A WELCOME SENSE OF PREDICTABILITY IN A WORLD OF UNKNOWN.

A NEW WORLD DEMANDS NEW HOLLAND.

Confidence is rolled into every bale with a Roll-Belt™ round baler thanks to over 120 years of pioneering hay and forage equipment. No matter your crop, weather or storage conditions, bale density can be conveniently adjusted from the tractor with the in-cab density control system to maximize the crop value of each bale. That kind of flexibility, consistency and productivity is why no one bales more hay every day. Learn more at EquippedForANewWorld.com

Viewing the Bulls

All of the bulls will be at the sale site for viewing two days before the sale or at the farms anytime.

Videos of the Bulls

Videos of the bulls are available for viewing at www.bylivestock.com.

Video Sale

As the bulls will be sold by video presentation and will not be coming through an auction ring, please come early to view the bulls prior to sale time. Lunch will be served for your convenience.

Delivery

Palmer: We'd prefer to give you free board for the yearlings until pasture time and free delivery up to 300 km. All we ask is that you insure your purchases. All two year old bulls must be picked up or delivery will be made as soon as possible after the sale. **Nielson:** Free board and delivery up to 300 km.

Semen Tests

All bulls will pass a semen test before delivery.

Decision Deferred Bulls (DD)

We will stand behind all decision deferred bulls in the sale. Asking 12-14 month old bulls to pass a semen test in February after a cold winter is a lot to expect. But we feel semen testing is worthwhile as it provides you the security of knowing the bull will pass, as all bulls with semen abnormalities have been

eliminated. You can buy a DD bull with confidence, knowing that with a little time, they will pass and we will stand behind them.

Bull Warranty

We guarantee to provide you with a sound, fertile bull capable of servicing a reasonable number of cows. In the event that your bull is a non-satisfactory breeder, the seller will not, under any circumstances, be responsible for more than the original selling price of any bull or female sold in the sale. The consignors will not provide replacement or credit for physical injury or mismanagement. Therefore we stress the importance of insurance on your bull. An insurance agent will be available on sale day.

Terms & Conditions

The sale will be conducted under the terms of the Canadian Charolais Association and Canadian Angus Association. Copies will be available sale day.

Right to Draw Semen

In the event that we would like semen on any of the bulls selling, we reserve the privilege of drawing semen in the off season, at our expense, for in-herd use only.

Sight Unseen Purchase Program

If you are unable to attend the sale but are interested in our bulls, give any one of the contributors a call. We will personally go over the bulls and your program with you, and recommend the bulls that would best suit your needs. We will then get you in touch with one of our sales staff, who will represent you in a professional manner. You have the option of leaving an order or bidding over the phone. Bulls are guaranteed to meet your approval when delivered. The sale will be broadcast on DLMS.ca

Insurance

Michelle Matycio, 306-227-3117, will be available to sell insurance sale day.

Credit Card Purchases

Purchases may be made on Visa or Mastercard. A 3% surcharge will be applied.

Welcome to our 7th Annual Bull Sale

Above: Brendon & Jenna Ehrhardt and family
Right: Larry and Laurie Nielson

Bob and Monette Palmer
Velon, Leah, Hunter, Halle, Hayla and Hinton Herback

Wow, how time flies, as this is the 7th Annual Sale and it just seems like a couple of years ago these two operations joined forces to hold their first sale. One thing that has been constant every year though is the improved consistency of quality bulls in both pens.

On behalf of both these operations, we would like to invite you out to see a great offering of bulls and heifers and enjoy some homegrown hospitality and a great lunch sponsored by John Bob Farm Equipment. This will again be a video sale, so the animals will not be coming through the ring and you can view the videos anytime online prior to the sale at www.bylivestock.com. As a bonus this year, there are 5 Black Baldie commercial bred heifers that are due to calve in April bred to Nielson's own Angus bulls.

The Palmer Charolais operation has provided some great performance Charolais genetics to the industry and this past summer Bob & Monette were added to the prestigious Canadian Charolais Association Honour Roll. One of the high sellers in Canada came out of this sale last spring and his pen this year has many more $\frac{1}{2}$ and $\frac{3}{4}$ brothers that will work at any level of the industry. Velon also runs a herd of commercial cows and understands what it takes to be profitable raising commercial calves.

He weaned his bull calves in October and gave them all their shots. The bulls are then fed a growing not fattening ration that ensures they will last for you the customer. After the sale he would like to keep your yearling bulls and provide fee board and delivery up to 300 km when you need them. But the bulls staying need to be insured or understood that they are at the buyer's risk. The two-year old bulls need to go as soon as possible after the sale as a pen

of them can be a real problem in the spring.

The Nielson Land & Cattle operation has continued to improve the quality of the bull pen and has continued to buy some high dollar bulls and females to continue this trend. This year there are many bulls out of first calf heifers. I find this interesting, as it shows how the breeding program is coming ahead and the younger females in the operation are really getting the job done. Because there are so many out of young females and with the sires being used, there is a very high percentage of the bulls in the sale that would work on heifers and still give you enough performance to go on cows.

The herd health is as good as it gets as well, with the cattle vaccinated for everything they need. The sale cattle are fed a high roughage TMR ration so they are not hurt in any way and will last in the real world. Again, the heifers offered are good quality replacement females that will go out and work for you. Larry will keep the bulls and provide free delivery up to 300 km as well.

You can buy with confidence at this sale knowing the cattle are sound and functional and these breeders will stand behind what they produce. Feel free to stop by the farms anytime to view the offering with all the bulls and heifers ready for viewing at Palmer Charolais two days before the sale. Please come early and join us for lunch on sale day and to view the bulls.

If you require any additional information or have any questions just give any of us a call. Whether you need an Angus bull to breed some heifers or to make a great cowherd or a Charolais bull to make the market topping buckskin or silver feeder calves, come and have a look. We know you won't be disappointed.

Sincerely,
Helge & Candace By

COWMAN FORMULA

Increase in pounds per calf from a top performance bull
 X number of cows bred to him per year
 X number of years to keep the bull
 X expected selling price of calves
 = Additional dollars you can pay for a better bull

Example: A bull who will add 30 lb to the weaning weight of each of his calves, mated to 25 cows per year for 4 years, and you sell his calves for \$1 per pound. 30 lb x 25 cows = 750 x 4 years = 3000 x \$1/lb = \$3000. This bull is worth \$3000 more than the average bull who will keep your weaning weights the same. Take this formula and put your own figures in and see what you can afford to pay. This equation does not take into consideration the increase in value due to calving ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

The Percentage Calving Chart

- 1 An average cow of any breed should be able to calve 7% of her body weight.
2. Most Charolais cows will weigh between 1400-1800 lb., expected calf weight to range from 98 to 126 lb.
3. Most Red Angus cows will weigh between 12-1600 lb, expected calf weight range 84 to 112 lb.
4. Calving ease is MORE important than birth weight because a longer sided calf may calve easy, but the birth weight is higher.

7% Calving Chart

Cow Wt	Calf Wt
1200 lb	84 lb
1400 lb	98 lb
1600 lb	112 lb
1800 lb	126 lb

It's no secret . . .

Blair's Forage Month is March, 2018

You'll save money when you book your Brett Young forage seed during the month of March, 2018. Brett Young offers a wide selection of high performance legume and grass varieties. Brett Young can custom build a blend to suit your specific needs, or recommend a stock blend that provides high productivity in a wide range of environments. In addition to custom blends, they offer industry-leading alfalfa varieties and an impressive forage guarantee program.

Contact your nearest Blair's location today . . .
