### Friends & Fellow Cattlemen

Welcome to our 25th Annual Bull Sale! What a year it has been in the cattle industry. Kicked off by a record setting bull sale season in the spring of 2015. We sincerely thank all of our incredibly loyal friends and customers for this support, not only last year but the last 25 as well. I know it sounds cliché, but the success of our clients' cattle operations is very satisfying and will be our top priority as long as we are in the business of cattle. We are committed more than ever in providing multi-trait genetics that enhance profitability and efficiency. We believe in real world ranch cattle and have designed our breeding program for this. Over the last three decades we have bred commercial cattle and have a good idea of what kind of cattle produce wider profit margins. This being said we feel our bulls have all the qualities to drive your program ahead whether commercial or purebred. We have remained steadfast in responsibly developing bulls on a high roughage ration. We are confident this year's bull offering will have something for everyone. The calving ease, performance and maternal traits, throughout the lineup might be the best ever!

We are pleased to be working alongside Castle Rock Marketing this year. Do not hesitate to contact Shane Castle and Devin Warrilow. They will be assisting us in all facets of cattle marketing.

Please feel free to come to our farm to evaluate our bulls and females and ask any questions that you may have. Your input is valued! If we can be of any assistance please don't hesitate to contact us. We look forward to seeing you on Sale Day!

from all of us at Leeuwenburgh Angus

Charles, Jack, Dennis, Johnny & Willard

### **BALOG AUCTION SERVICES LTD**

#### Fellow Cattlemen

Welcome to the Leeuwenburgh Angus 25th Annual Bull Sale! What a tremendous milestone for one of the great families in the cattle industry! Twenty-five solid, successful, high quality sales! From sale number 1 on, the Leeuwenburgh program has consistently selected for maternal and growth traits, and for cattle that have ease of calving bred into them, The best sires available are evident in all of the pedigree's in this great herd. Many success stories have come from 25 years of sales, but as the Leeuwenburgh family always says one of the key ingredients are the repeat buyers, and the Leeuwenburgh program has many, many repeat customers. It is also wonderful to have the next generation with Dennis, Charles and Jonathan fully involved in the program. Prices, attitudes and presentation may have changed in the cattle business in the last 25 years, but one thing remains the same with the Leeuwenburgh sale! High quality, top performing cattle, backed up by a strong family, committed to the success of the industry they live by. Come buy from the very successful program, and join the Leeuwenburgh family in celebrating 25 power-houses sales!

Congratulations to the Leeuwenburgh's!

Respectfully, Bob Balog

### **CASTLEROCK MARKETING**

Castlerock marketing is pleased to be working with the Leeuwenburgh family on their 25th Annual Sale. A large scale, intensive program that is mainly made of commercial cattle that run along side the purebred cattle. This family understands what work is about and the value of cattle that look after themselves. Add in the need and value of predictable performance, strong pedigrees in their genetics has proven to be successful. Fresh, outcross genetics are always exciting and this outfit has continually worked hard at this and this year the first RED Grandsons of SAV Harvestor will be on offer. If you have any questions feel welcome to give us a call to discuss the offering.

See you sale day!

Shane Castle, Devin Warrilow - Castlerock Marketing

### ALL BULLS ARE FULLY TESTED AND 100% GUARANTEED NO BULLS SOLD PRIOR TO THE SALE!

Everything possible will be done to assure that every bull in this sale will be a breeder. Dr. Mitch Oviatt, (Ranch Docs, Lethbridge) will scrotal measure and physically evaluate every bull. Any animal that has not proven itself **within 6 months** of sale, **(September 30, 2016)** if in healthy condition, may be returned to the seller at the buyer's expense. The seller reserves the privilege of trying for a 6-month period to prove the animal a breeder. The seller at his option may either return the purchase price or replace the animal with another of equal quality in full settlement and satisfaction of all claims. Any complaints regarding any animal in this sale shall be made to the breeder. All complaints must be reported in writing by the buyer to the seller **within 6 months** and any animal returned must be free of disease and in good health **GRANT ROLSTON PHOTOGRAPHY LTD.:** Thank you Grant and Lauralee for taking pictures of our sale bulls on December 30 & 31, 2015!

### CATALOGUE INFORMATION

All information is up to date as of publication date. Pedigree's and EPD's are supplied by the Canadian Angus Association, and all other information has been supplied by the seller. Information in this catalogue is believed to be accurate, but any errors discovered in the catalogue, will be corrected by announcements, from the auction stand at sale time, and such corrections will take precedence over the printed matter in this document.

### IN - HERD SEMEN INTEREST

Leeuwenburgh Angus reserves the right to draw semen on any bull sold at the buyer's convenience and our cost.

### DELIVERY - \$100 CREDIT IF BULL IS TAKEN HOME SALE DAY

Assistance will be given in making delivery after the sale.

### PRESALE LUNCH

Join us for lunch at 11:30 a.m. Sale Day

### INSURANCE

Available at Balog Auction Services  
 Maureen- 403-320-1980

We strongly suggest you insure your bull purchases.

 Comfort Inn - 403-320-6993

Call 403-327-9618 if you need assistance with accommodations.

### HEIFER FEATURE

#### Offering 50 Commercial Red and Red Brockle Replacement Heifers

We tried to sort out a group of moderate framed heifers that we think will turn into a nice group of brood cows. Most of the heifers come from either a baldie cow or a Simm x Angus cow. After weaning in September they went back to grazing on stubble until January 27th, in an effort to cut out the inefficient ones. Everything is on the Pfizer Gold Program. They all carry our **TH** brand. A great opportunity to get some low maintenance, replacement heifers. They will be vet checked and palpated by sale day.

**BULL SELECTION** is more important now than it has ever been, in order to **MAXIMIZE** your cowherd's potential. Settling for just any bull, because he is a couple of hundred dollars cheaper, could deprive you of thousands later. Remember, pounds add up! Find the time to evaluate a bull's performance and EPD'S alike and consider if a breeder's program is similar to your ranch environment - your buying a piece of the program!

### HOW MUCH CAN YOU AFFORD TO PAY FOR A TOP BULL?

#### COWMAN FORMULA

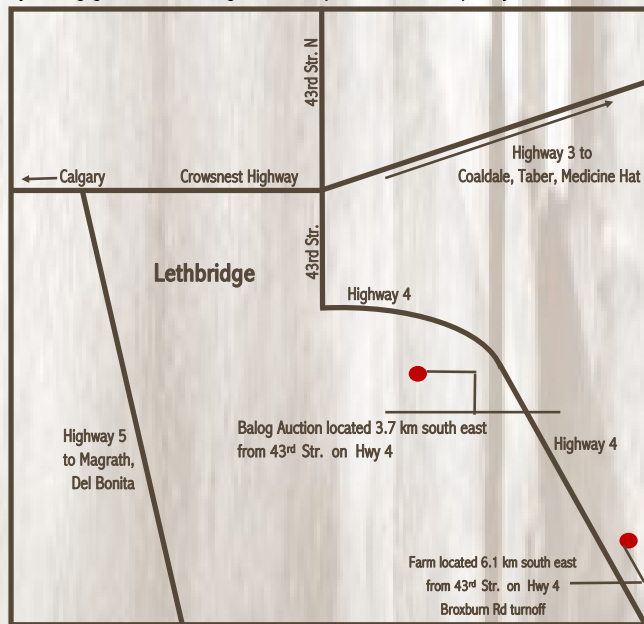

Increase in pounds per calf from a top-performance bull

- X No. of cows bred to him per year
- X No. of years to keep the bull
- X Expected selling price of calves
- = Additional dollars you can pay for a better bull

Example: A bull who will add 30 lbs to the weaning weight of each of his calves mated to 25 cows per year for 4 years and you sell the calves for \$1.50 per pound.

$$30 \times 25 = 750 \times 4 = 3000 \times 1.50 = \$4,500$$

This bull is worth \$4,500 more than the average bull who will keep your weaning weights the same. Take this formula and put your own figures in and see what you can afford to pay. This equation does not consider the increase in value due to calving-ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

## REFERENCE SIRE

**3C** A moderate framed calving ease bull with a lot of maternal built into the pedigree. The Sagebrush 16R dam and maternal grandam 22J were some of the heaviest milking cows in both the purebred and commercial herd. The Harvestor 108A sire is a bull used heavily through AI in our commercial heifer program. The ability to add the Harvestor pedigree in a low birth weight package is very unique.

**... IF YOU CAN'T BE HERE!**

**GIVE US A CALL- DENNIS - 403.308.3003 or JOHNNY - 403.382.1794**

Our livelihood consists mainly of livestock, along with some crop farming, so we understand it is critical to select the right bulls every year. Let us help ahead of the sale in any way. We know our herd and genetics, better than anyone, so questions are welcome. The same person writing this, calves, feeds, shovels you know what, and AI's cows and doesn't visit the farm, but lives on it. Feel confident that if you cannot make the sale, that we can make your bull buying experience a pleasurable one, with a lot less stress and hassle. Call ahead for details, so we can find the right bull and right price range. You will be satisfied. **100% guaranteed** or money back, no questions!!

5

**5C** Get-A-Long Wander 905 always did a superb job when it came to adding calving ease and sound feet. 5C is no exception with a -3 BW Epd and a 65 lb birth weight. He ranked 5th when it came to weaning. Earl and Jonathan from Scott Stock Farms purchased a brother in 2014. The 7A bull they bought then is very similar in body build to 5C with that long spine and smooth shoulder. **WI: 113**

**TED 7A - paternal brother to 5C / Owned by Scott Stock Farms**

**16C** A well balanced calving ease bull with a versatile pedigree. His sire Rolling Deep Y118 is a bull that the cattle industry will hear a lot more from in the years to come with his ability to sire exceptional docile females that milk heavy, flesh easy and are highly fertile. We've seen this first hand in our heifer pasture this year as it was our top group of bred females.

**77C** Rollin Deep Y118 had as much momentum as any sire in the Red Angus breed in 2015. He produced high sellers for Thistle Ridge Ranch, Lauron Red Angus, ourselves and Beiber Angus south of the border. His ability as a cow maker is proven now and his genetics are in high demand. Our first Rollin Deep daughters are the cream of this years calving heifer crop. Rollin Deep 77C is an attractive nice fronted bull with a great disposition. A bull that that could go out and pull birth weight down, all the while providing adequate growth and maternal traits.

**78C** One of the best all around power bulls in the offering. Well balanced both in his pedigree and numerically. His dam 155P is one of the top red cows in our herd recording 12 natural calves. She has six daughters retained in the herd and was designated Elite in 2011. She has a perfect phenotype and is a model cow in terms of efficiency and fertility. Grandam 26L was designated Elite in 2006. This Fusion son has as much potential as any bull this spring, to be a true cow maker.

**102C** Recommended for use on heifers. Added value in his moderate frame as he will be able to service heifers as a two year old. Flex calves showed high calf vigor at birth the first two years.

# RED ANGUS

**103C** Red Harvester 103C is a phenotypic standout that is in a class of his own. He has head turning herd bull presence and profile with loads of muscle, substance and power. His stat line is equally impressive. Weaning Epd in the top 2% and Yearling Epd in the top 1% of the breed. His Carcass Weight is in the top 1% and Marbling in the top 4%. He is balanced in his actual data as well. His pedigree is rich in traits that drive profit in both the purebred and commercial industries. Headlining the pedigree is none other than SAV Harvester 0338, a bull that is world renowned for his ability to add real beef value and performance. Aniston 137S is exceptionally footed, efficient and fertile. Cadence 141Y is quickly becoming a top cow in the herd with a flawless phenotype backed by two perfectly uddered cows in Optima 100W and Pearl 18N. This herd bull has all the criteria required to be a breed changing cow maker. A great opportunity to access power genetics that have monumental breeding value and versatility.

**151C** A deep soggy, high volume bull, good growth numbers. Will help calves pound the scale down in the fall.

# Retaining Semen Interest

**163C** Resource 163C is not only one of the youngest bulls in the lineup but also one of the best. Solid statistics in all traits from calving ease, phenotype, growth and maternal. Breed leading Epd's and actual data to back it up. His dam 16W is one of our very best. Consistent, docile and a model cow in terms of fleshing ability. She has two daughters working in the herd. These are proven genetics to build up a cowherd.  
**WI:104 YI:115**

# PERFORMANCE DATA

# TERMS & CONDITIONS

## Average EPD's for all Red Calves born in 2015

BW	WW	YW	Milk	Total Maternal	MARB	REA	CW
-0.1	+52	+78	+17	+43	+0.30	+0.04	+17

## Average EPD's for all Black Calves born in 2015

BW	WW	YW	Milk	Total Maternal	MARB	REA	CW
+2.3	+43	+77	+18	+40	+0.35	+0.27	+21

**EPD:** Expected Progeny Difference is the prediction of how progeny of each animal are expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPD's can shift accordingly.

**BW:** Birth weight is related to calving ease. Lower birth weights tend to reduce the incidence of calving difficulties. Lower birth weight EPD is more desirable for heifers.

**WW:** Weaning Weight is an indicator of growth from birth to weaning (205 days of age). During this period, the calf's growth is influenced by its mother's ability to produce milk and its own ability to grow.

**YW:** Yearling Weight is an indicator of growth from birth to yearling (365 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities. It is the best estimate for total growth.

**Milk:** Milk EPD reflects the milking ability of a sire's daughters expressed in pounds of calf weaned.

**TM:** The Total Maternal EPD predicts the difference in weaning weight of the sire's daughter's progeny due to the combination of growth genetics and milking ability. It is equal to one-half of the weaning weight EPD plus the milk EPD.

### — CARCASS EPD —

**MARB:** (%IMF) Marbling EPD is a predictor of the level of intramuscular fat and is derived using CUP ultrasound data and actual carcass data. Marbling determines quality grade.

**REA:** (Ribeye Area) Ribeye area is expressed in inches<sup>2</sup> and is a predictor of the area of ribeye muscle at the 12th/13th rib.

**CWT:** Is a predictor of transmitting ability for hot carcass weight.

### ACTUAL WEIGHTS

Actual weights to be taken March 15, 2016. These will be available, along with scrotal measurements and carcass data, as a supplementary sheet on sale day.

**TERMS-** The terms of the sale are cash or cheque payable at par to Balog Auction Services Ltd., Lethbridge, Alta. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**BIDS-** Every animal entering the sale ring will be sold to the highest bidder. A floor price will apply to each animal consigned.

**DISPUTES-** In case of disputes, bidding will be reopened between parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK-** Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS-** Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

**CERTIFICATE OF REGISTRY-** A certificate of registry duly transferred will be furnished to the buyer for each animal after the settlement is made.

**SHIPPING-** Assistance will be given in making shipment after the sale, but Balog Auction Services Ltd., or the seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement. Any additional expenses are the responsibility of the buyer, including duty, brokerage fees, etc.

**ACCIDENTS-** Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor the owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

**LIABILITY-** Balog Auction Services Ltd. are acting as agents only and assume no responsibility for representations by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

### FUSOGARD VACCINE

All sale bulls have been vaccinated with Fusogard as an aid in the reduction of footrot, on January 26, 2016 and given an oral dewormer. Fusogard is an alternative for natural and organic beef producers because it's not an antibiotic. It is recommended to revaccinate annually as a preventative against signs of footrot. All bulls are on the Pfizer Gold Program.
