

TOWAW CATTLE Co. LTD.

33rd Annual Bull Sale

Sat. April 7, 2012
1:00 P.M.

Welcome to the 2012 Towaw & Guests Annual Bull Sale!

Well, the last few years have been tough ones for the Canadian Cattle Breeder. For the first time in quite a few years I can stand in front of you and know that the storm is over and good times are upon us. By nature, we as cattle breeders are optimists, and there is nothing like a bull sale welcome speech to have a Purebred Breeder try to put a positive spin on things. This year, though, the rains came, dugouts filled up, grass and hay were plentiful and bumper crops were produced. Record prices were set for calves and I think the calves as a group were better this year with good nutrition and a constricted cow herd. As we branded calves with our customers and neighbours we saw as good a set of calves as we have ever seen. Those of you that have hung in there have been rewarded with strong cow herds and now are getting great rewards.

There is very little we can control in this business when it comes to weather, cattle prices, government policy or the whims of a fickle consumer. What we can control is the way we run our operations and the costs we put into producing a pound of beef. Our operation is based on producing that pound of beef in the most economical way possible.

Our genetics are based on sound, easy fleshing cattle that last and don't take a lot of inputs or require expensive labour. We feel that if you can control the costs, you can ride out whatever this business can throw at you. That is why we run our cowherd as tough, or tougher, than our customers and provide genetics that will positively impact the bottom line.

We feel this year's bulls are as strong a set of bulls as we have ever put together. They are very sound and uniform in their makeup. These bulls were weaned in December and fed a high roughage ration until being put on grass in mid May. The bulls stay on grass until mid November and then are brought home and fed a total mixed ration until sale time. The bulls are wintered in large 3 acre pens allowing for plenty of exercise. We feel this method of development makes for sound, athletic bulls that you will recognize after their first breeding season. They should handle more cows and be able to do the job as soon as they get into the pasture. Because of their development we certainly don't get many bulls back with breeding problems, but if there are problems, we keep extra bulls to provide backup. The bulls all pass a semen test but please observe them breeding naturally and call us first if there are any problems.

Again this year, Dave and Rhonda of Rainbow Red Angus, will be selling their strong group of bulls in the sale with us. They have a great set of bulls and they sell with the same guarantee as the Towaw bulls. There will be a commercial heifer donated for dutch auction again this year with the proceeds going to the Barrhead Community Cancer Centre. There will be more information further on in the catalog about this fundraiser. We were overwhelmed by your support last year as over \$7000 was raised to support the Red and Black Baldy fundraiser. Thanks to you, our friends and customers, nearly thirty thousand dollars has been raised for charitable causes with this format.

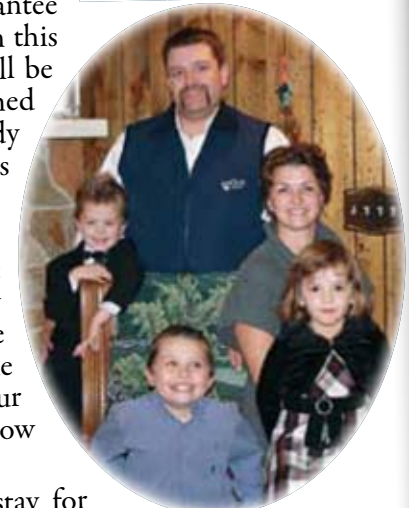

As technological advances come along we must take part, so we are moving to an internet auction this year with DLMS.ca. The bulls will be videoed and the sale will be broadcast over the internet. Robert Lind will be auctioning in the traditional format assisted by ringmen. The bulls will stay in their pens sale day and the same video you see on the internet will be played on a screen inside the sale barn. If you can't make it to the sale our same sight unseen program is available with assistance provided by us or one of our representatives. The option to bid live will be available over the internet and info on how to get set up will be found further on in the catalog.

Lunch will be served at 12:00 and we hope our customers, repeat and new, can stay for a meal, refreshments and conversation after the sale.

Towaw Bull Warranty

Towaw Cattle Co. and Rainbow Red Angus guarantee to sell you a bull that is structurally sound, and a bull that has passed a semen test conducted by a licensed veterinarian.

**IS SHHRA, R P GUARASA PP AH PRVIDP YHU R IAH A SHUSD BRPPDIS G BULL.
IF HP HASS 'A PASSPD A SPM S APSA, HP DHPSS 'A SPLL.**

Should any animal fail to be a satisfactory breeder, he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the bull in questions, as a credit towards the purchase of another bull. In no case shall credit exceed the purchase price of the bull.

We however, will not provide replacement or adjustment for physical injury or mismanagement. Breaking this in mind, we stress the importance of insurance on your bulls. Should you have a problem with your bull, please call us right away, and we will work with you to make sure you are satisfied with your bull.

Glossary of Individual Information

- BW:** Actual weight at birth
WW: Weaning weight in lbs. Adjusted to 205 days.
WI: Weaning Index - Weaning weight as a % of average WW of contemporaries.
YW: Yearling weight in lbs. - calculated as adjusted 205 day weight + (ADG on feed x 165 days)
YI: Yearling Index - Weight gain from Weaning to Yearling as a % of average gain of contemporaries.
AOD: The actual age of the dam when she calved the bull offered for sale.
LMY: Lean Meat Yield
NOTE: All Indexes are calculated within herds, as management may differ somewhat.

Weights and Scrotal Measurements will be available Sale Day.

EPD's Expected Progeny Differences

EPD's are a powerful tool that is available for making genetic progress. EPD's incorporate the performance of the individual, along with the performance of all its relatives.

- B.W. EPD:** Birth. A lower EPD predicts lower birthweights.
W.W. EPD: Weaning. High weaning EPD's predict higher weaning weights.
Y.W. EPD: Yearling. Higher yearling EPD's indicate greater expected yearling weights.
MILK EPD: Milk EPD should be used to predict the milking ability of the daughters of the bulls in question. Higher milk EPD's project more milk.

Average EPDs for all Canadian Red Angus and Black Red Gene Carriers

CE +3.4 BW 0.5 WW 26 YW 50 Milk 14 TM 28

Volume Discounts

If you buy 5 - 9 bulls you will receive a 5% discount on each bull.

If you buy 10 or more bulls you will receive a 7.5% discount of each bull.

Retained Interests

We are selling some bulls in this sale as 2/3 interest and full possession. The 2/3 interest part means that the seller wishes to retain a 1/3 interest in the bull entitling him to use the bull through artificial insemination and sharing in any future drawing expenses and revenue of semen on a 1/3 basis. Full possession entitles the new owner to all physical rights to the bull. As in any other information, announcements from the block take precedence over any written information in the catalog.

Delivery & Board

A rebate of \$50.00 per bull will be offered to buyers who bring their trailer and truck their bulls home themselves within one week of sale day. We Will deliver bulls free of charge within Western Canada or closest U.S. port of entry. Bulls will be kept at Towaw, free of charge, until April 20, 2011. If bulls are left longer a fee of \$2.00 per day will be charged. Bulls are left entirely at the risk of the purchaser and we recommend that insurance be taken.

Update on Parentage of Red Towaw Indeed 104H

Towaw Cattle Co. and Six Mile Ranch would like to notify all concerned that Sire Parentage on Red Towaw Indeed 104H (WDV 104H) 942651 has recently been corrected. Indeed is sired by Red CC Expansion 5E (CCF 5E) 836778, and this is now reflected in the Canadian Angus Association herdbook.

Red CC Expansion 5E was submitted as 104H's sire, however blood type parentage verification testing utilized at the time confirmed Indeed 104H was sired by Red Glacier Divide 310. That was how he was then registered. Since then DNA technology has advanced greatly and we now use micro satellite technology.

Indeed embryos were exported to a foreign country that required a two generation parentage test on incoming animals into their herdbook. A DNA genotype was created using micro satellite technology and his parentage was re-verified through this process, confirming the originally submitted sire parentage of Expansion 5E.

Towaw Cattle Co. Ltd. and Six Mile Ranch, co owners of the bull, were notified of this situation on February 17th and a straw of semen was submitted to our Canadian lab to back up this finding. On February 28th the owners were informed that micro satellite parentage verification using 19 markers has verified that Red CC Expansion 5E (CCF 5E) 836778 is absolutely the sire of Red Towaw Indeed 104H (WDV 104H) 942651. The correction to Indeed's pedigree was processed by the Canadian Angus association on February 29th, 2012. Other Angus Associations globally have been notified of this correction. Due to the number of multi generational progeny, we anticipate minimal change in Indeed 104H's high accuracy EPDs.

Please do not hesitate to contact the Wildman and Gibson Families of Towaw Cattle Co. and Six Mile Ranch or the Canadian Angus Association with any questions you may have.

Auction Format

This year we will be working with Mark Shologan and broadcasting our sale over the Internet on DLMS.ca.

The bulls will be videotaped prior to the sale and on sale day we will have large TV screens set up with the bulls video running while they sell. Two weeks before the sale, videos of every bull will be available at our website www.towawcattle.com or at www.dlms.ca.

*Auctioneer
Robert Lind*

With this change we will be going with a traditional auction system with Robert Lind auctioneering for us. He will be ably assisted by Bryon Wolters, who has worked with us for many years, and happens to be the breeder of Red CC Expansion 5E. Travis Rogers, from NBI, will also acting as a ringman at the sale.

Please don't hesitate to contact Robert, Bryon, Travis, as well as our buyer reps to represent you at the sale. If you intend to bid online make sure you sign up with

DLMS and contact Mark to get your buyer approval for our sale.

As always we have our sight unseen program going and are ready and willing to help you with your needs. Hopefully all the bases are covered whether you can make it to the sale, want to bid online, or use the sight unseen program.

Sight Unseen Purchase Plan

If you would like to purchase a bull, but cannot attend the sale, contact us:

Kirk..... (780) 785-3772

Fax..... (780) 785-3403

Dave B..... (780) 785-2813

email: kiwild@xplornet.ca

Call or Fax us prior to the sale and let us know your specifications and your price range. We will select animals which would fit your program and arrange for an independent buyer to attempt to purchase one for the agreed upon price.

We will call you after the sale, and inform you of the results.

All Sight Unseen Sales are made with a satisfaction guarantee.

Can't make it to the sale?

Bid Live Online.

Instructions for Viewing And Bidding At the Sale

1. Visit www.dlms.ca
2. Fill out the registration form located under registration.
3. Click on downloads and follow the four step instructions located on the screen.
4. Click test your computer. You will see the Test Video and Bid Control Box.

To be Approved as a bidder or any other questions please e-mail mshologan@dlms.ca or call Mark - 780-699-5082

With DLMS you can Watch, Listen & Bid on Your Computer just like you were there with Online Bidding over the Internet

HF Tiger 5T first grabbed our attention when Kirk saw him in July of 2008 as a yearling bull. He had just been pulled from breeding cows and was in great shape. His muscularity, structural correctness and ease of fleshing continued to impress us and when he was awaiting the championship at the World Angus Forum we were able to purchase some semen from Rob and Gail. He won the championship that day, and every other show that year, and is proving to be the best breeding "show bull" to come along in a generation. His sons in this years sale are all out of Red cows, so carry the red gene and have Red Angus EPDs. His growth numbers are in the top percentiles of the breed and they are partnered with low gestation length and moderate birth weight. We also have three top heifers added to our replacement pen out of some of our top cows. Tiger turned out to be a great choice in our search to add new genetics to our herd and in turn our customers' herds as well.

Git-R-Done has done a great job of breeding both at Towaw and Rainbow since he was the high seller at \$18,000 in Ter-Ron's 2007 bull sale. He was a very masculine sire with great length of body and thickness. His dam is one of the top cows at Ter-Ron, being the dam of Fully Loaded as well. His daughters weaned a strong set of calves with ample milk and near perfect udder quality. Git-R-Done was lost to injury last summer so we will only have one more set of sons to sell. Last year's high selling bull was a Git-R-Done son selling to the Rigneys of Willow Springs Stock Farm.

Lancer has done a great job at Towaw over the years. He was a very deep bodied, sound footed and correct bull. His sons exhibit his same correctness, especially in the quality of his feet and legs. Many of his sons will qualify as heifer bulls and they should be quite strong maternally as well. Longevity is bred in on this prepotent sire as he worked as a cleanup bull for Rainbow this year at 7 years of age.

Expansion is a highly proven sire we used in the past and decided to reintroduce on the strength of his sons and daughters alike. 5E was a bull before his time as he was extremely deep and easy fleshing. He was the Reserve Champion Bull at Agribition as a calf, and in '97 as a two year old weighed as much as the other bulls in his class while being a frame smaller. He has been designated an elite sire by the CAA on the strength of his tremendous daughters. Look to his sons for early maturity, strong maternal traits and ease of fleshing.

WDV 25X 1652292 ET 03 June 2010

RED CV FOUR TIMES
RPD FCC RAMB H 502 HSF
 COPPER LASS 2392
 RED CC EXPANS DN 5E
RPD THR AR LAKIMA 26G
 RED TOWAW LAKIMA 136C

25X is a very long bodied performance bull with that herdsire look about him. Rambo is best known for some of his great sons like Boomer, GRL Sir Rambo 9A, and Jackpot, but he also left a lot of great daughters. This bull should be one of the heaviest bulls on sale day and you can see that in his length of body. Sit around the auction barn one fall day and you will see those long, eye appealing calves top the market.

148x is a moderate framed masculine beef bull. His maternal line, the Blockana's, can be found all over the world, we even saw some in Argentina last fall. The Red Towaw Blockana 71L cow sold in the 1981 Red Roundup to Boot Jack Ranches and her progeny are found all over the States in some very prominent cattle including Make My Day.

2011 Sale

Towaw and Argentina

Red Pastorize 565 Brigadier

Our quest for early maturing, easy fleshing, low maintenance genetics took us to Argentina in the summer of 2009. Ricardo Orazi, of La Cabana Pastoriza, approached us at the World Forum and asked us if we would be interested in partnering up on some embryos from his genetics. We had seen pictures of Brigadier and I was immediately making plans to get to Buenos Aires to see him and his progeny. In September of 2009 I spent four days travelling with Ricardo, his son Ricky, and Marcello, a valued consultant, and saw hundreds of Brigadier calves and daughters of his as well. The stoutness and easy fleshing characteristics of these cattle on the Pampas grass was impressive. On the last day I got to see Brigadier standing at stud. He was nine years old, incredibly sound and good footed, and very deep bodied and thick. This fall Jill and I went back to Argentina for the World Angus Secretariat and were able to spend two days with the Orazis and see more of their herd. Another bonus was visiting other top herds in the country and seeing more Brigadier genetics topping their herds as well. The embryos arrived in Canada in the late summer of 2010, so we will have summer born long yearlings and some February born yearlings for next year's sale. We are extremely excited about the calves so far and the opportunity to add outcross genetics to our herd.

Rainbow Red Angus

Welcome again to the annual Towaw bull sale.

We at Rainbow Red Angus are honored to be involved with the Wildman family and be guest consignors at the Towaw bull sale. The Wildman's are truly an extraordinary family who brings everything to the table when it comes to home life, community and of course the Angus industry! Our thanks go out to the "gang" that makes up TOWAW!

As I write these notes we continue to see a stronger market with feeder cattle trading at a much higher level than we have seen in past years. The futures continue to stay strong which provides much needed optimism in the beef industry.

Again this year we fed our bulls at home. Our feeding program is based on growing out bulls slow and easy in order to provide a breeding bull that will hold his condition. They were grazed free of creep feed and weaned in the beginning of September. Our bulls have been on a complete low starch pellet ration and free choice hay all winter. As well our cattle are on a full herd health program.

We feel that this year's bull pen is another uniform, complete set of bulls. They are backed by functional, maternal moderate framed, easy doing cows that are treated the same as our commercial her. We believe that any of the bulls we are offering today would compliment any heifer bull program. Please take time to look over pedigree and EPD's. If you require any other information please feel free to contact us as we would be glad to assist you in finding a bull that will be right for your program!

This past year was our first year of being involved in Red Round Up. A huge Thank-you to Howard and Melinda Tanghe of Strawberry Fields for purchasing our heifer calf and Dave Durie of Duralta Farms for purchasing our bred heifer. Your support is greatly appreciated.

Also we would like to extend a huge "THANK-YOU" to all of our past buyers, bidders and supporters of Rainbow Red Angus. We look forward to seeing old friends, neighbors and valued customer on April 7th 2012. If you have any questions please feel free to call 780 785-2813 or 780 785-9115. Stop in, the coffee is always on!

Red Rainbow Edge is a bull we feel a great deal about. He has loads of natural muscle and is deep sided with a very strong foot and leg structure. He has been a standout in our group all year. His mother is a moderate, deep, well structured cow who has never let us down. She has daughters in our herd and has a bull working at Dwayne Degens. We campaigned this bull at different shows throughout the year. He was very well received and added strong competition every class he was in. **Selling full possession and 2/3 semen interest.**

Towaw's Future Herdsires

Red Lazy MC Kingman 16W

Kingman is a RMJ Redman son out of a Smash daughter. He had a 88 lb. BW, 750 lb. YW, and a 1329 lb. YW and is a total outcross to our herd. Two paternal brothers to Kingman were the high selling calves of last fall, averaging nearly \$50,000. He is incredibly easy fleshing as he has naturally bred close to 200 females in his first two years and is always in good shape. His first 40 straws of semen sold at Red Roundup for \$140 per straw. His first calves are very deep, easy fleshing and attractive, and will be highlights for Towaw in next year's sale. Co-owned with Ter-Ron Farms.

Red Basin EXT 45T5

Last winter we went down to Benchmark Angus in Lethbridge to look at sons of EXT 45T5, being impressed initially with his awesome set of EPDs. He is in the top 1% of the breed for WW, YW, Milk, TM, REA and Marbling, while being just over average for birth and in the top 10% for calving ease. The sons were really good and the milking two year old daughters were impressive as well. When we saw EXT, the depth of body, length, and a perfect set of big dark feet, the wheels started to turn on finding a way to get him breeding cows in Sangudo. We were able to purchase ½ possession and a ¼ semen interest in this great sire and he bred 50 cows for us last summer. Look for his sons in the 2014 bull sale. Contact Towaw or Co-owners Benchmark Angus to talk about semen packages for 2012.

Terms & Conditions

TERMS: Unless otherwise previously arranged with Towaw Cattle Co., terms of this sale are cash or cheque, payable in Canadian funds. As soon as an animal is sold it becomes the responsibility of the purchaser.

ANNOUNCEMENTS: Errors in the catalogue will be corrected by announcements from the stand at sale time, and such corrections will take precedence over the printed matter in the catalogue.

DISPUTES: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

CERTIFICATE OF REGISTRY: A certificate of registry duly transferred will be furnished to the buyer by the seller for each REGISTERED animal after settlement has been made.

DELIVERY: We will arrange delivery of the bulls to central points in western Canada and closest U.S. Port of Entry, free of charge.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of the buyer, the owners assume no responsibility in this matter, and disclaim any liability, legal or otherwise, in the event of accident or loss of property, on or about the premises.

Branding 2011

Dave has a group of young, well broke horses available for sale by private treaty on sale day. Call him at (780)785-2091 for details.

Donation Heifer

Once again we will be offering a commercial heifer for charity this year. We will sell tickets in the Dutch Auction system at \$10 per ticket. If you bid \$100 you will get 10 chances to win the heifer in the draw immediately following the sale. \$10 tickets will be available right up until the time of the draw as well. This year we will be donating all proceeds to the Barrhead Community Cancer Centre, which is a satellite care facility to the Cross Cancer Center. Having a facility near our community is a huge asset to people battling cancer in our local area and makes it so some patients don't have to make the drive, or even relocate, to Edmonton to receive their care. Cancer touches so many people in our area, so we think this is an excellent place to direct some financial aid.

Last year's Red and Black Baldy fundraiser was a huge success.

You, our friends and customers, donated over \$7000 to the cause! Nearly \$30,000 in total was raised by Angus enthusiasts across the country. The fundraiser culminated in the head shaving at our Canadian Angus Association Annual meeting in Manitoba. As the leader in pledges Kirk's head was definitely up for being shaved, but a large group of Breeders put up \$5000 if both CAA staffers Rob Smith and Michael Latimer would shave their heads as well. A Ryan Miller signed Buffalo sabres jersey was donated for Auction and Thomas got to model it during the auction. Manitoba Angus breeder Sandy Margetts was the winning bidder for \$3800 in a hotly contested battle. There was not a dry eye in the house when Sandy gave the jersey to Thomas and said, "she wanted to see Thomas grow into the jersey and fill it out someday". Thomas enjoyed taking the first swipes of hair off of Kirk's head, and many other Angus people had a great time, "Balding the Boys". Thomas was also very proud to present the cheque to Val from the Kids with Cancer Society, a group that does such great work for kids and their families who are battling Cancer. We can't thank all of you enough for your support of our family as we battle through both Gail and Thomas' illnesses.
