Joe & Eileen Jeannot

TRIPLE "J" FARMS

Welcome to our Third Annual Bull Sale

First and foremost we appreciate and value the confidence that you, our customers placed in your purchases last year and that the bulls have done well for you in your herds.

It has been a challenging year once again for the cattleman with excess moisture. Trying to get crops seeded and also trying to get hay crops off and up in good condition. Calf prices are getting stronger, the fat market is gaining strength. With the decrease in livestock numbers the future market looks stronger for the producer. The dedication and determination of the beef producer to maintain the herd is evident in those who believe in what they are doing. The consumers still want their beef.

We believe the selection of bulls are equal in quality to last years. We are also offering a group of heifers this year from the top end of our replacement heifers.

We would like to welcome our guest consignors, the Allison's of Leveldale Polled Herefords into our sale. They have brought out a great group of bulls.

We welcome visitors to the farm prior to the sale to view the cattle. Please join us for lunch on sale day at the barn starting at 11:30 am.

For more information please feel free to call us at anytime.

See you April 1st at Whitewood Auction Mart.

Brad, Sharon, Kristen, Kyle
Joe and Eileen

Fax: (403) 782-3849
Cel: (403) 350-8541

Welcome to Triple J's 3rd Angus Production Sale. This year we are pleased to have a great set of Polled Hereford bulls from Doug, Fay, Cody & Michelle Allison's Leveldale Polled Herefords.

This year's group of bulls from Triple J are even more impressive, with many top sons of the new herdsires, Remington Ambush and B.B.A.R. Legacy 767, as well as the two Freedoms; TjF Freedom 505 10T and TjF Freedom 5R 31U, as well as sons of Young Dale Checkmate 126S.

Again the Jeannots will be selling a select group of females, these are very fancy and right out of the replacement pen.

Come and appraise this great set of young Angus seed stock produced by a dedicated livestock family, three generations involved in this family farming operation.

If Sharon, Brad, Joe, Eileen, Kristen or Kyle Jeannot, Doug, Fay, Cody and Michelle Allison, any of the sale staff or myself can be of assistance regarding this great set of top Angus bulls and females plus this great group of Polled Hereford bulls, please give us a call.

Yours truly,
Doug Henderson

Remington Ambush 290T

9 Sons Sell

Remington Ambush is a moderate frame bull with a great disposition. Good feet and legs. We have nicknamed named him "catcher's mitt" a very easy calving bull but still puts frame in his calves. We would recommend his bull calves as heifer bulls. Just like himself. Last year he bred 45 heifers and this year we used him on 52 heifers. We would like to thank Doug Henderson and Remington's for selecting him for us.

B.B.A.R Legacy 767

9 Sons Sell

Co-owned with Bowerman's B.B.A.R. Legacy is probably the most easy doing bull in our herd. A bull who we appreciate for his massive thickness, good feet and legs. A bull that will put a lot of performance in your cattle and still be moderate framed. His mother is an elite cow and the full sister is a top female in Bowerman's herd - with the most beautiful udders they have ever seen. Harvey Bowerman said they are not tall cattle, they are heavy cattle. This bull will get fat on grass and Bowerman's are right about that. We appreciate being in partnership with Bowermans on this bull.

We feel 10T will be just as good as his sire Western Freedom 505. He has lots of bone, good feet and legs with a good heel. 10T has an excellent disposition and is easy doing. He puts lots of hair in his offspring. The 505 daughters are in production – they are deep bodied, easy doing, great disposition, beautiful udders with nice teats. We are looking forward to calving out the 10T daughters.

Angus EPDs

EPDs = Expected Progeny Differences: An estimation of an animal's breeding value based on its pedigree and performance. EPDs indicate the average performance expected from an animal's progeny in comparison to another animal or to the breed average. They allow for fair comparison of animals' genetics across herds, regardless of environment and management differences.

P = Parental Average EPDs: These are the most basic and least accurate EPDs. They are the best guideline available when calves are first reported and there is no performance data on them yet. Parental Average EPDs are indicated by a P for accuracy and are simply an average of the dam and sire's EPDs. If a calf has only one parent with EPDs, its Parental Average EPDs will be only half of its one parent's EPDs.

P+ = Interim EPDs: These EPDs utilize the Parental Average EPD information on the calf plus any performance data on file and its ratio amongst its contemporary group. Interim EPDs are indicated by a P+ for accuracy and have a higher accuracy than a Parental Average EPD as they also include some performance data.

% = National EPDs: Calculated in the National Cattle Evaluations (NCEs), these EPDs are the most accurate prediction of breeding value or genetic merit that can be determined from pedigree and performance data submitted. National EPDs are published with numerical accuracies that reflect the quantity and quality of data used in its calculation.

BW = Birth Weight: Expressed in lbs., predicts on average how much heavier or lighter than the breed average an animal's calves will be. If the breed average is 3 and an Angus animal has a BW EPD of 5 then on average this animal's calves will be 2 lbs. heavier than the breed average.

WW = Weaning Weight: Expressed in lbs., predicts comparative progeny weight at 205 days of age. This EPD reflects pre-weaning growth potential that an animal is expected to contribute to its calves.

YW = Yearling Weight: Expressed in lbs., predicts the differences in progeny performance at 365 days. The YW EPD reflects the animal's calves' potential for post-weaning growth.

Milk = Milk: Expressed in lbs. of calf weaned, this is a prediction of an animal's daughter's milking ability.

TM = Total Maternal: A measurement comprised of half of an animal's Milk EPD and half of its additive genetic contribution to its calves' weaning weights.

SC = Scrotal Circumference: This EPD predicts the average scrotal circumference for an animal's sons. Scrotal circumference is used to gauge a bull's fertility.

Checkmate will add frame to your cattle. He has a big foot, lots of bone, good heel. Good disposition and he put lots of hair in his offspring. We are very impressed with his bulls but mostly with his great females—easy doing, lots of milk, tremendous udders with small teats. Thanks to Young's for raising him.

 Take a look at this guy's age.

Lot 58 - TJF Heroine 3X

Yearling Angus Heifers

We are once again offering a group of open replacement heifers from the top end of our heifer pen. We stress in our females, good milking ability with good square udders with nice teat placement on them. These heifers all have great dispositions, lots of hair and good feet and legs. The heifers were weaned on October 19th and have only seen a ration of free choice hay and promolas. They are also on the Pfizer Gold Program.

The sire of the first group of heifers goes back to Canadian genetics.

17X is a Checkmate daughter out of a top producing cow line. Related to 69X, Lot 66. A very sharp female, very hard to fault, very eye appealing. If you are searching for a show feature or a brood cow prospect, this one will do both. Definitely the front pasture female.

Lot 65 - TJF Lady Fanny 124X

Lot 67 - TJF PD Lady 17X

Terms & Conditions

CATTLE INSPECTION: All carry identity tags corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export by the Canadian Food Inspection Agency, Health of Animals and Regulations.

BREEDING GUARANTEE: All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association and Canadian Hereford Association shall apply.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and will take precedence over printed matter.

HOLDING AND SHIPMENTS: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at no charge and under excellent care. Joint shipping arrangements to attain minimum shipping cost will gladly be made by the sale management if instructions to that effect are provided to clerk of the sale when settlement is made.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff listed.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

EVERY ANIMAL sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

Welcome cattle enthusiasts!

We would like to first of all thank Triple J Farms for inviting us to be involved in their Annual Bull Sale. We have been long time friends with the Jeannots from the days they were involved with the Hereford Breed and you will notice many Triple J prefix bloodlines in our program. The cattle we had purchased over the years and their top cow families that are in our lease program continue to strengthen our cowherd. It is enjoyable to see the strength and dedication to strengthen our cowherd. It is this herd is based from cattlemen that keep the commercial man in mind.

Our herd is small in numbers but large in quality. We at Leveldale are a 3rd generation operation that was started with my parents, Ray and Bensa Allison. Faye and I run the operation today with the help of Cody and Michelle and Amy, Paul & their family.

At Leveldale, our goal is to raise cattle that are accepted by the commercial cattlemen. I believe in calving ease, maternal strength along with performance. My goal is to raise moderate framed females with lots of middle, that are deep ribbed and that have exceptional volume. These females have to be sound footed, feminine, have great udder quality and that are well balanced. My definition of udder quality is 4 teats on 4 corners, balanced with nice small teats to let her calf find them easily. As you will see with the weaning weights and weight per day of age on these bull calves, they have to be highly maternal with exceptional milking ability. We have our herd on a complete herd health program that we can share with you at any time. Our bulls have been developed on a rolled oat and pellet ration with free choice hay. Our program is to see how our bulls grow, collect data on them, feed them to be in good breeding shape and not over condition. Our bull program is before you, let us know your opinion!!

Reload 65T is a bull we purchased from Haroldson's Polled Herefords. He was the type of bull we were looking for at Leveldale. Red eyed, dark in color, full of pigmentation, as we needed to darken up our cow herd. Very eye appealing with lots of length and great shape. He has strong performance numbers being out of LeGrand Reload 80P and is also very high maternally with balanced EPDs and a strong pedigree. We knew he would turn out to be the herd bull for our cowherd.

We had the misfortune of losing 65T to an injury this fall and this is the reason we are retaining a 1/2 interest and 1/2 possession in one of his son's. We believe he will enhance maternal traits, performance and carcass throughout his pedigrees. Look for his sons in the future!

Reload 65T has a strong group of son's that will breed consistency throughout a calf crop. They have lots of pigmentation, great hair and move out well!

We purchased Showtime 829T from Ben & Linda Fox, Justamere Ranches. We were in the market for a heifer bull and were very impressed with 829T's sire and dam. He has done a wonderful job on our heifers and this is his first crop of calves. When you have a heifer bull that gives you light birth weight calves, calving ease and calves that have a lot of vigor, you know you have a good bull. He is a long sided, moderate boned bull with sound feet and legs and that moves out very well. His calves are easy fleshing, have great shape and large testicular development. Remember, all of his calves are out of 1st calf heifers!
