TWO-YEAR OLDS  
YEARLINGS**

**TUESDAY  
MARCH 27, 2012  
TAYLOR AUCTIONS  
MELITA, MB**

# Welcome to the Pure Country Bull Sale

It is certainly gratifying to see cattle prices at the levels that they are at. The time has never been better to trade in your old bull at a good price and get fresh new genetics to help you top the market with your calves.

The bulls in the sale have had a breeding soundness exam and have been culled thoroughly so as to offer you only the very best.

The cattle business is our only business. Both operations derive their living almost exclusively from our cattle herds and have been at it for a number of generations.

Buying top bulls will help you bring in calves that pay huge dividends when you sell calves.

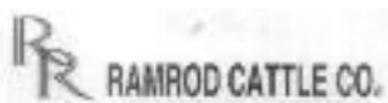

This is Manitoba's largest offering of two year old and rising two year old Red and Black Angus bulls.

If these extra age bulls are what you are after here is a golden opportunity. There are a number of bulls suitable for heifers if you are looking to expand your herd.

Thank you to our past customers, over 80% of the bulls sold in the Pure Country Bull Sale go to repeat buyers. That kind of support is truly humbling. We look forward to meeting new people on sale day or in our yards previous to sale day.

Angus genetics are in demand worldwide for the great momma cows, the vigor of the calves at birth, the ability to survive and thrive in harsh climates on low cost forage rations and for their great carcass quality with flavorful tender meat. Feel free to call any of the consignors or sale staff with any questions.

## See you March 27th in Melita

**AUCTION MART (306) 693-4715**

*RECEIVE \$50 OFF THE PURCHASE PRICE OF YOUR BULL IF YOU PICK HIM UP AND TAKE HIM HOME ON SALE DAY. \$2/ HEAD PER DAY FEED COSTS AFTER APRIL 1. DELIVERY OF BULLS WILL START APRIL 1.*

- The animal becomes the responsibility of the purchaser after it is sold. Insurance will be available on sale day from Stockman's Agencies (204) 728-3058.
- All the bulls in the sale offering will be vet inspected and have passed a semen test prior to the sale.
- SIGHT UNSEEN PURCHASE PLAN - Call us to discuss your specific needs, the earlier the better. We will make the selections and fully guarantee your satisfaction! See IBC for more info.

### EXPLANATION OF TERMS

We scored our cows udders and feet at time of calving with 1 being the poor end of the scale and 5 being the best.

### CALVING EASE

The calving ease of the bulls is done with a star system; the more stars the better the calving ease. 4 and 5 star bulls are considered to be suitable for heifers; 3 for well grown heifers or cows; below 3 should only be used on cows.

6Y was an in dam purchase from the Adams Hirsche Dispersal. His sire is a \$25,000 son of the legendary Sitz Alliance 6595, and a reference sire in both the Crowfoot and Remington operations. After an unassisted birth; his moderate framed, heavy milking dam has truly put everything into her calf. 6Y has developed into a long-spined, deep bodied, growthier bull with a smooth front end and clean lines; a performance bull with added maternal strength.

14Y is a tremendous heifer bull candidate with great performance numbers and outstanding EPD's. He's a stout, heavy muscled, wide topped, easy fleshing, big ribbed, rugged haired son of Focus In; possibly the most exciting son of Mytty In Focus to surface and a popular attraction at the 2009 Denver Stock Show. 14Y's dam in her own right had a respectable showing at Agribition as a calf, now proving that this moderate framed female, who traces back to Alliance 6595 and EXT, will be even more admired for her production ability. 14Y combines calving ease, performance, muscle, and maternal strength in one complete package.

19Y is out of a thick, deep bodied, big ribbed, Northline Brick 3R daughter purchased from the Dekeysers. This smooth made, rugged haired, moderate bull has enough muscle and depth to balance calving ease with production; just like his popular sire has accomplished. 19Y also posts a very respectable and balanced set of EPD's.

A thick calf out of a first calf heifer purchased at the T-Bar Ranch Dispersal, another Sitz Alliance 6595 daughter, we just can't get enough of these girls in the herd, they sure do make great momma cows. This calf will work well on heifers or cows and still give you growth.

## Ultra Sound (Guide)

**LMY** = Lean Meat Yield, expressed in %

**REA**= Rib Eye Area, adjusted value expressed in square inches

**% IMF** = Intra Muscular Fat, adjusted value expressed in percentage

**Rib Fat & Rump Fat**= Rib Fat, adjusted value expressed in inches.

The first thing producers want to know about ultrasound is: How accurate is it? The answer to the question depends on who does the actual scanning of the animals and interprets the images. Ultra sound data in this catalogue was collected and analyzed by a technician that is certified by AUP and CUP. This means that this technician has met the standards set by many breed associations.

The accuracy, although not perfect, is high enough that bulls selected based on ultrasound, results in positive genetic change in progeny carcass traits. Heritability for carcass traits is moderate to high, which is slightly higher than birth weights, weaning weights and yearling weights.

### % Lean Meat Yield (Cutability)

Cutability is the percentage lean meat yield in the carcass. Yield grade is an important factor in both Canada and the U.S.A. Producing calves with a high genetic potential for this trait can be an important objective of a breeding program. Back fat will reduce yield by 7 to 8 times what REA will increase yield.

### Ribeye Area (REA in<sup>2</sup>)

The REA is the largest muscle in the body at birth, so REA gives an indication of overall carcass muscling (measured in inches).

### %IMF (marbling)

Marbling is the best indicator that we have to tell is what kind of eating experience we will have when eating beef. Extensive research shows that average AAA and above marbling produces the most satisfied customers. As marbling increases so does the juiciness, the flavorfulness and the tenderness. This may not always be true but for the most part AAA marbling produces more satisfied customers than does A or AA marbling carcasses.

### Meaning of the values:

<2.3	= Single A
2.30 - 3.99	=Double AA
4.00 - 9.89	=Triple AAA
9.90 and above	=Prime

### Rib Fat (in inches)

Fat depth influences lean meat yield. Fat bulls have less lean meat/muscle in the carcass. The fat measurement also gives an indication of the bulls fleshing ability. Calves from a bull with very little fat may finish too slowly in the feedlot. Body condition score (fat depth) in females is related to their ability to reach puberty at an early age, produce milk, rebreed and maintain a short calving interval. On the other hand, bulls carrying excessive fat may suffer reduced fertility.

### Summary

Like all traits, we should avoid extremes. Moderation is the key. As producers we need to evaluate our females and then decide what kind of progeny we want to produce and this should dictate what kind of sire we want to purchase.

---

## Herd Vaccination Protocol:

**COR VET CATTLE CO:** All bulls are on a full, multi-component vaccination program to protect against BVD (types 1&2), IBR, PI3, BRSV, shipping fever, Haemophilus, Clostridial diseases including Tetanus, and Footrot. The dams of these bulls are annually vaccinated with a pre-breeding vaccine against BVD (types 1&2), IBR, PI3, BRSV, Lepto, and Vibrio.

**RAMROD CATTLE CO:** All bulls are on the Express 5 program protecting against BVD (Type 1 & 2), IBR, PI3 and BRSV, Haemophilus as well as Covexin 8 for Clostridial diseases including Tetanus.

**TRIPLE V RANCH:** All bulls are on the Express program protecting against BVD (Type 1 & 2), IBR, PI3, BRSV, shipping fever, Haemophilus, and Clostridial diseases including Tetanus. All bulls have also had 2 doses of Footrot vaccine as yearlings. The dams of these bulls are annually vaccinated with a pre-breeding modified live vaccine against BVD (Types 1 & 2), IBR, PI3, BRSV and Lepto.

All Triple V Ranch bulls received a dose of Ivomec in January 2012.

THANK YOU TO OUR 2011

Catalogue printed at Leech Printing Ltd., Brandon, MB

**BREEDING GUARANTEE:** All cattle are sound and right, and sell with a responsible breeder guarantee of satisfaction. In the event of an unlikely dispute, the regular terms and conditions of the Canadian Angus Association shall apply.

**PURE COUNTY BULL WARRANTY:** Pure County sale group guarantees to sell you a bull that is structurally sound and has passed a breeding soundness evaluation by a licensed veterinarian. Should any Pure Country bull fail to be a satisfactory breeder – unable to physically service a cow or heifer – he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question, or a credit will be given towards the purchase of another bull.

**WE GUARANTEE TO PROVIDE YOU A SOUND, BREEDING BULL.**

We, however, will not provide replacement or adjustment for physical injury or mismanagement. With this in mind, we stress the importance of insurance on your bull. Should you have a problem with your bull, notify us right away and we will make sure you are satisfied with your Pure Country bull.

**TERMS:** The terms of the sale are cash or cheque payable in Canadian funds; U.S. Funds will be accepted at current rate of exchange at sale location. The right of property shall not pass until after settlement is made. All settlement must be made with the clerks of the sale before any cattle will be released.

**RISK:** All animals are at the purchaser's risk as soon as the Auctioneer's hammer falls. Insurance will be available on sale day. We encourage you to insure your purchase prior to the animal returning to your farm. All persons who attend the sale do so at their own risk. The owners and sale staff assume no liability, legal or otherwise for property loss or any accidents that may occur.

**DISPUTES:** In case of disputes, the bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision will be final.

**INTEREST:** The Pure Country Consignors reserve the right to retain an interest in any of the animals selling. The consignors reserve the right to collect 100 doses of semen on any bull in this sale at their expense and the buyer's convenience. The semen is for in herd use only.

**PHONE OR MAIL BIDS:** If you are unable to attend sale day, you can entrust your bid in confidence with the Sale Staff or the Consignors.

**ANNOUNCEMENTS:** Changes of information of any kind in this catalogue

will be announced from the auction block and such announcements will take precedence.

**CATTLE INSPECTION:** All bulls carry permanent Canadian Cattle Identification Tags as well as tags corresponding to Sale Lot Numbers.

### **SIGHT UNSEEN PURCHASE PLAN**

We would like to have you as our guests at our Bull Sale, however if you are unable to attend, we have a program designed to help you out. A number of our customers buy their bulls sight unseen. We will discuss your bull needs with you and select a bull that fits your criteria. We will deliver the bull to your yard. Your satisfaction is 100% guaranteed. If you don't like the bull, you don't own him. Simple as that! Call Dan (204) 665-2448, Tony (204) 665-2424, Corey (403) 315-0659 or Wayne (204) 665-2449 or any of the sale staff and entrust your bids in confidence. They'll be happy to personally look after you. 100% Satisfaction guarantee.
