THE RIGHT CHOICE

RANCHER'S CHOICE

Another year has come and gone (the older I get the faster time goes) and two more grandkids have arrived, Cole and Bentley. This brings the total to ten grandchildren. There is always interesting conversation when they come to the farm and go with grampa to check the cows. Everything from "why is that bull jumping on that cows back" to "why do all your cows have "price tags" in their ears. The best thing is they are all healthy and full of piss and vinegar, and Sue and I are thankful for that.

This year I think we bring you the most even set of bulls we have ever produced. We continue to use a lot of Canadian pedigrees. They are bred to thrive in our harsh environment, with extra hair and muscle. We believe the Canadian cattle have stronger feet and legs to travel over our harsh terrain. Our cow herd that produces these bulls is second to none. We have a lot of Double AA, Bill Dillabaugh influence in our cows and every rancher with Angus knows what that great herd has done for the breed.

Finally!!! The cattle market has improved to the point where us rancher's are making a little money. The profits are small right now, but it's a start. On Jan 1/11 there were 92.6 million head of cattle and calves in the U.S. This is the lowest inventory since 1958. The U.S. calf crop in 2010 was 35.7 million head, the lowest since 1950. Meanwhile, the U.S. population is up 30% since the 50's. With the rest of the world's population growing and becoming wealthier, I think us Rancher's should be very optimistic about the cattle industry over the next few years.

RANCHER'S CHOICE calves continue to top calf sales throughout Saskatchewan and Alberta. March 28 is your chance to put some RANCHER'S CHOICE influence in your herd. Hope to see you then.

RANCHER'S CHOICE

CARING FOR YEARLING BULLS

There are so many theories on how cattle should perform, some sound, some not so sound. The Holstein cow is very efficient in converting feed into milk and this may be done by the Holstein in a controlled environment. This enables the dairyman to produce a very inexpensive product.

The consumer is demanding lean, tasty, tender beef at an inexpensive price. How do we produce this? That is the question! Tender meat comes from young animals. So we have to have fast growing animals that can grade and weigh 1,250 to 1,350 pounds at 13 to 14 months of age.

The bulls that sire carcasses like this need to have explosive growth and fleshing abilities. They also have high metabolism so they may utilize and convert feed when exposed to it. As a result these young bulls are still growing fast at 13 to 14 months old when they are turned out to breed. They cannot get enough feed to maintain their growth and muscle mass and breed cows at the same time. Something has to give. These young bulls will not stop breeding, and likely their skeleton growth will not stop. It then means something else needs to give. The result is quite often a rapid drop in condition of the yearling bull.

A slower growing bull can maintain himself better, but his offspring will not convert feed well and they will reach market at a later date, possibly adding a little to the toughness of the meat. There can be a fine line in these genetics and we must guard against hard doing animals. However, after breeding season the majority of these good young bulls should be put on good feed and are then able to convert feed and rapidly regain their body mass. If they can do this it is an indication that they are easy doing cattle.

When the breeding season is completed these good yearling bulls that have good feed conversion and growth rates must be exposed to feed that compliments their rapid rate of gain to get their body mass in acceptable condition for winter.

This is why these young bulls should not have to compete at the feed bunk with older herd bulls. If you feed all the bulls with enough energy and protein for these young bulls, then the old bulls may become too fat by spring, particularly if the older bulls are easy converters. As a two-year-old the growth curve has leveled out and the bull is more able to look after his body needs.

The best feed for yearling bulls is a high quality hay and 1.5 per cent of his body weight for a balanced grain or pellet ration. That is a 1,450 pound bull needs to be exposed to free choice, high quality hay and approximately 15 to 20 pounds of a balanced ration.

A young bull looked after in his first year could possibly give one or two more years as a breeding bull and that would make those few extra dollars to feed him properly look pretty cheap.

William Dillabaugh

RANCHER'S CHOICE

Financing Plan

- For Canadian buyers only •
- For bulls selling at \$2,000 and over •

The Rancher's Choice Group offers a special financing plan for buyers at the spring 2011 sale. A down payment of 60 percent is necessary at the time of purchase, with balance due on November 30, of current year. This finance plan is only available on bulls selling at \$2,000 and over (Example: 60% of \$2,000 equals \$1,200 down payment with balance of \$800 due November 30, 2011). Interest is waived until November 30 of current year as well. For more detailed information please contact Kim Robertson.

N. B. - A post-dated cheque is required on sale day for remaining balance.

Below is a sample of purchase agreement

**RANCHER'S CHOICE
FINANCING PLAN**

This agreement, made in triplicate, _____ this the _____ day of _____ A.D., _____ by and between **RANCHER'S CHOICE BULL SALE**, Reg. No. 178516, herein called the "Seller", and _____ of _____ hereinafter called the "Purchaser", it is mutually agreed upon between the parties as follows:

1.) The "Purchaser" agrees to pay 60% of the purchase price of animals bought at the **RANCHER'S CHOICE BULL SALE** on _____ day of _____ A.D., _____

2.) The "Purchaser" agrees to pay the remaining 40% of the purchase price on or before the _____ day of _____ A.D., _____

3.) The "Seller" agrees that no interest will be charged on the remaining 40% of purchase price until the _____ day of _____ A.D., _____

4.) The "Purchaser" agrees that 24% (2% per month) interest will be paid to the "Seller" on all outstanding money owed after the _____ day of _____ A.D., _____

5.) The "Purchaser" agrees that the animals with tattoo number's _____ have been purchased from the "Seller", and that these animals will be used as collateral for the purposes of this agreement.

OBSERVATIONS - BY BILL DILLABAUGH

I stopped at Saskalta a couple of weeks ago and toured the sale bulls, mother cows, heifers and herd bulls. The cattle were strong - strong meaning a little more length, frame and muscling. The sale bulls were uniform, correct, well muscled, not stuffed or over fed. The whole herd stood out with attractive heads and proper front shoulders. Cows have those important feminine fronts, good spring of rib, proper stifle development tied strongly into the hocks. These desirable traits are being passed down to all the young cattle.

Saskalta breeding program has kept pace and out distanced a lot of the shorter, smaller framed cattle that are being promoted today. The only constant in breeding cattle is so much a pound. Height, color, different breeds, beefalo, all sorts of numbers don't make much difference when selling calves. If you don't have the pounds and the genetics to make the grade, quality and branded beef criteria you won't top the markets.

Saskalta cattle have the stretch and scale that is needed to top all the markets today. Their scale allows them to compete with any crossbred, and remember they have all the great Angus traits that are needed on our large farms and ranches. They are bred in Saskatchewan to perform trouble free in our Canadian climates.

Angus Traits - branded beef programs are pulling this type of beef up through the markets. In the past we as cattle producers raised what we liked and pushed this product up to the consumer or other countries, telling them this is what you want (we all know how much money we made). There is a lot of tradition in the primary beef producers. No one likes change. Well change is here. Ask the order buyers what type of cattle they can pay the most for. Contact the packers and find out what genetics makes his top selling beef and what weight he needs in these finished carcasses. Rule of thumb - the weight of the mother cow is when her steer calf peaks (1350 lbs. mother cow - steer will finish at approximately 1350 lbs.). Cattle that are being pulled up through the markets eat the same as the ones we push through.

Take the time you spent pushing your product and go buy some bulls that will give you what the market wants.

I have observed at many fall sales some ranches continually top the market sometimes from five to ten cents. Some ranches bring the same type of calves in year after year and take five to ten cents less at the same sales. Same hard working people. That ten cents is the difference if you are pushing your product on the market or the market is pulling your cattle through it. Change is hard but necessary.

Rancher's Choice bulls can help you make this change.

RANCHER'S CHOICE SALE

2011 TERMS AND CONDITIONS

CATTLE INSPECTION - All sale cattle will carry identity tags corresponding to sale lot and/or tag numbers shown in the catalogue, and will be available for inspection at sale facility commencing March 27, 2011.

ALL CATTLE SELL - Every animal entering the sales ring will be sold to the highest bidder, subject to such health tests as may be required under regulations of Agriculture Canada.

ANNOUNCEMENTS - Errors discovered in the catalogue will be corrected by announcements from the auction block at sale time, and such corrections shall take precedence over the printed matter in this catalogue.

BREEDING GUARANTEE - All cattle are sold as sound and right and sell with a responsible breeders guarantee of satisfaction. In the unlikely event of a dispute, the regular Breeder's Guarantee, standard with the Canadian Angus Association, shall apply.

DNA TESTING - The Canadian Angus Association now requires that any sire of a calf to be registered with the CAA must be DNA tested. Rancher's Choice sale bulls have not been DNA tested. Therefore, it is the buyer's responsibility to make certain that any bull used on registered females, from which the offspring are to be registered, is DNA tested before going into service.

DELIVERY - Bulls will be delivered to central points within a three hundred mile radius on a \$2500.00 purchase or more. We are again asking our customers to please bring their trailers and help us. It's not that we will not deliver but it's physically impossible to get these bulls out in the short time frame we have to work with.

SEMEN - Rancher's Choice reserves the right to collect 100 units of semen at Rancher's Choice expense and buyers convenience (including A.I. certificates) on any bull in the sale. Such semen for within herd use only.

MAIL BIDS - Orders for the purchase of sale cattle may be entrusted in complete confidence to any of the sale staff.

RISK - Ownership risk to the purchaser commences when the auctioneer's hammer falls. Insurance is recommended. Hartford Insurance will be applied for delivery purposes.

BULL WARRANTY - We guarantee to provide you with a sound, fertile bull capable of servicing a reasonable number of cows. In the event that your bull is a non-satisfactory breeder the seller will not, under any circumstances, be responsible for more than the original selling price of any bull or female sold in the sale. The consignors will not provide replacement or credit for physical injury or mismanagement. Therefore we stress the importance of insurance on your bull. An insurance agent will be available on sale day.

TERMS OF SALE - Terms are cash or cheque. No sale entries will be released until satisfactory settlement has been made. Animals for export may not be released unless payment has been received prior to departure. Registration papers will be supplied upon completion of sale transaction, including payment in full.

ACCIDENTS - ALTHOUGH ALL REASONABLE PRECAUTIONS WILL BE TAKEN TO PROTECT SAFETY AND COMFORT OF PEOPLE ATTENDING THE SALE, ALL PERSONS ATTENDING THE SALE DO SO AT THEIR OWN RISK, AND THE OWNERS, MANAGEMENT AND SALES STAFF ASSUME NO LIABILITY, LEGAL OR OTHERWISE, FOR PERSONAL OR PROPERTY LOSS OR LOSSES FROM ANY ACCIDENT OR OTHER OCCURRENCE WHICH MAY OCCUR.
