Livestock Insurance Available Sale Day

Offering 57 Bulls
20 Simmentals
20 Black Angus & 17 Red Angus

Welcome

It is a pleasure to present our 6th Annual sale offering. This year the Cutting Edge sale group has the largest sale offering to date, with an excellent selection of bulls in everyone's price range.

There is a great deal of optimism in the beef industry. Prices on all classes of cattle from feeders to cull bulls have been strong. Media reports indicate a strong bred heifer market in the fall.

Thank-You to everyone who bid and bought our genetics and placed them in your herd. There are many bull sales out there and we appreciate you selecting the Cutting Edge for your bull source.

Be our guest on March 5, 2011 for the Cutting Edge Hospitality.

TERMS AND CONDITIONS

TERMS: The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

BUYERS REGISTRATION: Buyers please register for a buyer number at the office prior to purchasing.

BREEDING GUARANTEE: All bulls are guaranteed to be fertile & reproductively sound in accordance with the rules & regulations recommended by the breed association. All bulls will be semen tested.

ANNOUNCEMENTS: Errors in this catalogue will be corrected by announcements from the block at sale time & such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

ACCIDENTS: Although every precaution will be taken, All Persons who attend the Sale do so at their own risk, & the owners, management, the sales staff assume no liability, legal, or otherwise for any reason.

CERTIFICATE OF REGISTRATION: A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

INSURANCE: Bulls who go back to the seller's farm must be insured by the buyer, insurance agents will be in attendance.

Welcome to the 6th Annual Cutting Edge Bull Sale. We would like to thank all of our past buyers and bidders. We appreciate our repeat buyers and look forward to new buyers as well. With a very challenging haying and harvesting season behind us. We offer you 10 bulls for sale. A great selection of heifer and cow bulls. We have some very powerful cow families (good udders, feet, milk). Our sires are all long bodied, long skulled and smooth shouldered. Bulls are all fed in big pens with lots of bedding. We would like to send a thank-you to Cathy Minchau for helping take the photos of the bulls. Stop in and see the boys anytime. Hope to see you March 5, 2011 in Rimbey.

RR3 Site 11 Box 1
 Ponoka, AB T4J 1R3

Mark, Brittney, Carling, Tyson & Kathy Matejka

It's a pleasure to be participating in the Cutting Edge Bull Sale Group. Once again we have put together a strong group of bulls for this offering that represents our program.

At Matejka Farms, we are very proud of our cow herd, 200 head of Black & Red Angus as well as Herefords, only the good ones get to stay and they work hard for us, they are the backbone of our business. We feel it is important to have a low maintenance cowherd that can produce calves that weigh up with minimal inputs and labour. Our bulls are on a high roughage and light grain ration, they are kept in a large pen in large groups so they have lots of room to move. You are welcome to stop by the farm and view any of the bulls prior to sale day.

Just give us a call and we will be more than happy to show you around

Mark & Kathy Matejka
 Brittney, Carling & Tyson

"Dew" is an exciting son of our most dynamic cow 310N. She has a wean index of over 120! We have used her sons, and this one is worthy of any herd use. Sakic is a very popular AI sire who has sired sound, functional productive and low birthweight cattle. This is a bull we would love to use "in herd".

Looking to add or maintain performance, here is a great individual! Atlantic 16X is a deep sided, long spined, meaty son of the highly respected Pie Atlantic. 16X's mother, a first calf heifer, is a typical daughter of our performance sire Advantage. These daughters have done all we expected and more. A bigger made bull with moderate birthweight.

30X is another athletic, strong son of Pie Atlantic, he has sired a very strong set of yearlings and has proven worthy of A.I. usage. This bulls dam traces back to a Bar-EL cow we purchased at Red Roundup, a very complete and balanced cow family, who we would not shy away from using on any type of cows.

Blackwood 37X is a very interesting calf – maybe best described as “A Chunk”. His black mother 46N, has been a very consistent producer, she has another red son working in the herd of Kathy & Tony Kamlah of Lacombe, AB, they have been pleased with his production and longevity. We are very excited by the shape and design of the Red Rocket 6T sired cattle, they look very strong as producing cows, and are popular by visitors. Note his 76 lb birthweight, quite moderate in our herd.

Lots 15,16 & 17 - OUTCROSS GENETICS - all have Black Angus dams!

Another neat bull with a black mother, a daughter of our Agribition Calf Champion 306N (he has the red gene and produces awesome daughters). The dam (avg wean index of 105) and cow family are from the extremely popular Neonia cow family, backed by high production and longevity (great grandam still in herd @ 12 yrs). Full of meat, lots of hair, and a good disposition should make him a popular choice on sale day.

Moderate, long spined, and very thick, this Full On 723 son really “puts it all together”. His young black cow 113T, is packed by a strong mother and our very popular, Agribition Yearling Champion, Red Advantage bull. This bull will continue to develop into an easy keeping, stout bull that will sire calves that really “weigh up”.

*We would like to
thank Dwight Homan
for helping us this
past year.*

Hello everyone and welcome to our 6th Annual Bull Sale. Well this past year has seen a positive up-swing in all aspects of farming. From grain prices to cattle prices, the future looks bright for a few years.

This year we have a good selection of Fullbloods to choose from as well as some Blacks and Reds. We've got some new reference sires this year as well as some good old stand-bys.

We would like to thank all our past buyers this year. By sale time some of the Fullblood bulls will be tested to see if they carry the diluter gene. Happy calving and see you all sale day.

Lee & Tina Robson

CEN Beautiful Day 507K - Dam of Lot 18

First off, let me describe Commander, perfect dark red color pattern, polled, good hair coat, deep through the heart girth, excellent disposition all travelling on large red feet. This calf stands right along side any of the horned calves in our pen. We purchased the Crackerjack X Beautiful Day embryos from Jason Bruketta a couple of years ago, hoping for a calf like this. Lee and I bought those embryos to possess the genetics of Beautiful Day. I can't imagine a broodier cow than her. A heifer calf owned by Robb Farms sold this fall for an amazing \$19,000. She was by Beautiful Day & Gibby's Ultimate. With Toni on the bottom side of his pedigree, Commander possess that outcross pedigree breeders are looking for. Lockhart Valley reserves the right to 100 straws of semen for in herd use only.

R-Five Maltese is one of the new bulls we used in our A.I. program. We used him because we wanted females from him and weren't disappointed, but we were very surprised at how well his bulls have turned out. He puts good hair coat, testicles and performance in his calves. Take a good look at his sons, there's a bull here for just about anyone.

This bulls dam is one of my favorite cows. We have numerous daughters from 52M in the herd. This dark brown bull is a very athletic calf who travels very well. He's always caught my eye and with his dam's record for producing replacement females, I'd seriously look at this calf.

This bulls poor dam had the misfortune of losing one of her quarters to an infection. We thought we'd lose her, but she prevailed and so did her calf. He's sure to have friends on sale day as he's a very moderate framed bull with all the pigment you could ask for. Quiet, hair, feet, legs and testicle development.

LHVS 41S is a very nice productive cow by the cow maker PRL Houston 005H. Its worth noting that this bull has a lot of highly maternal bulls in his pedigree - Gidsco Appollo, Houston, and Anchor T Legend and Knight Stinger. It's also worth noting that 68X's grand-dam is the dam to LHVS 9X (Lot 19). Cow families are very important to us. This bull should produce outstanding females.

This bull is a hairy, thick, small framed fellow. He's very dark red in color. His dam is also that color and in January gave us a polled Bellingringer daughter. Lots of fertility here - 52P caught up almost a cycle and a half. He'll work well on any type of cow. Bar 5 Evans has been one of the best South African Fleckvieh bulls we've used. His daughters are highly maternal productive cows.

Whistler is also one of the new bulls in our A.I. program. We've always been impressed with his bulls and heifers. We are very impressed with his heifers especially. They are very broody. We like the small head he puts on his progeny, the depth of body and the hip he puts on them. He crosses very well with our red factor cows and with the fullbloods. Look his sons over, I think you'll like them.

Jenkins is probably one of the best Fullblood bulls we've ever used. There's not many bulls out there that will give both good heifers and bulls. Jenkins does both. His heifers are fantastic cows with beautiful udders and excellent feet & legs. His bulls - well those of you with a bull know what I mean and those of you who don't - you'd better buy a son, semen is getting in short supply.

At last years sale the Bellringer bulls were very well received. This year we again have two really good sons of his on offer. Both have super dispositions and excellent performance. This past fall Stillwater Simmentals sold a bred heifer by "Ringer" for \$3100. Congrats Allan. For anyone who relies on EPD's, look at "Ringers" CE and BW EPD's. A positive 11.5 for calving ease and a negative 4.6 for birth weight means his sons should calve easy. With 30 calves registered his average BW on both heifers & bulls is 82 lbs. His daughters calving this year have all calved without assistance and have beautiful udders. Step up and buy a son, if not for the calving ease then for the replacements they will leave you.

Here's the second "Ringer" calf on offer. A little lighter colored but still very good non-the-less. He has that really nice temperament Bellringer can put on his calves. His dam is a dark red first calving Jenkins daughter. Her dam produced our high selling bull last year that went to the Leedale Colony. That bull is a full sib to 58X's dam.

Well "Blue" is now working at the very fine herd of the Leedale Colony's. An excellent Red Factor bull who left us some really good bulls but also terrific females. Blue has a really good disposition and he's one of the best footed bulls we've ever owned. It's a good thing we have semen on him.

This is a nice bull calf with all the attributes "Blue" gives his calves. His full brother went to Kevin Marcinek last year. Lots of heir, testicles and body on this calf. He's also quiet in nature. He'll leave some good steers and heifers.

Power, Power, Power . . . And big testicles! This bull's dam is from a bull we raised to use on heifers. Her 2009 "Blue" heifer is very stout and getting ready to have her first calf. This bull has it all, he's thick, heavily muscled and travels really well. Mumbo Jumbo is one of Lee's favorites. Impressive is a word that comes to mind when describing 6X. Look at his weaning weight, his dam did a bang up job indeed! 62% of her body weight - wow. Order buyers will be fist fighting each other to buy his steers. Don't miss out on his females, step up - big and take him home.

Welcome to the 6th Annual bull sale. Family is our priority and our cows are our passion. We have spent years laying the foundation for our cow herd. The herd has been ruthlessly culled for: disposition, performance and structural correctness.

We are really pleased in the quality in the bull pen. We've received feedback from astute cattlemen, who have selected genetics from our farm and how they have positively influenced their calf crops & replacement pens.

We need to thank everyone for supporting us, bidding, buying and showing up to the Cutting Edge, taking the time out of your day to spend it with us. We appreciate your continued confidence in what we do.

Please consider this your personal invitation to lunch and sale. See you there.

If you are unable to attend the sale please visit with us or Doug Henderson regarding your bull requirements.

 H A R B BLACK LADY 667 J H

- Pendleton is unmatched in the industry for combining explosive performance and low birth weights along with unusual muscle and mass for calving ease sire.
- His first females in production have snug udders, nice teat size with length, body mass and femininity.

Net Worth is in a league of his own for siring overall mass of muscle and cattle that stand apart from other sire groups for performance. He has shown the ability to consistently sire high quality progeny from various pedigrees and cow types. Net Worth is destined to be a breed changer! Net Worth's EPD's rank him in at least the top 10% of the breed for WW, YW, RE and \$F!
