Fleming 902 New Design was a member of the Champion Pen of 3 Bulls at the 2009 Medicine Hat Pen Show. He also showed with his 2 yr old mother - Fleming 707 Gemini, the cow calf pair was among the top 10 finalists for the World Angus Forum – Female Futurity. Genetics that rise to the top! Fleming 902 New Design combines calving ease and solid growth with an 84 lb birth weight, a 934 lb weaning weight and 1389 lb yearling weight. His February 20,

2010 weight was 1572lbs. He has impressive carcass numbers with a Rib Eye Scan of 16.20 (sq in) which correlates to a REA EPD of +.21 and a IMF Score of 3.83 for a IMF EPD of +.41. Fleming 902 New Design's birth EPD, carcass merit and growth EPDs makes this bull worthy of a second look. He is a medium frame bull that stands on solid feet and has consistent depth and capacity throughout. Fleming 902 New Design has a great disposition, which is very notable on the maternal side of his pedigree. His grand sire Bon View New Design 208 and his sire FV New Design S269 have passed on the phenotypic attributes of length of spine and valuable muscle expression. The pedigree of Fleming 902 New Design is packed full of performance, calving ease, maternal traits and longevity. We can confidently say this bull will be an asset to your breeding program for either the commercial or the seedstock sector.

Fleming 917 Ranger Smith was also a member of the Champion Pen of 3 Bulls at the 2009 Medicine Hat Pen Show. Fleming 917 Ranger Smith is sired by the Fleming 508 Ranger Smith who is a Vermillion Yellowstone son. The Yellowstone genetics have had a positive impact on the Angus industry. Fleming 508 Ranger Smith had semen collected for in herd use and was the high selling bull at our 2006 Bull Sale to Granum Colony. The in herd progeny of Fleming 508 Ranger Smith are unique packages of high performance, sound feet, terrific depth and length of body with awesome dispositions. Fleming 917 Ranger Smith will put some cutability into his progeny with a 14.40 (sq in) Rib Eye Scan and a Lean Meat Yield score of 62.8%. Don't let the birth weight or birth weight EPD of Fleming 917 Ranger Smith get in your way until you have analyzed the shape and length of spine of this bull. A worthy note is that Fleming 508 Ranger Smith is a maternal brother to Fleming 912 Traveler (the other 3rd of the Champion Pen of 3 Bulls) – who is currently at stud at Genex - Hawkeye West in Billings, MT., Semen on Fleming 912 Traveler will be available in mid March. Fleming 917 Ranger Smith's dam Fleming 349 Legendary is a picture perfect female combining all the important attributes that keep your cow herd sound and functional. Take the time to analyze this outstanding future herdsire.
