Annual Bull Sale

RED ANGUS &
HORNED HEREFORD

Thursday,
April 11, 2013
2:00 p.m.
at the Ranch

Welcome to our 5th Annual Bull Sale

Welcome to our 5th Annual T BAR K Ranch Bull Sale. I want to start by saying that we have a great group of friends and neighbors who pitch in and help us make this sale possible. Thank you.

It looks like the cattle business is on the right track... Finally. Cattle inventories are at historic lows that will bode well for prices down the road. It is time to invest in quality bulls to ensure you capitalize on the premiums in the market place. A strong uniform cowherd will pay dividends down the road. It is great to have many inquiries into our program from younger Agriculture enthusiasts. This is exciting to see and also vital to the survival and longevity to the cow business we all love.

We have the most uniform set of bulls we have put together to date. The two-year olds are specially held over and managed on grass the first summer for their longevity They are moderate and full of muscle. The yearling bulls are full of performance for your cows and a select set to breed your heifers. The yearling bulls are full of muscle, sound footed and great haired. All the bulls are out of cows with lots of body are easy doing with very good udders.

The bulls are performance tested, cup ultrasound scanned, semen evaluated and veterinary inspected. We stand behind our bulls 100%. If you have any issues with your bull purchase(s), we need to know about it.

Thank you to our past buyers and bidders for your interest in our program. We have been very fortunate to have many loyal customers who have endorsed and supported our program. If you have any questions on our bulls please don't hesitate to call, or better yet come to the ranch for a look at the bulls, their dams and sires prior to the sale.

This is a video sale, remember to come early and preview the bulls on display. The video of bulls will be on line to view or give us a call and we will send you a video. If you can't make it sale day we have a site unseen purchase program. Come join us for lunch before the sale, and hospitality after the sale.

Brock, Kevin, Sydney, Kim & Jordan

Tom & Irene

Hope to see you sale day!

Kevin & Kim Dorrance

SIGHT UNSEEN PURCHASE PROGRAM

Purchasing a bull or a group of bulls is very important. If you cannot make it to the sale, give us a call or better yet come to the ranch and see our bulls. We will discuss your needs and select the bulls that fit your program. We are a family operation and do all the work and we know our cow herd very well, so let us help you with your bull selection.

Upon delivery of sight unseen purchases, if you are not happy with the bull you do not own them.

CALVING EASE RATING

- * Not Recommended for heifers
- ** Recommended for well grown out heifers or second calvers.
- *** Highly recommended on heifers, little to no assistance on moderate size first calf heifers.

BW: -1.3 WW: 46 YW: 74 Milk: 21 Total Mat: 44
Carcass: MARB: 2.58 REA in²: 14.22 BF in: .16 %LMY: 66.2

1Z Opportunity knocks with this bull - Elite heifer and cow bull combination! Bailout has an extremely big square hip, big topped and longsided. He is phenotypically appealing and a proud herd bull prospect. Detour his sire is doing a very good job of taking out birth weight and making soft, deep sided moderate progeny. The Dam has a little different twist to her pedigree, she is a big bodied, super footed, excellent uddered female. We flushed her last spring for Australia. Kim is having a hard time selling him, she wants to keep him for ourselves. Bailout is worth a serious look, and he comes with a nice set of numbers. CE ***

Solid bull, stylish, deep-sided with a little extra muscle. Highly maternal pedigree, so you will want to keep all his daughters. Savage is out of a power cow family. Take a good look at savage. CE *

Understanding Cup Ultrasound

Marbling

Marbling is the best indicator we have to tell us what kind of beef eating experience we will have! Research shows that average AAA and above marbling produces the most satisfied customers. As marbling increases, so does the juiciness, the flavour fullness, and the tenderness.

- Below 2.30.....Single A.....Standard
- 2.30-3.99.....Double AA.....Select
- 4.00-9.89.....Triple AAA.....Choice

Back Fat (mm)

Fat depth decreases lean meat yield. Fat bulls have less lean meat/muscle in the carcass. The fat measurement also gives an indication of the bulls fleshing ability. Calves from a bull with very little fat may finish too slowly in the feedlot. Body condition score (fat depth) in females is related to their ability to reach puberty at an early age, produce milk, and rebreed and maintain a short calving interval. On the other hand, bulls carrying excessive fat may suffer reduced fertility.

Ribeye Area (in²)

The ribeye is the largest muscle in the body at birth so REA gives an indication of overall carcass muscling.

Cutability (%LMY)

Cutability is the percentage lean meat yield in the carcass. Yield grade is an important factor in both Canada and the USA. Producing calves with a high genetic potential for this trait can be an important objective of a breeding program. Back fat will reduce yield by 7 to 8 times what REA will increase yield.

Summary

Like all traits, we should avoid the extremes. Moderation is the key. As producers we need to evaluate our own females and then decide what kind of progeny we want to produce. This should dictate what kind of sire we want to purchase.

Going back to our original Towaw 17D cow who produced until she was 18 years old. Half brothers are lot 60Y and 83Y. Take an extra look here. CE *

Terms and Conditions

Terms of Sale - Cheque or cash payable sale day unless other arrangements have been made with T Bar K. Each animal becomes the risk of the purchaser as soon as sold.

Guarantee - We guarantee to provide you with a sound breeding bull, capable of passing a semen test within 14 months of age. If a bull fails to be a satisfactory breeder he will be replaced with a bull of equal quality and value or a credit will be given towards another T Bar K Bull. Bulls are not guaranteed to freeze semen. If you have a problem with your bull notify us immediately, because we are not happy until you are happy with your T Bar K bull.

Semen - T Bar K reserves the right to draw semen off of any sale bull for our in herd use, at our expense and at the buyers convenience. Certificate of Registry

A Registration Certificate will be transferred to the buyer for each registered animal after complete and full payment has been made.

Announcements - Errors in information in this catalog will be corrected by the block at sale time, such corrections will take precedence over any printed material. The auctioneer will settle any disputes.

Health - The bulls were given Pfizer Gold Program and 7 Way with Somnugen and treated with Ivomectin. Our herd is in excellent health.

Insurance - Insurance will be available sale day from Alameda Agencies Bonnie Thompson Ph: (306) 489-2250. We strongly urge you to insure your bull purchases, especially the bulls being left at T Bar K.

Liability - All persons who attend the sale do so at their own risk. Sale staff or owners will assume no responsibility and disclaims any liability legal or otherwise for any reason.

Identification - Sale bulls will carry id tags corresponding to sale lots.

Fertility - All bulls will have a complete fertility exam and semen test done prior to the sale. Scrotal measurement, weight, and ultrasound data will be available sale day.

Buyer Registration - Buyers please register for a buyer number prior to purchasing a bull.

Delivery Options - Free delivery to Saskatchewan, Manitoba & Alberta all other locations will be cost shared. \$50 discount per bull if you take your bull home sale day.

Big time herd bull prospect with this bull. Phenotypically appealing, future is soft made deep sided and full of muscle. Out of our 4W bull who is breeding great. His Dam has been a solid producer, very good cow family behind this guy. Future is the kind of bull we strive to raise. His future is so bright, you have to wear shades! Comes highly recommended.
