The Canadian Elite Cow Criteria:

1. The cow must be enrolled in the Canadian Angus Performance Program.
2. The cow must have a calf with a 205-day weight recorded within the past 18 months.
3. The cow's first calf must be born and weaned within 1,000 days.
4. The cow must maintain a regular calving interval. Regular is considered to be 365+ (30 days/number of calving intervals).
5. The average of the cow's first four calves' weaning weight ratio must be at least 105. If she fails to do this within her first 4 calves, she can qualify later providing the average progeny weaning weight ratio is 105, and she meets the other requirements.
6. All of the cow's calves must be in contemporary groups with no less than 10 herd mates to determine the weaning weight ratio.
7. The cow's progeny must be sired by a registered Angus bull.

BOY is a smooth travelling five year old bay registered with AQHA. He has proven himself in all sorts of environments; ranch work, community pasture, ranch roping and inexperienced riders. His easy going and gentle temperament makes him a pleasure to work with. Boy is a horse anyone can ride and get the job done with confidence. I think boy will make an excellent kids horse one day and by sale day he will have quite a few rides on him by my nephew. Call or text me for more information or pictures.
