## ACCOMMODATIONS

Heritage Inn & Suites.....403/362-8688

## SCHEDULE

### Friday, March 18

Bulls can be viewed all day at the Silver Sage  
Please join us for a pre-sale steak dinner at 7 p.m.

### Saturday, March 19

Beef lunch served at Noon  
Signature Series Bull Sale 1 p.m.

## PREVIEW THE BULLS

Bulls can also be viewed prior to the sale at Lazy MC Angus and  
Bandura Ranches. Visitors always welcome!

## INSURANCE

If you plan to leave your bull with us we ask that you insure  
him. Insurance representative will be available sale day.

### Stockmen's Insurance -

Larry Toner (306)932/4866 office (306)931/0088

*Receive \$100 off  
the purchase price  
for taking your bull  
home on sale day!*

## VIDEO SALE

All bulls will be video'd ahead of the sale. Please call us for  
a DVD. All of the bulls will be penned in the Silver Sage for  
viewing prior to the sale. Rather than stressing the bulls  
and the crew, the auction will be conducted using large  
screen video of each bull. This will also give bidders the  
opportunity to view reference animals at the same time.

Video production by : **Cattle In Motion**

**Sarah Buchanan - 519.546.3352**

## ONLINE PURCHASING

We invite those of you who are unable to attend the  
sale to be part of the action! With the help of  
LiveAuctions.TV, we are now able to give you a live  
connection to the event. Real-time bidding will be  
available via the internet for this sale. Live audio and  
video will allow buyers to bid on animals as if they were  
present at the sale. Buyers must create an account at  
least 2 days prior to the sale.

Please visit <http://LiveAuctions.tv> to walk you through  
the set-up process. For further assistance you can also  
contact: **Jill Mader - 403.990.9187**

LiveAuctions.TV

## TERMS

Payment due at time of purchase. All cattle sell under the standard  
terms and conditions of the Canadian Angus Association. EPD's  
in this catalog are the most recent available at press time. Any  
announcements made sale day supersede information printed in  
this catalog. **The bulls will be semen tested, kept after the sale,  
delivered and fully guaranteed. Scrotal circumferences and  
current weights available sale day. The sellers reserve the right  
to collect semen on any bull for in-herd use only at the seller's  
expense and buyers convenience.**

Catalog online at [www.lazymcangus.com](http://www.lazymcangus.com)

#### **High Selling Bull**

- Ter-Ron Farms & Towaw Cattle

#### **Volume Buyer**

- PFRA & Andrew Walde

#### **\*Repeat Buyers**

It is an interesting time in agriculture. We are seeing top prices in all sectors and there looks to be abundant moisture for grass and crops! It is our hope that the genetics available will help you capitalize on a quality product, efficiently produced and equipped with carcass and maternal strengths the Angus breed is known for!

It is with pleasure to be hosting this event along with the Jensen & Bandura families. This is an exciting offering of bulls with lead time genetics; an excellent selection of heifer bulls and herd bulls await your inspection. Our programs are expanding in herd size. With the extensive use of embryo transfer, our customers can access our very best.

We invite you to be our guest on the evening of Friday, March 18 to view the bulls and enjoy an Angus steak. We are very pleased to have the Canadian Angus Association on board. We will have the Angus CCIA tags available to purchase. We will also discuss the advantages of the Ranchers Endorsed Program. With every bull purchased you will receive a free bag of tags from the Signature Series Bull Sale group.

Once again we are having a video sale. We are looking forward to housing all the bulls inside for viewing!

Join us March 19 at the 'Silver Sage' for lunch and some hospitality. For any questions about the sale offering, or to view the bulls and cow herds, please give us a call. If you are unable to make the sale we will have internet viewing and bidding. Contact [www.liveauctions.tv](http://www.liveauctions.tv) or Jill Mader for assistance - (403)990.9187

Please remember to take advantage of the many options including Angus tags and a purchase deduction of \$100 for taking your bull home sale day. Bulls coming back home will be wintered free of charge but we ask that you have them insured. Insurance will be available sale day.

New for this year, all sale bulls have had the foot rot vaccine - thank you to Novartis for working with us! Examinations were performed by Bow Valley Vet Clinic; Dr. Rob Stables. The bulls are fully guaranteed.

*Kind Regards,  
Clint & Angela Morasch*

## UNDERSTANDING ULTRASOUND

Ultrasound data was scanned by Jamie Jensen, a certified UGC and CUP technician, meeting standards set by many breed associations. The accuracy is high enough that bulls selected based upon ultrasound, result in positive genetic change in progeny carcass traits. Heritability for carcass traits are moderate to high which is slightly higher than birth weights, weaning weights and yearling weights.

### Marbling

Marbling is the best indicator we have to tell us what kind of beef eating experience we will have! Research shows that average AAA and above marbling produces the most satisfied customers. As marbling increases, so does the juiciness, the flavour fullness, and the tenderness.

Below 2.30.....Single A.....Standard  
2.30-3.99.....Double AA.....Select  
4.00-9.89.....Triple AAA.....Choice

### Back Fat (mm)

Fat depth decreases lean meat yield. Fat bulls have less lean meat/muscle in the carcass. The fat measurement also gives an indication of the bulls fleshing ability. Calves from a bull with very little fat may finish too slowly in the feedlot. Body condition score (fat depth) in females is related to their ability to reach puberty at an early age, produce milk, and rebreed and maintain a short calving interval. On the other hand, bulls carrying excessive fat may suffer reduced fertility.

### Ribeye Area (in<sup>2</sup>)

The ribeye is the largest muscle in the body at birth so REA gives an indication of overall carcass muscling.

### Cutability (%LMY)

Cutability is the percentage lean meat yield in the carcass. Yield grade is an important factor in both Canada and the USA. Producing calves with a high genetic potential for this trait can be an important objective of a breeding program. Back fat will reduce yield by 7 to 8 times what REA will increase yield.

### Summary

Like all traits, we should avoid the extremes. Moderation is the key. As producers we need to evaluate our own females and then decide what kind of progeny we want to produce. This should dictate what kind of sire we want to purchase.

Ultrasound by Jamie Jensen  
Taber, AB 403/892-3486  
[www.jentechultrasound.com](http://www.jentechultrasound.com)

## RANCHERS' GUIDE TO EPDS

The bull is merely a delivery system for the genetics he passes on. Performing this job requires them to be sound, fertile and athletic. However, it is the reliability of their genetic predictions that ultimately bear out their true value to producers' bottom line.

Know the markets you wish to hit - feeder calves, yearling, replacement females. Have a true appraisal of how close your cow herd is to that target, understanding your cows have to continue to live and reproduce in your environment. Identify bulls whose EPDs predict the ability to move your cowherd in the right direction for the traits required to hit your market end point.

### EPD BREED AVERAGES - 2010 CALF CROP

Red Angus - BW: **0.5** WW: **25** YW: **59** Milk: **15** TM: **27**  
Black Angus - BW: **2.9** WW: **41** YW: **72** Milk: **17** TM: **37**

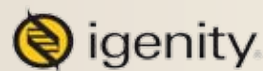

### DNA TESTING

Genomics (DNA testing) is cutting edge technology for identifying genetics that contribute to beef quality. Producers can use this information to add value to their herd and enable a positive impact to your bottom line.

By combining DNA tests with other information it is possible to make breeding decisions based on more precise information regarding each individual animal's genetics and to ultimately shorten the time and number of generations necessary to see practical results.

Igenity meat trait results report the scores obtained from analysis of multiple markers in genes related to carcass composition. This analysis associates the genotype result with the magnitude, or size of the trait identified. In general, animals with low scores for fat thickness and yield grade will have high scores for hot carcass weight and ribeye area.

Buy L-tt bulls to improve your herd's potential for marbling. Retain cows and select replacement heifers with desired leptin genotype, along with other genetic traits.

### CALVING EASE SCORE

\*\*\* Recommended for use on moderate framed first calf heifers for minimal or no calving trouble.

\*\* Recommended for use on large framed first calf heifers for minimal or no calving trouble.

\* Recommended for use on cows for minimal or no calving trouble.

8J was our top selling Red Roundup bull calf in 1999 at \$11,000 to Ter-Ron Farms. Since then he has gone on to become an elite sire with the CAA; also with numerous elite daughters. The sons in this sale are a great representation of his siring ability as well as longevity; many of them were natural service in 2009 at 10 years of age! His sons will add performance, length of body and great haircoats. - 11 sons sell

Owned by Lazy MC, Ter-Ron Farms and Masters Cattle Co.

## 36 Red Lazy MC Gold Rush 110X

February 13, 2010

BW: **84** AWW: **924** AYW: **1395** AOD: **2** CE: \*\*

Hi! This is Laurie .... this is my first purebred bull that I have raised and been able to put in the sale. 'Gold Rush' is a strong footed, long sided bull with a very strong cow family behind him. His maternal grand dam, 'Bess 12S' was my first registered Angus female. His maternal great grand sire, 'Smash', has been our top producing bull of all time ; a deep, long sided, outstanding muscled bull. 'Gold Rush' has attended lots of my Junior Shows, including the 2010 Alberta Junior Angus show where he was Bull Calf Champion! At the 2010 Olds Fall Classic, 'Gold Rush' and his dam 'Sparkle 2U' were Reserve Futurity Champions. 'Gold Rush' is a pretty cool bull and super quiet! Thanks for reading my footnotes!

The most exciting bull ever to come to NCJ Cattle CO. 'MASTER' is the result of a flush from one of Stewart Cattle Company's most famous donor cows, 306N. He is as complete as they come. Sired by the famous YY Knight 640F, 'MASTER' is excellent in both phenotype & genotype. He has a great masculine head, wide muzzle, is as deep and thick as you can make them and moves like a cat. 'MASTER' boasted a ribeye of 1.2 square inch/100 lbs. He also achieved an outstanding LMY of 65%. Use 14U on heifers and cows to add muscle, improve udders and maintain an ideal cow frame and weight. The first calves at NCJ look awesome! The daughters had a 76 lb birth weight average and are extremely feminine and pretty! The sons had an 83 lb birth weight average and are stout made and masculine.

8J was Lazy MC's top selling Red Roundup bull calf in 1999 at \$11,000 to Ter-Ron Farms. Since then he has gone on to become an elite sire with the CAA; also with numerous elite daughters. The sons in this sale are a great representation of his siring ability as well as longevity; many of them were natural service in 2009 at 10 years of age! His sons will add performance, length of body and great haircoats.

If you believe that every good herd bull is backed by a good Dam then look no further than 16X! His dam 'Red Lazy MC Miss 1U' is nearly flawless in her phenotype being a moderate, deep, feminine, sharp fronted 2 year old with a beautiful udder. It's no wonder she's good; she's a maternal sister to last year's high seller, 'Red Lazy MC Kingman 16W' that sold to Ter-Ron & Towaw for \$21,000. She also had a maternal sister sell at Fort Worth recently for \$6800. This cow family makes money! She is sired by 'Red Lazy MC Gridiron 66 S', an outcross red angus sire who was acquired by Semex. His claim to fame will be the powerful set of daughters he has created. 'Mystified' was shown along side his dam this past fall. They were selected as the Champion pair in the Alberta Angus futurity in September and had a lot of admirer's during their showing at Agribition. 16X's sire 'Red Lazy MC Divide 8J' is one of the industry's most recognized and trusted sire's - being elite and siring powerful sons and daughters. He was still breeding cows at 10 years of age. It's not uncommon to see some of the best Red Angus cattle in Canada with a shot of 8J in their pedigree. 'Mystified' started out at 83 lbs and has performed exceptionally well; especially when you consider that it was his Dam's first try. He's definitely bred right and looks the part; come see for yourself. **Selling full interest and full possession** in this genetic gem.

Masterpiece is one of SAV's most crowned show champions, winning the North American International Grand Champion Bull and Atlantic National ROV Supreme Champion Bull. Most recently he has done an outstanding job of stamping a superior calf crop across North America. If you demand stout, powerful cattle here is your sire. He produced an outstanding set of calves at Bandura Ranches this year. He left a powerful set of bulls and is an outstanding female maker!

Have a look at this herd sire if your looking for length, eye appeal, and a big stout quarter. This bull is a power house red meat bull! His daughters look terrific. We only had a few bull calves and we really like them. He was a very successful show bull for Southland and Bandura and now he will be roaming the Bandura pastures as lead off herd sire.

Genetic improvement is what drives this business and 'Honky Tonk' has us loving what we do for a living! He offers an abundance of hip shape, muscle and incredible structure in an exciting outcross pedigree. He is backed by the 2010 National Champion Female, '701T'. She is now a top donor cow for A1 Land & Cattle, TX and Lazy MC. Thank you to everyone who has invested in this promising young sire -
