LIMOUSIN & ANGUS

BULL SALE

SASKATOON, SK - FEBRUARY 19, 2015

Welcome to our 2015 Bull Sale...

On behalf of Cindy and the rest of my family, welcome to our 2015 Bull Sale.

As 2014 progressed it was most exciting to see the continued increase in cattle prices. If you were to market cattle one week, you received some very rewarding prices only to see them increase again in the coming weeks. We have all waited a lifetime for this achievement which everyone that has remained in the industry has been finally enjoying. That being said with the decrease in cattle numbers and the continued high demand for our product, it is important that we continue to produce a high quality product and maximize our production abilities in a profitable and environmentally responsible fashion.

About the bulls; we are very impressed with the offering we have to present to you this year. With our breeding decisions tied back to the bases of our commercial cowherd, we have not overlooked the basics of calving ease and newborn vigor in our selection of herd sires along with the important traits of sound structure growth and performance. We have stressed a great deal on our herd sire selection that they must present a great abundance of natural muscling and strong carcass characteristics. Also the importance of strong maternal traits must be included.

With all this being said, we have some young herd sires on offer that combine many highly sought after and heritable traits in one package. Our cows are run under real range conditions. They calve in big fields on their own with no video cameras watching over them. Consistency in calving ease for both sire and dam is important to us. No high fluctuations in birth weights are tolerated. Our cows run late into the fall and winter on stock piled grass or swath grazing. Over the years we have seen some so called high powered EPD's and high maintenance genetics not lasting as long as anticipated. The ones that have remained have done so because of their ability to remain at a high production level in our environment. Our goal has been to offer sons of these genetics that will offer the same type of reliable and profitable predictability to you with confidence.

For those buyers unable to take their bulls home, we will take the bulls back home and maintain them until spring. We would like the bulls moved out in mid April if possible but realize other arrangements may be necessary to accommodate your new purchases. If you have any questions on the bulls, please do not hesitate to give us a call. We will have videos on bulls available on our website. We will also have the information sheet of weights and scrotal available a few days before sale time.

If you need assistance or more information on the bulls please do not hesitate to call. Rob Holowaychuk and Mike Fleury will have viewed the bulls at the farm, so they will be able to answer any questions.

On a final note, we would like to thank all of our past buyers and those that have supported our program over the years.

Thank you, Robbie

What a set of 2 year old bulls from the Nordal breeding program.

Nordal have consistently put forth and select for bulls with added muscle composition. This effort is certainly evident not only in their popular Limousin bulls but in both their Red Angus and Black Angus bulls. Added muscle means leaner carcasses which means higher yields. In this day and age, the highly sought after larger carcasses are certainly supplied by larger yield animals. This has been the selection practice at Nordal – You the buyer can take advantage of this breeding program and add in the highly heritable Rib Eye Area and increased yield. The sires selected by Nordal have always been selected out of the top of any sale.

The popular 2 year olds have become highly sought after as they both last longer and breed more cows in the first breeding season. Most of all these bulls are developed with their future as well as your future in mind. Each breed has bulls that will surge more programs forward with muscle, correctness and herd sire masculinity. Best of all you will be buying from a reputation program and family who stand behind their cattle as many of the repeat buyers realize.

With the present day market, I urge you to purchase as high a quality bull as possible – and this should be one of your preferred sale destinations. Coming to the sale is always best, but if you are unable to do so then please do not hesitate to visit about your needs with any of the sales staff.

Mark this sale day – See you there!

Rob Holowaychuk, OBI

NORDAL LIMOUSIN & ANGUS

2015 Bull Sale

Thursday, February 19, 2015 • 1:00 pm

Saskatoon Livestock Sales, Saskatoon, SK - (5 miles West of Saskatoon on Highway #14)

Sale Offering...

Limousin:

- 8 Red Polled Limousin Rising 2 Year Olds
- 12 Black Polled Limousin Rising 2 Year Olds including 1 Black Lim x Angus

Many Homozygous Polled and/or Homozygous Black

Angus:

- 17 Red Angus Rising 2 Year Olds
- 29 Black Angus Rising 2 Year Olds

Sale Day Phone...

306.382.8088

All bulls will have passed a satisfactory semen test prior to sale time and are fully guaranteed.

Livestock Insurance will be available sale day.

Delivery We will assist with delivery where ever possible. The bulls may be returned to the farm until arrangements can be made. We highly recommend insurance be placed on any bulls returning to the farm. If we deliver, it will be at our timing to co-ordinate. As we also farm a sizeable amount of grain land, please advise us as to when you begin your breeding so we may schedule an appropriate delivery time.

Please talk to Rob before sale time.

CED: 8 BW: 1.7 WW: 79 YW: 112 MILK: 29 SC: 0.7

Westmoreland came to us after being the Supreme Champion and the record high seller from the Ohio Beef Expo. His sire Deuce has become a breed leader. The dam is one of the leading cows in the breed producing multiple leading herdsires for Tubmill Creek. We have been impressed with the calving ease vigor at birth and performance of the Westmoreland progeny. We have used him extensively since arriving in 2013. He maintains his condition extremely well and is very sound in his foot and leg structure. He makes all his progeny black and polled.

Westman 378A is a Limousin X Angus combination of one of our most prolific producers and Westmoreland. His one year older brother was one of our top sellers in 2014. This fellow is packed with an abundance of muscle and thickness. He is impressive in his stature and length of body. He has continually been at the top of the bull pen with his growth and performance. He is impressive to look at and will be a strong influence in any herd to add performance and carcass traits to his progeny. 72% Limousin - 28% Angus.

This fellow has been one of my favorites. His dam has been a never miss part of our herd with her impressive production record. He is thick hiped with an excellent round muscle design. The calving ease of Unfathomable coupled with an abundance of maternal traits make for a strong complete genetic package.

Adjustment is one of the most complete and impressive statured bulls of the group. He is smooth fronted with a deep rib and long side leading into a sound well placed hip and leg structure. His brother was a top seller in our 2014 sale. He is one of the red bulls that deserve the attention to become a major herd bull and his progeny will prove him to be a leading sire. He contains a unique pedigree with the influence of Made to Order and our past herd sires Greyhound and Logic.

Emblazon 109X came to us after topping the Crescent Creek 2012 Sale. His ability to pass on his sound structure to his progeny is impressive. His sons are smooth made with an abundance length and natural thickness. We are impressed with the performance he has added. With his first group of daughters in production we firmly believe he can add a lot of value to our cowherd with their superior maternal qualities.

17U came as a top seller and lead of bull from a past LLB sale. We have used a lot of herdsires in our program but he is one that has dominated in a lot of areas. From his calving ease from a performance sire to his growth and structure in his progeny to the outstanding maternal qualities in his daughters. They are some of the most impressive females we have working. The one thing that has stood out the most with this sire is his ability to add muscle and shape. We have fed out a number of his sons and daughters. Their yield and carcass qualities rank as high as any we have harvested. After a long breeding career 17U was moved out in 2014. The comment the day he walked thru the ring was "What else is he besides Angus. Look at the hip and muscle" He commanded the top price of any bull that sold that week.

The dam 31R has been an outstanding producer of sons that have continually been some of our most popular every year. They are moderate in frame, thick and sound made, and have the ability to be used extensively as calving ease sires with value of performance bred in. Adding Net Worth 17U places this fellow as a young sire with top growth and maternal traits bred in.

Cardplayer came in dam from a feature cow at the KBJ Cowherd Dispersal. He has been used widely in our commercial herd as well as the purebred cows. His daughters are absolutely stunning when in production with their perfect udder structure and milking ability. His sons have been very popular with the muscle and volume that he has bred into them. His progeny are the dark cherry red in color. Some of the thickest and stout Red bulls to sell will be his sons.

This KBJ Boomer son also came in dam from the Geis dispersal. He is a combination of Red Angus genetics that excel in calving ease, performance and strong maternal values.

In Loving Memory...

In 2014 our family lost 2 very dear members.

Doreen Garner Sept 7, 1930 – March 28, 2014

Our Mother Doreen passed away in March. She was the matriarch of our family. Watching over us as we grew up in life and even in her last moments she worried about us getting lunch and taking care of the farm and calves being born. Mom raised 6 kids in a time when the daily routine was gathering and preparing for the daily meals and assisting with the daily farm chores all without the modern conveniences we enjoy today. Mom greatest passion was her family, friends and sports - a die hard Riders fan through and through. Her greatest enjoyment was watching her grand kids grow with their involvement in sports and as they matured their business and lifestyle choices.

One of her greatest joys was when she made a quilt and donated it to a Sask. Limousin fundraiser. It sold for a good sum of money and she was proud that she was helping promote what her family was involved in. She

kept in contact with many people she met in all aspects of her life through her many letters and phone calls. Mom liked nothing better than to have a good visit and find out ones full family happenings with whomever she met.

Jim Short August 19, 1952 – July 31, 2014

Jim was our only brother in law, that in itself did not make him special. What made Jim special was his enjoyment of life. Every one that met Jim came away with the feeling of being a special friend to him. He loved to sit back and tell stories from his days growing up in Calgary, life on the road in the construction business or just the happenings only he could find himself getting into.

Jim's family grew up in the construction business in Saskatchewan. Leaving his childhood home in Calgary, he put down his roots in Saskatchewan marrying our sister Irene. Jim's love of working in the dirt from a small boy in his sand box led him to start his own company. Along with Irene and their children Jonas and Jennifer, Jim started BLS Asphalt in Regina. They have grown the company to become a broad ranging construction company doing asphalt paving, road building, commercial landscaping, crushing and aggregate supply to much of southern Saskatchewan and beyond. This past November Jim was awarded the Chairman's Award of Merit and the Lifetime Achievement Award by the Saskatchewan Heavy Construction Association. Irene, Jonas, and Jennifer carry on the family business, plus Jonas and his daughter Isabelle are involved in their own farm and cattle operation.

Terms and Conditions...

Terms: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in tendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Bidding: Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

Announcements: All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Breeder's Guarantee: Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Exception Guarantee: In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Certificate of Registration: Each animal will carry papers issued by the Canadian Limousin and Angus associations. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health: All animals in the sale have met all necessary health requirements.

Liabilities: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur.

Rights and Obligations: The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Phone, Mail, Wire Bids: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Delivery: We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

Insurance: Will be available sale day. We strongly recommend that insurance is purchased for full value.

Errors: All announcements at sale time, written or oral, supercede any written material in the catalogue.

New Genetics to Watch for...

Limousin

Stoneyview Alabama

Top seller Prairie Gold. Alabama is sired by our Landmine son Nordal Select. We wanted to maintain the influence of Landmine and T Bone. Alabama was an easy decision to add to our program with his credentials as he is also from the same cow family as Xceed. Alabama gained many admirers when on display at Agribition. Co-owned with Stoneyview Farms.

Hillview Zephyr RGK 224Z

Zephyr was the top seller at the 2014 Prime Club Sale. A big scrotal red bull that represents an outcross pedigree that is stacked with performance and carcass genetics.

Red Angus

Red Twin Heritage Hustle 24A

Hustle was a lead off bull of the 2014 Best of the Breeds. He is impressive in his depth and length of body. He is one of the soundest made heavy muscled bulls we have come across. After doing duties in our heifer group in '14 he will see major duties in the Red Angus cows in 2015.

Red Blair's Kargo 47Z

Kargo was the lead off bull of the Blair's 2014 Bull Sale. He is unique in his massive muscle and volume coupled with balanced EPD's of BW -0.2 WW 55 YW 85 Milk 21. After seeing a number of Kargo daughters in production we believe his potential will not only be in his ability to add dimension and natural thickness to his progeny but the added value of high production daughters.

Black Angus

Crescent Creek Chizzlar 10A

Chizzlar is a Chisum son that was the top selling bull at the 2014 Crescent Creek Sale. He ranks in the top 4% of the breed for W.W. Top 2% for Y.W. Top 2% for REA and Top 3% for Carcass Wt. He is a performance and carcass bull with the addition of high maternal figures. Co Owned with LLB Angus and Crescent Creek Angus.

LLB 44U Blackman 825A

Blackman was the top seller at 2014 LLB Angus sale. He excels in performance and growth and large testicle size. He represents a strong proven pedigree from the LLB program. He will be a major influence on our Net Worth 17U daughters. Co-owned with LLB Angus & Stewart Cattle Co.
