14th Annual

Triple 'A' Bull & Heifer Sale

Monday, April 4, 2011 - 1:00 PM CST
Johnstone Auction Mart, Moose Jaw, Saskatchewan

Welcome ...

Welcome to the 14th annual Triple A Bull and Heifer sale. On offer Monday April 4th will be approximately 50 black and 10 red yearling bulls and 16 open heifers. Congratulations to all who persevered the weather challenges of 2010 and came out on the right side of the high water mark. 2011 is poised to be one of the strongest years we have experienced in agriculture. Strong grain prices coupled with record cattle prices have restored an optimism not experienced for quite some time.

The Triple A group would like to welcome first time consignors Glen Gabel and Kelly and Lynn Howe. For a number of years these folks have been supporting the sale and the group is glad to be able to offer them the opportunity to market their bulls. The sale offering represents the progeny of over 600 cows. The Triple A group is proud to offer bulls that are accompanied by one of the most comprehensive packages of data available on a set of sale bulls. Birth weight, 205 day weights, EPD's, test weights including average daily gain (ADG) and weight per day of age (WPDA), carcass data, semen evaluation and current sale day weights are all available to assist you with your purchase. All of the bulls have been managed the same since arriving at Hagerty Livestock on October 12th.

The bulls have proven to be affordable. Over the last 5 years the sale average has been consistently in the \$2400 - \$2600 range with high sellers over this time averaging \$4450. The bulls can be viewed prior to April 1st at Hagerty Livestock, 6.5 miles north of Trans Canada Highway on the Kalium Road or at Johnstone Auction Mart which is located 4 miles west of Moose Jaw on the Trans Canada highway. Please join us Monday April 4th for a complimentary lunch. If you are unable to attend please call any of the consignors or sales staff and we will be glad to assist you with your purchase.

Thank you for your interest.

Dan Howell
On behalf of the Triple A consignors

Definitions

BW - Birth weight - all weights are measured in pounds.

SOT - Start of test weight

EOT - End of test weight

Proj Wt - Estimate of Sale Day weight

205 - Adjusted weaning weight

ADG - Average daily gain - gain in pounds per day during the Test Period

WPDA - Weight per day of age - gain in lbs. per day from birth to weigh date

AOD - Age of Dam

Ultrasound Carcass Data

The importance of carcass trait information will be increased as value based marketing and quality assurance programs become more recognized and commonplace in the beef industry. Cattle should be scanned as close as possible in age at which their progeny will likely go to slaughter. A range from 12 months to 14 months is probably optimal. Ultra Sound Measurements in a Breeding Program: As with all genetic traits, ultrasound measurements should only be compared among animals of similar age and similar management. Only then is it of any measured value to use the ultrasound measurement for selection.

Back Fat: Fat measurement is important for several reasons. First fat depth influences lean meat yields; fat bulls have less lean meat in the carcass. Secondly fat measurements give indications of a bull's fleshing ability. Extremes in either too lean or too fat a bull are undesirable. Moderation is key.

IMF/Marbling: may be the most important attribute to be measured with ultrasound. This trait can convert into as much as \$80 difference in a carcass from a AA to a AAA grade. The values are numerical and indicate the estimate of carcass marbling if the animal was slaughtered immediately following the evaluation. The scale is as follows:

Quality Grade

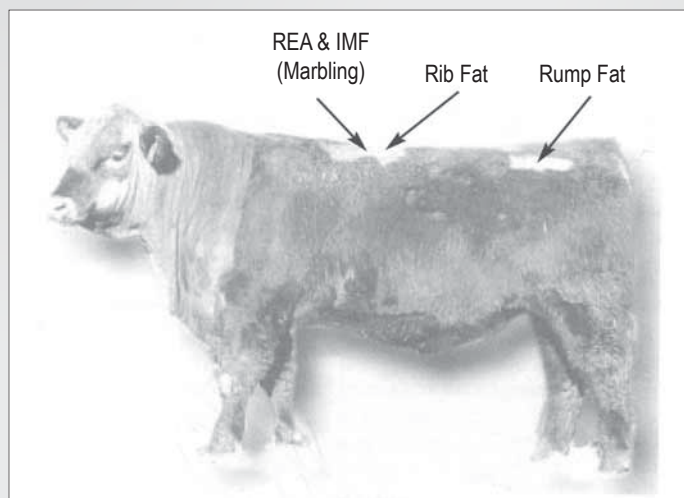

%IMF	US	CAN	Marbling Score
2.3 - 3.0	Select -	AA -	4.0 - 4.4
3.1 - 3.9	Select +	AA +	4.5 - 4.9
4.0 - 5.7	Choice -	AAA -	5.0 - 5.9
5.8 - 7.6	Choice o	AAA o	6.0 - 6.9
7.7 - 9.7	Choice +	AAA +	7.0 - 7.9
9.8 - 12.1	Prime -	Prime -	8.0 - 8.9
12.2 +	Prime +	Prime o	9.0 +

Bulls will register at least a full degree less marbling and 30% less backfat thickness than steers of the same age and feeding history. The marbling estimates are best utilized by grouping the bulls into high, medium and low marbling groups rather than to compare individuals that differ by only a few tenths of a score.

Ribeye Area Adjusted to 100 lbs. Body Weight (REA in/100 lbs.): The largest ribeye area may belong to the largest bull therefore adjusting the REA to 100 lbs body weight helps determine which bulls are more muscular and which bulls are simply heavier.

Lean Meat Yield (LMY%): is the percentage of lean meat in a carcass. Yield grade is an economically important factor in marketing carcasses. With a high genetic potential, this trait can be an important objective in a breeding program.

All bulls have been ultrasounded by
Rod Wendorff (AUP - CUP Certified)

LOTS 2 - 7 - STAPLE K ANGUS - Kelly & Lynn Howe - 306.266.4610

Hello everyone, welcome to the Triple "A" Bull & Heifer Sale. First a big thank-you to the breeders involved with the sale for asking us to contribute. Now to introduce ourselves. We are Kelly & Lynn Howe from Glentworth, SK. We have been in the cattle business all our lives with purebred and commercial stock. In 2007, we decided to run only purebred Black Angus with the goal of producing top quality bulls that will work hard and are easy to handle. The bulls entered in this sale are all half brothers so if you are looking for consistency, take a look at them. The future of the cattle industry looks very promising for the first time in many years. We're very excited to be a part of it and look forward to meeting you at the sale.

LOTS 8 - 15 - VALLEY LODGE CATTLE CO. - Gordon C. Roger - 306.771.2305

Valley Lodge is pleased to consign another set of strong AI influenced bulls for 2011 AAA Sale. We have maintained a heavy focus on maternal strength with good calving ease numbers and above average performance. We have some great candidates for the heifer field again this year as well as some cow bulls that will really put some pounds on your calves. Have a good look here as I am sure you will find one to fit your needs!

These were our first Game Day 449 calves and we were impressed enough to use him in our 2010 AI program as well. A Genex AI sire with the excellent calving ease and maternal strength we were looking for yet a nice balance of performance and muscle expression. Mated to a heavy milking moderate framed dam, this fellow pretty much has it all. I would highly recommend this bull for heifers.

Another well matched Game Day son with a bit more performance than his half brother in this group. Perhaps a touch more frame than the 3X bull but another strong candidate for the heifer field. Would make a nice pair of heifer bulls if you are looking to add some genetic uniformity in your breeding program.

If you are looking to add some maternal strength and raw performance, 23X is your bull. An Image Maker son out of one of our 410H daughters with a bit more frame and tons of milk. An AI studded pedigree with lots of tremendous maternal power top and bottom. The Image Maker daughters we have had were all kept in our herd as they are outstanding. This soggy brute is probably better suited as a cow bull.

Not sure where all the size and performance came from on this New Day son but he is a dandy and definitely a cow bull. Our Grand Design daughters are all very deep and moderate framed with picture perfect udders and this fellow's dam is probably our best. Another star studded pedigree including Leachman Right Time, New Trend, New Design and Traveler will make this a strong addition to anyone's program.

Our youngest entry this year and out of our Cudlobe Midland 21R herd bull whose sons have stood up beside any of the AI bulls in our pen. A strong Cudlobe pedigree going back to their Enchantress 425F cow who has produced several AI stud bulls in Canada. The Rainmaker cows we have are some of our best and all are tremendous milkers and very moderate framed. This bull will work well for heifers or cows.

Our son Shane's bull out of the cow that produced the high selling bull at the 2010 AAA sale going to Michael and Rachel Hillbig in Kuroki. By the looks of this fellow it appears she may have done it again. A very eye catching Image Maker son with a tremendous set of numbers to go along with "made for heifers" conformation. If you are looking to add some milk in your program and excellent calving ease, this may be our strongest entry in 2011. A definite heifer field prospect here.

Another one of Shane's bulls and sample of our Quaker Hill Objective sons which we were very impressed with. All of our Objective sons have great hair and are incredibly uniform in frame size with enough here to use on cows. Out of another Rainmaker dam which has helped maintain his maternal numbers nicely and a very well balanced bull overall. I think you will like this one.

Our daughter Megan's bull and out of our top cow family, the Eastondale Countess line with some lineage back to the great GT Max in a bull we bought from Mel Solvason. This fellow matches up very nicely with our other Midland son and would make a nice pair if you are looking for a set of half brothers.

LOTS 21 - 25 - IRVING ANGUS - John W. & Linda Irving - 306.345.2528 | John M. & Keri Irving - 306.587.2523

Welcome to the 2011 Triple "A" Bull and Heifer Sale! This year, Irving Angus is pleased to offer three sons of Crescent Creek Ideal 105U. He carries a very strong maternal background – his dam, Crescent Creek Duchess 27P, has been designated a Canadian Angus Elite Cow, and Crescent Creek Queen Ruth (also an Elite cow) appears in his pedigree. We are also offering 2 sons of Isla Bank Widespread 12S. His sons are solid, functional individuals with excellent mobility.

A full brother to Lot 51 sold through the Triple A to Clearsight Farms and a heifer was purchased by Ron Schropp.

Lot 52 was our heaviest 205 day weight bull. This end of March calf had an actual weaning weight of 748 lbs on October 11th. You will be hard pressed to find many other late March bulls that express as much muscle and quarter as this bull.

Sire of Lots 55 & 56

This end of March bull from a first calf heifer has been gaining over 4 lbs per day. He is sired by our calving easy sire that we purchased from the Delorme's. He was the 2nd highest selling bull at their 2009 sale. We calved 25 heifers last year without any problems. DLD 4R New Elixir 66U has a birth weight EPD of -1.8. Calving ease combined with this kind of performance is not that easy to come by. We will not be getting many calves from 66U this year as many of our sale heifers carried his service. He will however be carrying a large portion of the 2011 breeding duties.

LOTS 57 - 64 - NU-HORIZON ANGUS - Kieran & Deb Doetzel - 306.336.2245

Welcome to the Triple 'A' Angus Bull Sale. This is our third year in the sale and are very pleased to offer you three red Angus bulls out of the Reserve Grand Champion Bull in 2009 at Regina and some awesome performance packed bulls from AI sires in the other bulls we have in the sale. These bulls stood out all summer in the pasture (especially when they are all off of first calf heifers). We hope you will check them out at Hagerty Livestock or sale day. Give us a call before hand, we would be happy to hear from you.

You need a cow bull? Here it is. Another Rob bull from the Reserve Grand Champion at the 2009 Regina Bull Sale. He has a very long body along with a super hip. Don't let his birth weight scare you. He is built with a very smooth shoulder and should calve with no problem and put power in your steers in the fall. Birth weight 110 lbs.

AAA

Lot 59

From the moment this calf hit the ground he stood out. You could pick him out in the pasture all the time because he had such a prominent hip at such a young age. He is well built with a super top and great feet under him to get the job done. Don't miss this one. Birth weight 82 lbs.

BW 85 lbs actual ww 716 lbs. I would recommend Wild Fire 8X as a calving ease sire. Off a first calf heifer. He has above average length combined with a very smooth shoulder. On February 12 he weighed 1155 lbs, his EPD'S are all above breed average. His sire Ankonian Werner Wild Fire is an own son of the legendary SAV 8180 Traveler 004, who is one of the most influential Angus sires in recent history. 8X's dam Sunny Grove Hymena 8U is sired by Gambles Hot Rod, a bull know for fleshing, maternal and fertility. 8U calved February 7/10 and again on February 5/11 with an AI'd heifer calf from EXT.

Terms & Conditions

Bidding: Each animal will be sold to the highest bidder.

Bidding Disputes: The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

Terms: The terms of the sale are cash. The right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the sale facility.

Purchaser's Risk: Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for a reasonable time.

Insurance: A representative of a major livestock insurance company will be present to care for insuring cattle.

Certificate of Registry: A certificate of registry and transfer will be furnished for each animal.

Health: All cattle will be in excellent health.

Announcements: Changes of information contained in this catalogue relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence.

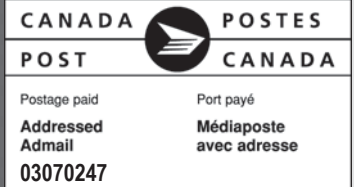

Breeder's Guarantee: All animals sold are guaranteed breeders by the owner. Any animal that has not proven itself a breeder within six months after date of sale, if in healthy condition, may be returned to the seller at buyer's expense. The seller reserves the privilege of trying for a period of six months to prove the animal a breeder. The seller at his option may either return the purchase price to the buyer or replace the animal with another of equal quality in full settlement of ALL claims. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the specified time above and any animal returned must be free from disease and in good health.

Liability: Neither owners, sale manager, clerks, nor anyone connected with the sale assumes any responsibility, legal or otherwise for damage of any kind.

Contract: The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

Delivery: You can receive a \$50.00 discount if you haul your own bull. Delivery will be available at \$50.00 per bull within 300 km of Moose Jaw. Purchases of 5 or more bulls will be delivered free of charge. Other deliveries can be arranged at cost.
