CLIPPING

BY MEGAN BOND

BOARD/DELIVERY

SSF will feed all bulls until May 1st
and deliver them at no cost to the buyer.
After May 1st there will be a minimal cost for feed.

SITE UNSEEN PURCHASE PLAN

If you are unavailable on sale day, please call
Jon 403-333-1790 or Earl 403-333-1789
or someone on the sale team and
we will take care of your needs.
When we drop your purchase off,
if you don't like him you don't own him.

SEMEN

SSF retains half semen interest in all bulls.

TERMS

Terms of sale are cash or cheque.
All bulls must be settled for
at the conclusion of the auction.
All people attending do so at their own risk.

INSURANCE

Stockmens Insurance will be available sale day.
Insurance must be purchased
on all bulls staying at SSF.

Welcome Fellow Stockmen,

On Friday, March 20th we will have on offer one of the best set of bulls that will stand up alongside most any bulls for sale this year. With added performance and pedigree we are well on our way to building one of the top herds.

At SSF our program is simple We use performance sires that leave big volume, muscular cattle that are easy doing and functional. This type of bull will add pounds to your calves. Our bulls are developed on silage, chopped hay and a pellet. Our cows' swath graze for 3 months before calving starts in mid-January. We breed our cows for a 55 day breeding season.

Our bulls are fully guaranteed and we always have spare bulls in case of accidents. If you are not happy pick up the phone and call us. Stop by the farm and view the Cows and Bulls before the Bull Sale. Please give us a call or someone on our sales team, and we will help you.

Join us for steak and pie starting at 11:30 on sale day. If you have any questions give us a call.

This Net Worth son (we call him Hart) was the highest selling bull out of the 2011 Cattleman's Connection Bull Sale, Brandon, Manitoba. He's as long as a freight train, wide topped as they come, a deep quarter with lots of muscle, excellent feet and a flawless structure. His sons will leave a big impact on your herd.

This is our second group of Packers. Packer is our go to heifer bull. They display modest birth weight with the muscle and thickness and growth that most heifer bulls don't have. They will surprise you at weaning time.

Why Angus Tags ... Brand Your Cattle!

CAA strives to provide our members and their customers with innovative programs and services, to continue advancing the quality, reliability and value of Angus and Angus-influenced seed stock used in the commercial beef industry.

Mission: To maintain breed registry, breed purity and provide services that enhance the growth and position of the Angus breed.

292140 Wagon Wheel Blvd
Rocky View County, AB T4A 0E2
Phone: 1-888-571-3580

The Angus tag, noted for its green color, is the only way that you can prove to

the order buyer, the feed yard, the packer and most of all the consumer, that your calves are at least one half Angus.

Angus has been synonymous with either solid black, solid red or black and red baldies. That no longer holds true. With so many other breeds borrowing the Angus colors we must be able to identify the Angus cattle in order to maintain the integrity of the breed and the quality of the meat that the consumer has come to expect from Angus labelled beef.

When the consumer is asking for Angus beef, the packer must source the Angus cattle. The easiest way of, and most cost efficient is by using Angus tags at the farm or ranch gate. The other way would be for the packer to DNA test these cattle for Angus genetics. This would be cumbersome and an added cost which in turn would be passed on to the producer thus lowering his price received at the market.

To many times we hear, "If I would get a premium for using the Angus tags then I would use them". Well, any time that you get more than the average price for the day or for any other breed that day, this should be considered a premium.

All owners of a **REGISTERED** Angus bull that has been transferred to them or their farm or ranch are eligible to purchase Angus tags. These tags can only be purchased from the Canadian Angus Association. The cost of the tag is the same as those carried by most retailers and in some cases less. As a bonus, the Angus office will age verify your tags upon request. It

can take up to one week from the time of order until you receive your tags right at your doorstep, but the average is less.

To qualify for the program, you need only to use the CCIA, Angus RFID tag with the green button that has the black A on it.

Please use Angus Tags and help keep Angus cattle at the forefront of the beef industry.

How to Order Canadian Angus Rancher Endorsed Tags:

- Order online at www.cdnangus.ca
- Mail the order form to the CAA
- Fax completed forms to (403) 571-3599
- Call 1 (888) 571-3580

The Canadian Angus Rancher Endorsed program is demanded in every segment ...

Where do you fit?

Producers tag their calves ANGUS

Proud to be the largest tag program in the world

Ranchers purchase registered Angus bulls

Feedlots need Angus tagged cattle

Consumers choose Angus beef

Branded programs supply Canadian Angus Rancher endorsed beef

Expected Progeny Differences - EPDs

EPDs are an estimate of how future progeny of each sire can be expected to perform in each traits listed. The higher the Accuracy, the higher the reliability.

BW: Birth Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. Weaning weight is an indicator of growth from birth to weaning (205 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

AVERAGE EPDS - CANADIAN BLACK CALVES BORN IN 2014

BW	ADJ. WW	BW	WW	YW	MILK	TM
Actual	@ 205 days	+2.7	+45	+79	+19	+41

YW: Yearling Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk EPD - is an indicator of milking ability in daughters. It represents the differences in weaning weights of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

TM: Total Maternal EPD - is a combination of the weaning weight and milk EPDs. It is calculated as: $1/2 \text{ Weaning Weight EPD} + \text{Milk EPD} = \text{Total Maternal}$. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

AVERAGE EPDS - CANADIAN RED CALVES BORN IN 2014
