# 108 LOTS SELL

## ELITE RED & BLACK ANGUS GENETICS

### TERMS OF SETTLEMENT

The terms of the sale are cash or cheque payable at par. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. Payment terms can be arranged if you discuss them with Kevin, Clayton or Corinne prior to the sale.

### BIDS AND DISPUTES

Every animal entering the sale ring will be sold to the highest bidder. In case of disputes, bidding will be reopened between the parties involved. If no further

bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

### CERTIFICATE OF REGISTRY

A certificate of Canadian registry duly transferred will be furnished to the buyer of each animal sold as a Registered Animal after settlement is made.

### LIABILITY

Although every precaution will be taken to protect the safety and comfort of the buyers, the auctioneer

or owners assume no responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

### US EXCHANGE / TRAVEL

U.S. Money will be accepted at the current rate of exchange sale day and will be posted prior to the sale.

### PURCHASER'S RISK

Each Animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

## WELCOME FROM BLAIRS.AG

Welcome to the sale. It is with great pleasure and extreme excitement that Blairs.Ag Cattle Company & Associates welcome you to the first ever **Genetic Focus** female sale. We are excited to partner in this event with industry and breed leaders Clayton and Corinne Gibson & family from Six Mile Ranch. With the new sale partnership it was only fitting that we selected a new and exciting venue. We are proud to hold the first ever **Genetic Focus** sale in *the Stock Exchange* at Evraz Place in Regina, Saskatchewan, Canada.

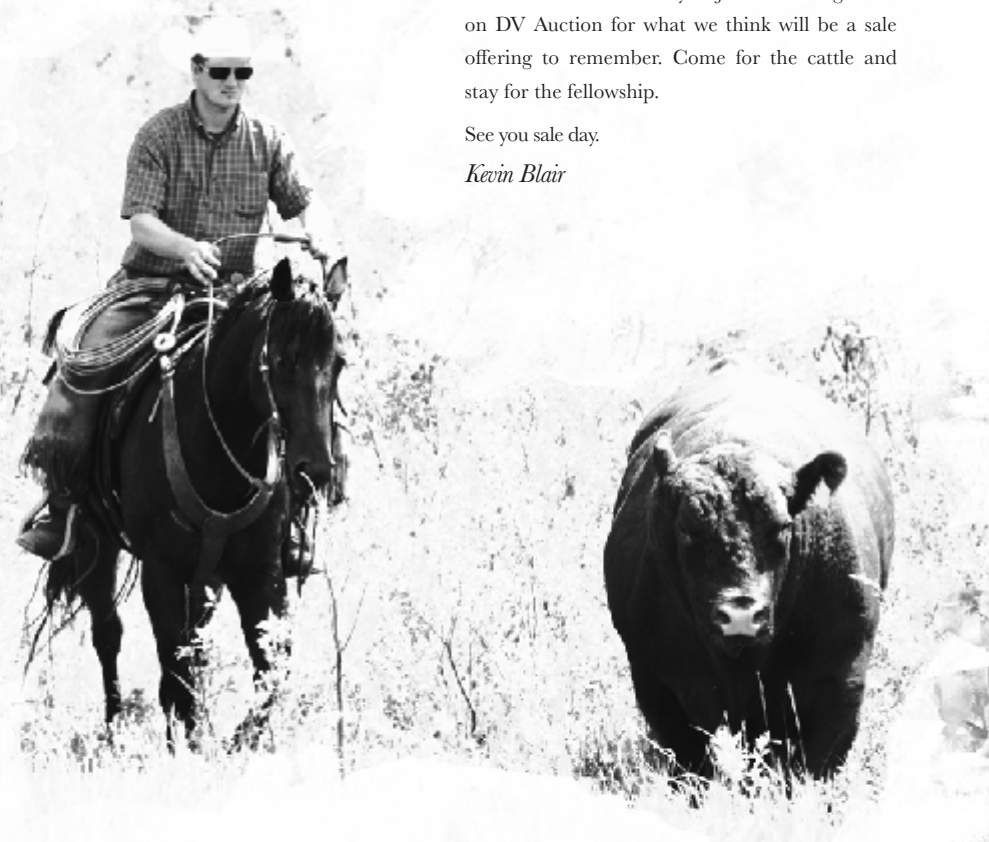

Our offering is deep in quality and perfectly represents both where we came from and where we are headed in the Angus business. Many in the offering would never be offered for sale by public auction except for in a special event like **Genetic Focus '15**.

The livestock industry continues to show its strength with great sale results from North to South and East to West across North America. Breeders continue to search for the very best genetics that can be found and sale prices reflect that great females command great prices.

We are excited to have you join us in Regina or on DV Auction for what we think will be a sale offering to remember. Come for the cattle and stay for the fellowship.

See you sale day.

*Kevin Blair*

## WELCOME FROM SIX MILE RANCH LTD

**W**elcome to the inaugural **Genetic Focus** sale. First and foremost, we would like to thank our friends at Blairs.Ag for partnering with us for doing the majority of the groundwork involved with a sale of this magnitude. We are excited to work with this progressive program. A really big thank you to our Six Mile family who have worked countless hours preparing for this sale. We are truly blessed.

At Six Mile, we are a family operation that has made our sole living raising Angus cattle for over 40 years. Our focus is always on the Female. We are hands on, working with our cattle every day, so we know them very well. We believe the cows that you build your herd on should look good, but more importantly, they have to produce and prove themselves worthy. This is our opportunity to share those genetics with you.

Every single animal in our offering is off the top of our herd and comprised our fall show string. We feel

confident these females and genetic offerings will work for you and we will be there to back up those genetics 100%. Customer service is important to us – so if things don't go as planned, as we all know they can – we are only a call away.

Over the past years we have been fortunate to enjoy many successes with our cattle in the show and sale ring. However all of these achievements pale in comparison to the pride we feel when we see our customers succeed with our genetics. So Thank You to all our customers, our freinds, for making us so proud.

We hope to see you soon.

With Kind Regards,

*Clayton & Corinne Gibson*

What a way to lead off the Genetic Focus '15 event!! Uptown Girl 105X is a fascinating female that is rare combination of immense power with exceptional phenotypic quality. We challenge you to find a donor with more dimension, extension, balance and style for sale this season. Much like her Mulberry sister and stallmate, Blackbird 107X, that highlighted the Wildcat Dispersion, 105X has that same star power and can be feature donor in any type of program in North America. She's safe to the impressive Signature herd sire and may have the first calf on the ground out of this exciting young bull. Her productive dam sells as Lot 2. **Black/Red Carrier**. *Terms to be announced sale week.* Consigned with Shaneri Farms.

EXPOSED Red Blair's Iron Hide 630B › June 20 to 28; Red Rust North Dakota 27B › June 28 to July 22

Here's some real cow power here with some outcross genetics to boot. She combines New Attraction functional traits with a fantastic cow that was purchased by Rust Mountain View for their donor program in North Dakota. Safe to Bingo.

The Cash daughters have worked out well for us and they have been some of the top sellers in our sale every year. 128B has always been a favorite in the bred heifer pasture due to her ideal size, dark red color and tremendous body shape and bone. She's got the brood cow look.

One of the most extraordinary bulls to come along in some time. Signature is a rare combination of power and performance with remarkable phenotype and structure. He was awesome as a calf, winning championships at the Agribition and National Western. He continued to develop and amaze us as a yearling bull running with cows this summer. And now, we believe that you'll be even more impressed with him as an 18 month old herd sire at the upcoming winter shows. We welcome Niobrara Red Angus in Nebraska as a partner in Signature to headline their new program.

North Dakota 27B was the lead off Red Angus bull at the Rust Mountain View bull sale this past spring. What caught our attention was a total package of performance, muscle, conformation, fleshing ability, scrotal size and more. A total outcross pedigree to our programs only added to the attraction. His dam is a 2002 model that has definitely stood the test of time and has excelled as one of Rust's leading donors. This lot will be the last package to be offered for the 2016 breeding season. Co-owned with SSS Red Angus and Rust Mountain View Ranch.

### Attention Red Angus Enthusiasts!

Here's a special lot added at the last minute to cap off the Genetic Focus '15 offering. Backroads is a phenomenal Detour son that has the potential to be the next great one. He and his dam were many times champion in the 2 yr old pair class for Baxter Blair this show season. True to his calving ease genetics, he started off small, but has turned on the power as of late and has developed into of the most impressive bull stud prospects to be offered this year. Consigned by Double B Cattle, Baxter Blair. *Terms to be announced.*
