TO BID ONLINE

Those unable to attend the sale will be able to register to bid online at www.livestockplus.ca.

To Bid Online Instructions:

- 1) Go to www.livestockplus.ca and click on the sale listing you would like to bid on. This will take you to the register to bid icon.
- 2) Click on the Register to Bid Icon and this will take you to the sale lot listing.
- 3) To the right of the lot listing you will see a red sign up to bid icon. Click it
- 4) You will be asked to put in your username and password. If you do not have one, you will need to create an account. Once you create an account, you must go into the email you submitted and activate the link that was sent to you.
- 5) Once you have activated your account, click on the sale you would like to participate in, put in your username and password, it will bring you to the lots, click sign up or register to bid icon and a terms of conditions for the sale will come up. Scroll down to accept the terms and conditions and click submit and then you are able to view and bid on the sale online.

* *If you have already created an account from previous sales at Livestock Plus, please advance to Bullet #5.*

Bridget Andrews (306) 631-9254

Welcome friends,

We extend a hardy welcome to our Annual 34th Bull Sale. Our Sale this year will be held at the Ranch (8 miles south and 4 miles west of Swift Current, Sask.) We have a large Sale Barn, all the Bulls will be displayed right in the facility on a dirt floor and bright overhead lights. Come early to inspect the bulls and enjoy a complimentary smoked brisket meal prepared by Smoke Shack. Then settle in for a video Bull Sale. We have personal from Livestock Media Plus for those of you who wish to bid via Internet.

Our bull selection is backed by a cowherd that has been consistently built on moderate sized, hardy, fertile solid structured females. Our cows range out all winter right up to and including calving. They must walk a mile every day regardless of the weather to get to and from their winter ration of cut feed, silage and hay, maintaining sound muscle tone to start calving the last week in March and into April. Our first calf heifers and a selection of second calf cows calve out in February at the headquarters so they can be watched during colder weather. And this year February proved to be a cold frigid one. It seemed to hang on like a bad marriage. However I was reassured by my wife, Wanda, that I didn't know what that was like. But I do know she was a frigid month. We are proud to offer 48 Black Angus yearling bulls in addition to four Red Angus yearling bulls. We are excited to include Greg Gillis of GJG Angus with his 3 yearling Black Angus bulls.

We are pleased with and excited about the development of our Bulls this year. Every year they seem to get more consistent and this year certainly proved that. We have prided ourselves on developing bulls for using on heifers with reliability and with enough performance in them to be retained for the cow herd in later years. We have continually used low birth weight, short gestation bulls on our replacement heifers and have developed a solid program for producing heifer bulls, while still maintaining great performance with strong feet and leg structure.

Enjoy our hospitality, visit with friends and neighbours and take this opportunity to select an up coming herd sire for your valuable cowherd.

As always your friends,
Bryce & Wyatt

Chinook has easily been the most calving ease AI sire that we have ever used. Spring 2018 we are calving our 6th calf crop by Chinook, out of our heifers. Earlier gestation, with predictable growth and phenotype year after year. He has 8 sons selling, all 3 star calving ease bulls. Avg birthweight - 73lbs, heifer bulls with enough performance and early maturity. 4 Chinook sons avg \$7625 in 2017 Sale. Females are very nice uddered, long topped and feminine.

Motive has done a great job here on our females. Calves come early, have good vigor and ability to gain at an early age. We are calving his first daughters this spring and they are true angus type with great udders. 8 sons sell, most are recommended to use on heifers. 4 Motive sons avg \$7250 in 2017 Sale

Our go to AI sire that has many great attributes. Moderate frame, thick topped, deep sided, muscle expression, and eye appeal. We have used Missing Link on both heifers and on cows for 8 years. We have 2 sons as walking herdsires and one grandson. Daughters are very easy keeping, high volume cows that milk well.

Fred was selected from the 2013 Crowfoot Cattle Co bull sale. He was selected for his calving ease, and overall complete look. He has done a tremendous job here being our cornerstone walking herd sire. Fred sons have added body thickness and masculinity. Fred daughters are very broody females with near perfect udders.

Suzanne

Top weaning bull and a stand out since day 1. Impressive overall mass, length of body and eye appeal. Very complete, easy moving deep sided herdbull prospect. We sampled this Genex Chisum son and are very happy with this calf. His mother 70C is a deep bodied 2 year old that did an excellent job on her first calf. We have the only three registered progeny of Baldrige Optimum with the Canadian Angus Assoc. We plan to draw semen for our own use on 11E. Selling full ownership and full possession.

fits the same mold as the lot 31 bull. Very consistent sire group in these Missing Link Grandsons. Easy moving, loose hided bull.

Lot 32

CALVING EASE RATING

We have strived to select AI bulls and develop a breeding program, which is in harmony with calving ease as well as performance. Although many associate calving ease with birth weight (as do we to a degree), there are other factors that come into play. For your convenience we have rated each bull based on information we have of birth weight, pedigree, gestation period and other influences.

- 3 Recommended for moderation sized heifers
- 2 Recommended for heifers with supervision and moderate sized cows
- 1 Recommended for a moderate to larger sized cows

2Y sons have been very consistent in type over the years. Square made, big hiped and easy fleshing type. Recommended for heifers 3 star bull.

Lot 35

Lot 36

LEPTIN GENE TESTING

Leptin is a hormone that regulates feed intake and energy expenditures. There are three Leptin variants:

- CC (lean) animals have less fat
- CT animals are economically intermediate
- TT (fat) animals have more fat

The T gene influences several economically important traits, including: weaning weight, marbling, quality grade, yield grade, days on feed and milk production. By using a TT bull, you can guarantee that his calf crop will all be at least CT carriers.

Another tool in the "tool box" for our customers that are shipping calves direct to feedlot, or finishing calves on their own pocket book.

GJG Baloo 8E is a smooth built bull that boasts a moderate birthweight and above average weaning weight. Bull will work on both heifers or cows.

Lot 55

Cowboy Poetry

BY BRYCE BURNETT

SHOULD BE THERE

You should be there in the spring time when the purple crocus's grow.
Checking for new born calves sired by the bull you purchased a year ago.

The herd sire is a most important critter roaming the neighbourhood.
He's the one that sires your calves so you better select him good.

Now you may retain some of his daughters for replacements in the herd.
He better pass on good feet and udders and disposition is a positive word.

There are a few chores on the ranch that you can get hired done.
But selecting a herd sire? Well you should be there making sure he is the one.

There's a second thing you should be there for and handle this with pride.
You should be there when your wife gets pregnant, other than that you can let a few things slide.

THANK YOU

Thank You to Masterfeeds and Stockman's Insurance for sponsoring coffee and donuts on sale day!

REINCARNATION

Do you believe in reincarnation? It's a conviction that's foreign I'd say.
Coming back as another life on this earth, is difficult for me to relay.

If I had my choice a little house dog would be a perfect way to return.
It'd be great to be fed, watered and pampered with very little concern.

I would be treated like royalty as I'm engaged at the foot of the bed.
Or curled up on the couch on a cold winters day, very little to dread.

I don't see a lot of down side being cuddled on a young ladies lap.
I could get up and stretch, go for a drink then return for a nap.

All I'd have to do is sit and shake a paw for an awesome treat.
Yes coming back as a pampered house dog would be pretty hard to beat.

Or maybe returning as a horse would really suit my next life.
Not any old steed but a prancing young stud owned by a millionaires wife.

I could have my own stall in the stable, be washed and groomed each day.
A beautiful young maiden could braid my mane and feed me expensive hay.

With the stimulation of long slender legs wrapped around my bust.
Gallop in the country would be heavenly, an illusion laboured with lust.

A formidable young stud with a pedigree in demand seems positive I'd say.
Taking on a new vocation as a horse or a dog might just be okay.

Yes they say in reincarnation you can transform into another life.
But I best regress, it'd be my luck to become my father-in-law's wife.

- *An excerpt from Bryce's soon to be published book - "Horses, Dogs & Wives"*

TERMS & CONDITIONS

TERMS OF SALE: Cash or cheque payable to the Clerk on Sale Day. Satisfactory settlement must be made before cattle are released. Animals become the risk of the purchaser as soon as sold, however, every precaution will be taken for the animals welfare.

CERTIFICATE OF REGISTRY: All registration papers will be transferred to the buyer for each registered animal after full and complete payment is made.

ANNOUNCEMENTS: Announcements from the auction block will take precedence over any printed matter. Any disputes on bidding will be settled by the auctioneer.

BREEDER'S GUARANTEE: Our breeding program is as important to us as it is to you. All bulls have completed a breeding soundness evaluation. Should any Burnett bull fail to be a satisfactory breeder, we will replace him with a bull as close to quality as possible or a credit given toward another purchase of a Burnett bull. If you have a problem with your bull, please notify us immediately. We will work with you as long as the bull has not been mismanaged.

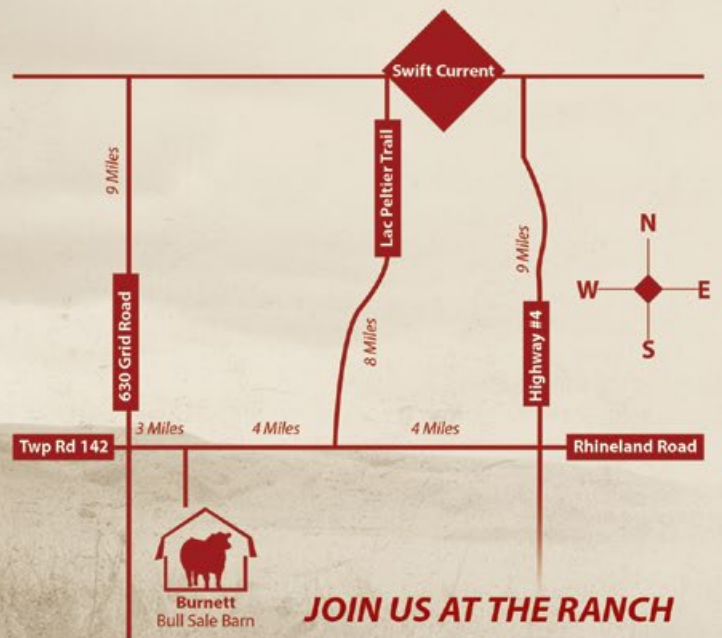

SEMEN RIGHTS: Burnett Angus and Tarentaise reserve the right to collect semen for in-herd-use, at our expense and buyer convenience, on any bull in the sale.

INSURANCE: Will be available sale day.

DELIVERY: We realize it is not always possible to take your purchase the day of the sale. We will gladly retain your new purchase at the Ranch and look after it until arrangements can be made or delivery made. All USA purchases will be retained at the ranch. We will arrange for health export status to be completed.

LIABILITIES: All persons who attend the Sale do so at their own risk, and the owners along with sales personnel assume no liabilities, legal or otherwise for any accidents that may occur.
