Triple J

TRIPLE "J" FARMS

The Jeannots
Whitewood, Saskatchewan

Welcome to our 8th Annual Bull Sale

Our philosophy at Triple J is "if any animal isn't good enough for us - it isn't good enough for you."

That is why you will see so many 1/2 and 3/4 brothers, so many sons and grandson going back to our senior herd sire, Knockout 134U. He is also the sire of Young Dale Excalibur and also grand sire of the 2015 record high selling bull in Canada for Young Dale.

This year we will be offering offspring off 134U, 91Z and 27A all Knockouts.

91Z is still being used on heifers and the 27A is a calving ease bull not just for us but for Dale and Rose McAuley.

The Hoover Dam bull a calving ease bull can be used on the smaller heifers. We have a lot of expectations in this bull.

One thing you will notice in our cow herd is femininity, excellent hair, good feet and good disposition. But mostly in our herd - is the nice udders with small teats and abundance of milk.

Our calves are creep fed 3 weeks prior to weaning. They are weaned in October.

We feel the selection of bulls is one of our best. A very consistent group which means that consistency in our cow herd.

Feel free to stop by the farm prior to the sale to view the bulls

We would like to thank all our customers for their purchases in the past and for there confidence in our program and our cattle.

Reference Sire - Lots 1 to 33

We selected Knockout because he was an outcross to us, with a good set of EPDs.

He is a bull with a great disposition, strong wide loin, with a great hip on him. His calves are deep bodied, a big square hip, good feet and legs and heel. Lots of bone and good hair coats. He will add hip in your cattle. His bulls have big testicles and are clean sheath. He bred well this last year. Daughters are in production and milk well, nice udders. Excellent teat size and balance. Sons off 134U are working well in Young Dale and Hamilton Farms herds and high sellers for them in their sales.

Bull calves average birth weight 88 lbs. and the heifer calves average 82 lbs.

A bull that will give you exceptional growth in your calves.

Reference Sire - Lots 34 to 36

Was the lead bull in our 2014 sale, selling to Nielson Land and Cattle. We were able to breed a few head to him.

8A is a complete package - very smooth, deep bodied, big boned, wide top that carries down to a solid foot. Lots of hair. A very easy doing, very docile bull.

The full sister to 8A calved - lots of milk, picture perfect udder and nice teat placements. The mother to 8A is here and we bred her the same way.

Out of a consistent cow family. Offsprings off 51U are working for Carol Helmeczi, D & D Cattle Co., Jarid Berglund and EY Ranch.

Expected Progeny Differences - EPDs

EPDs are an estimate of how future progeny of each sire can be expected to perform in each traits listed. The higher the Accuracy, the higher the reliability.

BW: Birth Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: Weaning Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. Weaning weight is an indicator of growth from birth to weaning (205 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: Yearling Weight EPD - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: Milk EPD - is an indicator of milking ability in daughters. It represents the differences in weaning weights of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

TM: Total Maternal EPD - is a combination of the weaning weight and milk EPDs. It is calculated as: 1/2 Weaning Weight EPD + Milk EPD = Total Maternal. This EPD represents the differences in weaning weights between calves due to mothering and milking ability of their dams.

SC: Scrotal Circumference EPD - expressed in centimetres, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires. Scrotal Circumference is an indicator of both growth and male fertility. Larger scrotal size is related to increased sperm production and semen quality, and in daughters' younger age to puberty, younger age to calving and higher pregnancy rate.

The 27A calves are very consistent and uniform. Lots of depth of body and natural thickness. A calving ease bull with lots of performance and lots of hair in his calves.

The dam 89X is an easy doing, very long, thick, deep bodied female with a great udder. We have had purebred breeders interested in her but made the decision to keep her and we are glad we did. Sons off 89X have sold to Gaylin Eilers, and a half brother sold to HBH and Airey Cattle.

If you want a small calf at birth with lots of growth 27A will give you that.

Reference Sire - Lots 45 to 52

We were very lucky to get a piece of this bull. Dale and Rose McAuley had to disperse their herd due to health reasons; we were fortunate to get 27A here.

Calving ease. Out of a 2 yr. old Ambush female.

A bull with natural thickness, smooth, depth of body and lots of hair. Good feet and legs.

The grandam 30R is still here working in the herd. One of her sons 11Y is a herd sire here.

A cow family with consistency and longevity.

An easy doing bull that puts extra muscle and hip in his offspring. The best set of feet and legs structure. This calving ease specialist is destined to leave offspring that will grow and turn into profitable individuals. 91Z will have a big influence on the Triple J breeding program.

We are very impressed with both the bulls and females off of 91Z. Easy doing cattle with performance. His first daughters just calved and we are impressed with their mothering ability, good udders and lots of milk.

Used on heifers. Bull calves averaged 77 lbs. and heifer calves 74 lbs.

Reference Sire - Lots 53 to 61

Congratulations!

CHL LEGACY 14B

CHL Legacy 14B was shown with great success this past fall.

He is a son of TJF Legacy 140Y

purchased by Don Best through our Bull Sale in 2012.

Paternal brother to TJF Legacy 121X - sire of Lots 62-68 & maternal brother to TJF Knockout 47C - Lot 8 in this sale.

A young herd sire that sold to Chris MacPherson who gave us the opportunity to purchase him back. A very thick, smooth, deep bodied bull with good feet and legs. Very much like his sire BBAR Legacy 767.

His bull calves have tremendous thickness, great hip, big testicles and excellent feet and legs. Very smooth, long spined cattle. The 121X daughters are in production and just like the Legacy 767 females - they have excellent udders with good teat placement and lots of milk.

A lot of the high selling bulls last year went back to the Legacy 767.

Reference Sire - Lots 62 to 68

The dam of 121X is still here and has already calved. At 15 years of age she looks like a 7 year old cow.

-0.1 78%	+25 69%	+48 53%	+17 40%	+30	+0.37 46%

Is breeding better than what he looks himself. Good feet and legs, good wide top, big testicles, clean sheath and tremendous thickness and carries it down to his solid foot. 290T is a calving ease bull. We nicknamed him "Catcher Mitt". 290T is moderate framed bull.

His daughters are in production and we are impressed with their dispositions. With beautiful udders, small teats, good milking ability and easy keeping deep bodied females. Average birth weights on bulls is 83 lbs. and on heifers 75 lbs. Left us more females than bulls this year. Remington Cattle Co. raised this bull. Their comment is easy doing cattle, nice tidy udders.

Reference Sire - Lots 69 to 70

Dale and Rose McAuley topped the market at their dispersal in December in Virden with selling commercial Ambush bred heifers for \$3500.

Reference Sire - TJF AMBUSH 20X

When we selected the sire of 11Y we look for bulls that have good feet and legs, big testicles, lots of hair and a good disposition. Easy doing ability and natural thickness with reasonable birth weights. Females with nice udders. That is what we found. 11Y is a bull with lots of length and natural thickness, a bull that really moves out well. One that will put pounds in your calves.

Bull calves average birth weight 89 lbs. and the heifer calves average 83 lbs. All where born unassisted.

The daughters are in production and they are everything we hoped for. Great calves, great mothers. Real nice udders, excellent teat size and balance.

Bull Sale Terms & Conditions

CATTLE INSPECTION: All carry identity tags corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export by the Canadian Food Inspection Agency, Health of Animals and Regulations.

BREEDING GUARANTEE: All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association shall apply.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and will take precedence over printed matter.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

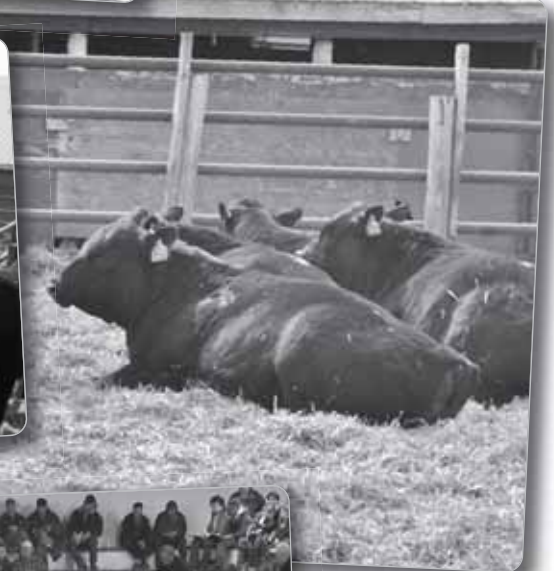

EVERY ANIMAL sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

program*

Welcome to Triple J Farms 8th Production Sale with 83 outstanding yearling Angus bulls.

These are big strong yearling bulls that will not only add muscle and growth but will add dollars to your bottom line. They are the right kind, they have performance, calving ease, style, eye appeal and maternal traits. The Triple J Bulls have been doing a great job in the industry, they put it all together and get' er done!

If Sharon, Brad, Joe, Eileen, Kristen, Kyle, and Alyssa Jeannot, any of the sale staff or myself or Brody can be of assistance in anyway regarding this sale please give us a call.

Yours truly,
Douglas J Henderson & Associates Ltd.

Triple J Angus

Over the past 15 years we have purchased over a dozen Triple J bulls as well as a couple groups of heifers. We have been very pleased with all our purchases from the Jeannots.

Over the years I have gotten to work alongside the Jeannots at the farm and at the bull sale, and I have learned a lot from them as I have expanded my own herd. A large portion of our herd is made from daughters off of Tripe J bulls, these daughters have grown into great cows with excellent bags and temperaments, and we have received many compliments from passersby on our cows and calves over the years.

Our March and April born steers averaged 650 pounds when we sold them on October 13th this past fall. I would highly recommend Triple J bulls to anyone.

Chris MacPherson
