shifting gears. Well that is what we are going to do here at Stryker Cattle Co. A decision has been made that we will disperse our Black Angus purebred herd. Fifteen years in the making, not as long as some, but longer than most.

So what have we accomplished in the last fifteen years?

The first year we started out with six head and today we have two hundred & sixty bred females. Our herd grew from buying cattle at production sales and dispersal sales, but mostly from our A.I. tank. We spent many hours going through semen catalogs choosing genetics that would work well for the cattle industry and us.

A couple of years ago we decided to move our calving back so that we would be calving on grass and we did that, but we needed to have cows bred early so that they could go to the dry field in a community pasture, so we did that. Now we have to offer the best of both worlds. Early calvers and late calvers and everything in-between.

Our cows are ranch raised in short grass country with not a lot of pampering. If any pampering is done it is with our calves. Still being a little old fashioned, we use five gallon buckets to feed grain which means we walk through these calves all the time and the result is quiet calves. One of the most often comments said about our cattle is that they sure are quiet.

Now you have the opportunity to pick up where we left off. We do invite you to come to the sale and truly thank all those that have purchased cattle through the years and are grateful for your support. We will not be totally out of the purebred business because we are still going to have two more bull sales, the 2014 sale will be March 15 at MHFC.

We sure do hope to see you at the sale. Oh, about shifting gears. I thought the "O" on the end of my shifter stood for "No Gear" but I know now it means "Overdrive".

One of the most popular and proven sires in the breed history. Final Answer was the number one in the breed for U.S. registrations in 2012. At thirteen years of age his semen sales topped eight million dollars. Final Answer has a balanced EPD profile for calving ease, performance, scrotal size, milk and carcass merit. His progeny maintained an early maturing growth curve and moderate frame combined with thickness, muscling and volume. They are typically docile, easy fleshing cattle that excel in soundness, fertility and function.

Connealy Consensus 7229 is a bull with powerful stature, strong EPDs and outstanding phenotype. He has proven a reliable sire producing low birth with excellent weaning, yearling weights and marbling. Connealy Consensus has sired more high selling sons than any bull in the business and his daughters are top prospects.

Leachman Explorer

N Bar Emulation EXT

EXT led the breed for annual registrations five consecutive years and ranked in the top ten years. Balanced moderate birth weight with performance, maternal, carcass merit, fertility, structural soundness and longevity. He has nearly 18,000 daughters. His dam generated more than 2.5 million in progeny sales and lived to 17 1/2 years old. EXT lived to the age of fourteen.

*Mark the Date**Stryker Cattle Company Bull Sale**March 15, 2014**Medicine Hat Feeding Company - Medicine Hat, Alberta***ANIMAL MEDICAL CENTER SOUTH
Dunmore, Alberta**

For the past 16 years, I've watched Will & Gladys work hard to develop their herd of purebred cows. They have selected for moderate frame size, thickness, fertility and disposition.

The health program has been simple but complete. The cows and heifers are vaccinated with Express 5(modified live IBR, BVD, PI3 BRVSV) prior to breeding. The calves were vaccinated with Pyramid 5 PERSPENSE and Vision 7 Somnus in the spring and then again in the fall.

The Strykers have sold about 50 two-year-old bulls annually. Once again these bulls are in good condition. They have scrotal measurements larger than 40 cm and are very easy to perform breeding soundness evaluations.

The Strykers have been very passionate about these cattle and I'm sure that this dispersal sale was a difficult decision.

*Sincerely,
Bob Herman, DVM*

On November 25, the Stryker Cattle Company's purebred Angus herd will be dispersed. Fifteen years of selections and breeding to the breeds top A.I. sires will be offered for sale.

The purebred herd was started in 1998 with early selections made from Ebon Hill, Pahl Livestock and the Biever Dispersal, but the Stryker family wasn't new to the cattle business, as they have been ranching for over 100 years and Gladys' great-great granddad, James Francis Sanderson trailed cattle from Montana to Fort Walsh in 1877.

Stryker Cattle Company have been involved in a very successful bull sale for a number of years selling two year old bulls and they will continue this venture for two more years. The bull sale will be March 15, 2014, 1:00 PM at the Medicine Hat Feeding Company and will feature fifty two year old Black Angus Bulls and twenty two year old Red Angus bulls from Brooklyn Cattle Co.

The Stryker herd has been established from sound cow families and developed through an extensive A.I. breeding program. Gladys and Will selected for calving ease, maternal traits and performance. This is an extremely productive herd and these are cattle that do well in a harsh environment.

This will be a great opportunity to acquire proven and tested Angus genetics. If Gladys, Will, Chad, Megan, any of the sale crew, or if I can be of assistance in any way regarding this dispersal please feel free to call us.

Yours truly,

Douglas J. Henderson

Terms & Conditions

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to the sale. THIS IS A PUREBRED FEMALE DISPERSAL FOR STRYKER CATTLE COMPANY: Every animal to be offered "as they are" on Sale Day, with no further guarantee expressed or implied. Every precaution will be made to announce known blemishes from the Auction Stand.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue. **RELEASE:** No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed or to Douglas J. Henderson & Associates Ltd.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representatives on Sale Day, also from the Sales Management.

TERMS OF SALE: Are cash or cheque at par, payable on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

EVERY ANIMAL sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

ALL PERSONS who attend the Sale do so at their own risk, and the owners, Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

*Thank You
& Happy Trails!*
