Offering 68 Bulls

26 Simmentals

42 Black & Red Angus

Yearlings & 2 Year Olds

Welcome

It is a pleasure to present our 8th Annual sale offering. This year the Cutting Edge sale group has the largest sale offering to date, with an excellent selection of bulls in everyone's price range. We welcome a new member to the Cutting Edge Group this year Chad and Michelle Beagle of Beagle Simmentals.

There is a great deal of optimism in the beef industry. Prices on all classes of cattle from feeders to cull bulls have been strong. Media reports indicate a strong bred heifer market in the fall.

Thank-You to everyone who bid and bought our genetics and placed them in your herd. There are many bull sales out there and we appreciate you selecting the Cutting Edge for your bull source.

Be our guest on March 2, 2013 for the Cutting Edge Hospitality prior to the sale. Bulls will be available for viewing sale day at 10:00 a.m.

Livestock Insurance Available Sale Day

It is a pleasure to be involved with the breeders who put on the Cutting Edge Angus and Simmental Bull Sale.

Peter and Vicki Bradford, Bar 17 Little Valley Angus, Vicki's mother Glenda Wachter, Waching Angus; Lee & Tina Robson, Lockhart Valley Simmentals; and Mark and Kathy Matejka, Matejka Farms have for several years presented a quality offering and this the Eighth Annual sale, promises to be the best group of young herd sires they have presented to date. All five of these dedicated cattle breeders puts the emphasis on quality not quantity.

It was a real pleasure this summer to view the young bulls still on their dams in the Bradford, Wachter herd to see the good milking cows and their growthy, outstanding bull calves was a sight.

At Lee and Tina's we were blown away with 900 to 1000 lb. calves nursing outstanding Simmental cows. This is a most productive herd with moderate birth weights and tremendous performance.

Mark and Kathy Matejka come with a great seed stock background and they have developed a fine Angus herd and produce top herd sire candidates.

Whether you are looking for performance, calving ease, maternal strength, these correct well-developed young herd bulls will add to any program. There is no substitute for quality and you will be able to see an abundance of it on March 2nd. Each of these programs is a tribute to the breed they represent; you can buy with confidence from these dedicated breeders.

Remember the sight unseen guarantee, contact the individual consignors for more information.

If any of the consignors, sale staff or Linda and myself can be of assistance in anyway regarding this great set of bulls please give us a call.

Looking forward to seeing you sale day.

Doug Henderson

Hello everyone and welcome to the 8th Annual Cutting Edge Bull Sale. Before I go on we would like to welcome Chad and Michelle Beagle to the Cutting Edge Sale group, he's a very enthusiastic new breeder to the Simmental breed. I think you will find Chad's offering to be of high quality. Thank you to all the bidders and buyers at our last sale. Wow! Your continued support is very much appreciated. This year we have a few more bulls on offer. A large number of the bulls are from PRL 42W. We used 42W as a clean-up in the cow pen and he really did a good job for us. He calves like a dream and his sons have moderate birthweights and should present no calving problems. The balance of bulls are from Blue, Bellringer, LHVS 60X (Sunney Valley Sargeant son), LBR Crocket, Bar 5 Hemisphere, CRF 182X, Club King and Harvie Wallbanger. Lee and I really like to try and breed our red and blacks with a blaze on their faces as it seems that blaze faced calves fetch a premium at the auction mart. Bulls are fed a ration that consists of silage, cut hay, 12 lbs of bull pellets and 3 lbs of barley. We don't push our bulls to hard, as we want them to go out and work for their new owners and not be sleeping under a tree somewhere. As always we would like to invite you to come and look at the bulls for yourselves, (their mothers are close at hand to look at too) or just come in and have a coffee and a visit. We look forward to seeing you either before the sale or on Saturday, March 2nd, 2013. We have a video of the bulls available on CD, if you would like one please phone and we will be happy to send you one. If you need any assistance evaluating any of the bulls please contact Glen Olson, he's retired and needs something to do, at 403-783-1599.

- Maternal brother sold to Leedale Colony at last years sale.
- "Holy Moly" is a phrase that comes to mind when you look at this bull calf.
- He's powerful, huge testicle, excellent feet and legs, awesome temperament and he has the blaze face everyone is after.
- 100S has had the high selling bull the past two years.
- Ask Danny Hofer at Leedale Colony what he thinks of 100S, he has two of her sons.
- Test for Homo Polled & Homo Black should be back by sale day.
- Lockhart Valley Simmentals reserves the right to draw semen for in-herd use only.
- 3 generations black and multi-generation polled.
- His maternal sister LHVS 9W is moving into our flush program this spring.

- LHVS 7P is a maternal sister to LHVS 88M.
- A very stylish Wallbanger calf as well.
- Lee's favorite bull in the pen.
- A very nice birth weight of 92 lbs.
- Good hair, feet, legs and testicle development.
- 7P's a very impressive looking Bar 5 Evan 440L daughter.
- This bull calf freaks everybody out who walks through the bull pen as he's so friendly he comes charging up to you to be scratched.

- This calf is from Harvie JDF Wallbanger 111X, a bull we purchased a semen package on in the fall of 2010.
- We admired Harvie Wallbanger for his incredible body depth, smaller stature, hair, testicle size and his temperament.
- This calf has all those things mentioned above.
- LHVS 17Z is a bigger framed bull (coming from his dam) but has a moderate 104 lb birthweight.
- Nice stylish calf.
- He has that all important blaze face.

 SIMMENTAL/SIMMENTAL

- We've been using Crocket for the past couple of years but he's only been giving us heifers.
- Crocket calves very easy for us but boy do his calves have some excellent growth.
- He transmits excellent temperament, hair, feet and legs and testicle onto his bulls.
- This bull was born with a moderate 102 lb birth weight, but as soon as he hit the ground he started to "get his freak on" hence the name Super Freak.
- Just imagine a set of steers by him.
- His full sister just calved and has a beautiful udder.

- Second Bellringer son to sell.
- Earl the Pearl is moderate framed has a great temperament, lots of testicle, good hair and oh did I mention he's a boob.
- There are cowboys out there who favor yellow bulls, they remember when buckskin calves fetched a premium.
- Earl will leave you very saleable steers and excellent replacement heifers.

- The last bull calf from LHVS 26U in the sale.
- Held back last year because of his small size and young age.
- Has developed into an impressive 2 year old.
- With his extra age he'll cover a lot more cows than his yearling counter parts. Smart, stylish looking bull calf.
- Good feet, legs and testicles under him.
- Virgin bull.

- The only LHVS 60X son we have.
- this bulls sire calved very easy, it's unfortunate that we lost him due to an injury and don't have any semen stored on him.
- This bull has excellent hair, feet, legs and testicle development.
- Very high libido in this calf.
- If you have big strong heifers this calf "could" work, he definitely will calve easy on second calvers.
- A bonus is he's polled.

As first time consignors to the Cutting Edge Bull we are truly grateful for the opportunity. My junior hockey coach (who is now coaching the San Jose Sharks) always said that one of the keys to success is to surround yourself with good, quality people. Well I believe that we have done that with this group of strong, very consistent cattle breeders. I would personally like to thank Lee & Tina Robson for their guidance, advice, support and honesty. They have brought a tremendous set of bulls to town, maybe their best yet!

I am very excited and proud of the three bulls we consigned to this year's sale. Although a small group this year I believe there is a good variety and something for any type of cowherd. Please feel free to give me a call if you have any questions. Since weaning, the bulls have been fed alongside the Lockhart Valley bulls.

Hope to see you all on sale day!!
Chad & Michelle Beagle & Family

120U was one of the lead off bulls a few years ago at one of D Bar C's last sales. I have yet to come across a Black Simmental bull as long, thick and big hipped as this "Double Bar D Driftwood" son. He is a proven producer and his sons & daughters are proof of that. I am really excited for this year's calf crop as well.

*Family is our Priority
& our cows are our Passion.*

Welcome to the 8th Annual Cutting Edge Bull Sale. We want to thank everyone for the tremendous sale last year. Thanks to all who attended and to our buyers. We sincerely appreciate your business.

The cow herd is our finest asset. Through the use of AI bulls we have implemented some of the greatest production and calving ease genetics available, all the while maintaining highly sought after maternal traits, and of course conformation. Cows that are easy to maintain, raise a good calf that weighs up in the fall, the type that pay the bills . . .

We are strictly beef producers, no off farm income. No oil revenue. Our cows make our payments.

We're not trying to reinvent the wheel, just trying to add more spokes. We have a diversified pen on offer this year. 40% of the pen are calving ease bulls. You will notice we have six coming two year olds in this years sale. From the April - May herd. They are an impressive group, they are NOT leftovers. Again we have a Simmental - Angus bull this year, he is registered. This past December we bought our first Red Angus cows from Kim & Brian Geis at their awesome dispersal sale. Look for Red's in the future from us.

We have come full circle here. Will & Wyatt are in the same 4-H Club that I started out with a purebred Angus heifer in. The Boys are excited about being first year members. Will is a Junior with a steer and a Rito 9969 heifer. Wyatt is a "Cleaver Kid" with a Rosin 6W heifer. Most of you are acquainted with cleaver and its association with a nasty canola weed. Wyatt's not impressed with the 4 -H choice of name!

Come view the bulls anytime. Looking forward to seeing you sale day.
Peter, Vicki, Will, Wyatt & Glenda

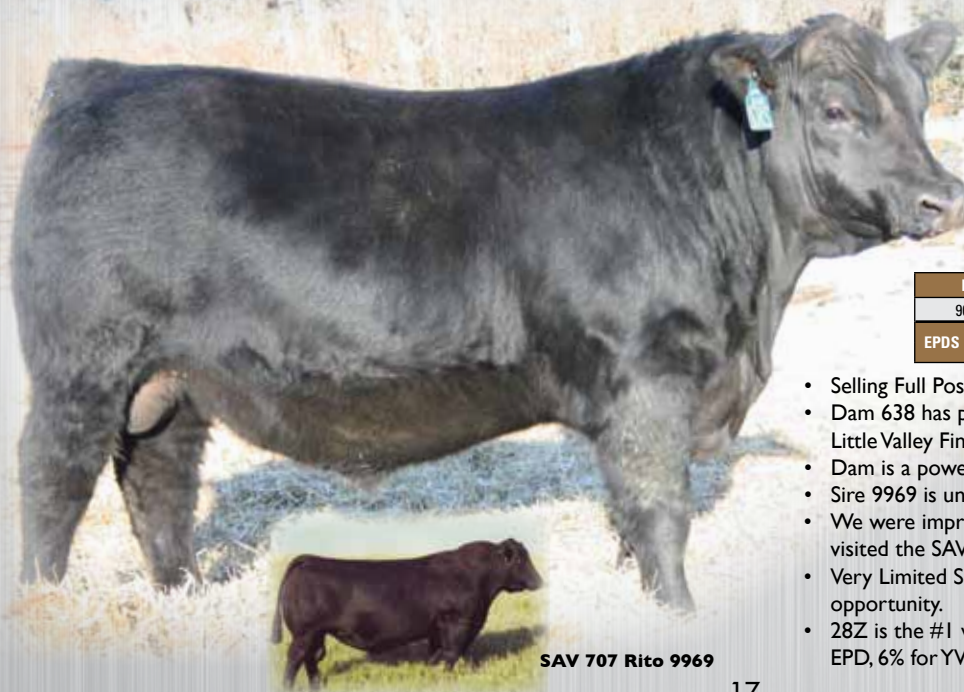

Wacher, White, Ditchuk, & Bradford Families. International Farmall M tractor once owned by Norman Anderson, Glenda's Dad. Now owned by Great Grandson's Will & Wyatt Bradford

- Selling Full Possession and 2/3 Interest.
- Dam 638 has produced 2 daughters, retained in herd. Also a herdsire, Little Valley Final Answer 15U who has produced sons in past sales.
- Dam is a powerful, good footed female that passes exceptional hair coat.
- Sire 9969 is unmatched for muscle, pounds and power.
- We were impressed with 9969, his mother and offspring when we visited the SAV herd in North Dakota in summer of 2011.
- Very Limited Semen came into Canada in 2011, making 28Z a real opportunity.
- 28Z is the #1 weaning EPD bull in our offering and ranks 8% for WW EPD, 6% for YW EPD and top 12% for TM EPD in the breed.

Another year has past and as we reflect on the cattle industry, one thing remains constant, good calves bring the premiums. We have a set of bulls in the 2013 offering that will help ensure you get your share of the profit from the cattle industry. We research and select the top genetics that will continually improve our cowherd, which in turn gives us the opportunity to offer you some of the best Angus genetics available.

Our cows have worked harder this winter with more snow and colder fall weather, is a testament to their foraging ability. Although forages were plentiful, grain crops in our area were less than perfect. However, the feeding program has remained the same. The home raised and rolled oat based ration and good free choice hay, has allowed our bulls to perform, grow and mature at reasonable rates with their future in mind.

Many have also expressed a keen interest in our Black Angus bull division, and we are excited to offer a select few in this years offering. Our black bulls are comparable to our red bulls in genetics and performance. Our Cutting Edge bulls are selected from over 40 bulls retained from a 200 head cow herd base. These bulls are pail fed, leading them to be docile, while maintaining their soundness and activity in a large group.

As this sale takes place when most of the bulls are just over 12 months old, they will return to the farm after the sale and will be semen tested when they have matured more and the weather has warmed up. Delivery to your farm will follow in April.

If you have any questions or wish to view the bulls ahead of time on the farm, please do not hesitate to contact us. We look forward to seeing you sale day!

Winchester

Winchester really left a stamp on his calves, with consistently adding shape and muscle. He is backed by an outstanding breed Elite cow, Shawnee 116T, who has gained a reputation of raising herdsires and high sellers. His first calves included a class winner at Denver this year, and this strong representation in the Cutting Edge 2013. We will be retaining a piece of an outstanding son (20Z, lot 51) to continue this AI sires influence on our herd. **6 Reds and 1 Black Sons Sell.**

Glory

A bull we appreciated all summer and fall of 2010 as he and his outstanding mother Cherokee 248U, won pretty much all the shows cumulating with the pair being named Agribition Champion female!! We were fortunate to purchase Glory in the spring and he turned into an aggressive breeding, sound and functional herdbull; long thick and easy keeping would best describe him. His first calf crop has produced many strong individuals represented. **5 Reds and 1 Black Sons Sell.**

TERMS AND CONDITIONS

TERMS: The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

BUYERS REGISTRATION: Buyers please register for a buyer number at the office prior to purchasing.

BREEDING GUARANTEE: All bulls are guaranteed to be fertile & reproductively sound in accordance with the rules & regulations recommended by the breed associations. All bulls will be semen

tested.

ANNOUNCEMENTS: Errors in this catalogue will be corrected by announcements from the block at sale time & such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

ACCIDENTS: Although every precaution will be taken, All Persons who attend the Sale do so at their own risk. The owners, management, the sales staff assume no liability, legal, or otherwise for any reason.

CERTIFICATE OF REGISTRATION: A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

INSURANCE: Bulls who go back to the seller's farm must be insured by the buyer, insurance agents will be in attendance.
