Welcome to the 2010 edition of the M & J Farms bull sale. This year there will be a couple of firsts for M & J. Our breeding program now offers both red and black Simmental and Angus plus Simm-Angus hybrids. We have bred Simmental cattle since the early 70's, Red Angus since the early 90's and over the last four years have been building a strong Black Angus cowherd.

This year also sees an entire offering of coming two year old bulls who were weaned onto a silage based high roughage ration followed by a summer of grazing, and then returned to a cereal silage based ration. It has been an enlightening experience to see the results. Bulls with weaknesses have been eliminated and we feel confident that the bulls we are offering are what beef producers want and need...bulls that can get out and work that have longevity.

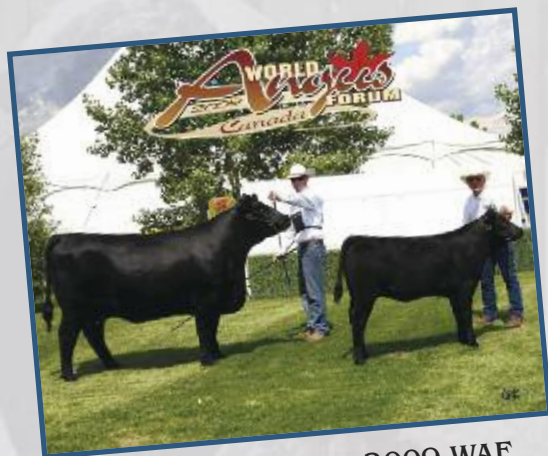

This will be the first offering of sons from our black Simmental herd sire, Ultra Teddy. These bulls are thick, moderate framed, good haired and ready to sire calves that push the scale down hard. Our red Simmental offering includes grandsons of Red Warrior and Red Label. They are stout, athletic bulls that are ready to get the job done. Our Angus bulls include several calving ease prospects as well as performance individuals ready for crossbred cowherd challenges.

We have developed an in house insurance/wintering program that can be tailored to your needs. Visit with us about how we can accommodate your breeding program plans. Come and assess these herd bull prospects Saturday, February 6th in our heated facility on the farm. We will be having lunch and we encourage you to enjoy our hospitality.

See you on sale day.

If you want a new herd bull that puts heavy emphasis on strong maternal traits, yet will leave you a bull pen that is easy to sell, then 21U is the bull for your program. A Genex rep told us that he resembles the up coming AI bull, Club King, seen on tour in the states.

26U is a larger framed individual that carries an extraordinary pedigree. His sire walked at Soo Line and his mother is an awesome Dividend daughter. He is Steve and Donna's consignment to the offering.

Terms & Conditions...

Terms...

The terms of the sale are cash or cheque payable at M & J Farms on sale day. All settlements must be made with the sale clerk before any cattle will be released.

Payment Options...

Payment in full sale day will be the norm. If special arrangements are needed please discuss with Miles Glasman prior to the sale.

Insurance...

M & J Farms encourages that bulls be wintered here and be tested and examined for early April pick up or delivery. Bulls wintered at M & J Farms must be insured. M & J Farms will offer an in house board and insurance package for bulls \$4000 and under at a flat rate of \$399 until mid April, 2010. This will be a no questions asked policy. If the bull does not semen test or is injured and unable to breed by mid April, 2010 or later (if early delivery is not required) then the bull will be replaced with one of equal value or purchase price will be refunded. After semen testing full insurance options may be obtained through Stockman Agencies, Blair & Lois McRae.

Breeders Guarantee...

All bulls will be semen tested and physically examined by early April, 2010. The bulls are sold with a breeders guarantee. If problems arise please notify M & J Farms immediately so the replacement or credit towards another bull can be dealt with in a timely fashion. At no time will M & J Farms be responsible for more than the purchase price.

Accidents...

Every precaution will be taken to protect the safety and comfort of buyers and guests. The auctioneer, the seller (M & J Farms), our employees and agent assume no responsibility in this matter and disclaim any liability, legal or otherwise in the event of accident or loss of property. Attend at your own risk.
