

33rd Annual

Short Grass

ANGUS BULL & FEMALE SALE

APRIL 16TH, 2011 ★ 12pm CST

Sandy Bar Ranch, Aneroid, Sk

*Valley Blossom
Ranch*

A very special welcome to the
33rd Anniversary of the **Short Grass Angus Sale**

Welcome . . .

Wow! What a few days of rain will do. 2010 will go down in history for record amounts of precipitation. Cattle & grain markets have turned around dramatically and above average crops of feed and grass were produced. Simply put "No Complaints".

This year we will be offering 180+ Black Angus Yearling Bulls. These bulls are grown out in a natural environment and will be vet & semen tested. We will, also, be selling "20 Fancy" Registered Yearling heifers right from the heart of our cow herds.

Once again we will be selling 300 "One Iron" Commercial Yearling Heifers consigned by our commercial customers. All heifers are in a complete Health Program and will be palpated. They sell at 12:00 sharp.

You are invited to join us at anytime to view the cattle and enjoy our hospitality.

The Canadian Elite Cow Criteria:

1. The cow must be enrolled in the Canadian Angus Performance Program.
2. The cow must have a calf with a 205-day weight recorded within the past 18 months.
3. The cow's first calf must be born and weaned within 1,000 days.
4. The cow must maintain a regular calving interval. Regular is considered to be $365 + (30 \text{ days} / \text{number of calving intervals})$.
5. The average of the cow's first four calves' weaning weight ratio must be at least 105. If she fails to do this with her first four calves, she can qualify later providing the average progeny weaning weight ratio is 105, and she meets the other requirements.
6. All of the cow's calves must be in contemporary groups with no less than 10 herds mates to determine the weaning weight ratio.
7. The cow's progeny must be sired by a registered Angus bull.

If a cow fails to meet these requirements with her first four calves, she can qualify later providing the average progeny weaning weight ratio is 105 and she meets all the other requirements.

Once a cow is designated an Elite Cow, she is always an Elite Cow, however she will not be published in a year where her index average drops below 105. For this reason, the list available to authorized users through Animal Inquiry may be different than the online report. The list available to online users is for your entire herd and will include cows that may not have made the most recent list.

Working Ranch Horses

Horses will be sold at the end of the sale.

Cortez Cortez is a 15.1 HH solid ranch gelding bred by the Longmuir Ranch at Empress, Alberta. This six year old has been used for all sorts of ranch work and Kyle has started heading off him this winter. Son of Quincy Blue Cash and Blues Classic on the bottom.

Kyle Elliott: 306-558-4409 or 306-661-7558

Bullseye JTS SPEED KING is an 8yr old bay gelding. Easy Jet and Top Moon on his papers. We've had him 3 years and used him on the ranch. He's been to brandings and gathered cows. He was raced as a 2yr old. Great horse to be around. Bullseye is 16 hands high and 1350 pounds - solid, sound, well broke gelding. Stands well for farrier and all shots are current. Call for more info or a video.

Walt or Lisa Lockie: 306-771-2580 or 529-0414

Valley Blossoms

TEACUP/MICRO PET PIGS

Out of Canada's first breeders of the world's smallest pet pigs.

My Valley Blossom teacup/micro pigs are very tiny with unique colors and quality conformation. They can produce many colors including pintos, polka dots, blues, reds, red/silvers, blacks and pinks. Their physical characteristics include short wrinkled noses, perky little ears, pot bellies, and straight tails that wag like a dog's. They will be your loyal companion for around 15 years with proper care. They are docile, laid-back, have strong human bonding traits, are great with kids and have almost no body odour. Their intelligence has been compared to primates and dolphins thus making them easy to litter train, kennel train, harness train and teach tricks to. They are the most clever house pets known. They are easier to transport on outings and vet visits. They are non-allergenic, prefer a clean environment and aren't prone to fleas or ticks.
