

Six Mile Ranch Ltd.
"Focused On Females"

Purebred Angus Female Sale

Saturday, October 13, 2012 - At the Ranch - Fir Mountain, SK

Welcome

Welcome and thank you for taking the time to look over our special offering. The Focused On Female sale is simply a reflection of our breeding philosophy as our program has always been centered on producing the best Angus females possible. You have to understand that **raising top quality cattle is ALL WE DO**. We have no other income whatsoever, so we have to make sure that every animal we raise and use is going to work for us both functionally and financially – so you can see that we take it very seriously. But this is a big bonus for you because you can be assured that the genetics you purchase from us are geared to improve your bottom line as well.

This hand selected offering is full of breed leading genetics that are born and bred for profit. Right from the Lot 1 Proven Donor Herd Matron to the fancy, show prospect heifer calves, the quality is top notch. You can see that there are many choice lots in the sale, as we wanted to offer our very best.

We have had a great year. At the 2011 Canadian National Angus show we not only won Grand Champion Red Angus Female but also took home the Grand Champion Black Angus Female banner as well. Both of those females went on to make the prestigious top ten at Agribition's RBC Beef Supreme Challenge. We

kicked off 2012 with an amazing showing at the Denver U.S. National show being honored to win the Red Angus Premier Breeder and Premier Exhibitor Awards.

Females such as the ones offered in this sale, helped us win that honor. The U.S. National Champion Female and Reserve National Champion Bull were raised here at Six Mile and many division and class winners also carried the Six Mile name. We are very proud of that and congratulate the progressive breeders that had success with our genetics.

We love showing cattle! Even our home loving, cowboy, Clayton has become fond of this form of advertising – (even though I think you would be hard pressed to hear him admit that). We love the people we meet, the incredible cattle we see, the thrill of competition, the camaraderie among breeders and most importantly it is something we can do as a family. Even if our middle son Cade is committed to becoming our hospitality specialist rather than cattle fitter! We work as a family on the ranch and every single member is an integral part of Six Mile.

We just want to make one thing clear... At Six Mile there is **absolutely no difference between show cattle and breeding cattle**. The only difference is that the ones that get chosen to go to shows get more groceries, and more attention to hair care! That is it – plain and simple. If the females we showed did not come home and make good productive mother cows (and most often future donors), we would be broke in no time. And when they come home from the show, they are kicked out with the rest of our herd and expected to maintain condition and produce or they will be quickly culled from our program. We have no time for bad addered, hard doing, unfertile,

hard calving females that cannot raise above average progeny. There are simply too many good Angus cows in our herd to put up with that. The idea of raising cattle just for a show is simply ridiculous. And we have so many examples of females that we have shown right from

heifer calves up to mother cows - who are now producing sale topping, super productive progeny in our herd.

All heifer calves will be halter broke for your convenience. Many are excellent junior show heifer prospects and we offer a great incentive program for young juniors purchasing Six Mile Females. See the inside back cover for more information.

Our Bull Sale was an overwhelming success with many of those top end, high selling bulls servicing the females in this offering – giving you a unique opportunity to get in on these exclusive breed leading genetics.

We would like to welcome our two guest consignors, Breed Creek Angus and Triple Play Cattle Co. It is an honor to work with both of these young and progressive cattle programs. We would also be remiss not to Thank Walter, Daryl (Leppa to most of you) and Rae who work alongside us to make Six Mile a success.

If you have any questions at all about the cattle in the sale or our program please do not hesitate to contact us. We stand behind everything we sell 100% so you can feel confident when you purchase Six Mile Genetics.

Thank you for your interest in our program and we hope to visit with you soon. Everyone in attendance sale day and all buyers (present or absentee) will have the opportunity to win a Big Screen T.V. or \$500 off your purchase. Hope to see you soon.

Absentee Bidding / Video Viewing:

Cattle In Motion has produced a video of the vast majority of the sale lots. This will allow you to view the offering prior to the sale. We can mail you a video or assist you in viewing it online if you need assistance. If you are interested in any of the lots but are unable to attend the sale, please contact us (Clayton or Corinne) in advance of the sale to discuss your needs. This will allow us to suggest animals that fit your criteria. You may be on the phone during the sale or leave your bid in confidence with us or any of our sale staff. Your order will be held in the strictest confidence and handled with integrity and professionalism.

U.S Exchange / Travel:

U.S. money will be accepted at the current rate of exchange sale day and will be posted prior to the sale. The Regina International Airport is located two and a half hours northeast of the ranch. The closest border crossing to the ranch (Montana into Saskatchewan) is the Port of Opheim and is located about 25 miles south of the ranch. The ranch is located just an hour northwest of Glasgow, MT.

Payment Terms:

The terms of the sale are cash or check payable at par at the completion of the sale. If you purchased an animal as an absentee bidder, please make arrangements to mail a check or wire money within 48 hours of the sale. Please contact Clayton or Corinne Gibson prior to the sale, if you require special payment or financing terms.

The sale will be ONLINE this year!

The heart and soul of our operation. Sakic is currently one of the most influential Red Angus sires in terms of registrations in both Canada, and the U.S. We are very proud of this incredible individual. He has produced many impressive, high dollar sons for us and for other herds such as Lauron Red Angus, AB and Nordlund Stock Farms, MN As impressive as his sons have been, we believe his legacy will be his daughters. Sakic females possess unsurpassed body capacity, fleshing ability and ample milk production. Sakic is truly making his mark on Red Angus history.

Game Face is the most talked about bull calf of the spring 2012 bull sale season. Game Face is an elite calving ease prospect that topped our sale at \$65,000 for a half interest. Lodoen Cattle Company, ND outbid many prominent breeders from Canada, the U.S. and Argentina and a couple well known semen companies to own this young superstar. Game Face combines calving ease, growth, correct confirmation and maternal value into one incredible package. Buying a female bred to this sire is your only way to get in on his genetics as Lodoen's have kept the bull exclusive to our two programs.

Complete is our newest Black Angus herd sire. We spent considerable time and energy searching for a new Black herd bull. When we saw Complete 8454 on video at Connealy's spring sale, we knew we had to see him in person. So, Daryl Leppa drove down there for us and confirmed what we originally thought - this was a bull that we needed to own. \$19,000 later and Complete 8454 was on his way to Canada. Jump in on the ground floor with service to this young up and comer.

Truly a powerhouse producer. What can we say about this herd building female that her picture does not show. Her most famous accomplishment would be her daughter – the reigning Canadian National Champion Red Angus Female – Red Six Mile Gloria 746W. On her second attempt at motherhood, she raised a bull calf, Red Six Mile Outlaw 290X, who was a high seller in our 2011 Bull Sale to Triple X Red Angus, AB. In our 2013 bull sale, her son, Red Six Mile Altered Ego 506Y, will lead off our summer bull division offering. We have been flushing 361T and she will sell OPEN and READY TO FLUSH.

Selling a Half Possession and Embryo Interest.

Buyer may double the bid price and take Full Interest. If this option is taken, Six Mile reserves two flushes of at least 8 implantable embryos total.

Six Mile will deliver 361T to the DRI embryo facility in Alberta immediately after the sale where she will be flushed. Six Mile will open up their semen tank for a joint flush if the new owner so wishes.

These embryos will be full siblings to Red Six Mile Gloria 746W. Gloria 746W topped the 2011 Red Roundup sale where a half interest sold to Sunberry Valley Farms, Sundre, AB for \$24,000.00. She went on after that sale to be crowned the National Champion Red Angus Female; she was also named the Reserve Champion Red Angus Female at Agribition and made the prestigious Top Ten at the RBC Supreme Challenge. Even with all these accomplishments – it was topped when her calf at foot of 746W, Red Six Mile Smokin Gun 133Y won the U.S National Reserve Champion Bull honors at Denver 2012 and sold for \$28,000 in our spring bull sale.

Embryos are located at Davis Rairdan Embryo facility in Alberta. Guaranteeing 1 pregnancy if implanted by a licence. embryo technician.

Lot 3 represents the first calf crop from our new herd sire – Red Benchmark Better Beef... and she does not disappoint! Christy Collins from Oklahoma purchased a "Pick Of Our Heifer Calf Crop" and she also chose a daughter of Better Beef. This heifer calf has as much potential as any in the breed. She has a beautiful profile with incredible body mass and femininity in a moderate frame. Her EPD profile and beautiful hair coat really add to her show potential. Her dam is offered here as a choice with her – a beautiful young Timberlake daughter.

All Heifer Calves offered in the sale will be halter broke for your convenience. Juniors remember our "SIX MILE SUPPORTS JUNIORS" PROGRAM that offers a 5% Junior Discount.

Enid 878W is a deep red, moderate framed, beautiful daughter of Timberlake. An impressive combination of broody and feminine. She had the misfortune of losing her first calf to coyotes, but she made up for it here. Perhaps the most exciting thing about this female is her service sire. She is confirmed pregnant to Red Six Mile Smokin Gun 133Y – the reigning U.S. Reserve Champion Red Angus Bull.

Exceptional cow here representing the very best we have to offer. This female has a wean index of 106 on her first five calves. Her fancy heifer calf at foot will only add to that ratio and is offered as a choice with her today. Here 2010 heifer calf, Lady Xena 312X, was a class winner at Denver and sold to the Lodoen family at that event. She went on to be named Grand Champion Red Angus Female at the Minot ND Fall Fair.

Throttle females are surpassing everyone's expectations with their ability to raise big, strong calves. Their udders are simply stunning and Blockana 210X is a definite breed leading female. We wanted to offer the very best we could and we have really opened it up here. She is either bred to the immortal Indeed or our up and coming superstar, the \$20,000 outcross bull, New Era. You simply cannot go wrong.

Choice Lot - Lot 11 or Lot 12

This super capacity two year old is one we have a hard time parting with, for sure. The Selma cow family is near and dear to our hearts. Red RSL Miss Selma 384F was one of the females we built our herd. 358X is sired by the Unleashed bull that was crowned Champion Jr. Bull at the World Angus Forum - he was lost shortly after making his genetics rare and valuable. She has a fancy heifer calf at foot that will be offered as a choice with her. She is bred back for a full sibling.

The resemblance in structure, colour and presence between lot 13 and her daddy, Cowboy Cut is uncanny. Selma Sue comes straight off the top of our bred heifer pen. This performance packed female is out of none other than our foundation female, Red RSL Selma 384F. 384F is the dam of herd sires such as Mastermind and Park Ave. She has daughters working for Corner Creek Red Angus, Weibe Red Angus and Hein Family Red Angus. We lost her last year so this is a rare opportunity to add a gem to your herd. Lot 13 is sired by Cowboy Cut – a bull who is really stamping his progeny with his structure and type.

This lead off heifer exudes potential. She was raised by a two year old Park Ave. daughter who weaned her with an incredible 121 wean index. 129Y then went on to index 114 at yearling as well, ranking her #1 at weaning and #2 at yearling. These Game Plan females are getting it done in the pasture and the show ring. Last year at Denver two Game Plan daughters won division banners. As pasture cows they are proving to have great mothering instincts and milk production. To make things even better, she is confirmed safe to the legendary maternal sire, Indeed.

April Attraction

A special highlight of our entire sale offering is this dazzling April show heifer prospect. She is none other than a maternal sister to the lead off, and \$ 65,000 high selling bull from our 2012 bull sale, Red Six Mile Game Face 164Y. He is owned in partnership with Lodoen Cattle Company who are building a Red Angus herd to be reckoned with – that is for sure. This young female has future donor potential coming from a young female who is raising her with a severely injured shoulder. Watch for her dam to enter our flush program next year. She is hard to part with but offers unsurpassed earning potential for her new owner. Remember that Six Mile females like this have been successful in the show ring and then go home and make the kind of cows you can build a herd around. Do not miss out here.

Focused On Females Sale

*Red Six Mile Ruger 221X
Sire of Lot 40*

This class act is sired by the Accelerated sire, Red Six Mile Ruger 221X. Ruger... remember that name – because after his first sons sell next year in our bull sale, you will want to be a part of this gene pool! Another March show prospect whose dam posted a wean index of 117 on her first calf!

What could get better? A sure thing, exceptional genetic combination that has the accolades and awards to prove it. This pregnant recipient is carrying a full sibling to the U.S. National Champion Female at Denver 2012 - Red Six Mile Countess 105Y.

Countess won numerous heifer calf championships throughout the summer of 2011. Later that fall she was crowned the Champion Senior Heifer Calf at Canadian Western Agribition. At the Power and Perfection sale, she sold to Christy Collins, Ok and Safari Cattle Co., TX. At the U.S. National show, she was a runaway favorite with numerous fans around the world as she was crowned U.S. National Champion Female. She then went on to again win Grand Champion Female Honors at Fort Worth in February 2012. That female is one to watch for because she is not only going to get it done in the show ring - she has donor cow potential galore.

The dam of these embryos is a cow we sourced out of the historic Soo Line dispersal. She is big, broody, deep red, capacity female who has earned the status of CAA ELITE DAM. Her production ability is incredible. The sire, N Bar Hamley is known to produce show stopping progeny with extra class and style.

There are three confirmed 60 day pregnancies to choose from. By sale day we will endeavour to confirm the sex of each pregnancy to allow the buyer to choose the recipient he/she wishes. All recipients are Red Angus Commercial Females.

We purchased this rare old (and expensive!) semen with the full intention of flushing Patsy 256P to it. We remember those beautiful, wedge shaped Beiber Design females in the past – the kind with incredible rib shape, excellent udder structure and femininity to burn. We paired that with our CAA ELITE DAM, Patsy who throws as much power and performance as you could ever demand into her progeny and we can't wait to see the results. Jump in on the ground floor here folks!

Redman 1T sired the Champion senior bull calf at Agribition, Red Rock of Spittalburn 101Y who later sold for \$36,000. After seeing the Redman 1T progeny at Spittalburn and Lazy MC Red Angus we decided to use him on our most powerful donor and that is Patsy 256P. She adds a little frame and punch to all of her progeny and her daughter's are in such demand that we cannot even keep them. She has daughters working for Kerry Paul, MS, Russ Coward, SK and Josh Rust, ND. Her first son, Red Six Mile Aviation, brought \$27,000 selling to Box X Ranch and Breed Creek Angus, SK. We think this mating will net powerful results.

Guest Consignor - Triple Play Cattle

We are excited to once again have the opportunity to guest consign to the Focused on Female's sale and to work with the Six Mile crew! Not only is it a great chance for us to gain exposure but it is a priceless learning experience for us as we continue to grow our herd. We maintain strict standards that our cattle must live up to and I could write a novel telling you what they are, but instead I will give you the short version..... a very busy three year old boy that keeps us running + Scott working a full time job off the farm = no time to mess around with high maintenance cattle. We do have lots of time to show off our herd though and would love to give you a tour, so feel free to stop by anytime!

There isn't a lot I have to say about this heifer that her pedigree doesn't already say! The Lassie cow family crossed with the calving ease and eye appeal of Doc Holliday, maternal strengths of Indeed, and performance of Sakic has combined to create this neat package of a heifer. She is no slouch in her phenotype either; moderate, stout, and as easy doing as they come.

We were lucky enough to purchase her grand dam, Lassie 789M from Six Mile as a bred heifer when we were starting our herd and she has been the cornerstone of our program ever since with numerous daughters and granddaughters working in our herd.

Lassie 3Y is checked safe with an early service to our calving ease Smash son, Ripped 206X. His first calf crop is looking great including a super stout son out of this heifers young dam!

Exposed to Red Six Mile Ripped 206X from April 20 to August 19

This precious gem really hits the mark. Her dam is a big bodied, sound uddered female that we were lucky enough to source from Dwajo Angus. We used her sire, Benefield Substance after being impressed with his progeny in the Ellingson herd in North Dakota. Every day I think this heifer calf gets better and she will be missed in the heifer pen for sure, but will be a welcomed addition to yours.

*Benfield Substance 8506
Sire of Lot 55*

Feature Bred Heifers

SAV Preference 9184
Sire of Lots 56, 57 & 63

Proven performance and pedigree all rolled into one outstanding female. This is, without a doubt, our favorite replacement heifer. Her dam is a front pasture kind of female. If we did not still have 349Y's dam and a maternal sister we would not be so gracious in offering her here today. Preference is really working well in our herd, adding frame and performance while still maintaining the maternal superiority we demand. This heifer is mated to the high selling bull from our 2011 Bull Sale, Six Mile Trademark 9X. His calves have really impressed us with a son of his in our show pen this fall.

These embryos will be full siblings to the high selling heifer calf in last year's female sale, Six Mile Beauty 124Y who brought \$15,500 for a half interest, selling to Blairs.Ag Cattle Co. This full sibling, Beauty 124Y posted a 126 wean index and a 103 yearling index making her a performance leader teamed with incredible maternal merit. As a heifer calf, Beauty 124Y won many banners and accolades. She stood at her mother's side as she was crowned the National Champion Black Angus Female and was named to the prestigious Top Ten at Agribition's RBC Beef Supreme Challenge.

Six Mile Beyond Beauty 124Y - Full Sibling to Lot 59 Embryos

Guest Consignor - Breed Creek Angus

Welcome to the 2012 "Focus on Females" sale. We once again would like to Thank the Six Mile crew for inviting us to participate as guest consignors. We truly are a family operation were along with my wife, Suzanne, and our children Eric, Luc and Alexi, all pitch in to make things work. I am proud that all three of my children are Canadian Angus members and all three have their own cows of which they register their own calves. Our herd consists of 160 registered black cows and 60 registered red cows along with 120 commercial red and black cows. Out cattle are run in a no frills fashion where the cows are expected to work for us. Simply put, we are very busy and do not have the time to babysit or pamper our cattle; they have to work for us or they are gone.

Many of the heifers offered are sired by our senior herd bull, KM Right Time 7302 - a bull whose influence is just starting to be realized. Our high selling bull in 2011 sold to Six Mile and was sired by 7302. His daughters are as consistent as they come. Servicing the heifers we have three exceptional herd bulls. All the heifers were heat synchronized and bred on April 29th to Soo Line Motive 9016 - a bull whose exclusive service is highly valued. The heifers were then exposed to either Six Mile Trademark 9X or Anderson Tiger 1105Y. The Trademark calves here and at Six Mile are exceptional - they are born light and explode from there. The Anderson Tiger bull looks great and we are expecting great things from this son of the World Angus Forum champion, HF Tiger 5T.

We are very proud of the successes that other breeders have had with our genetics in the past and are excited to offer you this solid, functional set of bred heifers. If you have any questions just give me a call.

Six Mile Supports Juniors Program

We are extremely honoured when a junior member chooses Six Mile Genetics. In order to support those young cattlemen and cattlemen we have developed a program that will, in our small way, help them achieve their goals and promote their animals.

5% Sale Discount

For every female purchased that is transferred into a junior member's name, we will deduct 5% from the sale price.

Pay For Picture Promotion

Any Picture \$50: We will pay each junior that sends us a digital picture of them and their Six Mile animal \$50.00 Cash. This picture can be a show picture or just the junior in the pasture standing in front of his Six Mile animal – it does not matter. We just want to see happy junior members with their Six Mile Genetics. The picture will be used on our website so it must be a high quality digital picture capable of being posted on the internet.

Class Winner \$100: If you win any class at any recognized show and are able to send us a high quality digital picture of you, your animal and your ribbon – we will send you \$100.

Division Grand or Reserve Champion Picture \$200: If you win Grand or Reserve Champion Female in a Division with your Six Mile female, such as Junior Heifer Calf, at

any show then you qualify. Send us a high quality digital photo that we can post on our website and we will send you \$200.

Overall Grand or Reserve Champion Picture \$300: If you happen to get lucky and win the overall Grand Champion Female or Reserve Champion Female at any show, then we will pay your \$300 for that picture, as long as it is sent digitally and is high quality.

Show Camp

Six Mile Red Angus is in the process of organizing a "cattle show camp". Participants will be able to gain valuable knowledge about preparing an animal for show from start to finish from professionals with years of experience. Some topics will include feeding, washing, clipping, showmanship, judging and general show preparation and care. This show camp will be held on **Saturday, May 25, 2013** and is offered free to any to any junior who has purchased an animal from Six Mile.

NAARAS

North American Junior Red Angus Show

Six Mile Ranch is a Breeders Cup Futurity Sponsor for the 2013 show - Allowing all Six Mile Cattle to be eligible for the Futurity show as well as the NAJRAE show. The show is scheduled for June 19-22, 2013, in Kansas.

CdAA

Canadian Junior Angus Association

Six Mile Ranch will assist you in transporting your Six Mile Female to Showdown in Armstrong, B.C. in 2013!

Terms & Conditions

All cattle sell under the standard Terms and Conditions set out by the Canadian Angus Association

Terms of settlement - The terms of the sale are cash or cheque payable at par. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. Payment terms can be arranged if you discuss them with Clayton & Corinne prior to the sale.

Bids & Disputes - Every animal entering the sale ring will be sold to the highest bidder. In case of disputes, bidding will be re-opened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

Purchaser's Risk - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

Certificate of Registry - A certificate of Canadian registry duly transferred will be furnished to the buyer of each animal sold as a Registered Animal after settlement is made.

Breeder's Pregnancy Guarantee - We have had all the females pregnancy checked by a veterinarian. When you purchase these heifers you have 30 days from the sale to notify us of a problem with the pregnancy in the purchased female. At that time the consignor will work with you to rectify the situation to mutual satisfaction.

Liability - Although every precaution will be taken to protect the safety and comfort of buyers, the auctioneer or owners assume no responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

Insurance - A representative from LIM will be available on sale day. We strongly urge purchasers to insure their new purchases as they become their responsibility as soon as they are sold.

Delivery - We will help coordinate delivery to keep it as low as possible.

U.S. Shipments - Six Mile will do all the health testing and export papers required for shipment. We will deliver the cattle across the border and assist in further shipping arrangements from there. Cost is the responsibility of the buyer from that point on.
