Triple J

TRIPLE "J" FARMS

The Jeannots
Whitewood, Saskatchewan

Welcome to our 7th Annual Bull Sale

We would like to thank all our customers for their purchases in the past years. For their confidence in our program and our cattle. We hope they have done well for you in your programs.

Cattle prices are getting stronger, fat markets are gaining strength. With the decrease in livestock numbers the future markets look stronger for the producer. The dedication and determination of the beef producer to maintain the herd is evident in those who believe in what they are doing.

We believe the selection of bulls this year are equal in quality if not stronger than last year and a more uniform group. We feel the bulls this year are more moderate frame, long bodied, stouter, thicker and easier doing. This represents the consistency in our cow herd and the sires that we use.

We believe in developing our bulls to there genetic potential without over conditioning and impairing structural soundness.

Our bulls are developed on a ration of 25 lb oat silage, 10 lb pea and lentil screening pellets, free choice mineral and all the free hay choice they want.

We welcome visitors to the farm prior to the sale to view the cattle. Please join us for lunch on sale day at the barn starting at 11:30 am.

For more information please feel free to call us at anytime.

See you March 27th at Whitewood Auction Mart.

Welcome to Triple J Farms 7th Production Sale with seventy-four outstanding yearling Angus bulls.

These bulls will not only add muscle and growth but will add dollars to your bottom line. They are the right kind; they are bulls for performance, calving ease and strong maternal traits as well as style and eye appeal. The Triple "J" bulls have proven they get the job done!

If Sharon, Brad, Joe, Eileen, Kristen, Kyle or Alyssa Jeannot, any of the sale staff or myself can assist you regarding this sale please give us a call.

*Yours truly,
Douglas J Henderson & Associates Ltd.
Doug Henderson*

Reference Sire - Lots 1 to 18

We selected Knockout because he was an outcross to us, with a good set of EPDs.

He is a bull with a great disposition, strong wide loin, with a great hip on him. His calves are deep bodied, a big square hip, good feet and legs and heel. Lots of bone and good hair coats. He will add hip in your cattle. His bulls have big testicles and are clean sheath. He bred well this last year. Daughters are in production and milk well, nice udders. Excellent teat size and balance. Sons off 134U are working well in Young Dale and Hamilton Farms herds and high sellers for them in their sales.

Bull calves average birth weight 88 lbs. and the heifer calves average 82 lbs.

An easy doing bull that puts extra muscle and hip in his offspring. The best set of feet and legs structure. This calving ease specialist at Triple J is destined to leave offspring that will grow and turn into profitable individuals. 91Z will have a big influence on our breeding program.

Used on heifers. Bull calves average 77 lbs. and heifer calves 74 lbs.

An Ambush son we sold to Airey Cattle Co. and that we had a chance to use. Going back to the genetics like 290T, 20X and now 14Z, probably the best bull between them all. Without a doubt the best topped and long spined. More hip and shape. Lots of hair and the best set of feet and legs structure of all the Ambush line.

We used 14Z on first calf heifers. All born unassisted

Reference Sire - Lots 30 & 31

**Insured bulls may be kept
at the farm until May 1**
Charge will be \$2.50/day to keep them

Is breeding better than what he looks himself. Good feet and legs, good wide top, big testicles, clean sheath and tremendous thickness and carries it down to his solid foot. 290T is a calving ease bull. We nicknamed him "Catcher Mitt". 290T is moderate framed bull.

His daughters are in production and we are impressed with their dispositions. With beautiful udders, small teats, good milking ability and easy keeping deep bodied females. Average birth weights on bulls is 83 lbs. and on heifers 75 lbs. Left us more females than bulls this year. Remington Cattle Co. raised this bull. Their comment is easy doing cattle, nice tidy udders.

20X is just a little taller, longer and thicker than his sire. He is big boned, with a good heel and solid foot. Just like 290T he also puts a lot of hair on his calves. We were very impressed with his calves. Average birth weight on bulls 86 lbs. and on heifers 79 lbs. All born unassisted.

20X will add length, and size to your calves. They have nice heads with good extension in the neck. The bulls have good testicles and clean sheaths. Females have nice tidy udders.

Reference Sire - Lots 33 to 46

5W offspring are standouts. They are very consistent and uniform. His calves are just like him, tremendous length, wide top, very smooth, big testicles and clean sheaths. Lots of bone, good heel, a very good hair coat and great disposition. 5W daughters are in production and we are very pleased with them. Good udders, small teats and easy doing females. They cross well with the Ambush, Legacy and Rachis and Dynamites.

Bull calves average birth weight is 86 lbs and on heifer calves average 78 lbs. Offering a small select group.

Reference Sire - Lots 47 to 49

When we selected the sire of 11Y we look for bulls that have good feet and legs, big testicles, lots of hair and a good disposition. Easy doing ability and natural thickness with reasonable birth weights. Females with nice udders. That is what we found. 11Y is a bull with lots of length and natural thickness, a bull that really moves out well. One that will put pounds in your calves.

Bull calves average birth weight 89 lbs. and the heifer calves average 83 lbs. All where born unassisted.

Used on first calf heifers. The daughters are now in production and they are everything we hoped for. Great calves, great mothers. Real nice udders, excellent teat size and balance.

Reference Sire - Lots 53 to 60

Triple J Angus

LOT 58

LOT 59

Expected Progeny Differences - EPDs

EPDs are an estimate of how future progeny of each sire can be expected to perform in each traits listed. The higher the Accuracy, the higher the reliability.

BW: Birth Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. Weaning weight is an indicator of growth from birth to weaning (205 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: Yearling Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk EPD - is an indicator of milking ability in daughters. It represents the differences in weaning weights of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

TM: Total Maternal EPD - is a combination of the weaning weight and milk EPDs. It is calculated as: 1/2 Weaning Weight EPD + Milk EPD = Total Maternal. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

SC: Scrotal Circumference EPD - expressed in centimetres, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires. Scrotal Circumference is an indicator of both growth and male fertility. Larger scrotal size is related to increased sperm production and semen quality, and in daughters' younger age to puberty, younger age to calving and higher pregnancy rate.

59X is a bull very similar to the Legacy bull, but a calving ease bull. Good feet and legs. A bull that has a lot of performance but with moderate birth weights.

Average weight on heifer calves 77 lbs. and on the bull calves 84 lbs. They were all born unassisted.

His bull calves have big testicles with very clean sheaths. The last calf crop offering off of Rachis 59X. His daughters are in production. Excellent udders, teat size and balance. Good disposition. Easy doing females.

Triple J Herd Health

Our vaccination program consists of Ivomec, Bova Shield Gold 5, Somni Star and Ultra Choice 8 for both cowherd and calves.

When we preg checked our herd this fall. Out of 290 head we only had 15 open cows and most of these were older cows. In our bred heifer we only had 3 opens out of 66.

Most of the herd was 5-6 months in calf.

A young herd sire that sold to Chris MacPherson who gave us the opportunity to lease him back. A very thick, smooth, deep bodied bull, with good feet and legs. Very much like his sire BBAR Legacy 767.

His bull calves have tremendous thickness, great hip, big testicles and excellent feet and legs. Very smooth, long spined cattle. The females have great udders. Average wt on bulls 92 lbs. on heifers 82 lbs.

The mother of 121X is still here and due to calve shortly. At 15 years of age she looks like a 7 year old cow.

Reference Sire - Lots 72 to 74

Triple J Angus

a division of Remington Management Inc.

Box 429, Morse, Saskatchewan S0H 3C0
Box 1, Del Bonita, Alberta T0K 0S0

February 2015

Remington Land and Cattle's first association with Triple J began with their purchase from us Remington Ambush 290T. Their investment in this bull, facilitated by Doug Henderson, began a relationship that continues to this day. As Remington land and Cattle has evolved from a purebred operation, the roles have reversed and we have come to find Triple J as a valuable source of some of the Angus bulls we use in our commercial operations. The bulls from Triple J function well in our environment and the service after the sale has been very good as well. I have been through their cow herd on several occasions, and their focus on functional, maternal mother cows is very similar to what we are trying to do in our own cow herd.

Brad and Sharon themselves have been very easy to deal with, and any questions or concerns are dealt with fairly and promptly. Joe Jeannot's experience in all facets of the cattle business is invaluable, and I really enjoy the conversations I have been able to have with him. It seems like they are trying to provide what we want for our own operation and that is valuable to us as well. RLC has long been associated with DJH, and Doug's assistance is much appreciated as we have built our commercial numbers. Don Peacock has a well earned reputation as an honest and astute cattleman himself, and his direct relationship to the commercial industry provides a welcome connection to us as producers. All in all, it is a pleasure doing business with the Jeannot's and their staff. We look forward to doing business in the future.

Sincerely,
Rob Selke
Remington Land and Cattle

Since using Triple J bulls, our 600 lb. steer calves were the top selling calves at every sale. Fall of 2013, highest priced group of calves in Western Canada on the day they sold. This fall, 2014 they were the highest priced group of 600 lb. calves ever sold in Western Canada.

Bull Sale Terms & Conditions

CATTLE INSPECTION: All carry identity tags corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export by the Canadian Food Inspection Agency, Health of Animals and Regulations.

BREEDING GUARANTEE: All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and will take precedence over printed matter.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

EVERY ANIMAL sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
