## & GUESTS BULL SALE

MARCH  
**11TH**  
2015

*Downhill Simmentals - Perkin Land & Cattle Co.*

# WELCOME

Welcome to our 11th bull sale on the farm. Mar Mac Farms is a fourth generation family farm and our whole family is involved in the feeding, breeding, and marketing of our cattle. We take pride in producing top genetics. We also understand the importance of customer service and honest relations with our valued customers and friends in the livestock industry.

Congratulations to all who are reading this welcome. You have weathered some tough years and are finally being rewarded for sticking with the cattle business. Last fall we saw record prices for calves and the next 5 years look good as well

It is indeed a good time to be in the cattle industry. Now is the time to sell your old herd bull for top dollar and invest in some new genetics that will put you at the top of the price spread when you sell your calves.

We are very proud of the bulls on offer today. The bulls have been stringently selected and we are offering only our best. The Red Angus have been selected for calving ease or power whatever suits your program. The Black Angus bulls may be our most consistent group yet; they are powerful individuals with outcross genetics. Our Simmental bulls are led by our Tombstone sire group, what a job he has done for us, these bulls are the kind you would love to have a pen of steers out of.

Cow families are very important in our program as you look through the sale book you will see they are continually excelling in production.

The bulls this year have been fed a silage ration to enhance longevity and soundness. They are athletic, loose hided and have lots of hair. You may find fatter bulls at other sales but these boys are fed to last.

These bulls' mothers are not pampered. Like you we have more work to do with less help, therefore our cows have to calve and nurse on their own and then breed back or they do not stay here. We would feel confident to use any of these bulls in our own herd, and as such we are **retaining the right to collect 200 straws of semen for use in our own** herd at your convenience and our expense.

We are pleased to work with our sale consigners Downhill Simmentals (Everett Olsen), and Perkin Land and Cattle Co. (Darryl and Tanya Perkin and family). Downhill Simmental bulls have been fed with our bulls since weaning.

Putting on a sale at home like this does not happen without the help of some good people. We are fortunate to live in a community where our neighbours are our friends and I would certainly like to thank them for all their support over the years. Special thanks to our good friends, Jean Laing and Sandy Margetts, who are always there when we need a hand with anything on sale day.

We look forward to meeting you on sale day, although we can not visit with everyone on sale day we would like to say a heartfelt thank you for attending our sale and supporting our programs.

Blair, Lois, Brett and Melissa McRae

*p.s. Join us for a tasty Roast Beef lunch at noon. Our sale barn is heated but the bulls are on display outside, so dress accordingly.*

### Online Viewing & Bidding

SALE BROADCAST BY:

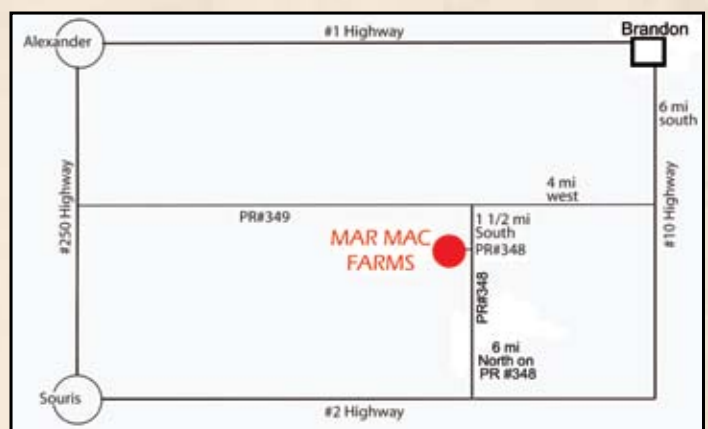

WWW.CATTLEINMOTION.COM

**for assistance registering  
please call 1-888-554-8437**

We invite those of you who are unable to attend the sale to be part of the action! With the help of Cattle In Motion we are now able to give you a live connection to the auction. Real-time bidding will be available via the internet for this sale. Please go online a few days before to register. We encourage you to come to the farm ahead of time and check out which bull(s) you are interested in and then bid online if you desire.

**Mar Mac Farms & Guests reserve the right to draw semen  
on any bulls in the sale for their in herd use.**

### WESTJET NOW FLIES DIRECT TO BRANDON

**Bridge is back open!**

# BUYER SELECTION PROGRAMS

Give Mar Mac or any other of the consignors a call anytime... Call us a few days in advance of the sale with your bull needs and we will compile a list of bulls that we feel will work for you. As we are with the bulls everyday, we know the qualities in each bull. If we buy a bull for you sight unseen and you do not like him, you don't own him - no problem! Don't forget to check out the videos!

*At the Mar Mac and Guests Bull Sale our fifty plus years of experience as a family run operation means CUSTOMER SERVICE is an important part of our business.*

*We guarantee our bulls 100%, sight unseen purchase satisfaction, wintering program, personal contact after the sale of the bull and the coffee is always on for you to come and view our program.*

## WE CAN SUPPLY YOU WITH QUALITY BULLS AND CUSTOMER SERVICE

### *Bull Guarantee...*

All bulls have completed a breeding soundness evaluation by Virden Animal Clinic. If your bull fails to be a satisfactory breeder, we will replace him with a bull of equal value or give you your money back. We guarantee you will have a sound bull to service your cows. We will not provide a replacement if your bull has been miss managed. At no time shall the liability exceed the purchase price of your bull. **Bulls under one year of age on semen test day will be tested after their birthday, before you need them.**

### *Calving Ease Score...*

**We evaluate each bull for calving ease determined by bone size, birth weight, birth weight EPD and profile.**

**Scoring is as follows:**

- \*\*\* Recommended for use on moderate framed first calf heifers. Should produce minimal or no calving trouble.**
- \*\* Recommended for use on large framed first calf heifers & cows. Should produce minimal or no calving trouble.**
- \* Recommended for use on cows. Should produce minimal or no calving trouble.**

### DELIVERY

We offer to board your bull free until April 15, after that at cost until you need him. As well, we will deliver your bull free to central points in Western Canada or the US Border and cost will be shared to Eastern Canada. We will make every effort to get the bull to your farm. Delivery will be as close to the date you request your bull, but will be at our convenience. If you want to pick up your bull at the farm, you can save \$50 off the purchase price. If you can not take your bull when we are in your area, we would appreciate if you made arrangements to pick up your bull.

### PIECE OF MIND

Your new bull is a valuable asset and we recommend insuring your bull for infertility coverage and all risk mortality. If you are taking advantage of our wintering program, your new bull must be insured so we both have peace of mind. Insurance will be available from Keystone Livestock Services (a division of Livestock Insurance Managers).

### ACCIDENTS...

Although every precaution will be taken to protect the safety and comfort of the buyers, neither the sales staff, auctioneer or consignors assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

### TERMS...

The terms of the sale are cash or cheque payable in Canadian Funds. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks before any cattle are released.

*Mar Mac Farms is  
Verified Beef Producers*

RED BAR-E-L MARCIE 50N OSF

RED SSS BUST'N 596F

D: RED COCKBURN MS BOOT JACK 27N  
RED COCKBURN MS BOOT JACK 86L

Weights: BW: 88 ADJWW: 774 ADJYW: 1278

EPDS: BW: 3.3 WW: 76 YW: 116 Milk: 8

Check out the video of Ribeye at [www.marmacfarms.net](http://www.marmacfarms.net) to see the agility and stride he has for the a 7 year old Red Angus Bull! We are so impressed by how docile, free moving, structurally sound and thick topped Ribeye is. No matter what cow he is bred to we are pleased with the results, his daughters are now in production and they are not letting us down, weaning off calves with loads of performance.

## REF RED MCRAE'S VISION 50T

KOF 50T Jan.29.2007 1408583

RED COMPASS MULBERRY 449M

S: RED FINE LINE MULBERRY 26P OSF AMF MAF

Look at the 50T sons in this years sale; long bodied, thick topped, extremely correct Vision leaves easy fleshing, excellent dispositioned and beautiful sound uddered females. You will hear more about Vision in the future as his progeny is really making a hit. The two top selling Red Angus heifer calves in the Kenray Online female sale were 50T daughters. Ease of fleshing, sound uddered and calving ease best describes 50T progeny. *Owned with Ken & Rebecca Mackenzie, Alberta.*

*Pictured is  
Mulberry &

- half sister was high selling female (59A) at the Keystone Sale

## EPDS - EXPECTED PROGENY DIFFERENCE

The expected difference in performance of a bulls progeny when compared to the average progeny performance of all bulls evaluated. EPD's cannot be compared cross bred. Breed Averaged are at the start of each breed section.

- CE** **Calving Ease** - percentage of unassisted births with the more positive number indicating greater calving ease.
- BW** **Birth Weight** - the birth weight of a bulls progeny when compared to the breed average, in pounds.
- WW** **Weaning Weight** - the adjusted weaning weight of a bulls progeny when compared to the breed average, in pounds.
- YW** **Yearling Weight** - the adjusted yearling weight of a bulls progeny when compared to the breed average, in pounds.
- MM** **Milk** - a measure of amount of pre weaning performance gained by calves which can be attributed to the milking ability of a bull's daughters. The EPD is expressed in pounds of calf.
- TM** **Total Maternal** - each of these terms measures a sires ability to transmit milk production and growth rate though his daughters. It predicts the weaning weight of a sire's daughter's calves. It is equal to the milk EPD plus 1/2 of this weaning weight EPD.

Blackberry was no accident. When you mix the genetics of a Mulberry grandson with a productive female like Bridget 125T things can get exciting. We flushed Bridget 125T and many of her sons are in this sale. We do not flush just any old cow, at Mar Mac it has to be the proven no miss females that we can build a herd around. Blackberry himself is such an impressive individual and boy what a job his sons and daughters are achieving.

# MAR MAC BLACK RED CARRIERS

- Outcross genetics
- Stand out since birth
- Two year old dam weaned off Redemption at 764 adjusted.
- *Mar Mac would like to keep a 1/3 semen interest in these two bulls with no possession*
- *If we didn't have Blackberry, one of these bulls would be staying in our herd.*
- *Interesting genetics, power with a moderate birth weight*

*Kevin and Glenda Archibald*

Purchased 2 red Simmental bulls at Mar Mac in 2013, hoping to color our calf crop solid red, and add some extra pounds to our calves. We breed our Simmental cows Angus, and our more Angus type cows Simmental trying to maintain that sweet 50/50 cross that works so well. We were very proud when our calves sold the first week of November in Killarney. Our 50 steers, and that was them ALL, none kept back, born after mid April, averaged 576 lbs. on nov 3 and brought an average of \$2.83. That is with no creep. Just good genetics, good milk, and good grass. They came in large even groups, and pushed the scale down extremely well. As well, the 2 Mar Mac bulls are homozygous polled which is great when tagging/ringing calves out in the field in April, no horn bumps to check for!

**CUSTOMER TESTIMONIAL**

**HOW MUCH MORE IS A**

The price spread between calves of equal weight can be from 10 to 15 cents

A 550 lb calf at 10 cents that is \$55.00 premium

If a bull produces 20 calves per year for 5 years that is equal to \$5500.00

20 calves x \$55.00 x 5 years = \$5500.00

**GOOD BULL WORTH \$\$\$\$**

# DOWN-HILL SIMMENTALS

*Everett Olson*

Rapid City, Manitoba

204-826-2643 • 204-867-0076

It's hard to believe Blair and Lois have been putting up with me for 6 years in the sale now and I thank them for that. I farm in the scenic Little Saskatchewan valley between Rapid City and Minnedosa with 1200 acres of cropland and have scaled back my cattle herd to 36 calving cows for this spring as it was time to do a thorough house cleaning with the prices being as strong as they are. The bulls have been at Mar Mac since weaning and this is by far my most consistent and powerful group yet with Poker face and the MRL 127Y bull being the two main groups.

Thank you in advance for your interest in my program and feel free to call or stop in anytime.

I keep flipping back and forth on which one of these Poker face sons I like more but one thing is for sure he leaves tremendous calves. I sold 2 heifer calves off him at Shades of the Prairies, one to Labatte Simmentals for \$7000.00 and one to North Hill Simmentals for \$5000.00 and the ones I kept and the new ones this year are looking great. This bull is deep, big quartered and topped and out of a cow family that needs no introduction with what the Carli cow has done for Mar Mac. I can't say enough about the performance of these Poker face calves. An outcross pedigree too many herds don't miss out on an opportunity to have a Poker face working for you.

RIB FAT: 0.24 REA: 13.72 ADJ REA: 1.13  
%IMF: 2.1 %LMY: 65.6

Kid Rock is a solid, massive bull on a moderate frame. He has as much spring of rib as any in the pen and a good, strong top and a nice, tidy head. He has a real cool mother that came out of the Agribition sale, she has lots of milk and is extremely fertile. She has consistently been a low birth weight cow with other sons at 86 lbs and 83 lbs. I think Kid Rock will be a short gestation bull that could work on well developed heifers. Take note of his EPDs: top 4% for calving ease, top 3% for YW and top 3% for Ribeye and Marbling. Kid Rock has had a maternal sister sell at the National sale in Brandon to Downey Simmentals, and a full sister sell at he Pembina Triangle to Bert's NR Simmentals.

We are really excited about these Godfather calves as they are the first influence of Wallbanger in our herd, they have always had the look of powerful bulls. This individual is out of one of our favorite 680S daughters, he is correct and balanced and has a strong top. 6B had maternal sisters sell at the Pembina Triangle sale to Firdale Simmentals and Brett Vincent. A bull that has risen to the top of the pen, he is wide based with lots of testicle. His performance EPDs are excellent - top 5% for weaning weight, top 1% for yearling weight and top 2% for Ribeye and has a WPA of almost 4 lbs/day - he will have friends at sale time.

*Homo Polled - Hetero Black - Purebred*

A moderate framed Godfather son that has had that masculine look right from the get go. His EPDs are outstanding - top 4% for calving ease, top 15% for birth weight, top 3% for weaning weight, top 1% for yearling weight, top 25% for milk and top 10% for Ribeye. His hard working young dam was purchased from Gordon Delichte as a calf at the Pembina Triangle sale. She is a picture perfect little cow that will have lots of longevity here. A bull I wouldn't hesitate to throw in the heifer pen.

Another really powerful Godfather out of a low birthweight, short gestation Colossal daughter. A bull that will push down the scales with his calf crop and should still work on heifers. Awesome calving ease (top 4%) and performance (top 5%) EPDs that we really strive for in this business, and also top 3% for Ribeye, he's done well over 4lbs/day since weaning. This bulls granddam put no less that 5 bulls through this sale, so expect greatness from this pedigree.

A black baldy bull with lots of performance out of our new herdsire from Labatte's, who is a Hot Iron son that goes back to the famous 52N cow. Very sound, good footed and as long as a wet weekend - this guy will go on to produce a wicked set of baldy steers and replacements. His weaning and yearling weight EPDs are in the top 1% and his Ribeye EPD is top 10%, and he's gained almost 4.5 lbs/day since weaning.

One of our favorite calves all summer, he has had the herdsire look from a very young age. He's dark red with a touch of white on his face for that extra eye appeal. His dam is one of our favorite cows - her first son sold to MJD Farms of Carman in 2013 and her first heifer is one of our best bred heifers. His dam is also the full sib to the dam of Lot 83 below. This bull has great EPDs and the phenotype to go with it - he's worth a second look.

Our other black baldy bull, this one is a 680S out of a really sweet young Dr. Phil cow. Thick and square in a moderate package, with an 83 lbs birth weight, his weaning and yearling EPDs are both still top 1%. Carcass wise, his Ribeye EPD is top 1% and he's top 15% for marbling. These black blaze faced calves have been really popular, this bull should make some fancy ones.

This power bull is packed full of meat with quality to burn. His dam is a good uddered Tracker cow that we bought at the Kopp dispersal and his sire is an outcross bull that gives you something a little different from our program, with very balanced EPDs.

*Black - Purebred*

This long sided 680S bull has wicked hair and that thick butt and wide top. His dam has produced some real eye catching progeny for us, with her first son selling to Dave and Rhonda Koslowski in 2013. She would be one of our most efficient cows, as her calves at weaning always weigh a very high percentage of her body weight. He has done well over 4lbs/day since weaning and his Ribeye EPD is top 1%.

*Polled - Hetero Black - Purebred*

Lots of performance in this cross with a touch more frame. His Nugget dam is a real power cow with a beautiful udder who always weans big calves - her 2011 son sold to Stan Rampton, her 2012 son to Cam Rampton and her 2013 daughter sold to Downhill Simmentals at the Pembina sale last fall for \$7000 and she was a full sister to this bull. He's in the top 1% for both Weaning and Yearling Weight EPDs and the top 1% for Ribeye, has almost a 4lbs WPA and has gained almost 4.5 lbs/day since weaning. 403B will cross well with British type cows and make very marketable calves.

This hairy, big tank of a Phil son is out of a Red Rock cow that has produced very well. His maternal sister sold in November for \$7000 at the Pembina sale to Brett Vincent, and we kept her other daughter at home. With a bit of Fleck in his background, he should add extra maternal and pounds at weaning. His EPDs are a home run - top 2% for calving ease, top 5% for weaning weight, top 15% for yearling weight, top 25% for milk, top 3% for Ribeye and top 2% for marbling.

*Polled - Red - Purebred*

## IN LOVING MEMORY

### Connor Beech

On Dec. 1, 2014, our family lost a loving father, grandfather and friend when Connor passed away very suddenly. We appreciate the many thoughts and prayers we received through this difficult time. He will never be forgotten.

Many of you will remember Connor in different ways. He loved to laugh and always enjoyed telling stories with Simmental friends he had made throughout his many years in the business. His years of guidance and wisdom have been invaluable in shaping our herd. From his attention to detail in the way he would do the smallest things, to that tid bit of advice he would plant in your head that you might later use. Most of all, we will miss those phone calls during a Jets game to talk about a play or that call to see how calving went at the end of the day and we always talked after one of us had been to a sale to discuss that very important sale report.

Our family will never be the same without him, but through our stories and memories, we hope to keep him alive in our hearts.

*Congratulations  
Kevin & Cindy Routledge*

*on being awarded the 2014  
Manitoba Simmental Commercial  
Producer of the Year Award*

*for the Keystone Simmental  
Association.*

*Thank you to everyone who supported our fundraiser*

Two cheese cakes were auctioned off at the 2014 sale. The proceeds went to the Brandon Regional Health Foundation in memory of long time employees and friends Andrew Mooney and Rick Potter.

The chessecakes sold to Moose Creek Red Angus, Kisbey, SK for \$450.00 and Sandy Margetts, Brandon MB for \$500.00.

The total of \$1100.00 was donated towards Cancer Care, in honour of all that we have lost or are battling Cancer.

## CANCER CARE CHEESECAKE AUCTION

*Thank You to our 2014 bidders, buyers and supporters*

*Grand Champion Red Angus Female at the 2014 Manitoba Livestock Expo*

Mar Mac is a family ran operation and during the year we require some additional help while we are at shows and events. We could not achieve our goals without the help of our families, friends and neighbors in the Roseland community. A special thanks to everyone who took time out of their busy schedules to support our farm and the Mar Mac Farms & Guests Bull Sale Volume 11!  
Your support is greatly appreciated.

Like us on Facebook - Mar Mac Farms

Brett was named as one of the finalist in the Cattleman's Young Leaders Program. Brett's mentor for the program is Steve Kenyon, of Greener Pastures. This is an amazing opportunity for youth in Agriculture to mentor and meet a number of the Canada's Livestock Producers. Melissa helped Brett create a 3 minute video of a "day in the life of a farm". The video went on to win him the opportunity to attend the Five Breeds Alliance convention in Corpus Christie, Texas. View the video at [marmacfarms.net](http://marmacfarms.net)

Melissa enjoyed her trip to the World Angus Forum in New Zealand and met many new friends. Her friend, Bex from Atahua Angus came over for a Canadian Tour.

Blair was elected to serve on the Canadian Simmental Board at the Annual Meetings in Clear Lake.

Lois was nominated for the YWCA Women's of Distinction Award in Brandon last March. She was acknowledged for her efforts in supporting and promoting youth in Agriculture.

*see you down the road*
