SALE DAY DECEMBER 21, 2013

View cattle in morning
12 Noon Lunch
Sale starts at 1 PM sharp

DJH

On December 21 Majestic Cattle Co will disperse their Angus and Simmental purebred herds. The Angus program is backed by years of selection. Jim through his career of managing large operations has identified and selected many top cow families and selected top genetics from many top dispersal sales including Remittal, Remington, and KFC, as well as numerous production sales.

The Angus herd is in its prime with a number of top donor cows, a very productive program that has produced an exceptional set of young cattle.

The Simmental side of the program has been developed around an exceptional nucleus of genetics from Ankony and Remington. The commercial markets have certainly strengthened this fall and definitely a premium is being paid for top quality Angus and Simmental feeder cattle. I believe we are about to enter a great expansion stage in the cattle business.

Jim's dedication to breeding cattle that are functional and profitable for the commercial producer, has served him well in developing the Majestic herd and supplying high quality commercial bulls.

This sale represents a great opportunity to select breeding stock that will work for both the purebred and commercial producer. If Jim, any of the sales staff or myself can be of assistance regarding this special offering please contact us. Hope to see you at the sale.

Yours truly,

Doug Henderson

Welcome to Majestic Cattle Company's Dispersal Sale. The Majestic name is young, as the herd began in 2003 but the people behind Majestic Cattle Company have a long history of raising high quality purebred cattle.

The original small herd of Angus cattle was on shares with Scott Severtson for the first five years. This herd developed as a continuation of the program goals established at Remington Cattle Co., beginning with my opportunity to work with Randy Remington and his vision of assembling and then further developing a herd of the highest quality Angus cattle that were low-maintenance, high performance forage seed stock. Together we had collected, what we felt to be, the very best quality Angus cattle as a foundation to the Remington Cattle Co. program and in our judgment, the Angus breed. The commercial bulls we raised passed along the genetic qualities that we targeted to meet the needs of ranchers striving for the most performance from their cowherds on straight forage with the least amount of human labor and, as such, the highest profit potential.

I'm not only grateful for the opportunity to have worked for Randy and Remington Cattle Co., but also because I was fortunate to acquire cows and bred heifers from the program I admired and was proud to be a part of helping to build. I selected a lot of Remington cattle, knowing the cattle first-hand from a management standpoint. These were the daughters of cows that Randy and I had spent a tremendous amount of time researching and numerous miles traveling to select. In the Remington breeding program we had concentrated on developing cows that calved on grass with no intervention, then breeding back while raising a calf on forage alone. So, this Majestic herd began for me by purchasing from a program I was very involved with and believed in, from the first two Remington female sales, and then another 25 cows from the Remington Cattle Co. Dispersal sale. Thank you to Randy Remington for sharing his vision and giving me the opportunity to have worked for him at assembling and managing such a great Angus herd.

Another major component and compliment of Majestic Cattle Co.'s foundation herd came when Don Peters and I went to KFC Farms Dispersal Sale and bought 42 Angus cow/calf pairs. KFC's major herd sire, Remington Predestined 7S, has turned out to be a proven top calving ease sire, with low birth weight and exceptional growth in his progeny and impressive udder quality on replacement females. Purchasing those cows from Ken Friesen turned out to be one of the greatest decisions that we've made . . . to have the chance to purchase that many cows that particular day. We would like to thank Ken Friesen and Scott Brady for doing such a great job breeding and selecting such a high quality of Angus cattle. They fit perfectly into our breeding philosophies and of producing quality commercial bulls with low birth weights, easy calving, high performance, and high quality maternal trait females . . . on forage. It is my feeling that Ken & Scott sold out before their program reached full and proper recognition within the industry, and I'm grateful to have a strong KFC influence in this herd we are dispersing.

The Angus cattle in the sale are all very capable of raising a saleable commercial bull that will raise a calf with minimal labor and perform exceptionally on grass. In our opinion they will have more muscle and weight on a grass forage program than any other genetics available.

There were also the addition of ten head of foundation cows from the Remitall Dispersal including Remitall Blackbird 561R, Remitall Pearl 185P, Remitall Classy Lad 481T Remitall Blackbird 642U and Remitall Blossom 5M. My only regret is that I didn't buy more.

You will notice the cattle are very tightly bred. Most of them have Sitz Alliance 6595 in the pedigree and many have 6595 up to three times, some up to four times. 6595 progeny are known to be low birth, very maternal with excellent udder quality, and tremendous hair coats with added scrotal circumference going to his sons. GAR Predestined (by way of a son and two grand-sons) is also notable in our pedigrees, and his influence was chosen because he was one of the largest framed carcass bulls in the business which gave us increased growth, marbling and ribeye size while still fit into our forage based feeding program goals.

The Majestic Simmental program uses the same breeding philosophy as we do in our Angus - low birth with high maternal values, developed to perform on forage. We started by purchasing the Ankony Simmental donors from Virgil Lovell in Georgia including Ankony Candace P6, Ankony

Miss Jacqueline, S108, S112, U056, U058 and X131. These cows were the nucleus of their donor program. We also purchased two major herd sires, Ankonian Red Caesar and Ankonian Ryan at the same time. All the females from our embryo program have been retained for the past five years. Our Simmental genetics are an opportunity for forage-oriented breeding programs to obtain a key to the next level of productivity and efficiency with cattle that will do more . . . on less.

Though our business partnership is coming to a conclusion, I remain deeply grateful to Don & Sylvia Peters for their friendship and help by financing my ideas and my future.

I have tremendous faith and confidence in these cattle. I thank you for your time in considering them and hope you can join us at the sale to take part in a gathering of good people, good cattle, good prime rib, plenty of refreshments and probably a good story or two along the way! Feel free to contact me prior to sale day if you have any questions or if you would like to tour through the cattle.

Jim J. Henderson

Don & Sylvia Peters

Pedigree of a Stockman

James Joseph Henderson ~ January 15, 1966

Jim has been involved in the cattle industry all his life, but particularly in the past 20 years through his knowledge and experience he has been at the forefront of the Purebred industry. Testament to this is his development and management of two of the finest and most respected cattle operations in North America spanning over 15 years.

Jim was the General Manager of the world famous Bar Pipe Farms Herefords from 1996 to 2000, leading purebred operations in North America. While at Bar Pipe, they exported genetics to eight Hereford Nations, had numerous championships and high sellers, consistently topping Canadian bull averages for Herefords.

Then from 2001 to 2009, Jim was Vice President of Remington Land and Cattle Co., a leading Angus operation in North America. Jim managed the ranch which covered 40,000 acres in Alberta and Saskatchewan, 4,000 head feed lot, 1000 backgrounders, 1000 registered and 1200 commercial females along with 15,000 acres of crop and 4000 acres of hay land and an Angus and Simmental Annual Production sale of 160 bulls.

In 2009 to 2010, Jim became the Manager of Althen Farms Ltd. and Heatherbrook South Angus, which was based in Del Bonita on 26,000 acres on which they ran 1000 Angus and Simmental commercial cows, 150 Purebred Angus & Simmental cows and 5,000 acres of dry land cropping.

In 2011 to 2013, Jim became managing partner of Majestic Angus and Simmentals, based in Stettler on 5000 acres running purebred Angus, Simmental and Charolais livestock along with dry land cropping on 1700 acres.

Jim's judging career covers over 20 years, but since 1994 has adjudicated numerous major shows throughout Canada including, Calgary Exhibition & Stampede, Canadian Western Agribition with the highlight coming in 2009 as a member of the judging panel for the World Angus Forum held at Spruce Meadows, AB. His highest honour came in 2011 when he was awarded "The Canadian Livestock Man of the Year" which was presented to him at the National Western Stock Show in Denver.

John Donald Henderson ~ April 19, 1924
Mary Elizabeth Miller Henderson ~ April 11, 1926

Don was born in Lacombe, Alberta as was Mary Miller, and they were married on July 22, 1948.

Don was the third generation to operate Heatherbrook Farms, Canada's oldest continually operated Angus herd. In the early years Heatherbrook campaigned at the major western shows as well as the Toronto Royal Winter Fair and Chicago International and the San Francisco Cow Palace.

Heatherbrook is considered the originating source in Canada

for such famous cow families as Black Jestress, Evening Tinge, Janessa, the Hartley Elba's, Eba, Missies, Tolan Blackcaps, the Heatherbrook Barbara's, Princess and Queens.

Don Henderson's expertise lies as a cowman and horseman. Mary was a 4-H leader for the 4-H Horse club for over 30 years and represented the Canadian Angus Association on the Canadian 4-H board.

They were inducted into the Alberta Angus Association Hall of Fame as a Breed Builder in 2011.

Samuel John Henderson ~ December 3, 1880 to July 13, 1969
Ida Lenora Talbot Henderson ~ July 28, 1887 to November 11, 1959

Sam was born December 3, 1889 in Fontanelle Iowa and he immigrated to Canada in 1903 with his parents and grandparents. He married Ida Talbot November 1912. Ida's parents were pioneer Shorthorn breeders at Lacombe. Henry and Peter Talbot, Ida's father and uncle were instrumental in starting the Calgary Bull Sale and the Lacombe Bull Sale.

Sam started breeding Angus cattle in 1909 at the age of 20 with his father Tom Henderson and their herd became known as "Heatherbrook". Heatherbrook became well known in the 1920's with the importation of four important sons of Earl Marshall. In 1940 he introduced the Eston Bloodline to Canada through the imported herd sire, Eston Elation Quality, as many top females were from the Tolan and McHenry herds. Sam served as a director of the Canadian Angus Assoc. from 1921 to 1946 and served two terms as President of the Canadian Angus Assoc. in 1934 and 1935. He was also a director of the Alberta Angus Assoc. from 1919 to 1946. He traveled extensively to bring new genetics to Canada and was a major source of Angus seed stock for many herds across Canada.

John Henderson ~ February 20, 1846 to June 2, 1926
Alison Gaden ~ September 1846 to December 23, 1920

John was born in Glasgow Lanark Scotland and John and Alison were married August 18, 1865 in Oxnam, Roxburgh, Scotland and immigrated to North America about 1872 with their young family. They were stockmen and it was through the sale of sheep that allowed them to immigrate to Bridgewater, Iowa where they farmed until 1903. The need to expand and limited possibilities in their area pushed them to make the huge decision to move to western Canada. In 1903 they brought with them to Lacombe, Northwest Territories by train, settlers effects, four Angus cows, an Angus bull and two mules that John drove for 32 years.

In the Canadian Angus Herd book Volume 1, John Henderson of Lacombe registered Sampson of Lacombe 2168 calved July 23, 1903 bred by BA Green, Fontanelle, Iowa.

Thomas John Henderson ~ February 11, 1866 to March 31, 1953
Sarah Thompson Henderson ~ June 13, 1869 to January 5, 1926

Tom was born February 11, 1866 in Oxnam Roxburgh Scotland, eldest son of John and Alison, immigrated to North America with his parents at six years of age. Tom and Sarah were married December 27, 1888 and farmed with his father at Bridgewater Iowa up until 1903 when they moved to Lacombe, Northwest Territories.

Tom and his son Sam started their purebred Angus herd in 1909 and registered their first Angus, which are recorded in the Canadian Aberdeen Angus Herd Book, Volume 2.

Besides being a cattleman, Tom Henderson was also a top pig man. Hogs in their day were known as mortgage lifters.

Tom made numerous trips back to Bridgewater, Iowa and passed away there in 1953.

Foundation sire in the Majestic program. A very maternal pedigree and his two-year-old daughters look fantastic. They have just weaned their first calves and what a job they have done. This has been the senior herd sire at Majestic since its conception.

Note this pedigree, a triple bred Sitz Alliance 6595 with a shot of Vermilion Dateline 7078.

They had the misfortune of losing this great sire at the end of the 2013 breeding season.

Remington Predestined 7S was the high selling bull in Remington's second Bull Sale for \$12,000 to KFC Farms Ltd. 7S has a powerful pedigree, low birth weight EPD, with performance and great carcass numbers, top 3% for marbling and top third of the breed for carcass weight.

7S' dam was a feature and high seller in the Dunford Royal Sale and a top donor cow at Remington Land and Cattle.

Sitz Traveler 9929 was used naturally only two years and was unfortunately lost with no semen collected but his daughters were exceptional with great udders and conformation.

Check out the Remington Predestined daughters in this sale!

The dam of this Predestined daughter was a favorite Sitz Alliance daughter and donor female at Remington. Remington's Tibbie 116C sold in 1993 to Aspelund for \$20,000 and then sold to LLB in the Aspelund Dispersal and Remington purchased her from LLB and flushed her very successfully to Sitz Alliance. Remington Tibbie 116C is a full sister to MVF Tibbie 15T, Heifer Calf Champion at Agribition and foundation Tibbie for Hamilton Farms.

Selling

A calving ease bull, that adds performance and muscle, daughters are high quality uddered females. 70T has been used in a couple of big commercial A.I. heifer programs. Specialist 70T was selected from the 2008 Labatte Bull Sale. He is a sleep easy calving herd sire that has been extremely consistent. Specialist does the complete job calving easy performance and stylish daughters with absolutely perfect udders. His progeny tell the whole story. Here is an opportunity to buy a leading herd sire.

Ankonian Red Caesar is one of the most complete bulls in the Simmental breed, he is a big topped, deep quartered, wide based bull. His unique pedigree adds a great choice as one of the most complete outcross sires in the industry. Ankonian Red Caesar is a son of the great GFI Candace G51, a full brother to Ankony Miss Candace P6 and Ankony Ms Jacquelyn R132. A major herd sire for Ankony and Majestic Cattle Co. He passes on moderate birth weight and extra performance and his daughters are very productive.

Ankony Miss Candace U056

Born at Ankony and came up with Caesar, Ryan and an elite group of six donor cows, a stunning heifer at the time, deepest bodied, broodiest black female that Jim had seen in his travels at that time. After she calved as a two year old she went straight into a flush program. Admired by many cattlemen, including Barry Labatte and Marlin LeBlanc. She was flushed to Hooks Sheer Force and Milestone with outstanding results. Her dam, Ankony Miss Candace P6, is a full sister to Ankonian Red Caesar.

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to the sale. **THIS IS AN ANGUS & SIMMENTAL DISPERSAL FOR MAJESTIC CATTLE CO:** Every animal to be offered "as they are" on Sale Day, with no further guarantee expressed or implied. Every precaution will be made to announce known blemishes from the Auction Stand. **ANNOUNCEMENTS:** Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue. **RELEASE:** No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold. **MAIL BIDS:** May be entrusted in complete confidence to any of the Sale Staff listed or to Douglas J. Henderson & Associates Ltd.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on Sale Day, also from the Sales Management. **TERMS OF SALE:** Are cash or cheque at par, payable on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times. **EVERY ANIMAL** sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. **ALL PERSONS** who attend the Sale do so at their own risk, and the owners, Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
