantee". Our bulls are guaranteed to be structurally sound and to have passed a semen test prior to sale day. We guarantee satisfaction or we will replace the bull with one of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question or a credit will be given towards the purchase of another Crowfoot bull.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed (see page 1) or to Douglas J. Henderson & Associates Ltd.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on Sale Day.

TERMS OF SALE: Cash or cheque payable at par. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times. Every animal sells to the highest bidder and in cases of disputes, the Auctioneer's decision will be final.

ALL PERSONS who attend the Sale do so at their own risk and the owners, management and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

- PLEASE NOTE -

The catalogue in full color plus **INDIVIDUAL VIDEO CLIPS OF ALL THE SALE BULLS** can be found at:

Red Crowfoot Moonshine 8081U is probably one of the best overall of any Red Angus sire we have ever used. On top of being outcross genetics, he also has excellent feet, great fleshing ability, nice style, ample scrotal development and better than the average EPD's in every category. On 78 calves born here, he had an average of 78 lb. birth weight average with a 103 Wean Index - can't beat that!!

We called him Moonshine because he most resembles his paternal grandsire, OCC Moonshine 740M.

Above - Moonshine 740M - Paternal Great-Grandsire to Ref Sire J

(right) 8081U's awesome feet!

We raised the sire of Rumbler, Red Crowfoot Rambler 1024L, who was sold to Campbell Red Angus in South Dakota where he produced several herdsires for other purebred operations. We bought the high selling son, Rumbler 8586, in their '09 sale.

Rumbler, a grandson of Sodak EXT, has done a fabulous job here posting an average Birth Weight Index of 98 and Wean Ratio of 101 on 61 progeny.

IMPORTANT INFORMATION REGARDING DELIVERY!!

BUYERS HAVE THREE DELIVERY OPTIONS:

- 1. Because this is a VIDEO SALE, you may take your bull home as soon as settlement is made - no waiting until the end of the sale!*

OR

- 2. If you wish to participate in the "FREE DELIVERY" Option, your bull(s) will be delivered to a central point within one week of the sale.*

OR

- 3. We will keep your bull(s) here at the ranch until you are ready for them, free of charge, and you can come pick them up when you are ready. Bulls staying at the ranch MUST BE INSURED (insurance available on site Sale Day).*

PLEASE INFORM THE CLERK AT TIME OF SETTLEMENT WHICH OPTION YOU PREFER

22U is an Ole's Oscar grandson combined with the superb breeding program of SSS Red Angus. We purchased him in the 2009 SSS sale as one of the top bulls. We chose him for his exceptional feet and overall thickness. He is a nice cherry red and his calves reflect his quality.

22U comes with a little extra birth weight but his performance follows suit!

We hold 1743L in high regard because of his exceptional fleshing ability, his flawless phenotype, good feet, calving ease, scrotal development & semen quality. We were happy to discover he had the red gene and quickly added him to our Black Red carrier program. 1743L is in the top 2% of the breed for BW EPD and top 6% for Calving Ease.

At Crowfoot, 47 progeny have a Birth Weight Ratio of 96, a Weaning Weight Ratio of 101 and Yearling Weight Ratio of 102. They exhibit exceptional fleshing ability and very good feet.

Reference Sire E - Max 1743L

Legend is a big hit in the US because of his fleshing ability, stature, and maternal power carried in his genes. We brought some embryo's up from Ross Knott's place in Nebraska that were sired by Legend. The dam was a cow that we raised and sold to him for his embryo program, Red Crowfoot Brndna 42A was one of the best cows that ever grazed our turf. We just got one son so far, Lot #79, but several daughters. Legend semen did not qualify for Canada so direct progeny would be rare. Legend is also the grandsire of ref sire P - SVR Lookout 324U.

Out of a beautiful Tomwall Pied Piper 413 daughter with a Weaning Ratio of 105 & Yearling Ratio of 111, 5793R packs a lot of muscle, has good structure, large testicles and sound feet. He is in the top 30% of the breed for Yearling Weight and top 2% of the breed for Scrotal Circumference.

Sons are powerfully Angus - they are beefy and masculine with lots of scrotal and, in fact, Equation 5793R's scrotal EPD is + 1.43. 31 daughters working here have an average nursing ratio of 103. An Equation daughter topped the recent Merit Cattle Co. production sale.

Joker 8814U, an example of highly efficient forage genetics, is thick with lots of muscle. He will add scrotal size and early maturity. With his dam being a Shoeshone Pied Piper 7105 granddaughter, the 8814U daughters should make beautiful cows and perfect grass cattle. The first Joker daughters calving this spring are very impressive - these are kind that grass based operations will enjoy.

A son of DDA Fahren 21X, his grandam is also dam of Crowfoot Mechanic 5789R and Crowfoot 8022U. 8141U is **very easy calving**. His calves are strong with lots of vigor at birth and his calves have excellent growth for light birth weights.

We were unable to get a picture of 9118W before he got injured. His sire, 5456W, had the high selling sire group in our sale for 2 years running.

9118W posted an impressive 117 wean index against his 212 contemporaries. He sired 27 calves with an average birthweight of 77 lb and wean index of 99. We are keeping one son for our use and 7 made the sale which is a high percentage of his progeny for our strict culling criteria here.

9118W sported 39 cm scrotal at a year of age. His dam, 2717M (pictured) has a 109 weaning index on 7 calves.

His dam, 2717M, is also the dam of Lot #24 in this sale.

2717M - Dam of Crowfoot 9118W & Lot #24 in this sale

A very good line up of Angus genetics carried here with OCC Legend 616L, Papa Equator, Sitz Alliance 6595 and 616 Rito.

Twenty five progeny yield an average birth weight of 77 lbs. combined with 101 Weaning Index.

You will like the sons we have on offer. They exhibit lots of mass with good scrotal development

A video of the cow groups selling will be viewed in the sale barn at the time of sale. The females will be sold in groups up to six head in their entirety. Again, remember, this is a video sale and no live animals will be coming in the barn.

The cows and bred heifers that we are selling are purebred Angus and Red Angus selling without papers. These are cows that we feel will make excellent ranch cows but not the quality we need for our seed stock.

There are a few reasons we let these cows go. The main reason in two words - "Numbers Management". We keep a lot of heifers every year and need to keep numbers constant. The cows chosen to go are primarily for the following reasons:

- 1. Birth Weights** - Some of these cows have had calves with birth weights as high as 110 lbs. or better and usually these are the calves that weigh up good and bring the most money in the commercial calf sales in the fall, but they do not necessarily sell that well in the purebred bull sale.
- 2. Udder Conformation** - We like to see well attached level udders with small teats. Nothing is selling that will not last the life of the cow, which we expect will be 12 years of age or better.
- 3. Feet** - Same goes for feet... we are setting our standards high. There are cows that produce like crazy but have issues with feet. Any cow that we felt would last her life even with her long toes we are selling in this sale. Please note that the cows that we are selling in the sale with marginal feet will have them trimmed to ensure that she will serve trouble free for years to come.
- 4. Late Calving** - We have some young cows that seem to like to calve in April.

The cows that we felt would cause a problem down the road were canned.

The cows with calves at side will sell without coming through the auction ring. A supplementary sheet will describe each pen and they will sell by the pen - most pens will have between 3 and 6 pair per pen.

The pregnant cows will also sell via video and not be entering the ring. They will sell in groups of 3 - 6 head. The cows from WJ Ranch, our affiliate, start calving in mid April so there will be no pairs from them.

The open heifers will sell on video in groups of three or more and sell by the group in its entirety.

Open heifers will be palpated by a vet prior to the sale to ensure reproductive soundness.
