On behalf of everyone at MVF we would like to invite you to our Final Chapter Bull and Female Sale. On March 5th, 2011, our entire herd will be dispersed.

On December 20th, 2010, our entire cow herd was dispersed to a standing room only crowd. Cattle were sold from B.C. to PEI along with the US and Australia. To all the people that were in attendance, bid on the phone and the new owners we thank you. At our December sale the most talked about things were the performance of the cow herd, udder quality and the quality of feet. I have talked to virtually everyone who purchased females at our December sale and they can't believe how docile they are.

On January 6th, 2011, we made a trip to the National Western Stock Show in Denver Colorado. We took a pen of three bulls and it was a huge honor to win our class and for the many favorable comments from some great cattlemen from around the world.

This sale will most definitely be our herd's finest hour. This calf crop that we are selling is without a doubt the best sale offering we have ever presented. This offering represents 78 years of selective breeding for performance, strong maternal and carcass traits, longevity in a functional well balanced package.

The bulls are thicked topped, big quartered, performance bulls that really push the scales down and are right for the times. Performance bulls with added muscle, excellent feet and freedom of movement.

All bulls have been fed a high roughage TMR ration and managed in large groups in big lots with plenty of exercise. These bulls are not fat, but hard muscled and ready to go to work.

The heifers selling come from a cow herd noted for it's superior udder quality, angularity, capacity and longevity. These heifers truly represent what has made the Angus cow famous and have the potential to advance the breed to ever greater heights.

At this time we would like to thank our faithful bull customers. Some have purchased a lot of bulls over the years. There are too many to mention but we appreciated your support and loyalty and wish you a prosperous future in the beef business.

We would also like to thank all of our sales staff and crew over the years for all your help. It has been a lot of work but a heck of a pile of fun and your efforts will never be forgotten.

At this time we would like to thank all our Angus friends who have made this journey one hell of a ride - we will cherish for the rest of our lives.

Please join us on March 5, 2011 for this historic dispersal of one of Canada's longest running family operations to view the strongest sale offering every presented by MVF. We will start serving lunch at 11:00 am on sale day.

For more info please feel to call Scott at (204)734-8821 or any of our capable sales staff.

Yours truly,
Scott Anderson

Comments by the Sale Manager

MOUNTAIN VIEW - FINAL CHAPTER

The history of the Mountain View Angus herd and the Anderson family has truly been engrained in the history of the Angus industry. For a span of over 75 years, this historic program has bred and contributed to the industry with the most significant seed stock in world-wide Angus history.

On December 20, 2010 the Mountain View Angus cow herd and herd bulls were dispersed in Virden, Manitoba, Canada, making Angus history. 501 lots grossed \$1,570,000, the sale averaged right at \$3200, setting an all-time Angus record for a dispersal sale in Canada with cattle spreading across the North American continent.

Mountain View wrote Canadian history at the 2011 National Western Stock Show in Denver, Colorado when for the first time in history they exhibited a pen of bulls. They were exhibited before a standing room only crowd of over 5000 people, and received a roar of applause when the three-judge panel selected them as the class winners in an extremely competitive division. The Mountain View Pen of bulls, all brothers, took on the title of the Cattleman's Champions. Stockmen from around the world passed through their pens that were on display, and declared them as one of the all-time great pens of three bulls ever exhibited at the National Western Stock Show. What a great week it was for Scott Anderson and his family!

Saturday, March 5, 2011, is the last and final chapter of the Mountain View Angus herd as the entire 2010 bull calf crop will sell. Talk about bulls that are pounds heavy with pleasing performance data, they are sure to please the most discriminating commercial and purebred breeders. Believe me, they're a sight to behold if you're thinking about pounds of Angus beef.

150 heifer calves, the progeny of the dams that made it possible for Mountain View to have the all-time high grossing Angus sale in all of Canada, sell in this dispersal sale. They have powerful pedigrees, are superior individuals, and will make great brood cows of the future. Keep in mind that it was the 2010 calf crop chosen for this sale that made it possible for Mountain View to have a major presence in the ring at the 2010 Canadian Western Agribition in Regina, Saskatchewan, Canada.

This final offering is truly exciting from end to end, whether you're an established Angus breeder, are searching for your first Angus cattle, or breed and raise commercial cattle, this sale is a must.

I'm looking forward to seeing my many Angus friends from around the world at this historic Angus final chapter.

Sincerely,

Tom Burke

The date was 1933, the place was Swan River, Manitoba . . .

**Alexander Anderson
Our Founder**

**Doug Anderson
President
Canadian Angus
Association
1964**

In the winter of 1985 a trip to Minot, ND, to 7S Angus farm proved to be a successful one when 7S Miss Pine Drive 452 was purchased and later named The Reserve Grand Champion Female at the 5th World Angus Forum. That fall she was also Reserve Grand Champion Female at Canadian Western Agribition.

In the spring of 1984 Mountain View Farms purchased Ridge Lane Tibbie 34N from Saskalta Farms of Alsask, SK. This straight Canadian bred cow proved to be a great investment, as her first calf born at Mountain View Farms was MVF Tibbie 15T, the 1985 Canadian Western Agribition Heifer Calf Champion.

One of 15T's greatest sons, MVHF Extra 13X, was exported to George Cormack, Scotland for \$20,000.00.

In 1990 a granddaughter of 15T, MVF Tibbie 1Z, was the undefeated Show Heifer of the Year. A flush mate MVF Classic 7Z was the 1990 Canadian Western Agribition Grand Champion Bull. Both of these calves were exported to Nightingale Angus, England. In 1991 another grandson MVHF Dreamwalker 29A was the Grand Champion Bull at the Agribition Show.

The Tibbie cow family is responsible for producing countless champions and high sellers over the last 25 years and is responsible for many Premier Breeder and Exhibitor Banners won by MVF.

In 1995 Mountain View Farms started an annual bull sale in March. Another annual bull sale was added in April 2002 to supply our growing number of commercial customers another outlet to purchase MVF bulls. In the summer of 2009 Mountain View Farms exhibited cattle at their second World Angus Forum in Calgary AB and we were fortunate to win a few medals.

MVF genetics can be found around the globe and we at MVF hope we have had an impact on the genetic advancement of the greatest breed of cattle in the world - Aberdeen Angus.

That was the year that Alex Anderson, great grandfather of Scott Anderson purchased the first Angus females to establish what is now Mountain View Farms.

Prior to that an Angus bull had been used on predominately Shorthorn cows.

Alex Anderson immigrated from Scotland to southern Manitoba in 1880. After farming in the Carberry area for a number of years he heard of the new productive area being opened up around Swan River. Consequently in the spring of 1898 he drove a team and buggy to the area and planted some wheat seed on the bank of a creek. He returned in the fall to find the wheat had matured and not frozen so he immediately purchased land, which is still the home base for Mountain View Farms.

Presently the fifth generation of Andersons are growing up in the beautiful Swan River Valley.

The first three Angus females were purchased from the herd of Clifford Argue of Grenfell, SK. Not many females were registered in those early years but those that were, were sired by the bull Mac of Prairie Range, who had been purchased from Eldridge Good of Souris, Manitoba.

Alex Anderson's son, Bruce, together with his sons, Robert and Doug, continued to improve and expand the basic herd with the purchase of a few outstanding females. By the late 40's and early 50's the show herd exhibited under the name A.B. Anderson and Sons were winning their share of red ribbons.

**Bruce Anderson
Continued the tradition**

Some of the more notable herd sires used in the earlier Mountain View herd were Glenely Baron B 23rd from the C.P.R. Dispersal, Eston Arclan 15th double bred grandson of Eston Elation Quality, Bandolier of Anoka 102 who sired the Grand Champion at the 1959 Brandon Bull Sale, Bendoliermere 3rd, Homeplace Eileenmere 732, Niessens Eleenmere 20th (whose sons were the high indexing sire group at Douglas Test Station for three consecutive years) M-Q Mr. Marshall 59th from Morrison Quirk Cattle Company, Nebraska, Ed Rene Streamline 31D and Bovimila Bardmere 21B.

Mountain View Farms showed the Champion Pen of Five Steers at the Brandon Winter Fair in 1963 and 1967, as well as many champion bulls throughout the years. Their first production sale was held in 1963 with 25 lots averaging \$640.00 with a top of \$1,575.00 for a cow calf pair and \$1,250.00 for a bred heifer.

About 1975, A.I. was introduced to Mountain View's herd and has played a big role in the improvement ever since. Since the early 80's embryo transplanting has been used very extensively at Mountain View Farms to utilize the potential of their top cow families.

In the fall of 1976 Robert and Doug held a partnership dissolution sale with 84 lots averaging \$786.00. The next few years saw the Mountain View Farms herd go through a rebuilding period with Doug's son Scott, taking a very active part in this program.

• Dam sold for \$7,000.00 to Terrawood Farms, ON

Thanks for your support over 78 great Angus years!

Please bring this catalogue with you to the sale.

MVF Display at WAF '09

Dispersal Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to the sale.

THIS IS A DISPERSAL SALE: Every animal to be offered "as they are" on Sale Day, with no further guarantee expressed or implied. Every precaution will be made to announce known blemishes from the Auction Stand.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

ALL CATTLE ARE SOLD: Subject to tests required for export by the Canadian Food Inspection Agency, Health of Animals Act and Regulations.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available from the appointed representatives on Sale Day.

TERMS OF SALE: Are cash or cheque at par, payable to clerks of the sale on sale day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

EVERY ANIMAL sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

ALL PERSONS who attend the Sale do so at their own risk, and the owners, livestock auction, management and staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

PLEASE NOTE

All cattle need to be moved from the stockyards by March 8, 2011.

We will have trucks lined up to go East and West and would gladly assist in organizing your trucking needs.
