On behalf of everyone at Mountain View Farms we would like to invite you to our Complete Dispersal Sale. The time has come to disperse our entire herd.

It is with mixed emotions that we offer our entire herd for sale but have decided to journey down a different path in our lives.

All bred females, donor cows, herd bulls and our entire embryo inventory along with 45 - 2010 heifer calves from our first calf heifers will all sell on December 20, 2010. On March 5, 2011 - 150 long yearling and yearling bulls and 150 open heifers will sell.

For 77 years and 5 generations breeding Angus cattle has been the mainstay of our farm - that was established in 1898. This great breed of cattle have allowed our family to meet people from around the globe and have developed many life long friendships.

Breeding quality Aberdeen Angus cattle has been a passion of mine for my entire life and my wife's for nearly 20 years. When I discussed selling the cows Orycia was very hesitant and has struggled with our decision. She too has learned to love this breed and has been very influential with the success of our program.

Every year we have strived to produce a better pen of bulls for our commercial customers. Bulls with strong maternal traits, calving ease, performance and carcass quality. Bulls that are easy fleshing, have an abundance of hair in a structurally sound and functional package.

MVF has sold between 125 - 150 bulls annually into a strong commercial bull trade. Thanks to our faithful bull customers who made it possible for us to retain our best females. Some customers have purchased a lot of bulls over the years. There are too many to mention but we appreciate your support and loyalty and wish you a prosperous future in the beef business.

The females you will appraise on December 20, 2010 will be angular, deep bodied, good footed cows with ability to add performance and thickness with strong maternal traits to their offspring. The MVF female has an impeccable udder with abundance of milk to raise that big calf.

Virtually every female selling has been A.I.'d to top proven herd sires in the industry to exemplify strong carcass traits, performance, thickness, hair and milk in a structurally sound and functional package. They have been mated to produce the kind of commercial bulls that are in demand. This cow herd is young and fertile and has been culled ruthlessly for udders, feet and performance.

We would like to thank all the people that have helped us over the years at our farm and the show and sales crew. I would especially like to thank my wife, Orycia for all her help and support and our two sons Aaron and Mark for all their help over the years. We can't forget Bob Horton for his time and dedication devoted to MVF. At this time we would like to thank this great breed of cattle and all our Angus friends who have made this journey one hell of a ride - which we will cherish for the rest of our lives.

Please join us on December 20, 2010 for this historic dispersal of one of Canada's longest running family operations to view the strongest sale offering ever presented by MVF.

Please join us for a social evening the night prior to the sale at Jay's Inn and Suites. We will start serving a pancake breakfast at 8:30 on sale day. Lunch will be served throughout the day. For more information please feel free to call me at 204-734-8821 or any of our capable sales staff.

Yours truly,  
Scott Anderson

## Comments by the Sale Manager

### DISPERSAL OF THE MOUNTAIN VIEW ANGUS HERD ONE OF THE MOST HISTORIC HAPPENINGS IN THE HISTORY OF THE ANGUS BREED

For 77 consecutive years, Mountain View Angus has been a force in the Angus industry. From it's very beginning in 1933 until 2010 over a span of four generations, the Mountain View program has maintained a major presence in the livestock industry.

I have just returned from a herd visit to Mountain View, talk about a powerful offering! The females are feminine, very productive, depth of rib, ease of fleshing, the kind that has made the Angus breed – supreme. The bred heifers and the heifer calves are as good as you can find anywhere IN THE WORLD.

Mountain View performance records have been kept and maintained, at the same time they have been used and kept in the selection process. Rest assured this is a genuine working herd of Angus seed stock.

Over the many years Mountain View has campaigned their cattle extensively at the major shows. Time and time again they have proven to be a major factor at the leading shows of the land. Champion after champion, class winner after class winner, these are the genetics that will sell in this dispersal sale.

Mountain View cow families have always been important. One of the most recognizable and famous cow families in the Angus world are the Mountain View Tibbie's, they have done everything and more than you could ask them to do. They are truly in the who's who in the Angus industry. This sale will feature the largest number of them that have ever sold in public auction in the world.

At Mountain View you will find an Angus family – a family farm that's dedicated and devoted to the betterment of the Angus breed. Scott and his wife Orycia carry the banner today and believe me, they are true disciples of the Angus breed.

At Mountain View another important factor has been the production of commercial Angus bulls. Each year they have hosted one of the most successful Angus bull sales in the breed. Keep in mind that the dams, grandams, maternal sisters and family members of these great bulls all sell in this dispersal sale. Scott and his wife Orycia have made the decision to journey another direction in life, thus this complete and total dispersal sale. Never before and maybe never again will such in-depth genetics, predictability and goodness be offered in the livestock world.

As you study the Angus pedigrees you'll be quick to realize that the impact of Mountain View has been world-wide. Mountain View Angus can be found working in prominent Angus herds not only across North America but AROUND THE WORLD.

I can recommend these cattle to the most discriminating. If you're looking for landmark females to take your program to the next level, this sale is a must.

I look forward to seeing my many Angus friends on December 20, 2010.

Sincerely,

Tom Burke

## The date was 1933, the place was Swan River, Manitoba . . .

Alexander Anderson  
Our Founder

Doug Anderson  
President  
Canadian Angus  
Association  
1964

In the winter of 1985 a trip to Minot, ND, to 7S Angus farm proved to be a successful one when 7S Miss Pine Drive 452 was purchased and later named The Reserve Grand Champion Female at the 5<sup>th</sup> World Angus Forum. That fall she was also Reserve Grand Champion Female at Canadian Western Agribition.

In the spring of 1984 Mountain View Farms purchased Ridge Lane Tibbie 34N from Saskalta Farms of Alsask, SK. This straight Canadian bred cow proved to be a great investment, as her first calf born at Mountain View Farms was MVF Tibbie 15T, the 1985 Canadian Western Agribition Heifer Calf Champion.

One of 15T's greatest sons, MVHF Extra 13X, was exported to George Cormack, Scotland for \$20,000.00.

In 1990 a granddaughter of 15T, MVF Tibbie 1Z, was the undefeated Show Heifer of the Year. A flush mate MVF Classic 7Z was the 1990 Canadian Western Agribition Grand Champion Bull. Both of these calves were exported to Nightingale Angus, England. In 1991 another grandson MVHF Dreamwalker 29A was the Grand Champion Bull at the Agribition Show.

The Tibbie cow family is responsible for producing countless champions and high sellers over the last 25 years and is responsible for many Premier Breeder and Exhibitor Banners won by MVF.

In 1995 Mountain View Farms started an annual bull sale in March. Another annual bull sale was added in April 2002 to supply our growing number of commercial customers another outlet to purchase MVF bulls. In the summer of 2009 Mountain View Farms exhibited cattle at their second World Angus Forum in Calgary AB and we were fortunate to win a few medals.

MVF genetics can be found around the globe and we at MVF hope we have had an impact on the genetic advancement of the greatest breed of cattle in the world - Aberdeen Angus.

That was the year that Alex Anderson, great grandfather of Scott Anderson purchased the first Angus females to establish what is now Mountain View Farms.

Prior to that an Angus bull had been used on predominately Shorthorn cows.

Alex Anderson immigrated from Scotland to southern Manitoba in 1880. After farming in the Carberry area for a number of years he heard of the new productive area being opened up around Swan River. Consequently in the spring of 1898 he drove a team and buggy to the area and planted some wheat seed on the bank of a creek. He returned in the fall to find the wheat had matured and not frozen so he immediately purchased land, which is still the home base for Mountain View Farms.

Presently the fifth generation of Andersons are growing up in the beautiful Swan River Valley.

The first three Angus females were purchased from the herd of Clifford Argue of Grenfell, SK. Not many females were registered in those early years but those that were, were sired by the bull Mac of Prairie Range, who had been purchased from Eldridge Good of Souris, Manitoba.

Alex Anderson's son, Bruce, together with his sons, Robert and Doug, continued to improve and expand the basic herd with the purchase of a few outstanding females. By the late 40's and early 50's the show herd exhibited under the name A.B. Anderson and Sons were winning their share of red ribbons.

Bruce Anderson  
Continued the tradition

Some of the more notable herd sires used in the earlier Mountain View herd were Glenely Baron B 23<sup>rd</sup> from the C.P.R. Dispersal, Eston Arclan 15<sup>th</sup> double bred grandson of Eston Elation Quality, Bandolier of Anoka 102 who sired the Grand Champion at the 1959 Brandon Bull Sale, Bendoliermere 3<sup>rd</sup>, Homeplace Eileenmere 732, Niessens Eleenmere 20<sup>th</sup> (whose sons were the high indexing sire group at Douglas Test Station for three consecutive years) M-Q Mr. Marshall 59<sup>th</sup> from Morrison Quirk Cattle Company, Nebraska, Ed Rene Streamline 31D and Bovimila Bardmere 21B.

Mountain View Farms showed the Champion Pen of Five Steers at the Brandon Winter Fair in 1963 and 1967, as well as many champion bulls throughout the years. Their first production sale was held in 1963 with 25 lots averaging \$640.00 with a top of \$1,575.00 for a cow calf pair and \$1,250.00 for a bred heifer.

About 1975, A.I. was introduced to Mountain View's herd and has played a big role in the improvement ever since. Since the early 80's embryo transplanting has been used very extensively at Mountain View Farms to utilize the potential of their top cow families.

In the fall of 1976 Robert and Doug held a partnership dissolution sale with 84 lots averaging \$786.00. The next few years saw the Mountain View Farms herd go through a rebuilding period with Doug's son Scott, taking a very active part in this program.

Scott Anderson

MVF Tibbie 113R - Daughter of Lot 14

**Jeff & Sherry Davis**

Box 1471, Roblin, MB ROL 1PO

*The first yearling we purchased from Mountain View Farms was 95D Hoff Western. At the time we had 40 head of Angus cattle and were looking to increase our herd with strong genetics. That was 15 years ago and 20 bulls later.*

*Scott and Orycia have played a significant and vital role in our commercial cow/calf operation. We now run 170 cows and Scott and Orycia have worked with us through the years in developing our herd. Through the years our calf crops became more uniform and our weaning weights consistently increased.*

*We have always bought with confidence from Mountain View Farms, knowing Scott and Orycia were only a phone call away to help out in any way.*

*The whole cattle industry will miss Mountain View Farms.*

**Nielson Land and Cattle**

Larry & Laurie Nielson  
 Box 357 Craik SK SOG OVO

*Last winter we purchased a select group of Angus females from Mountain View. At the time of purchase we knew they would be a great addition to our herd.*

*They have exceeded our expectations! Every one is a sound female with phenomenal udders and feet. The calf crop off of the females is unbelievable and will all be replacement cattle.*

*Mountain View stands behind their cattle 100%. They are great people to deal with and we look forward to doing business with them in the future.*

*Over the past 5 years we have bought 18 bulls from Mountain View Farms. Currently our entire bull battery for our cow herd is now from MVF. We have been very pleased with all the bulls we have purchased. They are good solid, hardy bulls with lots of length, depth, performance, milk and hair coat. We have been really pleased with the calves we have been getting off these bulls. The calves are born on their own and are strong and up and nursing in no time.*

*The biggest job for calving now is processing. We have been able to top the market with these calves over the years and feel the calves look better and grow better every year. The replacement heifers we have been keeping back are very hardy, have good hair coats, beautiful udders and teats and lots of milk. The heifers are weaning off calves just as big as calves off of our mature cows.*

*I really valued the quality, performance and attention to detail of the animals at MVF. Scott and Oryica have been great to deal with and have helped me with anything I have asked for. Actually my favourite bull is a sight unseen 913P son that Scott picked out for me.*

*While I am sad to see this dispersal, it will create an amazing opportunity for people to buy in my opinion, some of the best Angus cattle and genetics in the industry today.*

*I wish Scott and Oryica all the best in their upcoming sales and their future endeavors.*

*Joe and Donald Bouchard  
 Fisher Branch, Manitoba*

**Six Mile Ranch**

Box 8, Fir Mountain, SK SOH 1P0

*When we decided to add Black Angus genetics to our breeding program we felt very strongly about supporting reputable, proven breeders who had similar breeding programs and goals. Mountain View Farms was at the top of that list.*

*The first female we added from Mountain View Farms was MVF Heather 158R purchased as a sight unseen order. The calf she was carrying at that time turned into one of our top producing females and was the dam of our high selling Black Angus bull this past spring. MVF Heather 158R is honestly the best sight unseen purchase we have ever made.*

*Another notable female we purchased from the Mountain View Program was from the prolific Tibbie Cow Family. Her first calf is currently our favourite yearling heifer, Six Mile Tibbie 901W. Tibbie has been shown with great success this year, winning Grand Champion Female honours in the Sask. Angus Junior Show, and she was also crowned the Champion Jackpot Yearling Heifer.*

*Scott and Orycia have been incredible ambassadors for the Angus breed and we are proud to be associated with such a reputable and proven breeding program and such wonderful people. We wish them only the best in their upcoming dispersal sale and can say first hand that the opportunity to move your Angus program to the next level is definitely at hand. We look forward to seeing you all there.*

*With Kind regards,  
 Clayton and Corinne Gibson*

- Net Worth 86U was selected from 2008 calf crop because of his tremendous muscle expression and raw power, he scanned a 17" rib eye and is from a very powerful cow who already knew how to raise herd sires. Circle 7 Angus, SK purchased a maternal brother to 86U in our 2005 MVF Spring Bull Sale
- 86U has seen heavy service at MVF and progeny look very promising

G

- Co-owned with Chico Ranches, Airdrie, AB
- John and Jan Lee purchased 1/2 interest in 113T at our 2007 bull sale
- The first calf crop at MVF were born this past winter and are very impressive. The calves exhibit a lot of style, hair, excellent back leg and are super stout
- Dam is from the very prolific Rosebud cow family

## THE FINAL CHAPTER of the MVF DISPERSAL March 5, 2011

at Heartland Livestock, Virden Manitoba

- 150 long yearling and yearling bulls • 150 open heifers

### Dispersal Terms & Conditions

**CATTLE INSPECTION:** All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to the sale.

**THIS IS A DISPERSAL SALE:** Every animal to be offered "as they are" on Sale Day, with no further guarantee expressed or implied. Every precaution will be made to announce known blemishes from the Auction Stand.

**PREGNANCY:** Examinations have been conducted on all serviced females.

**ANNOUNCEMENTS:** Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

**ALL CATTLE ARE SOLD:** Subject to tests required for export by the Canadian Food Inspection Agency, Health of Animals Act and Regulations.

**RELEASE:** No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

**INSURANCE:** Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available from the appointed representatives on Sale Day.

**TERMS OF SALE:** Are cash or cheque at par, payable to clerks of the sale on sale day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

**EVERY ANIMAL** sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

**ALL PERSONS** who attend the Sale do so at their own risk, and the owners, livestock auction, management and staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

### PLEASE NOTE

All cattle need to be moved from the stockyards by December 22, 2010.

We will have trucks lined up to go East and West and would gladly assist in organizing your trucking needs.
