## **Welcome to the Fleming Bull Development Center's 2012 Range Ready Yearling Bull Sale**

Ricki & Justin have rekindled the venture of Fleming Bull Development Center. Duncan & I are the hired hands and Cooper is our catalogue designer & videographer. We appreciate our clients who have developed their bulls with us this year. Please take the time to get to know these folks by reading their family bios or giving them a call.

We at Fleming Stock Farms have on offer 6 Yearling Black Angus Bulls and 2 Simmentals from Ricki & Justin and 15 Simmentals from an associate herd of Bill Rothel of Calgary. The Rothel cows have been under our management for the past year.

We value all our customers both old & new. Our vision is to provide honest & hard working cattle that get out and utilize whatever pasture conditions are put before them. Our cows thrive off the hard grasses in the summer months and rustle through swath grazing through out the winter months. No pampering – our cows earn their keep.

All the bulls being developed are fit not fat. They get plenty of exercise daily and are in good condition with lots of muscle. They won't have to melt down prior to breeding season. We are feeding them so their performance will peak in your pasture not in the feed pen. Our calves are not crept fed; they are results of their genetics. The bulls are hand fed daily with free choice grass hay and free choice mineral. If you are looking for easy to handle bulls, give these boys a look!

EPD's are only one of many tools in the sire selection tool box. EPD's must be used with knowledge, along with your other sire selection criteria that fits your cow/calf operation. Not Included in EPD's, but very important attributes of a breeding bull are;

**Disposition and Ease of Handling**  
**Testicle Development**  
**Tightness of Sheath**  
**Stayability & Longevity**  
**Calving Ability**  
**Structural Soundness & Structural Correctness**

All bulls will be semen tested, scrotal measured and will have passed a breeding soundness evaluation by; Fort Macleod Veterinary Services prior to the sale. All bulls are fully guaranteed by the owners.

The bulls are being developed at Duncan & Cecilie's place  $\frac{3}{4}$  miles west of Granum junction of highways #2 & #519. We invite you to stop by prior to the sale to preview the bulls. We would be happy to assist you with your bull selection.

The Fleming Bull Development Center's Range Ready Bull Sale will be at Ricki & Justin's Farm north east of Granum. Please join us Tuesday, April 24th for pre Bull Sale snacks & plan to stay for steak and refreshments immediately after the sale

Looking forward to your attendance,

Duncan, Cecilie & Cooper Fleming  
Ricki Fleming & Justin Pittman

## **Rack Red Angus**

We would like to welcome you to the 2012 Power Up Your Pasture Bull Sale. Once again we would like to thank the Fleming family for the top notch job they have done on the bulls. The bulls have been grown not pushed, to provide longevity and buyer satisfaction. The fall of 2011 has been a welcome change in the cattle industry! It looks like we are in for some good years to come.

We are extremely proud of our bull pen this year! Our bulls are very good footed, stout and full of hair. Once again we will use Doug's saying we are proud to offer "Bulls with More Burger Than Bun". I think he would have been proud of the cow herd accomplishments today!

We would like to thank our past bidders and buyers for their support and we are truly humbled by the confidence you place in our program. We would be happy to answer any questions that you may have to aide you in your bull selection. Please remember we stand behind our bulls 100%. Our success is only measured by your success!

Clayton, Kathy, Marshall, Kelsey & Ben

## **Exuma Red Angus**

Since 1978 I have concentrated on producing cattle with solid maternal traits as I believe those to be the strength of the Red Angus breed. They should calve easily, milk well, calve regularly, be easy and safe to handle, and stay in the herd on solid feet. I think I am getting it right and the evidence is in the Milk and Total Maternal numbers in the EPD data. I'm not describing the bulls in the catalogue because you can see them for yourself and are the best judge of what you need in your herd. I wish you the best of luck with your purchases today.

## **Samtia Angus**

We would like to take this opportunity to thank you for attending this sale. Samtia Angus is a family run farm and has been in the cattle business for 20 years but the past 7 years we have solely concentrated on Purebred Angus cattle. We have purchased cows with great maternal characteristics from dispersal sales such as Ebon Hill, Remitall and George Nittengale and also heifers from the Chinook Sale .

We have a very strong offering of bulls with a solid set of EPD's with strong conformation and good feet. We have both performance and heifer bulls that have proven genetics and

great dispositions from Harb Pendleton, Border Butte Bottom Line (Sav Net Worth son) and Cudlobe Expedition. We also pride ourselves on very docile cattle and you will undoubtedly see this in our bull offering. The addition of Border Butte Bottom Line has improved our program significantly as he offers both calving ease along with growth and performance in his calves. They have good bone, feet and are very correct and add lots of performance.

This is a very optimistic time in the cattle business. Prices are higher for all aspects for the cattlemen. Now is the time to retire your old bulls and add new genetics to your herd. We feel that this is a strong offering here that will increase your "bottom line" on sale day with your calves. If you have any questions or would like to drop in and take a look please give us or Flemings a call and we would happy to help you out!

Lee, Layne  
Sam, Tiana Gleim  
Samtia Angus

## **Blue Creek Farms Ltd.**

On behalf of Blue Creek Farm we are happy to be part of the Fleming families - Power Up Your Pasture Bull Sale. 2012 is our first year to participate in this event and are excited about this opportunity and the future it brings. This year our offering includes both Simmental and Red Angus bulls. These bulls come from proven cow families, bred to calve easily, provide heavy weaning weights, good muscling and strong feet and legs. These young bulls have longevity that will work for you and your cow herd for years to come. If you have any questions on any of the bulls call us at 403-485-6536.

The Bagozzi family – Ray, Millie, Gary, Jerry and Shari

## **Terms & Conditions and General Announcements**

**Terms of Sale:** The terms of the sale are cash or cheque payable at the sale location. No release of livestock will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for which payments have not been received prior to departure time.

**Cattle Inspection:** CCIA Tags will be in all bulls. The ear tag is the lot number in the catalogue. All bulls will be available for inspection prior to the sale.

**Breeding Guarantee:** We guarantee to provide you with a sound breeding bull that has passed a breeding soundness evaluation by a licensed veterinarian from Fort Macleod Veterinary Clinic. In the event of any unlikely dispute, the regular terms and conditions standard with the Canadian Angus Association shall apply. Your satisfaction is paramount to us.

**Accidents:** Although every precaution will be taken to protect the safety and comfort of the buyers: neither sales staff nor the owners assume any responsibility in this manner and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

**Bull Insurance:** Ownership risk to the Purchaser commences when the Bull is deemed sold by the Auctioneer. Livestock Insurance will be available at the clerk's desk from our appointed representative on Sale Day.

**Post Sale Bull Development & Delivery:** Delivery will start the week following the sale. We offer free delivery and strive to deliver your bulls to your corral or to an agreed central point if necessary. All bull purchases remaining at Fleming's for delivery are housed at the new owner's risk. We recommend the purchase of injury and mortality insurance to protect your investment. If your purchases require an extended stay at Fleming's please make the necessary arrangements with Duncan & Cecilie.

Polled Black Purebred

Here is a black Simmental from an awesome cow. She has sired some tremendous bulls in the past. He is good footed and lots of testicle.
