**Prior the Sale - "Hot Biscuit and Gravy"**  
**After the Sale - "Prime Beef and Social"**

## Terms and Conditions

- Video sale, be sure to come early to assess the bulls before the sale.
- Benlock reserves the right to collect semen on any bull.
- Benlock deliveries will happen prior to our own calving season which starts last week of April.
- Bulls picked up after May 1st are subject to a \$2.00/day feed charge.
- Each animal becomes the risk of the purchaser as soon as sold.
- Cash or cheque payable on sale day, unless other arrangements have been made prior to the sale. Announcements from the block will take precedence over printed material in the catalogue.
- All cattle sell under the standard terms and conditions set forth by the Canadian Angus Association. Precautions have been taken to ensure your safety; neither owners nor sale staff are responsible for any accidents.

## Welcome to Benlock Farms

Tom Blacklock, 5th generation Angus breeder in Canada! Tom's father became very involved in the purebred Angus business after marrying Alberta May Henderson. Ben had the auction contract at the Saskatoon Livestock Market for many years and sold many of the top purebred Angus Sales in Western Canada. Ben had a keen eye for livestock, a wonderful knowledge of agriculture and was a great source of advice for his many friends in the agriculture community.

Tom has very successfully built an excellent herd of purebred cows at Benlock and with his growing meat trade has developed a herd with great carcass qualities, as well as function, fertility and performance.

Tom has produced top bulls for the commercial cattlemen for many years but for the first time, he will sell on the farm in the great old hip roofed barn at Benlock.

This will be a must attend event with great food and hospitality, a unique venue and more importantly top Angus Breeding stock. These two-year old Angus bulls are outstanding.

If Tom, Shawnda, any of the sale crew or myself can be of help in anyway concerning this exciting event please contact us.

See you in the Barn.

Yours truly,

Doug Henderson

# Welcome

**Excitement...** Almost every night Shawnda and I spend a little time dreaming in the loft of our 100-year-old barn as the renovating takes place. Windows overlooking the bullpens, Shawnda's "Water Bowl" corner, the "Barley Bin" patio, downstairs the Herd Bull display and a joining coverall bred heifer display. This old barn may be rough around the edges, but is filled with integrity, hard work, character, & creativity.

Consider this your invitation to come join us in our excitement of Benlock's 1st annual Bull & Female sale.

**Reality...** Although what we do is a labor of love our genetics are very much real world; they have to be. Herd bulls that can travel well and settle cows. Cow/Calf managed more like commercials than purebreds. Finished cattle with the emphasis on customer satisfaction and eating experience. A cowherd that's been developed under the stress of the environment, cash flow and management. It's always the same bloodlines that continue to float to the top and it's those blood lines we bring to you. With all the challenges you face don't let bad genetics be one of them The most expensive bull you ever buy is the one that didn't quite turn out, but you're not sure what to do with him, so you keep using him. We've all been there. Don't. Dump him, move on and let us help you replace him.

**Foundation Style Females...** Half a dozen of the very finest purebred females, chosen in the hopes of them making foundation style replacements for their new owners. Special 10% discount for juniors. Our commercial heifers represent all of our home raised females AI'd Speckle Park, and Wagyu with Angus natural service. These girls sell not long from calving and economic return. If you'd like to start your own freezer trade or even just fill your own pallet, here are some new genetics to try.

**Private Treaty Bulls...** I know, I know, "what in the world is he doing now!" Truth is we've been doing this successfully for years, just weren't in the position to promote it along with our auction bulls. 10% down books your bull. We recommend you come ahead of the sale for the best selection, plus the sweet part is, if you see a better deal at the sale, we'll let you flip to an auction bull and credit you back your deposit. Whether you're on a budget, need multiple bulls, or don't like the pressure of an auction sale, this gives you the comfort of knowing your bull needs are looked after. I'm quite often asked about the quality on our private treaty bulls. Most of these bulls by turn out time will fit right in with the auction pen. Don't forget to check with me after the sale as top bulls once booked become available as some buyers flip to auction bulls. Sounds complicated, it's not; it's as simple as a phone call. My cell is 306-230-9809.

**Thank-You...** There are so many people, friends, family and neighbors that have and continue to play such a huge role in our lives; we're so grateful. A person should never sort anyone out but there are three, that it would be criminal not too... Adam Auger, Gerald Morin, and Jade Verishine; despite their own successful careers, they spend many of their off days helping us here. What we've achieved would not have been possible without their expertise, fortitude, and hard work. THANK YOU! Now if I could just keep Gerald out of the cookie jar.

**Put Us To Work...** Please utilize myself, or anyone of the sales staff. Between us all there's maybe more years of experience than we care to admit. Our 1st priority is to make sure you get the bull that fits your needs.

**Appreciation...** As beef producers we need to take pride in our contributions to society; nutritionally, culturally, and just for the sheer pleasure people have when eating beef. Shawnda and I totally appreciate your dedication, workload, and passion for the business. We know how valuable your time is and will do our best to make this a great experience. But you know, it just won't be the same unless you're here.

Alaskan was bred by Rob and Gail Hamilton, right from the heart of the famous "Echo" cow family. Alaskan's grand dam, 187N was one of the more memorable Agribition Supreme Champions being admired by many cattlemen from many breeds. Alaskan's dam, 112R was the calf at her side the year she won. We purchased Alaskan from Rob Ballantyne through his very successful dispersal sale. Alaskan sons and daughters were among the top sellers that day and the purchase of Alaskan has certainly turned into one of the best choices of my cow career. He has single handedly elevated our herd to the next level and certainly greatly increased our chances of success in this, our first on-farm production sale. Alaskan has a unique temperament, especially for a bull; he's so mellow and laid back; it was a worry at first if he would breed cows or do the Ferdinand and smell the flowers. Well, he bred in excess of 80 cows between John Buswell's place and ours in two successive seasons. We've since bought John out, and he was just with 50 cows this year. We've also had pretty good success AI'ing him to heifers as well. Alaskan is like his sire, short gestation, moderate calving. Yet these cattle have the length, growth and do ability to gain.

There has been many a great herd bull travel through the gates of Benlock, the one that's never been touched, in my mind, was Dad's selection of Early Sunset Emulous 60E. Such an even-tempered bull, so quiet and gentle. We would try to move him and his cows, and he'd be like an old stud circling them and herding them back. Finally realizing that this wasn't working, we'd stop, grab a halter, walk over to 60E, put it on him, load him into the trailer, then move the cows. I wasn't there but I can remember Dad's story about when John Grant showed "60E" at Denver. Despite completely out powering his class, he stood 4th behind Grand and Reserve Grand of the day. Dad sat dejected on a straw bale; when Harlen Ritchie (famous cattle professor) came along and said, "Don't worry Ben, that bull was noticed." 60E was not only used heavily across the states after that, he also won "Sire of the Year" two years running in the U.S.

"60E" is one of those bulls whose quality and character transcends time. I'm not saying Alaskan exceeds "60E," yet, but he's the first bull that's made me think about it.

*P.S. Early Sunset Sale, February 28, 2014*

	22	43	66	18	40	90	808

Wanting to do something special for this inaugural event, we grabbed our best calf and called him Benson in honor of Dad. If he lives up to his name sake, he'll be quite the calf.

Cousin Bob, the other day, mentioned he worked with Uncle Don (Henderson) on the first on-farm sale which was on June 5, 1970 for dad. Uncle Jock and Uncle Bill auctioneered that one. Dad's dispersal was held February 27, 1984, at the Saskatoon Auction Mart, not by design it just turns out to be exactly 30 years ago to the day. Cousin John, Uncle Jock and Uncle Bill were sale staff that day but the prize of the day goes to Cousin Doug Henderson who, with the completion of this sale, will have worked all three sales. Doug made sure when the family was honored at Agribition for 100 years of breeding Angus cattle that sister Bobbie and Grant (Crossman) and Shawnda and I were included. Certainly very proud of our heritage, I guess that's why I'm always thinking about cows; it's in my pedigree.

We have an old picture of Dad our neighbor has restored for us that we'll have in the loft. It was from the 1969 federal election when Pierre Trudeau was first elected. Pierre actually swam in our pool; he had to borrow a set of trunks from Dad. After that, if you wanted to wear Pierre's trunks, Dad would rent them to you for a dollar. Dad was never successful at politics; he was way too forward thinking, and as the whole political scene moved left, he moved the other way. At any rate, I find myself just slightly off topic. Long and short of it is, it's a good time to honor and remember Dad. I owe both my parents a great deal; can't start telling stories about Mom right now or we'll never get to the business at hand, 17A.

Young Ben (17A) displays all the tools that would suggest his success as a herd bull but it's his heritage, I think, that sets him apart. Young Ben's dam, 42K is the foundation cow to our Blackberry line. Cattle with the length to perform but the function to survive. Many Blackberry sons sell, check them out; they're an impressive bunch. 42K's sire, Ole Saskalta Rito, from Kim Robertson, transformed our herd in one generation adding power, depth, fleshing, hair and perfect feet. Her grand sire, FV Voyageur came from Dave and Dennis Johnston, bred 70 cows as an end of April yearling; he was a breeding machine. Both these two bulls are back in the pedigree of a lot of good cattle here at Benlock. Generation after generation of moderate fault free cows. Young Ben's a builder just like his name sake.

*Selling Half Interest and Half Possession. We retain possession July 25th of each breeding season.*

These Alaskans are deep and solid. A little shot of Dateline on the bottom, always a good thing. Breeding cattle is simple; the good ones always float to the top.

**Benlock Alaskan 103Z**

**Benlock Alaskan 69Z**

Out of a very moderate, high quality cow. Our "Kung Fu Panda" bull (You will see him sale day.) is double bred "Wilbar Ruby" just like 69Z. These are great breeding cattle; Panda will be a feature sire in 2015.

**Benlock Blackberry 203Z**

This bull fascinates me; hair, temperament, scrotal, and so much muscle it almost seems to over flow his top line. Don't worry about the lighter 205 weight, we left him on his dam, despite her being very disabled with an injury. We lost the Blackberry 39T bull and need to secure the genetics, as they are amazing cattle. They are so functional and they'll cover the cows.

*Selling Full Possession and 2/3 Interest.*

**Benlock Blackberry 40Z**

A massive Blackberry, double bred Touch Down on the bottom, it is all good. These cattle have the length and performance you would find in a fancy AI herd bull. The difference is in the function. Proven feet and legs, fertility, females moderate with quality udders.

**Benlock Moonshine 90Z**

Hey, with a name like Moonshine, you know he's got to be good... and he is. Style, hair, depth, solid foot, his calves will catch the order buyer's eye.

Size, length, quality. If you listen to the good cowmen, they'll tell you about the importance of length, on the bottom line. This is one of those bulls.

Maddie, Morgan and Max

**Benlock Advantage 199Z**

Very high quality, gentle bull with tons of performance and maternal. The Sandy Bar bull has worked very well for us; we own him with good friend Arden Dust.

**Benlock Tid Bit 208Z**

This bull was very sick after weaning and he lost his ears; seems funny now that we called him Tid Bit. Anyway, he's a great bull out of an amazing cow purchased from the Scotty Anderson dispersal.

**Benlock Ulysses 38Z**

These Ulysses cattle are born to turn heads and 38Z is right from the heart of our Atalantas. Power, style and incredible depth, this bull will do many things right for his new owner but the replacement females will be a step above.

Benlock Taste Test 52Z

The Taste Test cattle have played and continue to play a major role, here at Benlock. Unfortunately, this will be the last group of direct sons. They are outstanding. Lots of history here with the Ruby cow family, good milking, deep bodied, productive cows.

Bred very closely to Lot 21, these Taste Test sons will be displayed amongst a group of powerhouse Ulysses sons and will fit right in.

Love this bull...length, hair, style, function. This bull will add length to your herd but I believe the Barney 2X bull's big contribution is yet to come through his females, they are long, feminine and to me, have that extra special "production look." Take an extra look at this young, exciting 211Z bull, there are some amazing possibilities.

*Shawnda - Master of the Silage Crew!*

# 2013 Calves on November

These pictures tell our story. Cattle that are evaluated, selected & raised in an environment which reflects the realities faced by our commercial cattlemen. Of all the challenges you face in the course of a day, don't let bad genetics be one of them.

# *Rations of Grass and Milk*

Another old cow at the end of her career, knocking it out of the park. These Blackberries are such sound cattle and have the length to push the scale down.

This bull shows how solid the Alaskans are from one end of the sale to the other, calving ease, length and performance and overall quality. They'll breed the same for you.

Benlock Alaskan 72Z

# Foundation Style Heifers

Just like the commercials, these females come off grass November 18 – a little thin for pictures but they'll look good sale day. The Young Dale Excaliber bull calved easy last year, with a 77 pound birth weight average and a high of 84 pound birth weight on heifers. We've dug deep to bring out females we hope will become foundation females for their new owners.

# Commercial Heifers

20Z - An Alaskan Daughter

These females came off grass November 18th. I thought they were eating snow but these girls kept a hole open in the slough; they know how to work. We're letting all of our home raised commercial females go. They're an awesome bunch, bred right. Regardless of whether you get an Angus, Speckle Park or Wagyu calf, you know you are in for a treat, as they all eat well. Not sure what to do with a Wagyu or a Speckle Park? Don't worry, just send them back to us, we can use them.

"Wiggy the Wonderful" with Angus X Wagyu steers

**Lot 42 TOM 2Z April 5, 2012**  
 Sire: Angus Dam: Wagyu X Angus, Tag 91X

## Tom's Take on Beef

As cattlemen, there are so many things we need to consider in our breeding programs, But I'm telling you from somebody that's spent time on the front lines, you give your customer a good eating experience they won't come back asking for a deal or, God forbid, chicken. They'll just say, "How do I get more of that beef?" Quality sells....and at the end of the day, its quality that pays the bills.

*Stands Alone - Speckle Park at it's best.  
Thank you Jason Goodfellow!*

# Private Treaty Bulls

I know, I know, "what in the world is he doing now!" Truth is we've been doing this successfully for years, just weren't in the position to promote it along with our auction bulls. 10% down books your bull. We recommend you come ahead of the sale for the best selection, plus the sweet part is, if you see a better deal at the sale, we'll let you flip to an auction bull and credit you back your deposit. Whether you're on a budget, need multiple bulls, or don't like the pressure of an auction sale, this gives you the comfort of knowing your bull needs are looked after. I'm quite often asked about the quality on our private treaty bulls. Most of these bulls by turn out time will fit right in with the auction pen. Don't forget to check with me after the sale, as top bulls once booked become available, as some buyers flip to auction bulls. Sounds complicated, it's not; it's as simple as a phone call. My cell is 306-230-9809.

EPD's BW 2.4 WW 61 YW 89 MM 12 TM 43

Blackberry has amazing EPD's with a +61 WW that puts him in the top 2% of the breed for that trait, but still above breed average for calving ease. Although this bull competes with the best of them on performance/calving ease, what sets him apart from the others is his function. Feet, leg structure, virility, his ability to cover the cows. It's so fitting that the picture we're using is of him out with the cows in his working clothes.

Reference Sire - SMW Ulysses 7U

EPD's BW 3.0 WW 57 YW 87 MM 18 TM 47

Ulysses has been an amazing find for us from Sharon Wagner. Whether its daughters or sons, the extra depth and volume of these cattle possess turn the heads of the best of cattlemen. A great deal of the strength of this bull comes from his Right Time daughter, who now resides at Tom Flanagan's in his transplant program.

Riley and cows at Chef Tour

### Reference Sire - Benlock Taste Test 8P

EPD's BW 5.7 WW 70 YW 105 MM 16 TM 51

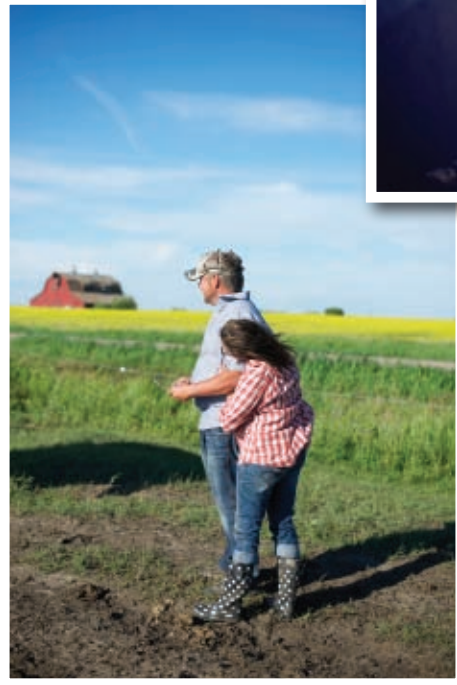

This is our last year with Taste Test sons to offer and he certainly is going out with a bang, as these bulls are awesome. Taste Test has always and will continue to influence our herd through his descendants. Top 1% of the breed for weaning, top 3% of the breed for yearling. We've never experienced any calving problems or extreme birth weights, and our cows calve without special attention on a section of grass. Truly an amazing bull.

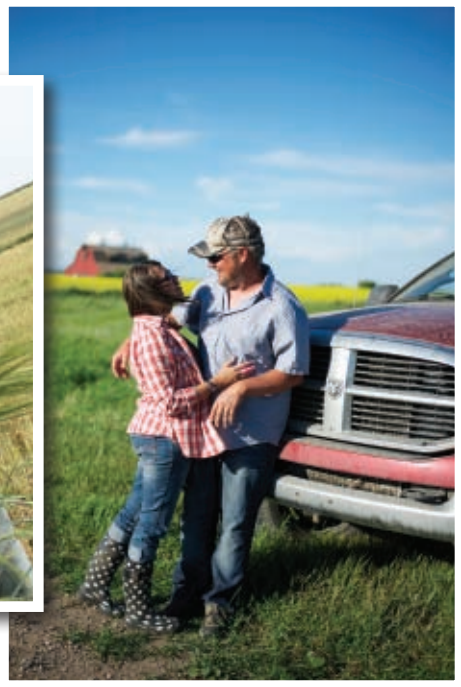

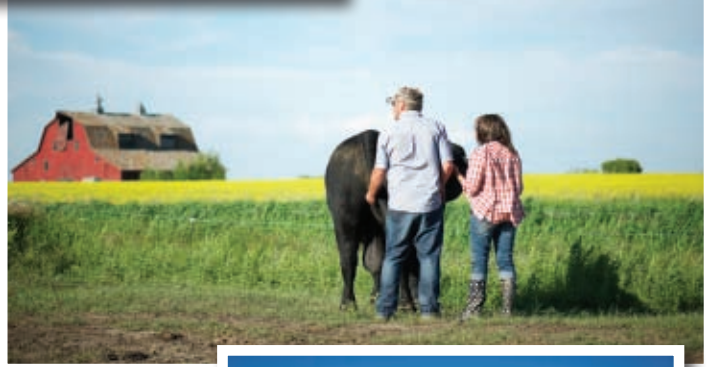

Maddie in Peru 2013

Rookie coated up

# Welcome from World Wide Genetics

I have had the opportunity to work with Benlock Farms on their AI process for the past 5 Years. With this I have had the opportunity to see and work with the Dams of these bulls. Be sure that you ask Tom about the Dam behind the bull you are looking at. I'm sure you'll be very impressed to hear that you are getting a great bull but back by an excellent cow family backed by years of careful genetic selection that will have an impression on the herds for years.

So be sure to attend this sale and make an impression on your herd today that will give you the edge tomorrow.

If you have any questions feel free to contact me.
