FAIRVIEW  
ANGUS RANCH

# Welcome

We welcome you to the FairView Angus Ranch 2018 Dispersal Sale...

It has been our objective here at FairView Angus Ranch to identify genetic lines that create efficient cattle that will thrive in any grassland environment. The outcross Canadian cattle we have imported have proven to be one such genetic line. We believe feed efficiency is huge, and have strived to identify bulls and heifers that convert forage into pounds more quickly than their contemporaries. The 2016 born bulls offered in this sale averaged 4.31 pounds a day on grass. A testament to our breeding goals.

To us the females within a herd on any operation are the most valuable asset. It all starts with the mother cow: fertility, maternal traits, structural soundness, and natural fleshing ability, which are best analyzed thru the eyes of a stockman. The right kind of problem free, profitable cattle never go out of style. We are proud to offer the FairView herd in its entirety. Time tested genetics that will keep you the producer profitable.

The 2017 calf crop of bulls and heifers will sell in the Fall of 2018 at the ranch.

Rachael and I continue to be grateful to George and Judy Frank for entrusting us with the management of FairView Angus Ranch. We also appreciate the confidence and trust that you, our customers, have placed in our program. If we can be of assistance in any way, do not hesitate to contact us. We look forward to seeing you on sale day. A special thank you to Casey, Colby, and Guy for their day to day commitment to FairView.

Sincerely,

Kenny Lee

Selling 1/2 interest and full possession, owned with Redland Angus Ranch

A study done by Kris Ringwall, NDSU Extension, showed that from 2000-2014 weaning weights only increased by 3 pounds, in collected data. Despite intense selection for growth and terminal traits within the Angus breed, pounds weaned per cow exposed dropped 21 pounds while production costs rose 200%.

## BONNIE CHANCE BARDOLENE 10A

calved March 24, 1969, Reg. 18110959

Known for his unusual length of body and muscularity, this legendary sire known as Snako was a cornerstone of the timeless Bardolene lineage and was bred in the famous Bonnie

Chance herd, owned by C.K. Armistead and Sons at Onoway, AB, Canada.

This unique sire served in the Peak Dot herd in Saskatchewan, Canada, and the Glen Islay herd in Ontario to a ripe old age.

Sire | BARDOLENE LAD OF FAIRALTA ZU

His most famous son, Bardolene of Old Post 5, was the Grand Champion and record-selling bull of the prestigious Regina Bull Sale in 1973 and he was also a very successful sire, as well as his son, Bardolenes Lad 500 74, who was a popular champion across the North American continent in the mid-1970s.

Bonnie Chance Bardolene 10A represents the finest of Canadian Bardolene breeding.

## SOUTHOLM BAR LAD 50D

calved May 3, 1972, Reg.7809655

One of the all-time great sires bred in the famous Southholm Angus herd of Frank Slezina at Coaldale, AB, Canada.

This impressive individual was the

popular 1973 Canadian Royal Winter Fair Grand Champion Bull and went on to be one of the most widely-used Canadian sires in his era to rank in the top ten for annual registrations with the American Angus Association in 1979.

Southholm Bar Lad 50D was a masterful blending of the Bardoliermere and Marshall sire lines who transmitted quality and maternal strength.

He was owned by Southholm Angus, Hyland Stock Farms and Partners, Burtons Highlands Meadows and Great Plains Western Corp.

I believe as a seedstock producer it is my responsibility to strive continually to produce better cattle. For FairView Angus this meant going back and reintroducing genes that have stood the test of time. The benefits from the reintroduction of outcross genetics and inbreed heterosis captured is of significant benefit for producers.

We should always have in mind the ideal cow. The one that will pay the bills and flourish on your ranch's resources. Master breeder Ed Oliver always said, when you go to the pasture to look at cattle it's not just looking at cattle it's educating yourself on what works in your environment. If you can't imagine your ideal cow the odds of you making one are very slim. For us this has meant stepping outside the box.

In the pursuit of an outcross gene pool, the first bull to come to the top of the list was a bull that was raised at FairView in the 1960's, FV Marshall A11. Frank Slezina (Southholm Angus) of Coaldale, Alberta Canada purchased A11 from FairView and made history. A11 became one of the all time most influential bulls in all of Canada. The sons of FV Marshall A11 were the top indexing bulls over all breeds in performance tests conducted by Alberta Cattle Producers. The foot structure, muscle design, maternal excellence, masculinity, carcass quality, and hair coat put A11 at the top of our list. With the history of A11 known and the direction in which we wanted to take our program known, we found a need to acquire A11 descendants to implement into FairView's gene pool once again. Now is your opportunity to take advantage of some of these outcross genetics.

We would like to thank the following lifelong Canadian Angus breeders for their help, friendship and knowledge in this quest: Ed and Laurel Mostad of Grassy Lanes Angus, Richard Sverdahl of Abango Angus, John and Millie Boake (daughter of Frank Slezina) of Banner Angus, Roy and Cindy Bjorklund of Lookout Stock Farm and Paul and Colleen Jex Blake of Figure 8 Angus.

This has been such a gratifying personal experience for me.
