**12TH ANNUAL
BLACK ANGUS BULL SALE**

TUESDAY FEBRUARY 22, 2011

**AT WILLABAR RANCH
1:00 P.M. CLARESHOLM, ALBERTA**

Welcome to Our 12th Annual Bull Sale!

ANDY, RAMONA, NATHAN & KATIE HART

Dear Friends,

WELCOME!!!

This year marks Willabar Ranch's 70th year raising Purebred Black Angus Cattle, something that Andy and I are very proud of. As I listen to Orrin and Andy tell stories of the past it's amazing the difference 70 years can make!

This year also represents the 12th year we have been offering Long Yearling Black Angus Bulls. For those who are unfamiliar with our program, we breed for balance, not extremes. When we are selecting for herd sires, growth, performance and maternal traits are extremely important as well. At calving time we strive for as little "hands on" contact as possible with our cows to take full advantage of calving on grass. Poor udders and dispositions are not tolerated and we strive to eliminate them as they appear.

We pasture the bulls after weaning until they come home for yearling weights; the bulls then are fed a silage/hay/grain total mix ration with a Viterra mineral package starting early October. The bulls receive Pfizer Gold at pre-weaning and post-weaning and ivermectin is administered in November.

As you see, when you peruse the catalogue, the average age of our bulls is 17 months, which would make them about 21 months old for a June 1st turnout. They are bigger, more sexually mature and able to breed more cows than the average yearling.

As a service to you when selecting your herd sires, at semen testing, we will test the bulls for BVD. Foot Rot vaccine will also be given at that time. Scrotal measurements will be available sale day.

We are selling our bulls by video again this year. We are finding this method to be very beneficial for both ourselves and the bulls. You, as well, have a better opportunity to see these guys in their home environment.

Please accept this as your invitation to our **12th Annual Bull Sale February 22, 2011** at 1:00 p.m. here at the Ranch. If, however, you are unable to attend and would like to participate, we will gladly help in any way. Give Andy, Ramona, or any of the sales staff, listed to the right, a call if you have any questions.

As always, satisfaction is always guaranteed.

Yours truly,

Andy & Ramona Hart
Ph: 403-625-2060 / Fax: 403-625-4238

ORRIN & MARGARET

We Will be Selling the Bulls on Sale Day on **VIDEO**

The bulls will be available for viewing in pens adjacent to the sale barn before and during the sale but will not physically enter the barn during the sale. They will, instead, appear in a video clip (the same one minute of footage from the DVD) on a projection screen that will run continuously until each animal is sold. We do recommend that you come prior to sale day or allow yourselves enough time to study the animals closely prior to the commencement of the auction. Those in attendance have commented that they felt it was important to study all of the bulls prior to the sale and have an extensive list of potential selections to avoid disappointment. Remember, live bulls do not enter a sale ring.

We believe the opportunity to view the bulls in larger pens, where they are more comfortable, serves our buyers well. Our experience last year proved the video sale reduces stress on both bulls and people.

SIGHT UNSEEN PURCHASE PLAN

If you cannot attend in person please ask for a DVD of the sale offering or view the video online at www.willabarangus.net

Andy will be glad to discuss your needs and personally handle your purchase. Call to discuss your criteria, the earlier the better!

**SATISFACTION
GUARANTEED!!**

The Dateline sire group are going to command a lot of attention. When we made Dateline the high selling lot at the 2006 Cooke Livestock Bull Sale. We had tremendous confidence in the maternal side of his pedigree - Willabar Patricia 45C. The longevity, udder and foot quality of the Patricia cows in his pedigree is indisputable and is showing up in his daughters.

Dateline is a massive bull and yet is very athletic. Rawburn Angus of Scotland has recently secured the European rights to Dateline and are expecting their first embryo calves to be born this spring

This will be the last calf crop from 107N. He suffered a wire cut to his foot that just would not heal. We really treasure the Windy daughters in the herd - calm dispositions, attractive feminine fronts, good feet and fabulous udders. The strength of any herd is the quality of the cows. The Windy sons will help build a set of heifers that will milk and be problem-free.

87S was originally selected for use on our heifers in 2007. His progeny proved so favourable that he has since been one of our primary service sires.

His first crop of daughters calved this past summer and we are very pleased with the job they are doing.

His sons in the offering are consistently thick, long bodied, easy fleshing bulls, with moderate birth weights.

Pendleton continues to lead the industry with his unprecedented siring capabilities. His low birth and high growth EPD spread is not a fluke. The calves are born very easily and then they get up and grow.

You will see bulls that may not be what you expect from first calf heifers. They display outstanding growth, depth and thickness.

Pendleton currently ranks in the top 5% of the breed for eight different EPD traits.

This is the last chance for 50P sons. They have been very well received in past years. The combination of calving ease, thickness and growth is very pleasing to cattlemen of all stripes.

The daughters are proving themselves as deep ribbed moderate framed, easing keeping mothers.

50P's sire CA Future Direction is a highly proven sire whose influence still shows up in many of the leading carcass trait sires in the industry.

Terms & Conditions

TERMS OF SALE: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made.

- Every animal sells to the highest bidder and, in case of disputes, the auctioneer's decision will be final.
- Current exchange rates will be announced sale day.
- We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of the Health of Animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and right and sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association, shall apply.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff (see page 1) or to Willabar Ranch.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerks' desk from the appointed representatives on Sale Day.

CATTLE INSPECTION: All carry permanent identity tags corresponding to Sale Lot Numbers. All shall be available for inspection prior to the sale.

PLEASE NOTE:

Buyers not taking advantage the the \$50 incentive by bringing their own trailer on sale day will receive their purchases following the sale at the seller's convenience.

Although all reasonable care and attention will be given to the bulls after Sale Day, the seller **WILL NOT** be responsible for any type of injury while in seller's care. Therefore, **the purchase of mortality insurance is strongly recommended!** Insurance agent will be available sale day.

ALL PERSONS who attend the Sale do so at their own risk, and the owners, Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
