

MAR MAC FARMS

Bull & Commercial Female Sale

1:30 PM - AT THE FARM - BRANDON, MB

MARCH
8th
2017

GUEST CONSIGNOR ANGUS VALLEY FARMS

WELCOME TO THE 13TH ANNUAL MAR MAC BULL SALE TO BE HELD ON THE FARM.

Mar Mac is proud to say in 2017 we have been members of the Canadian Angus Association for 62 years and 41 years in the Canadian Simmental Association

We are a fourth generation farm where everyone is involved in the day to day operations. We make our living in Agriculture and are very proud of it. 2016 has been an interesting year with extreme weather, cattle market stabilizing in the fall to the 3rd biggest pay cheque we have ever taken home for our feeder cattle. 2017 has started off more stable and we are excited to see how the year proceeds.

Mar Mac is very proud to offer you another top set of bulls. It is hard to say that our bulls seem to get better every year but they do. Our weaning weights were higher and quality just keeps getting better. With the tools of BW, WW, YW, EPD's and of course with the use of our eyes evaluating the confirmation. Mar Mac works hard to produce a top quality product for you our customers, who we hope will work in any purebred or commercial operation. We take time to attend auction mart sales and see what the market is moving towards and the kind of cattle that the Auction mart buyers are looking for.

Birth weight: The weights you see are the bulls actual birth weight . With in 12 hours of birth, our calves are weighed, vaccinated, tagged and tattooed. Let's remember that we get paid by the pound for our calves and length of body adds pounds. Mar Mac has tried hard to keep that length and natural thickness in all of their divisions. Weaning weights are all actual weights September 28, 2016.

This year in the Red Angus, Black Angus and Simmental, you will find power bulls for your cows, and heifer bulls for those ease of calving individuals. 98% of our calves are born unassisted and we feel mainly due to our cowherd being fed out in paddocks with lots of exercise, blended rations, and bull selection. When we select a herd sire, the bull's mother or grandmother is an important part of our selection. Stop by anytime to view the dams of these bulls, we are very proud of the cowherd we have assembled. We have spent long hours researching our herd bull battery and are very proud of the cow bulls and heifer bulls we have added to our program. If they do not work for us they are long gone.

Our cowherd is grazed most of the winter on corn and bale grazing till calving season. Once they are brought home from our other farm, the cows are fed a silage, hay and straw mixture. Our calves are not crept fed in the summer, so we can evaluate the full potential of the cowherd. As you will see in this book, Mar Mac really concentrates on cow families and they must produce to stay here. One month before weaning, a feeder with an oat pellet ration is put in the field to get the bulls used to eating away from their mothers. Then one week before weaning, the quiet weans are used. Weaning day the bulls are weighed, weaned and brought home. Once home they are started on corn silage, hay, grain and supplement ration that has been balanced and formulated for longevity and fertility. These sale bulls have been through a strict culling process with structural soundness, ease of fleshing, and disposition taken into consideration. Any of the bulls in the sale, we would use in our program. We would like to retain the right to collect 200 straws of semen for our own herd use at your convenience and our expense, on any of these bulls.

To Mar Mac Customer Service is very important, we talk to our buyers at least once during the year to see how the bulls are doing. If you have a problem with your bull, we expect you to call and talk to us.

Due to our increase in numbers with Brett adding some more Black Angus cows we have decided to host our own bull sale with Bruce McRae as a consignor. The bulls are all fed in one spot, you will find fatter bulls but these are fed to last. We will be offering new this year, bred commercial females and open commercial females.

Please feel free to talk to any of our sales staff, marketing reps, or our family members if you have questions about the bulls or our program. You can bid online sale day at DLMS or see the videos of the bulls at cattlevids.ca.

Perkin Land and Cattle are moving to another sale as they want to also increase their numbers. We wish them success in their new venture.

Hosting a sale takes a lot of hard work and we would like to thank our friends and neighbors that have helped make these days so successful over the years. We look forward to meeting with you on sale day, although we can not visit with everyone, would like to thank you for attending our sale and supporting our beef program.

Blair, Lois, Brett and Melissa McRae

p.s. Join us for a roast beef lunch at noon. Our sale barn is heated but the bulls are on display outside, so dress accordingly.

VIEW CATALOGUE AND VIDEOS ONLINE AT WWW.MARMACFARMS.NET

Give Mar Mac or any other of the consignors a call anytime... Call us a few days in advance of the sale with your bull needs and we will compile a list of bulls that we feel will work for you. As we are with the bulls everyday, we know the qualities in each bull. If we buy a bull for you sight unseen and you do not like him, you don't own him - no problem! Don't forget to check out the videos!

At the Mar Mac and Guests Bull Sale our fifty plus years of experience as a family run operation means CUSTOMER SERVICE is an important part of our business.

We guarantee our bulls 100%, sight unseen purchase satisfaction, wintering program, personal contact after the sale of the bull and the coffee is always on for you to come and view our program.

WE CAN SUPPLY YOU WITH QUALITY BULLS AND CUSTOMER SERVICE

BULL GUARANTEE...

All bulls have completed a breeding soundness evaluation. If your bull fails to be a satisfactory breeder, we will replace him with a bull of equal value or give you your money back. We guarantee you will have a sound bull to service your cows. We will not provide a replacement if your bull has been miss managed. At no time shall the liability exceed the purchase price of your bull. Bulls under one year of age on semen test day will be tested after their birthday, before you need them.

CALVING EASE SCORE...

We evaluate each bull for calving ease determined by bone size, birth weight, birth weight EPD and profile.

Scoring is as follows:

- Recommended for use on moderate framed first calf heifers, of same breed. Should produce minimal or no calving trouble.
- Recommended for use on large framed first calf heifers & cows. Should produce minimal or no calving trouble.
- Recommended for use on cows. Should produce minimal or no calving trouble.

DELIVERY

IF YOU PICK UP YOUR BULL AT THE FARM ON SALE DAY, YOU CAN SAVE \$100 OFF THE PURCHASE PRICE.

We offer to board your bull free until April 15, after that at cost until you need him. **AS WELL, WE WILL DELIVER YOUR BULL FREE TO CENTRAL POINTS IN WESTERN CANADA OR THE US BORDER AND COST WILL BE SHARED TO EASTERN CANADA.** We will make every effort to get the bull to your farm. Delivery will be as close to the date you request your bull, but will be at our convenience. If you can not take your bull when we are in your area, we would appreciate if you made arrangements to pick up your bull.

PIECE OF MIND

Your new bull is a valuable asset and we recommend insuring your bull for infertility coverage and all risk mortality. If you are taking advantage of our wintering program, your new bull must be insured so we both have peace of mind. Insurance will be available from Keystone Livestock Services.

ACCIDENTS...

Although every precaution will be taken to protect the safety and comfort of the buyers, neither the sales staff, auctioneer or consignors assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

TERMS...

The terms of the sale are cash or cheque payable in Canadian Funds. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks before any cattle are released.

MAR MAC FARMS & GUESTS RESERVE THE RIGHT TO DRAW SEMEN ON ANY BULLS IN THE SALE FOR THEIR IN HERD USE.

Check out the video of Ribeye at www.marmacfarms.net to see the agility and stride he has for a Red Angus bull!!!! We are so impressed by how docile, free moving, structurally sound and thick topped Ribeye is. A number of the Red Angus bulls are out of Ribeye females. It will be very hard to replace Ribeye as no matter bulls or females, they worked.

In our search for some new outcross genetics, we searched out this Capacity son out of a Wallstreet dam. Some new genetics that we felt would benefit our program. We are extremely impressed with the depth, volume and natural meat and muscle that Capacity has injected into our calf crop. His first daughter was heifer calf champion at AG Ex and Reserve Senior Heifer Calf champion at Agribition 2017. Check out his calves sale day.

Outcross genetics and what a package. We retained Spartan to use in our program. His sire, Blackberry, left a strong set of bulls and boy what a set of females he left at Mar Mac. Blackberry's dam is our donor female McRae's Bridget 125T (sired by Stevenson's Bruno). On the dam's side, when we purchased the Buck Valley herd one of strong cow families was the Siera line. To produce some outcross genetics we bred Siera to the beefy DMM Makin Waves sire. This combination has resulted in Spartan. So you will have to drive many miles to find a sire with these outcross genetics, along with the performance, and strong maternal strength. We are very impressed with his sons and daughters.

Neptune has gone beyond our expectations; this may be the strongest set of Neptune sons yet. Neptune adds length of body, profile, natural thickness and calving ease. His strong maternal traits in his young mother when we purchased him was one of the qualities we admired. Our calving ease specialist.

 RED MCRAE'S SIERA 38U

Every year, you have a bull that just stands out when you go to the pastures. Here is; Top Secret has a stout profile, wide based, eye appeal and is a soft made individual. Top Secret's dam is a picture perfect Ribeye female whose dam is making a mark at Mar Mac and will join our Donor female team. The Ribeye females are very hard to beat with loads of depth of rib, volume, and milking ability. When Mar Mac goes to buy a herd bull, the dam is also evaluated. I am sure if you check out this pair there will be no doubt in your mind of the genetic potential here. A herd sire prospect that puts it all together. You will drive the wheels off your truck looking for a herd sire prospect like Top Secret, he is the cowboy kind.

Trade Secret is a performance oriented herd sire prospect with strong maternal background, moderate birth weight, excellent EPD's. long bodied, thick topped individual. 1D's dam is a moderate framed, heavy milking Rough Rider female, that goes back to the Red McRae's Frado cow family. In our New Generation female Sale, one of the feature bred's was a daughter of 32Y who sold to Kenray Red Angus. This is a truly powerful Red Angus bull that is full of potential both maternally and paternally.

Debut was our show bull in 2016, a number of breeders and commercial producers were extremely impressed with his smooth front, length of body, thick topped, dark cherry red color and fault free profile. Debut was the Bull Calf Champion at the Ag Ex Manitoba Angus Gold Show. Zeppelin x 10T cross really worked well, we got a number of heifer calves and this bull. The Red McRae's Ruby 10T cow family is one of the noted, cow families in our program and a no miss production record. Debut has herd bull written all over him, remember when buying a herd sire take into consideration the strength of his dam, Ruby 10T. Here is a heifer bull that will not sacrifice pounds at weaning.

In our search for some new genetics, we found this Zeppelin sire advertised in our friends, Kirk and Jill Wildman of Towaw Angus sale book. His structural correctness, natural thickness, eye appeal and low birth weight intrigued us to buy a semen package. Zeppelin was used on a number of yearling heifers and in our ET program. 30D is out of a first calf heifer and wow 74 lbs at birth and 718 adj 205 day weight. This is very impressive for a two year old female. Check him out sale day.

These Zeppelin sons are very interesting with very moderate birth weights, lots of length, natural thickness and performance. Draftsman's dam never lets us down. The Siera cow family was one of the foundation cow families at Buck Valley when we purchased their cowherd and have really made a mark at Mar Mac. 38U is entering our donor program as her daughters, 82Y, 84Z and 12B are young females that will make your mouth water and every one of them has a bull in the bull sale. Select this bull to add strong maternal traits.

A solid made son of the outcross sire Spartan. Spartan has left calving ease, growth and length to his offspring. 63W is a moderate framed, thick meaty Mohican female going back to the Frado cow family. We sold a daughter of 63W in our sale last fall to Sunberry Red Angus, AB and what a job she did on her first bull calf. The Mar Mac program is all wrapped up in this sire, Vision 65T, Siera cow family, Mohican, Bullseye and Frado cow family. Check him out sale day.

Mar Mac bull program has been developed using the highest amount of silage and hay in the ration along with grain and supplement to achieve the energy and protein requirements they need to develop. The program is designed to achieve optimal gain, lean growth and skeletal frame but not to have excess condition on the bulls. The supplement used is the Nutre Beef Bull Developer Supp which enhances fertility, testical size, hair growth and foot health.

Ten Speed 86D is a soft made individual with extraordinary volume and capacity, and extremely thick bodied. We were looking for some outcross genetics for his Premier Dam, 9T and selected Ten Speed for his high growth, maternal strength and eye appeal, and he has not let us down. 9T, wow what an individual and a record of progeny that is amazing: 2 daughters in our herd, sons at Larry Heinrichs, Black Hawk Angus, Blair and Bobbi Rankin, Joe Bouchard and now 86D. If you are wanting a big stout beef bull that has a mother cow you can write a book on here he is. 86D puts it all together in one unique package.

Dam of lot 26

Premier Dam Criteria

1. The cow must be enrolled in the Canadian Angus Performance Program.
2. The cow must have a calf with a 205-day weight recorded within the past 18 months.
3. The cow must have her first calf within 1000 days of her date of birth
4. The cow must maintain a regular calving interval, calving within 395 days consecutively
5. The cow must have four consecutive natural born calves that are registered
6. The cow's four calves must have Weaning Weight EPDs that are above breed average and have an accuracy of over 25%
7. The cow must have at least two registered grand calves
8. Once a cow is designated a Premier Cow, she is always a Premier Cow

YOUNG CANADIAN CATTLEMANS

It is the vision of the Young Cattlemen's Council to cultivate youthful leadership by exposure to industry policy development while allowing for the opportunity to gain experience and bring fresh insight to the table. We also strive to be a conduit of information between industry organizations and the youth of the beef industry.

- YCC welcomes individuals aged 18-35 who are members of their designated provincial organization, or whose parents are members. The YCC board may also approve membership applications from persons within the age range, who may not meet the other specified requirements.
- The YCC board is comprised of 6 provincial representatives and 3 elected directors at large.
- YCC board members have the opportunity to serve on CCA committees, to gain experience and provide youthful perspective on current issues.

2016 -2017 Brett was privileged to be voted in the Canadian Young Cattlemans Council as President. Brett has participated in Canadian Cattleman Events in Calgary, Ottawa and the Five Nations meetings in New Zealand last October. The opportunities for young beef producers are endless.

Heifer Bull.

EPDS - EXPECTED PROGENY DIFFERENCE

The expected difference in performance of a bulls progeny when compared to the average progeny performance of all bulls evaluated. EPD's cannot be compared cross breed. Breed Averaged are at the start of each breed section.

- CE** **CALVING EASE** - percentage of unassisted births with the more positive number indicating greater calving ease.
- BW** **BIRTH WEIGHT** - the birth weight of a bulls progeny when compared to the breed average, in pounds.
- WW** **WEANING WEIGHT** - the adjusted weaning weight of a bulls progeny when compared to the breed average, in pounds.
- YW** **YEARLING WEIGHT** - the adjusted yearling weight of a bulls progeny when compared to the breed average, in pounds.
- M** **MILK** - a measure of amount of pre weaning performance gained by calves which can be attributed to the milking ability of a bull's daughters. The EPD is expressed in pounds of calf.
- TM** **TOTAL MATERNAL** - each of these terms measures a sires ability to transmit milk production and growth rate though his daughters. It predicts the weaning weight of a sire's daughter's calves. If is equal to the milk EPD plus 1/2 of this weaning weight EPD.

OWNED WITH WAYNE HEINRICHS

Johnny Cash sold through our Mar Mac Farms and Guests Bull Sale to Wayne Heinrichs. Wayne lives close by and calves later in the season, so we use Johnny Cash before he starts breeding. Since day one, Johnny Cash was a stand out with his blaze face and lots of natural thickness, depth of quarter and just the cowboy kind of bull. In our Simmental program, we want to add some performance to our Simmental cattle as those extra pounds are what brings in the big pay cheques at the auction marts.

HETERO POLLED - RED - PUREBRED

Power from one end to the other best describes this Johnny Cash son. This masculine headed smooth fronted, meaty Simmental bull will be sure to add pounds to the calf crop. His dam is a tight uddered, excellent teated, heavy milking Red Iron female that goes back to the Deb cow family. At Mar Mac, we love our Red Iron females with excellent confirmation, and femininity. A full brother sold to Kevin Routledge in 2016. Come and see Dallas's dam as she is a gem. Dallas was our show bull in 2016. Here is a bull that is the cowboy's kind of bull, with lots of meat, muscle and performance.

Whiskey River is Melissa's bull a full brother to Revolution, our top selling Simmental bull in 2016 to Gordon Delichte. Gordon is having calves off Revolution from 85-105 lbs and sure likes them. Southern Belle is a moderate sized, heavy milking Red Iron female that just goes out and works. Marksman has left a strong set of calves for the last two years and will be valuable assets to our Simmental program. A performance bull here is that not what Simmental is all about Performance and maternal strength.

HOMO POLLED - RED WHITE FACE - PUREBRED

We acquired a semen package the first year on Predestined. This El Tigre son had the hip structure, volume and natural thickness we admired. 21D's dam is a moderated framed female with loads of milk who has a son working at Horner Farms, females in the herd and at Oberle Farms. If you want to add the white face on a pen of heifers, here is one that should help you out.

MAR MAC SIMMENTAL GENETICS THAT WORK

Congratulations to Greg and Brandon Goudy of Stoughton, SK on exhibiting the Champion Simmental Female at the Olds Classic. Mar Mac Missy 63Y with her stout bull calf were the Grand Champion and her bull calf was Bull Calf Champion.

Top Selling bred heifer at the Keystone Konnection Simmental Sale was Mar Mac Southern Belle to Cam and Myrna Schweitzer.

Tia Schram of North Hill Simmentals successfully showed Mar Mac Gypsy Soul at the National YCS show in Lloydminster and many more events.

THANK YOU TO OUR 2016 BULL SALE

BIDDERS, BUYERS AND SUPPORTERS

Mar Mac Farms is a family run operation and during the year we require some additional help while we are at shows and events. Special thanks to our 2016 help; Tyson McRae, Gracie & Katie Falconer. We could not achieve our goals without the help of our family, friends and neighbors in the Roseland South Brandon Community.

Brett custom clips bulls and cattle all year round and runs a custom Artificial Insemination business. Melissa owns and operates Prairie Pistol Designs; an Agricultural marketing company specializing in designing ads, websites, sale catalogues, cattle photos and videos. Melissa is also a purebred sales rep with DLMS, running show & sale broadcasts.

We are extremely proud of our children, with their work ethic and drive to spend endless hours achieving their goals while still a very important part of our farming operation.

A special thanks to everyone who took time out of their busy schedules to support our family and the Mar Mac Farms Bull & Commercial Female Sale

ROBERT (BOB) GORDON
{NOV 13, 1932 - JULY 29, 2016}

In Memory of our Father and Grandfather

On July 29, 2016, we lost a very important person in our lives. Dad was a man with big dreams who loved challenges. He was devoted to the Agriculture industry always willing to learn and help get young people involved.

As the oldest child, I spent many hours with Dad, learning and working on livestock, touring cattle herds, and attending cattle shows and sales. Dad had a keen eye for the good ones and always had a vision into the future. Dad's amazing memory enabled him to remember cattle, their pedigrees and people.

As a family of five children, Dad and Mom's children and grandchildren are all involved in Agriculture and leading the way in various aspects. Dad has instilled to reach for your dreams, love the land and your family, be a leader, look to the future and work hard for what you want to accomplish. We hope that our family will leave an impact on the Agricultural Industry like our father has done.

Missing you today and always Dad
Love Lois, Blair, Brett and Melissa

A true stockman never dies; he's just selected by the best judge of them all!!
