DUNFORD ROYAL CATTLE COMPANY

We are pleased to welcome you to the Dunford Royal Production Sale Volume IX. This year we are offering an exciting group of cattle from many of our most productive cow families. On offer will be spring pairs with big stout calves, fall pairs with young calves at side, bred cows & heifers, and bull & heifer calves. We will also be offering some select embryos and hard to find semen.

Our breeding philosophy has been to continue breeding proven AI sires to our most productive cow families. By following this program we feel that we can produce cattle which not only have the structure and design which we are looking for but will also reproduce this type and kind consistently. We insist on cattle which will maintain their body condition while raising a big calf. Furthermore, they need to do this on a forage only diet without supplemental feed. The cattle selling will come straight off of pasture.

"REAL CATTLE FOR REAL PEOPLE"
Stan Dunford

The future of the Black Angus business continues to gain momentum. More and more consumers are demanding the quality which they receive when they purchase Angus Beef. This results in a greater demand for Angus sired calves and seed stock. Cattle inventories are at an all time low and it is just a matter of time until these cattle become more valuable and profitable.

Everything possible has been done to present to you a group of fault free cattle which will be ready to go to work in your program. The performance data has all been recorded, vaccinations are up to date, pregnancy examinations have been done and the registration certificates will be transferred to you shortly following the sale. If you do have any problems, our guarantee policy is to work with our customers and do what is necessary to right whatever may be wrong. We try to treat our customers like we would want to be treated ourselves.

Thank you for your interest in our sale offering. We put a tremendous amount of effort into presenting this product to you and hope that you will be impressed with what you see. The cattle will be available for viewing anytime prior to the sale. We hope to visit with you sale day.

Cane Ridge Persephone 6531 was the first female selected by Stan Dunford to lay the foundation for the Dunford Royal Black Angus Herd. This now deceased brood matron produced until her 13th year when we lost her due to injury. She has produced more than 50 progeny with the DRCC prefix. Six of her sons have grown to be herdsires for notable purebred herds and many of her sons are breeding in commercial herds. A son, Royal On Time DRCC 6059S, is a featured sire in the Semex Beef line up. Another son, Royal Helios DRCC 8063U, is the newest herdsire for Limestone LLC in Oklahoma. Her daughters have left their influence on the Dunford Royal program as well as many other progressive programs across North America. A select offering of this remarkable cow family is included in this year's sale as a tribute to this tremendous donor female who is one of the most feed efficient, trouble free individuals which we have ever owned.

This beautiful, young bred heifer is an own daughter of our great donor, Cane Ridge Persephone 6531. She is sired by the legendary female sire, Leachman Right Time, who makes some of the most attractive Angus females ever to be found. She is a full sister to the DRCC donor, Royal Persephone DRCC 1043L, who many have called the most attractive female in our herd. She is also a flush sister to Royal Helios DRCC 8063U who topped our 2010 Bull Sale and is the newest herdsire for Limestone LLC in Oklahoma. This heifer will make a beautiful cow and would be a wise investment for any progressive breeder.
Due to calve January 16, 2011 to S A V Final Answer 0035.

DRCC wishes to retain one flush from Royal Persephone DRCC 4151P

A direct daughter of Cane Ridge Persephone 6531, this female is a definite donor prospect. She is a member of a flush by Sitz Alliance 6595 which yielded some of the best individuals ever at DRCC. A flush brother Royal Alliance DRCC 4130P served as a herdsire for Wil-Mar Angus and Jack McCoubrey. Another flush brother was a herdsire for Westwind Farm, Omemee, ON. A flush sister, Royal Persephone DRCC 4127P is a member of the donor herd at Karalisha Cattle Co., Harley, ON and another, Royal Persephone 4139P is a valued member of Gary Harron's herd at Allenford, ON. Her daughter sired by Alberda Traveler 416, Royal Persephone DRCC 7099T, is an up and coming donor in our herd. Her son, Royal Adaptor DRCC 8094U, was one of the most popular lots in our 2010 Bull Sale and is now serving as a herdsire for KFC Farms in British Columbia.
Due to calve August 24, 2010 to Alberda Traveler 416.
Will sell with calf at side.

Here we are offering a moderate framed young female who has raised the stoutest heifer calf at DRCC this spring. She is from the powerful Royal Patricia DRCC 2039M who was once one of the most highly valued females in our program when 1/2 interest sold to Toebben Angus, KY in our 2004 Production Sale. Her maternal sister, Royal Patricia DRCC 4029P, raised our top selling bull in 2009 and is now a member of the great Johnson Livestock herd at Peebles, SK. Her calf next spring will be a full sibling to the impressive calf at her side. Due to calve January 1, 2011 to S A V Adaptor 2213.
