

Rivercrest Valleymere

12TH ANNUAL

SPADY
BLACK ANGUS
BULL SALE

Wednesday
April 15th
2015

at the
Rivercrest Ranch

Rivercrest/Valleymere

Rivercrest-Valleymere are pleased to welcome you to our 12th Annual Spady Bull Sale and our seventh year hosting it out at the Rivercrest homestead of Tom and Marg Spady, just like the good old days!

There is a proud heritage built into the Rivercrest and Valleymere Angus cattle, built on integrity & high principles by our customers. The Spady's are now spanning into the 4th generation of raising Angus bulls, under ranch raised conditions. Fertility, good hair,

easy doing, soundness and longevity are among some of the traits we have bred on since the 1930's and still do today.

The Battle River hills provide a true test to our ranch raised cattle. You can buy with confidence. The Spady bulls will get the job done, and we stand by them all the way!

We welcome you to come visit us anytime to view the strong foundation we have in our herd and check out our program. Come join us and be our guest be a guest for lunch. We look forward to visiting with our friends and customers sale day.

SIGHT UNSEEN GUARANTEE:

If you're unable to attend the sale, we have a fully guaranteed sight unseen plan. Just give us a call and we will discuss what you're looking for and do our best to meet your specific needs, but you will have the final decision. Any purchases made in this manner will be 100% guaranteed for customer satisfaction.

VOLUME BUYER INCENTIVE:

We offer a **GREAT** volume buyer discount. 2 bulls = 2% discount, 3 bulls = 3% discount, 4 bulls = 4%...to a maximum discount of 5% if you buy 5 or more bulls.

DELIVERY:

We offer a \$100 discount for those who take their bulls home sale day or pick them up within a week. Or we will arrange delivery of the bulls within a 500 km radius, free of charge. We recommend all purchases, that are to be delivered, be insured.

Black Angus Bull Sale

Featuring: 120 Black Yearling Bulls

WEDNESDAY, APRIL 15TH, 2015 • RIVERCREST RANCH • 1:30PM

SALE DAY:

Sale Day Weights and Scrotal Measurements will be posted on all the bulls Sale Day. All bulls will be semen tested and vet inspected. All bulls sell with a Breeder's Guarantee.

TERMS & CONDITIONS:

BREEDER'S GUARANTEE: All cattle sell with the responsible Breeder's Guarantee of Satisfaction. All Bulls are guaranteed breeders. The seller will not, under any circumstances, be responsible for more than the original selling price of any bull sold in this sale. All animals sell under the Terms & Conditions set forth by the Canadian Angus Association.

CATTLE INSPECTION: All carry permanent identity tags. All shall be available for inspection prior to the sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on Sale Day.

TERMS OF SALE: Unless otherwise previously arranged with Rivercrest Angus or Vallemere Angus, terms of this sale are cash or cheque, payable in Canadian funds. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure.

EVERY ANIMAL sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

ALL PERSON'S who attend the Sale do so at their own risk, and the owners, Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

Canadian Angus Elite Cow: has a minimum of five calves, four of which must be registered, to determine her regularity of calving and ability to consistently produce calves with a superior weaning weight year after year, display early puberty, breeding and early calving, followed by regularity of calving and high performance offspring. The Canadian Angus Elite Cow Report identifies superior cows in the Canadian Angus herdbook.

Welcome from Rivercrest Ranches

Welcome to our 12th Annual bull sale. As cattlemen we have worked through hard times and low times. Now prices have reached new highs, we can all look back and be proud of where our industry is today.

We are pleased with the group of bulls we have to offer this year. Bringing in a new sire with a group of bulls from Peak Dot Eliminator who have strengthened our bull pen even more.

We weaned on Sept. 10th to allow the bulls plenty of time to develop into their own, without having to be pushed hard in a shorter time frame. Our feeding program graduates the bulls to ensure longevity and soundness. We don't creep feed our calves.

Remember if you're unable to attend the sale, we offer a full guarantee. Tell us what you're looking for and we'll do our best to meet your requirements. If we get you a bull and you don't like him, you don't take him and no questions asked. We always keep spare bulls throughout the summer for those unforeseen circumstances.

We hope you can find time to stop by and look at the bulls, check out their mothers and calves at their side. We also can give you a tour of our yearling heifers, as we feel you'll like our program here at Rivercrest. The coffee pot is always on. Hope to see you Sale Day! Also check out the video's on our websites.

Dark Horse was LLB's lead off bull & 2nd highest selling bull, bringing \$15,000 at their 2012 Spring Bull Sale. Dark Horse is an out cross pedigree to almost all herds in Canada. He sires thickness, eye appeal and lots and lots of hair. Possibly the best Limestone Dark Horse son to walk of Canadian soil. His daughters are shapely and feminine, yet provide plenty of thickness, with loads of eye appeal. His sons, as you will see at the sale, are thick, long, stylish, lots of depth and have lots of hair. His daughters are feminine, deep ribbed with near perfect udders. Arguably the best set of 1st calvers to date. Dark Horse is very docile and he throws that into his calves. He is what the Angus breed is all about.

Eliminator 780Z is a massive beef machine who will sell pounds for a living. His thickness and easy fleshing ability is what he brings to the table. His feet are superior. 780Z was purchased from the 2013 Peak Dot Bull Sale, bringing \$16,000 and was the second highest selling yearling bull. His first calf crop has met all expectations. His calves comes out long and sleek. Once they hit the ground they grow like crazy. 780Z's Dam was Peak Dot's high selling female in their 2011 fall sale. She is a picture perfect female.

A feature Herd Bull in the making. Thick, with explosive power, he's going to be following his sire's foot steps. His maternal brother is one of our young great herd sires currently at work at Rivercrest. His Dam is one of our very best cows. Actual WW: 800 lbs (Sept 10). Recommended for cows.

RAINBOW HILL DEALIN DIRTY 102U Reference Sire & Sons

Dealin Dirty's sire SAV 004 Traveler is arguably the biggest icon in the Angus industry today. SAV 004 is known for his easy fleshing ability that he passes down through his progeny on a consistent basis. We purchased Dealin Dirty from Rainbow Hills Angus in 2009. Dealer was our top pick of the sale and was second highest seller. We used Dealer on our heifers and he exceeded all our expectations and then some. His consistent low birth weight calves, explosive gain and fall weights have us using him on cows. Dealer has proven that he will be a powerhouse herd sire for the Rivercrest program.

Welcome from Vallemere TTT Ranches

Hello and welcome to our 12th annual bull sale. It's finally been a great year to be in the cattle business. With the North American cow herd at low levels, the record high cattle prices will hopefully stay high for some time. All indicators seem to point that way. The warmer, open winter has made wintering the cow herd a lot more economical as well. Spring seems to be here and with all things considered, the future looks pretty darn optimistic.

We are extremely proud of the bulls we will be offering in our 2015 sale. It is definitely our strongest, most even pen to date. Half the bulls in our offering are suitable for heifers. All of them have enough power to work on cows. They represent the top 40 of the 95 males born in 2014. The selection process begins after weighing at weaning time. We don't creep feed before weaning as I want to know exactly how much beef each cow converts from grass.

Actual weaning weights are used to select for performance. Bigger birth weight bulls have to have exceptional performance or they are steered as well. Disposition and breed character are highly scrutinized as well. The remaining bulls are then placed on a growing ration consisting of ground oats, hay, straw and some added concentrate. Our bulls receive no barley or barley silage at any time. The entire bull pen had an average daily gain of 3.3 lbs/day from November 1 to February 10. Our goal is to feed enough to allow the bulls an opportunity to perform but not so hot as to blow up livers or feet.

In an effort to give you as much information as possible on the bulls we have included each bull's actual weaning weight on November 1, their average rate of gain (ROG) from November 1 to February 10, as well as the age of their dam. If we can be of any assistance, don't hesitate to call or stop in. The bulls and their mothers are available for viewing any-time. Hope to see you sale day.

The Vallemere TTT Crew

BAR-E-L XECUTOR 23X Reference Sire & Sons

Referense Sire F YHB 23X:

130 progeny

Avg BW: Males 86

WW ratio 104

Avg BW: Females 81

WW ratio 101

Xecutor was purchased from Bar E-L Angus in 2011 where he was the high selling Black Angus bull. He consistently sires calves with added depth, length and volume. He is also passing on his quiet disposition and excellent hair coat. This is his 3rd crop and definitely the strongest group to date. He has also posted the highest bull to steer ratio ever at Vallemere TTT. Over 90% of his male calves have been retained as bulls. On the average we steer 35-45% of our bull calves every year.

His daughters are moderate-framed, docile, deep-bodied easy-doers with ample milk and are very fertile. From his first calf crop, 2 heifers got bred as calves and calved unassisted on grass in 2013. 3Z calved June 2 at 15 1/2 months of age, raised a 350 lb heifer calf that had an adjusted 205 day weight of 663 lbs which ranked it 9th out of 77 heifer calves. 3Z will calve in mid-March in 2015. 125Z calved July 14/2013 at 15 1/2 months of age and raised a 250 lb heifer calf. She calved back May 25 2014 and raised a bull calf that had an adjusted weaning weight of 850 lbs with ranked him 4th out of 93. 125Z will calve by April 15 in 2015. Neither heifer was given any special attention and today they look like the rest of the 2nd calvers, except they are actually 3rd calvers at 3 years of age. I can't say that I am proud of my management of these 2 heifers but it is definitely a testament to the fertility that Xecutor is passing on to his offspring.

Avg BW: Females 76 WW ratio 98

Cash Grab was our top Xecutor son and the high seller in our 2013 sale, selling to Bruce and Heide Downey of Castor. We were very excited to have the opportunity to purchase a 1/2 interest back. We took Cash Grab to Alta Genetics for a day jump which gave Bruce enough semen to cover his 200 grade cows. Cash Grab naturally serviced 25 head at Vallemere until mid-July and then went to Bruce's where he covered another 20 head.

He is a moderate-framed, free moving, easy-doing, quiet dispositioned tank. His dam is one of the very best ever raised here at Vallemere TTT. His calves are long and deep with extra thickness and a lower centre of gravity. His sons will add pounds to your calves and I would keep every heifer for replacements.

74 progeny

Avg BW: Males 79

WW ratio 105

Avg BW: Females 73

WW ratio 101

Mandate was purchased from Fertile Valley Angus in 2012. He was their heaviest yearling and was the high-selling bull. He was chosen for his tremendous birth to weaning to yearling growth while still maintaining a moderate frame size. His calves are born small and then really perform. They grow into long-bodied, thick calves with quiet dispositions.

Actual WW: 845lbs

ROG: 3.74 lbs/day

AOD: 2

The kind we all love to raise, small at birth, heavy at weaning in a very eye-appealing package. He combines the length and thickness of Mandate with the depth, hair coat and disposition of Xecutor. This calf is every bit as good as his EPD profile says he should be. Recommended to breed anything you want.

Focus was purchased in 2012 from Fertile Valley as the second high seller and the #1 weaning weight bull of their calf crop. He is double bred calving ease with Mitty in Focus as his sire and Final Answer as his dam's sire. His calves are born small and grow into deep quartered calves with quiet dispositions. His sons should make excellent heifer bulls and I believe they will be moderate framed mature bulls allowing them to breed heifers for quite a few years without getting too heavy. With that being said, they will have plenty of power to be cow bulls as well.

Grasslands was purchased at the 2013 Sandy Bar sale mainly to be used on our heifers. He is a clean-fronted, stylish, long-bodied bull with a good big foot and excellent leg structure. We had always been impressed by the thickness of the Grasslands cattle when viewing the Sandy Bar bulls and 300Z is no different. I would recommend his sons to be used on larger heifers or cows as he does throw some thickness.

Grandsire SANDY BAR GRASSLANDS 94T

Actual WW: 755 lbs
 ROG: 3.32 lbs/day
 AOD: 2
 Long thick, clean-fronted, very stylish, moderate framed bull. Dam is a feminine, perfectly uddered Traveler daughter. Grand Dam 125W is the dam of the super deep 42B Xecutor son in this sale. Heifer approved.

Ironman was chosen for calving ease and maternal strength. His dam is listed elite with the CAA. Ironman has developed into a moderate framed, easy doing, stylish bull with extra length, width and depth. He is an exceptionally good-footed bull and moves like a cat. This will be his 6th breeding season and he looks better than ever. His daughters in production are feminine, angular cows with small-teated well attached udders with ample milk. We mated Ironman with our bigger cows, so this year's sons are all a little framier. They should add weight to your calf crop and leave some pretty fancy replacement heifers as well.

Roping Competition Fun at the Mountains

Welcome from Vallemere BPPS/HPS Ranches

At Vallemere BPPS/HPS, like everyone else, life is pretty busy. With the boys into hockey, rodeo and hunting and Kara in University and College rodeo, doesn't leave much time to babysit a herd of cows. My belief is a cow should be able to calve on her own, calf up and suckling before you ever see her. With the ranches and cow herds growing in numbers, I think a lot of you will agree. With the excitement in the cattle industry it is natural to want to wean more pounds of beef without sacrificing man hours in the spring time calving. The cow herd that weans the most calves is still the most economical one. The good old Angus bull gets this done. At Vallemere BPPS/HPS we are striving to raise consistent, easy calving, low maintenance cattle without sacrificing the main result, weaning weights. The herd bulls we choose must have a moderate birthweight with a moderate birthweight EPD. We try to choose herd sires out of ELITE dams. I try not to breed a replacement heifer with a BW of over 90 lbs. I believe a big BW on the dam side will throw a big BW calf as much as a big BW on the sire side will. The cow herd starts calving the first week in March. The best of the March bull calves will be picked for the yearling sale with the April bull calves being retained for a 2yr-old program. We would like to thank you for your support in the the past and hope that we will meet your herd sire needs in the future.

Ironman was chosen for calving ease and maternal strength. His dam is listed elite with the CAA. Ironman has developed into a moderate-framed, easy-doing, stylish bull with extra length, width and depth. He is an exceptionally good-footed bull. His first daughters have calved and are small-teated with beautiful udders.

Moderate BW combined with performance. 15R is one those never misses cows. Actual WW: 770 lbs (Oct 27).

46W has been everything I had hoped he would be. The Prime Cut influence is very strong at Vallerymere, with good reason. They are good functional cattle. The bull calves are moderat BW, big hipped, wide topped with style and eye appeal. The females are making excellent cows. Moderate framed, lots of volume, tight udders with lots of milk. Nice cattle
