Welcome . . .

Our family extend a warm welcome to friends, neighbors and cattlemen to our 19th Annual "Back to the Basics" Bull Sale.

We have made a big change to the ranch when on Dec. 4, 2012 we dispersed our bred cows. We have retained all our 2012 heifer calves and plan to run a commercial herd along with a small group of purebred females.

This year we are offering only two year old Angus and Hereford bulls in the sale. Initially we had planned to have the 19th sale on Feb. 9 as our last, but we made the decision to celebrate our 20th "Back to the Basics" in 2014, selling a large group of Angus and Hereford two year olds.

Our program for the bulls is still the same – they are fed in large groups on a good roughage ration to make them useful, working bulls.

We stand behind our bulls 100%, and if there is a problem, we want to know.

We are always thankful to our customers for giving our program the chance to work in theirs and coming back year after year with solid support.

We look forward to seeing you sale day – please join us for lunch at noon on Feb. 9th and a social after the sale.

Sincerely,
Mick, Debbie, Kristi, Mark, Kurt,
Shannon, Matthew,
Ryan & Casey

80% of our customers are Repeat Buyers!!

bulls are raised with the basics in mind.

Basics is what have made the Hereford and Angus breeds attractive for so many years.

We decided a long time ago that we didn't want to produce just numbers to sell. At MJT we want to raise sound, economical high performance traits in our cattle without sacrificing birth weights or milk.

We strive to better these traits on a continuous basis.

We feel our commitment to this should help you, the rancher, produce predictable and profitable cattle from MJT genetics.

During the late 80's and early 90's the tape measure for hip height was used intensely for selecting cattle. At MJT we never focused our attention on height as we were well aware there was more traits to emphasize on than chasing a yard stick.

We know the Hereford and Angus breed didn't gain their popularity for how tall they are - it is their maternal strengths, easy doing, longevity, moderate birth weight and overall structural soundness that established their reputation.

The cows can wean a calf crop under almost any conditions and still make you a profit.

cattle are sold with the standard breeds guarantee plus our own 100% guarantee.

We strive to have the best relationship with our customers and to be #1 on service.

We know sometimes things go wrong with bulls and if yours should, we guarantee you will have another bull in your pasture to breed your cows.

is not in this for the short haul. We have been in the "Bull Business" for many years now and this is our 19th sale at home.

The cattle business is our only business and we try to offer a good selection of bulls that are affordable to the budget of the rancher.

We know good quality cattle can sell themselves, but it is our goal to give each of our customers personal service as well. We consider it a privilege to have our bulls working in so many ranchers programs.

We are confident in our bulls and we know there is no substitute for quality. MJT bulls are not pampered. They are raised right from the beginning to stay sound and athletic and to go to work for the rancher.

0% of MJT sale bulls have had their feet trimmed and 0% of our herd bulls are ever trimmed.

I consider our herd bull battery to be the best genetics that are available.

Tracker is sired by the world renown Neon and his dam is the great Sydney 59M cow that has produced herd bulls working in purebred herds across North America. Tracker has produced consistently moderate birth weights, and they go on to be easy doing cattle. He marks them well, with plenty of eye pigment and good hair. His first females will be calved in 2012 – they look like I hoped they would.

Cash was out of our Show Heifer "Rosie" MJT Charisma 228P's first calf. He reminded us a lot of his sire "Total," the type of calf you noticed every time you went to the pasture. Cash was Champion bull calf 2006 Lloyd Stockade Roundup and had the highest rate of gain of any calf in the barn. We sold Cash for 85,000 to Hirshe Herefords in 2008. There was a lot of international interest in him for semen but unfortunately he got a testicular infection and it damaged his semen quality for freezing. We use Cash as a pasture bull and everyone who sees him admires him.

We bought 4S from Lenoard Pohlka at the Calgary Bull Sale in 2008. He had been used as a yearling at Lenoards and already had calves on the ground by sale time. We liked his extra length of body, natural muscling and had a good wide foot under him. Our Hereford Genes 2010 Bull was sired by 4S. A good maternal cow family to moderate sized females and excellent udders.

CALVING EASE...

We have several customers who take home our bulls for use on their first calvers. We decided to make a system to help you when choosing your next heifer bull.

This system is based on the following...

1. BW in lbs.
2. Consistency of BW of sire
3. Consistency of BW of dam
4. Consistency of calving ease of both sire and dam.
 (eg. build of calf)

Always keep in mind – 50% of your calf's BW relates back to his mother.

The following is what we recommend...

- X** Recommended for cows only
- XX** Recommended for cows or larger framed heifers
 that were not big at birth
- XXX** Recommended for heifers

The world is your (prairie) oyster.

HEREFORD 2 YEAR OLD BULLS

This group of sale bulls look pretty darn good. If you are looking for muscle, hair, good feet and a bull off a nice mama cow, then you better stop in and check these boys out. **Their feet are good and they have NOT been trimmed.** They get plenty of exercise and are not pushed on feed at anytime. They are all vet inspected prior to sale day with scrotal and pelvic measurements available. The bulls have been haltered and will be semen tested. These are all **VIRGIN BULLS.**

66X sold in our 2012 sale last February. However, when we decided to have a Cow Dispersal we wanted to have one group of mature cows bred to a top bull we had raised. We made arrangements with Len and traded bulls to keep 66X in our breeding program.

This big fella is from a top producing female 76N – she is 11 years old – perfect udder, excellent feet and very moderate framed. She sold to Matt and Mark Lohner in our December sale.

Tracker has pigment on both eyes, marked very well, nice muscle shape and great hair. He bred well for us in the pasture and we are confident his calves will be as good as he is.

6X went to the World Hereford Conference in Olds July 2012 where he was named Reserve Sr. Champion. He stood second to Grant Hirshes Supreme Champion Bull over all breeds at Agribition 2012.

6X is sired by GH Neon 17N, a bull that has influenced cattle around the world and his dam is a perfect uddered, good producing female at Pohlkas.

6X is an impressive bull – lots of muscle, hair, good footed and very quiet too. He will make an impressive herdsire.

THE CLARKS

We would like to thank all our valued customers and friends for supporting our program. We welcome you to the annual "Back to the Basics" bull sale. We are very excited about the coming years, it has been a long time since the cattle business has been this positive. Calf prices are excellent and the momentum continues to build in a year where we have had winter for well over two months.

We have been in the business for 20 years and continue to stand behind our product and maintain the highest quality possible. We are working very hard on all aspects of our breeding program. The bulls have been developed slowly, with their future in mind.

The cow herd must perform under ranch conditions, breed back in 55 days, raise a calf every year or she doesn't stay. Our bulls are sired 100% by our herd sires. These herd bulls must also survive and work hard.

As in the past, the bulls have been through the various culling stages. The bulls in the sale are the bulls we believe will benefit the cattle industry. All bulls in the sale are April/May born and are specifically held over to be sold as long yearlings. All calves were weaned November 11, 2011 backgrounded in the first winter, went to grass in May, home in September and are on a chopped hay/silage ration. They are supplemented with a 14% bull ration.

Thank you to our parents for their continued support of our vision and the extra hands or equipment throughout the year. Mick, Debbie and family, it is a pleasure to be a part of the sale!

If you have any questions about the bulls, cows or sires please give us a call or stop by for coffee.

Farmer's Creed

I believe a man's greatest possession is his dignity and that no calling bestows this more abundantly than farming.

I believe hard work and honest sweat are the building blocks of a person's character.

I believe that farming, despite its hardships and disappointments, is the most honest and honorable way a man can spend his days on this earth.

I believe farming nurtures the close family ties that make life rich in ways money can't buy.

I believe my children are learning values that will last a lifetime and can be learned in no other way.

I believe farming provides education for life and that no other occupation teaches so much about birth, growth, and maturity in such a variety of ways.

I believe many of the best things in life are indeed free: the splendor of a sunrise, the rapture of wide open spaces, and the exhilarating sight of your land greening each spring.

I believe that true happiness comes from watching your crops ripen in the field, your children grow tall in the sun, your whole family feels the pride that springs from their shared experience.

I believe that by my toil I am giving more to the world than I am taking from it; an honor that does no come to all men.

I believe my life will be measured ultimately by what I have done for my fellow man, and by this standard I fear no judgement.

I believe when a man grows old and sums up his days, he should be able to stand tall and feel pride in the life he's lived.

I believe in farming because it makes all this possible.

COMMERCIAL HEIFERS

We are happy to again have an elite group of commercial heifers on offer in our sale. These heifers have been popular in our previous sales and they continue to come out of the heart of these ranchers female base. Take these heifers home and breed them how you want. It is no secret anymore that the British influence is the "ingredient" in building the optimum cow.

A LIFE IN PICTURES

A LIFE IN PICTURES

A LIFE IN PICTURES

The most significant concern of any rancher is the profit he makes from his cows. We feel that having kept the basics in the cattle industry in mind our genetics here at MJT, should produce cattle that satisfy the rancher, and put profit in his jeans.

can also offer our customers a great way to market top quality replacement females and an excellent opportunity for cattlemen to purchase these females at the MJT Production Sale, every year. These heifers are raised by good ranchers for the rancher. With industry proven genetics backing them up, these heifers are sure to make superior seed stock.

has many options to purchase one bull or several bulls. We will be happy to show you the bulls, their sires and dams at anytime. If you are unable to attend the sale but have previously selected the bull you like, it can be purchased over the phone or by contacting myself or one of the sales staff. We have a sight unseen purchase program where the customer lets us know their requirements, standards and price range. We will try and fill your order. If you are not satisfied you are not required to purchase the bull.

We are pleased to have "Aspen View Angus," Darryl & Layne Clark join us in our "2013 Back To The Basics Bull Sale." They have the Red Angus Bulls in the sale. These bulls are a strong group and definitely herd bull prospects with both style and performance.

Our philosophy is the same for every animal in the sale and each one carries the same 100% guarantee. We stake our reputation on selling cattle that work for the rancher.

We are willing to discuss your bull buying needs and supply any information we can.

bulls have performance data available, including EPDs, birth, 205 day and yearling weights, scrotal circumference and pelvic measurements. The bulls are haltered and will be semen tested prior to delivery.

We would like to sincerely thank the ranchers who have supported our past sales. You are integral to our progress and our program.

We have worked to build a reputation for ourselves and our cattle. We continue to challenge ourselves to do better.

There are many ups and downs in this business, but there is one thing that never changes - the many ranchers and their families we have had the privilege to get to know and call our friends.

We are very excited about hosting our 19th annual bull sale at the ranch. We feel by making a complete package of #1 service and quality cattle we have a lot to offer the rancher. Come in your car or your pickup sale day and have a look at the cattle and we will show you our best hospitality and a good beef dinner.

We hope you choose to come on February 9, 2013.

*We don't care how you get here, just come!
Join us for dinner before the sale and a social afterwards!*
