BULL & GELDING SALE

P&H CHAROLAIS

CIRCLE G SIMMENTALS & ANGUS

ALKALI LAKE ANGUS

Saturday, February 15, 2014

2:00 PM

Innisfail Auction Market

Welcome to our 2014 Bull & Gelding Sale

We would like to thank all of our friends and fellow cattlemen for attending last year's sale. It was a tremendous success and we are grateful for the confidence shown in our breeding programs.

We feel sire selection is undoubtedly the most economical and practical method to meet your herd's goals. Whether you sell as calves, yearlings or even keep heifers as replacements choosing top quality bulls should be top priority. Look at the ultrasound data. Look at the EPDs. These tools are there to help you. Look at the genetics. Our bull pen has many half and three quarter brothers allowing you to improve the uniformity of your next calf crop. We are sure there is a bull here for you.

This past fall we saw some of the highest calf prices in history and although they did drop a bit towards the end of the run it was very evident that the quality calves were in high demand and received the higher prices more than ever. Many of our buyers were privy to these high prices and that in itself could not make us any prouder of the bulls we have raised and offered for sale. When you hear from your customers that their silver or tan calves have topped the market on sale day it certainly can't help but give you the feeling that your bulls are doing the job they were intended to do.

We would like to thank Garth Cutler of Circle G Simmentals/Angus for his contributions to a successful sale as well. Once again he has put together a top notch group of bulls for you to choose from. The numbers are up and the quality is still outstanding. Make sure you check them out.

It is a pleasure to welcome Adam Schierman D.V.M. of Alkali Lake Angus to the sale. He is a third generation Angus breeder full of enthusiasm for the Angus breed and the cattle industry in general. He is offering a dynamic group of Black Angus yearlings for you to choose from.

There will also be another outstanding group of well broke ranch horses for sale this year. We have had tremendous feedback on the quality of the horses sold through this sale and this year will not disappoint.

Stop by and view the bulls any time prior to the sale, the coffee is always on.

Please join us for lunch prior to the sale and we invite you to stay for supper and hospitality after the sale.

**See you Sale day
Duane & Corrine Parsonage (NFAC)

A GOOD BULL IS THE SMARTEST INVESTMENT A COWMAN CAN MAKE

Bulls have the greatest economic impact on any breeding program. Therefore bull selection is one of the most important decisions that a cowman makes. A bull sires 20 to 40 calves each year while a cow produces a fraction of that total in her lifetime. The old saying "He's at least half of the calf crop if he's good and all of the calf crop if he's bad" applies more than ever now because every pound counts. For years after a herd bull is gone his genetics either work for you or against you. It's been estimated that 80% of herd improvement is directly attributed to bull selection.

THE PROOF IS IN THE PAY CHEQUE

A MAN OF MANY TALENTS

Some call him Mr. Charolais others call him Pooch. We call him a man of many talents. Don Pochylko has spent the greater part of his life dedicated to the Charolais Industry. A virtual pioneer in the breed he really has done it all. Not only has he raised some of the best Charolais in the country, he showed, sold and judged with great success all around the world. He shares his knowledge with us and we listen keenly just to pick up the tips of his success.

A good hearted man he is always there to give a helping hand. We have benefited from many of his other talents with great appreciation. Need a chef to cook the ultimate bull sale meal, a photographer to shoot pictures of your sale bulls, maybe a tip on marketing your cattle he is there to help. Do you need a co-pilot to deliver bulls or a silage truck driver? He's there, nothing will hold him back. It is a privilege to call Pooch our friend and we thank him for all he has done to help make this sale happen.

CIRCLE G SIMMENTALS & ANGUS

Circle G Simmentals/Angus is proud to be part of the P&H Ranching Co. Ltd. & Guests Bull Sale. I ran into Duane at the Red Deer UFA store in November of 2011 and had a coffee and visit with him. He called me that same night and convinced me that I should be part of this sale . . . I was recruited!

It's a good fit as I share similar goals with P&H as we strive to produce cattle that work well for others . . . functional, moderate framed, low maintenance breeding stock that will survive anywhere and most importantly be profitable for our customers. We were both longterm consigners to the Calgary Bull Sale who fared very well in the show and sale rings (having won 15 Grand and Reserve Championships between us), but found the need to host our own sale to satisfy our customers.

As many are aware, I worked with my sister and brother-in-law, Debbie and Cam Sissons (D Bar C Cattle Co.), in developing a 450 head cowherd and hosting a very successful annual bull sale for many years. In 2010 we dispersed the cowherd as Debbie and Cam had decided to pursue the opportunity to work with Cam's parents and brother in their very good fuel tank leasing business. I retained the cows ten years of age and older as well as some that I owned outright and purchased thirty head out of the dispersal sale. My Simmental, Angus and Hereford cowherd numbers have grown to 140 head and the plan was to sell bulls privately on the farm until this sale opportunity came about.

The Circle G bulls were weaned September 28 and ran on greenfeed swaths until mid October. The bulls were then started on a silage based TMR ration. No creepfeed is used and no feet have been trimmed. As this sale takes place before many of the bulls are 12 months old, they will return to the farm after the sale and will be semen tested in March when they have matured more and the weather has warmed up. Delivery to your farm will follow.

Feel free to view the bulls and their mothers at the farm prior to the sale or call if you have any questions. I look forward to visiting with you at the sale in Innisfail on February 15.

Sincerely, Garth Cutler

- A powerful young two year old that was probably the best red bull of the 2012 calf crop.
- His dam is outstanding and was one of my top picks out of the dispersal sale.
- Ranks in the top 1% of the breed for WW & YW and top 25% for CE epds...check out his powerful performance numbers.

ALKALI LAKE ANGUS

I would like to start by thanking both the Parsonage and Cutler families for inviting me into their sale. When Duane and Corrine approached me with the opportunity of taking part in their sale last spring, I was immediately interested. After a year of Duane's charisma, here we are. As this is our first year in the sale, I would like to start by giving you a few details on the farm behind the bulls. My family has been raising and registering Aberdeen Angus since 1953. Our bulls in the sale are sourced from a 50 cow herd that is owned by me and my family, hence the two herd names. Our philosophy has always been focused on sound, functional, low input cows that have the ability to raise a heavy calf at weaning time. As you evaluate the bulls I would like to point out two important points. On the paternal side, we pride ourselves in using outcross genetics; we are the only seed stock producers in Canada marketing sons from Sydgen Liberty and Koupals MoCo. Second, on the maternal side you will see that the strong influence of the 49T cow (pictured as a 2 year old with her Wrangler bull calf at side). I invite you to stop in and see her as well as the rest of our herd anytime you are in the Innisfail area.

Sincerely, Adam Schierman

P&H RANCH HORSE SALE 2014

Hospitality
& Expertise

turn a sale into an

Event!

We all know the huge investment in time, knowledge and work that it takes to get a horse ready for the ranch or arena. A good horseman never stops learning and honing their skills. The horses offered in this sale have been handled in this manner.

Congratulations to the 2013 Sale high selling consignor Shawn & Jennifer Fisher and a big Thank-you to the buyer Ben Bamford.

All horses will be vet inspected by a qualified veterinarian prior to the sale. The ranch horse sale order will be determined by drawing the consignor's name out of a cowboy hat prior to the sale.

15.1 hh stout, strong and smooth. We are proud to offer this flashy home raised gelding for sale. Roper has been used 2 falls in the feedlot roping and doctoring calves. Lots of pasture riding checking grass calves. He always tries hard and handles new situations with ease. He has now been started as a head horse and shows great promise. His bloodlines include King, Peppy San Badger and Kims Pica Pride.

"Whiskey" is a nice, big strong ranch gelding that stands 15.2 hh and weighs about 1300 lbs. Owned since he was a yearling. "Whiskey" has been used for all aspects of ranching. He works very well in the branding corral, and has seen wrestlers and nord forks. He's done pasture doctoring, and moved cows through bush and creeks and doesn't hesitate. Good to catch, he stands nice and quiet when tied. When it comes to watching a cow, "Whiskey" expresses lots of interest. He works off his hind end and keeps his head down and between the reins when asked to turn or stop. "Whiskey" is good with his feet, and has had a slicker slapped around him in rain and snow storms. He loads well too. Whiskey is a good drink, and so is this horse. Don't pass him up. Good enough for anyone who has rode – no buck.

Lot 106

LONESUM KNIGHT

AQHA # 5192230 BIRTHDATE: MAY 26, 2007

106

DAM: LONESUM JUDY SUE

MG SIRE: COWBOY BEN DRIFTIN

CONSIGNOR: BILL KEWLEY

For more information call: Bill - 403-652-6441

We have had "Lonesum" since he was a weanling and he turns seven this year. He has been packed in the mountains, salting and fencing. He loves working cows whether moving, calving, checking, or pasture doctoring. We exposed him to the big city lights with Canadian Cowboy Challenge competitions. His size at a short 15 hands is deceiving as he thinks he is 17 hands and moves out like he is. He is quiet, has a soft feel and is easy to handle. We have never had any health issues and he has never offered to buck. He is easy to load and easy to trim. Lonesum is always the first one at the gate and loves being with people without being a bother. We would be happy to see him go to a home where he gets a chance to reach his potential.

Tripp is a coming 7 year old gelding who has been put through the paces. He stands 16.2hh/1300lbs. He was used in a feedlot checking pens & sorting fats. He has been exposed to feed trucks, dogs, all sorts of noise and nothing phases this big good looking gelding. Tripp has worked a 2500 head lease, doctoring cattle, moving fields. He can babysit the kids when they want to go trail riding. He has been team roped on, but it is not his calling. This winter I have been riding him at a cutting horse barn using him on the flag and working cattle. He is the same horse every time you get on him whether he has been rode the day before or you have turned him out for the winter. He is up to date on his worming and shots and just had his teeth done the start of December. If you have any questions or would like to come try him out please don't hesitate to give us a call and we can make arrangements and answer all your questions.

LAME BULL = NO BULL

Getting cows bred on time is pivotal to the success of every cow-calf operation & the most vital animal on the breeding field often gets the least consideration...the bull.

Producers spend a great deal of time and money ensuring that the bulls they purchase have the right genetics for their cow herd. Many producers also recognize the value of an annual breeding soundness examination before the breeding season. But far less attention is paid to protecting these reproductive assets from a common infection that can undermine a successful breeding season.

Footrot is caused by the bacterium *Fusobacterium necrophorum*, an organism commonly found in the digestive tract of cattle. Any surface contaminated with manure may contain this organism. *F. necrophorum* can also escape from the rumen and circulate internally. An animal's environment plays a role in the development of footrot. Wet, muddy conditions or rough, abrasive terrain can cut or bruise the skin between the toes, creating the right conditions for the bacteria to multiply and cause disease.

The first signs of footrot are swelling just above the hoof and lameness in the affected foot. As the swelling increases, the toes spread apart and the animal becomes increasingly lame. Ultimately, the skin between the toes dies and breaks open, releasing infected debris and the foul odour associated with footrot. Decreased appetite and weight loss are secondary effects. Although rarely fatal, the condition can result in tendon sheath infections and arthritis if not treated promptly. Furthermore, footrot is contagious because the infective material released from the feet of affected animals increases the likelihood that other animals will be exposed.

The cost of footrot is much higher than the price of treatment. A lame bull, especially one that is lame on a hind foot, is unlikely to breed many cows. If he quits working, even for part of the breeding season, you may be faced with late and open cows in the fall. That means more culled animals, more late-born calves and shorter calving to breeding intervals for your cows next spring. The good news for producers is that a footrot vaccination is available that can decrease the incidence and severity of this disease in your herd.

Combined with a sound nutrition program and good health management practices, footrot vaccination can help keep the upcoming breeding season on track. Talk to your herd veterinarian about prevention strategies for your herd.

FUSOGARD® POWERFUL ECONOMICAL PROACTIVE

All sale bulls will be double Foot Rot Vaccinated with Fusogard

TERMS & CONDITIONS OF THIS SALE

1. **TERMS** – The terms of the sale are cash or cheque payable at par in Canadian funds to the sale clerk on sale day unless otherwise previously arranged with the sellers prior to the sale. No releases will be given until satisfactory settlement has been made.
2. **BIDS** – Each animal will be sold to the highest bidder.
3. **DISPUTES** – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter will be final.
4. **ANNOUNCEMENTS** – The information contained in this catalogue is believed to be true and accurate. Announcements at the sale by the owner, auctioneer or sales management will take precedence over the printed matter in this sale catalogue.
5. **PURCHASERS RISK** – Each animal becomes the risk of the purchasers as soon as sold.
6. **CERTIFICATE OF REGISTRATION** – The proper registration paper from the CCA, CAA and CSA will be duly transferred and furnished to the buyer for each animal after settlement has been made.
7. **GUARANTEE** – All bulls carry the standard breeding guarantee as specified by the applicable Canadian breed Associations. Bulls are guaranteed to be structurally sound and will have passed a semen test by a qualified Veterinarian prior to sale day or delivery. In the unlikely event of a dispute, the regular terms and conditions of the standard breed Associations will apply.
8. **ACCIDENTS/LIABILITY** – Every precaution will be made to protect the safety of those attending the sale. All persons attend the sale at their own risk. The seller, facility, owner & other persons involved with this sale assume no liability, legal or otherwise for any accidents that occur in, on or about the premises.
9. **INSURANCE** – Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representative sale day. It is mandatory that all bulls returning to the seller's premises be insured at the buyer's expense.
10. **DELIVERY** – The sellers will deliver bulls free of charge within a 300 mile radius. Delivery beyond will be at cost. All bulls will be delivered within 30 days after the sale date.
11. **P&H Ranching, Circle G Simmentals/Angus and Alkali Lake Angus** reserve the right to collect semen on any bull sold for in herd use. This semen will be collected at the buyer's convenience and at the seller's expense.
12. **REGARDING HORSE SALES:** It is to be clearly understood that the Innisfail Auction Market, P&H Ranching and their affiliates is only acting as a medium between the buyer and the seller. We are not in any way responsible for failure on the part of either party to live up to their obligation. Each animal becomes the risk of the purchaser as soon as the animal is declared sold.

All 2 year old bulls will be semen tested, weighed & veterinary inspected prior to the sale. Yearling bulls will be scrotal measured, weighed & veterinary inspected prior to the sale and semen tested prior to delivery. Horses will be veterinary inspected on arrival. Information will be available sale day.
